53-6-101. Montana medicaid program — authorization of services. (1) There is a Montana medicaid program established for the purpose of providing necessary medical services to eligible persons who have need for medical assistance. The Montana medicaid program is a joint federal-state program administered under this chapter and in accordance with Title XIX of the Social Security Act, 42 U.S.C. 1396, et seq. The department shall administer the Montana medicaid program.

(2) The department and the legislature shall consider the following funding principles when considering changes in medicaid policy that either increase or reduce services:

(a) protecting those persons who are most vulnerable and most in need, as defined by a combination of economic, social, and medical circumstances;

(b) giving preference to the elimination or restoration of an entire medicaid program or service, rather than sacrifice or augment the quality of care for several programs or services through dilution of funding; and

(c) giving priority to services that employ the science of prevention to reduce disability and illness, services that treat life-threatening conditions, and services that support independent or assisted living, including pain management, to reduce the need for acute inpatient or residential care.

(3) Medical assistance provided by the Montana medicaid program includes the following services:

(a) inpatient hospital services;

(b) outpatient hospital services;

(c) other laboratory and x-ray services, including minimum mammography examination as defined in 33-22-132;

(d) skilled nursing services in long-term care facilities;

(e) physicians' services;

(f) nurse specialist services;

(g) early and periodic screening, diagnosis, and treatment services for persons under 21 years of age;

(h) ambulatory prenatal care for pregnant women during a presumptive eligibility period, as provided in 42 U.S.C. 1396a(a)(47) and 42 U.S.C. 1396r-1;

(i) targeted case management services, as authorized in 42 U.S.C. 1396n(g), for high-risk pregnant women;

(j) services that are provided by physician assistants within the scope of their practice and that are otherwise directly reimbursed as allowed under department rule to an existing provider;

(k) health services provided under a physician's orders by a public health department; and

(l) federally qualified health center services, as defined in 42 U.S.C. 1396d(l)(2).

(4) Medical assistance provided by the Montana medicaid program may, as provided by department rule, also include the following services:

(a) medical care or any other type of remedial care recognized under state law, furnished by licensed practitioners within the scope of their practice as defined by state law;

(b) home health care services;

(c) private-duty nursing services;

(d) dental services;

(e) physical therapy services;

(f) mental health center services administered and funded under a state mental health program authorized under Title 53, chapter 21, part 10;

(g) clinical social worker services;

(h) prescribed drugs, dentures, and prosthetic devices;

(i) prescribed eyeglasses;

(j) other diagnostic, screening, preventive, rehabilitative, chiropractic, and osteopathic services;

(k) inpatient psychiatric hospital services for persons under 21 years of age;

(l) services of professional counselors licensed under Title 37, chapter 23;

(m) hospice care, as defined in 42 U.S.C. 1396d(o);

(n) case management services, as provided in 42 U.S.C. 1396d(a) and 1396n(g), including targeted case management services for the mentally ill;

(o) services of psychologists licensed under Title 37, chapter 17;

(p) inpatient psychiatric services for persons under 21 years of age, as provided in 42 U.S.C. 1396d(h), in a residential treatment facility, as defined in 50-5-101, that is licensed in accordance with 50-5-201; and

(q) any additional medical service or aid allowable under or provided by the federal Social Security Act.

(5) Services for persons qualifying for medicaid under the medically needy category of assistance, as described in 53-6-131, may be more limited in amount, scope, and duration than services provided to others qualifying for assistance under the Montana medicaid program. The department is not required to provide all of the services listed in subsections (3) and (4) to persons qualifying for medicaid under the medically needy category of assistance.

(6) In accordance with federal law or waivers of federal law that are granted by the secretary of the U.S. department of health and human services, the department may implement limited medicaid benefits, to be known as basic medicaid, for adult recipients who are eligible because they are receiving financial assistance, as defined in 53-4-201, as the specified caretaker relative of a dependent child under the FAIM project and for all adult recipients of medical assistance only who are covered under a group related to a program providing financial assistance, as defined in 53-4-201. Basic medicaid benefits consist of all mandatory services listed in subsections (3)(a) through (3)(l) but may include those optional services listed in subsections (4)(a) through (4)(q) that the department in its discretion specifies by rule. The department, in exercising its discretion, may consider the amount of funds appropriated by the legislature, whether approval has been received, as provided in 53-1-612, and whether the provision of a particular service is commonly covered by private health insurance plans. However, a recipient who is pregnant, meets the criteria for disability provided in Title II of the Social Security Act, 42 U.S.C. 416, et seq., or is less than 21 years of age is entitled to full medicaid coverage.

(7) The department may implement, as provided for in Title XIX of the Social Security Act, 42 U.S.C. 1396, et seq., as may be amended, a program under medicaid for payment of medicare premiums, deductibles, and coinsurance for persons not otherwise eligible for medicaid.

(8) The department may set rates for medical and other services provided to recipients of medicaid and may enter into contracts for delivery of services to individual recipients or groups of recipients.

(9) The services provided under this part may be only those that are medically necessary and that are the most efficient and cost-effective.

(10) The amount, scope, and duration of services provided under this part must be determined by the department in accordance with Title XIX of the Social Security Act, 42 U.S.C. 1396, et seq., as may be amended.

(11) Services, procedures, and items of an experimental or cosmetic nature may not be provided.

(12) If available funds are not sufficient to provide medical assistance for all eligible persons, the department may set priorities to limit, reduce, or otherwise curtail the amount, scope, or duration of the medical services made available under the Montana medicaid program after taking into consideration the funding principles set forth in subsection (2).

(a) "Department" means the department of public health and human services.

(b) "Health care facility" means a health care facility as defined in 50-5-101 and includes a public health center as defined in 7-34-2102.

(2) The department may enter into agreements with appropriate federal agencies for the purpose of certifying health care facilities for the Montana medicaid program.

(3) The department may adopt rules as necessary to prescribe minimum standards for the maintenance and operation of health care facilities. Standards for the quality of care provided by those facilities receiving reimbursement under the Montana medicaid program must be consistent with those requirements imposed upon health care facilities by Title XIX of the federal Social Security Act, 42 U.S.C. 1396, et seq., as may be amended, and by the implementing regulations contained in Title 42 of the Code of Federal Regulations, as may be amended. The authority to prescribe standards and adopt rules under 53-6-106 through 53-6-108 is in addition to the authority granted to the department pursuant to Title 50, chapter 5.

(4) Standards adopted by the department may include but are not limited to requirements in the following areas: staffing, fire protection, health and safety, food and nutrition, environmental and sanitation, administration, admission policies, patient care planning, training, medication, health services, rehabilitation services, and social services and activities.

(1) The department may suspend, terminate, or refuse to renew an agreement with a health care facility that has failed to meet the requirements for certification for or participation in the Montana medicaid program under 53-6-106 through 53-6-108 or other applicable law. The department may also impose sanctions in the form of denial of medicaid payments for new admissions or other penalties or sanctions, as described in 53-6-111 or Title XIX of the Social Security Act, 42 U.S.C. 1396, et seq., as may be amended, and any implementing federal regulations.

(2) The department may impose a civil monetary penalty, with interest not to exceed 12% a year, for each day that a facility is substantially out of compliance with standards or participation requirements provided by applicable state or federal laws, regulations, or rules, including but not limited to standards adopted by the department under the authority of Title 50, chapter 5, or 53-6-106 through 53-6-108. Penalties must be collected by the department and may be applied to the protection of the health and property of residents of health care facilities that the department finds deficient, including but not limited to payment for the costs of relocation of residents to other facilities, operation of a facility pending correction of deficiencies or closure, and reimbursement of residents for personal funds lost.

(3) The department may appoint temporary management personnel to oversee the operation of the facility and to ensure the health and safety of the facility's residents if there is a need for temporary management because:

(a) an orderly closure of the facility is necessary; or

(b) improvements are being made to bring the facility into compliance with applicable standards.

(4) The department shall, in the case of an emergency, close the facility or transfer residents in the facility to other facilities, or both.

53-6-108. Rules governing sanctions or remedies. The department shall adopt rules governing the application of sanctions or remedies imposed under 53-6-107, the amounts of any fines, and the severity of each of these sanctions or remedies. The rules must be designed for the imposition of incrementally more severe fines for repeated or uncorrected deficiencies. The civil penalty for violation of the applicable standards imposed by state or federal laws, regulations, or rules may not exceed $10,000 for each day that the deficiency remains uncorrected. A health care facility aggrieved by an action of the department may request a hearing pursuant to Title 2, chapter 4, part 6.

53-6-109. Consistent regulation of long-term care facilities — rulemaking authority — timeframes. (1) In order to provide more consistent regulation of long-term care facilities that provide intermediate and skilled nursing care statewide, the department shall adopt rules in consultation with long-term care provider groups, the long-term care ombudsman, as described in 52-3-603, and appropriate consumer groups that:

(a) define the following terms used in the survey and certification process for long-term care facilities that provide intermediate and skilled nursing care:

(i) actual harm;

(ii) potential for more than minimal harm;

(iii) avoidable;

(iv) unavoidable; and

(v) immediate jeopardy;

(b) define an informal dispute resolution process to provide nursing homes with an opportunity to respond to survey findings and deficiency citations that are believed to be made in error. The rules must be consistent with the purpose of informal dispute resolution that is intended to give the provider an opportunity to demonstrate that a deficiency has been applied in error or is a misjudgment of true facts. The objective of the process is to avoid the imposition of unnecessary sanctions and to diminish the need for formal administrative hearings with the state, as provided for in 53-6-108, or the federal government agencies that are responsible for the enforcement of remedies. The process must provide for an objective review of the raised issues by an individual who is independent of the survey process and who can evaluate the legal sufficiency of the findings of the surveyors. The department shall provide a written determination of the outcome of the informal dispute resolution process within 60 days from the date that the dispute is submitted to the individual conducting the dispute resolution process. As used in this subsection (1)(b), “submitted” means that the provider and any other party to the dispute have provided their final position statements or arguments to the individual conducting the dispute resolution process, along with any supporting documents, within the time established by that individual.

(c) define standards for survey determinations in which the surveyors question the efficacy of orders for drugs and treatments made by a resident’s attending physician. The standards must recognize that a written physician’s order provides evidence of medical necessity and the appropriateness of the drugs and treatments ordered, unless the survey agency alleges substandard practice by the physician. The standards must provide for the reporting of any substandard practice of a physician to the board of medical examiners by the surveyors. The standards must outline a facility’s responsibilities in monitoring drugs and treatments ordered for residents and for consulting with the attending physician as appropriate.

(2) The department shall inform long-term care facilities of the results of any survey, certification survey, complaint survey, or postsurvey revisit within 10 working days of the last date of the survey on the form provided by the centers for medicare and medicaid services for that purpose.

53-6-110. Report and recommendations on medicaid funding. (1) As a part of the information required in 17-7-111, the department of public health and human services shall submit a report concerning medicaid funding for the next biennium. This report must include at least the following elements:

(a) analysis of past and present funding levels for the various categories and types of health services eligible for medicaid reimbursement;

(b) projected increased medicaid funding needs for the next biennium. These projections must identify the effects of projected population growth and demographic patterns on at least the following elements:

(i) trends in unit costs for services, including inflation;

(ii) trends in use of services;

(iii) trends in medicaid recipient levels; and

(iv) the effects of new and projected facilities and services for which a need has been identified in the state health care facilities plan.

(2) As an integral part of the report, the department of public health and human services shall present a recommendation of funding levels for the medicaid program. The recommendation need not be consistent with the state health care facilities plan.

(3) In making its appropriations for medicaid funding, the legislature shall specify the portions of medicaid funding anticipated to be allocated to specific categories and types of health care services.

(1) The department of public health and human services may administer and supervise a vendor payment program of medical assistance under the powers, duties, and functions provided in Title 53, chapter 2, and this chapter and that is in compliance with Title XIX of the Social Security Act.

(2) (a) The department is entitled to collect from a provider, and a provider is liable to the department for:

(ii) the portion of any interim rate payment that exceeds the rate determined retrospectively by the department for the rate period.

(b) In addition to the amount of overpayment recoverable under subsection (2)(a), the department is entitled to interest on the amount of the overpayment at the rate specified in 31-1-106 from the date 30 days after the date of mailing of notice of the overpayment by the department to the provider, except that interest accrues from the date of the incorrect payment when the payment was obtained by fraud or abuse.

53-6-143. Medical assistance liens and recoveries. (1) Except as provided in this section, the department may not impose a lien upon the property of an applicant for or recipient of medical assistance.

(2) A lien for recovery of medical assistance paid or to be paid under this chapter may be imposed against the real or personal property of a medicaid applicant or recipient prior to the applicant's or recipient's death only:

(a) pursuant to a judgment of a court for recovery of medical assistance paid on behalf of the recipient;

(b) on a third-party recovery as provided in 53-2-612;

(c) as provided in 53-6-171 through 53-6-188; or

(4) Except as otherwise specifically provided by 53-6-144, 53-6-165 through 53-6-169, 53-6-171 through 53-6-189, and this section, the department may pursue recovery under any section or combination of sections as may be applicable in a particular case. However, the department may not recover pursuant to 53-6-167 through 53-6-169 or 53-6-171 through 53-6-188 more than the total amount of recoverable medical assistance paid on behalf of a recipient, plus any applicable costs, interest, or other charges specifically allowed by law. The fact that the department has or may have a lien on particular property does not preclude the department from pursuing recovery under another section against other assets of the recipient or assets of another person as provided in 53-6-144, 53-6-165 through 53-6-169, 53-6-171 through 53-6-189, and this section.

(5) Except as provided in subsections (5)(a) and (5)(b), the department may not impose a lien under this section upon a self-sufficiency trust established pursuant to Title 53, chapter 18, part 1, or upon the assets of a self-sufficiency trust established pursuant to Title 53, chapter 18, part 1.

(a) The department may impose a lien under this section upon a self-sufficiency trust or upon the assets of a self-sufficiency trust established pursuant to Title 53, chapter 18, part 1, if the department is required by federal law to recover or collect from the trust or its assets as a condition of receiving federal financial participation for the medicaid program.

(b) To the extent otherwise permitted by this section, the department is not precluded from asserting a claim or imposing a lien upon real or personal property prior to transfer of the property to the trust. If the department imposes a lien upon property prior to transfer to a self-sufficiency trust, any transfer of the property to the trust is subject to the lien.

53-6-145. Agencies to adopt rules governing personal assistant services. (1) Recognizing the importance of consumer control over personal assistance services in a self-directed service model, the legislature directs the department of public health and human services and the department of labor and industry to adopt administrative rules authorizing a person with a disability to act as though the person is the employer, for the purposes of selection, management, and supervision, of a personal assistant, although the personal assistant is the employee of another person or entity. The rules must reflect both the rights and protection guaranteed to workers under existing labor law and ensure that consumers of personal assistant services have day-to-day control, supervision, and direction over those services.

(2) As used in this section, the following definitions apply:

(a) "Ancillary services" means services ancillary to basic services provided to an individual in need of home-based care who needs one or more of the following basic services:

(i) homemaker-type services, including but not limited to shopping, laundry, cleaning, and seasonal chores;

(ii) companion-type services, including but not limited to transportation, letter writing, reading mail, assisting with alternative communication, and escort; and

(iii) assistance with cognitive tasks, including but not limited to managing finances, planning activities, prompting, and problem solving.

(b) "Basic services" includes assistance:

(i) getting in and out of bed, a wheelchair, or a motor vehicle; and

(ii) with routine bodily functions including:

(A) health maintenance activities;

(B) bathing and personal hygiene;

(C) dressing and grooming;

(D) feeding, including preparation and cleanup; and

(E) setup, use, and maintenance of assistive technologies.

(c) "Individual in need of home-based services" means an individual with a physical or mental impairment who requires assistance in completing functions of daily living, self-care, and mobility.

(d) "Personal assistant services" means those basic and ancillary services that enable an individual in need of home-based care to live in the individual's home and community rather than in an institution and to carry out functions of daily living, self-care, and mobility.

(3) The department of public health and human services is not required to provide personal-care services as part of the medicaid program in a self-directed service model as described in this section unless the personal assistant is an employee of an entity willing to provide the protections guaranteed to workers under existing labor laws, including but not limited to the payment of workers' compensation and unemployment insurance premiums.

(4) This section does not prohibit the department of public health and human services from determining the amount, scope, and duration of the personal assistance services provided under the medicaid program, nor does this section mandate personal assistance services.

(5) Medical and related liability for personal-care services provided pursuant to this section rests with the person directing the services.

53-6-146. Protection of tribal and Indian health service facilities from cost-shifting — seeking to leverage federal financial participation for state children's health insurance program and medicaid. (1) The department shall seek exemptions under federal medicaid law or regulations to protect Indian health services and tribal facilities from changes in eligibility categories, covered services, and reimbursement levels under the medicaid program that could potentially result in a direct shift of costs from the 100% federal medicaid matching available under medicaid to either Indian health services or tribally sponsored health care services.

(2) The department shall work with tribes or representatives from the federal Indian health service to seek mechanisms, including, if necessary, a waiver of federal law as permitted by section 1915 of Title XIX of the Social Security Act, 42 U.S.C. 1396n(b), to ensure that federal Indian health service-eligible medicaid participants who live on reservations may have any prescription filled at tribal or Indian health service health care facilities.

(3) The department shall work with tribes to explore the options for the state children's health insurance program to leverage 100% federal financial participation for health care services to Indian children.

(4) The department shall engage the federal centers for medicare and medicaid services and the United States congress to support efforts to have all services provided by and referred from an Indian health service included in the state medicaid plan eligible for the 100% federal financial participation match under medicaid regardless of the location where services are provided.

(5) (a) The department shall develop a policy and process to periodically review Indian-eligibility issues as they relate to medicaid and to include tribal government, urban Indian, and Indian health service representation in the development of a policy and process. Reviews conducted by the department in areas on or near reservations or in urban areas with significant Indian populations must include consultation with representatives of tribal governments and urban Indian programs.

(b) The department shall explore the issues and feasibility of applying for a federal waiver of medicaid law for a demonstration project to delegate authority to eligible tribes for determination and certification of medicaid eligibility.

(6) The department shall work with tribes to foster a spirit of cooperation, to identify and remove current institutional barriers that limit the participation of tribal members in the medicaid program, and to develop strategies, including education, to improve the mechanics of providing medicaid services to Indians by:

(a) ensuring that tribes have an adequate opportunity to review and verify data used to monitor medicaid services and eligibility status and to modify or promote changes in medicaid policy;

(b) consulting with tribal and urban Indian representatives on the effective use and appropriate sources of information on health care needs of Indians;

(c) at the request of a tribal representative, conducting technical assistance workshops to address issues specific to tribal needs regarding matters of centralized billing procedures, sound health care business practices, and development of needed health care infrastructure; and

(d) in compliance with the requirements of 2-15-141 through 2-15-143, consulting with tribes on any policy changes that may impact services or programs operated by tribes.

53-6-166. Period of ineligibility for medical assistance when assets disposed of for less than fair market value — undue hardship exception — department to adopt rules. (1) The department shall, in accordance with 42 U.S.C. 1396p, as may be amended, and implementing federal regulations and policies, impose upon an applicant or recipient a period of ineligibility for medical assistance under this part when the applicant or recipient or the spouse of either directly or indirectly disposes of any assets for less than fair market value during the applicable 3-year, 5-year, or other period provided by 42 U.S.C. 1396p, as may be amended, or by other federal law.

(2) A period of ineligibility for medical assistance may not be imposed upon an applicant or recipient under this section to the extent that the department determines, in accordance with procedures specified by department rule, that the denial of eligibility would cause an undue hardship as defined by department rule.

(3) The department shall adopt rules that are consistent with 42 U.S.C. 1396p, as may be amended, and that implement federal regulations and policies to implement this section. The rules adopted under this section must include but are not limited to rules addressing the following:

(a) a description of the circumstances considered to constitute an undue hardship;

(b) the procedures by which an individual may seek an undue hardship exception;

(c) the persons entitled to an undue hardship exception; and

(d) notice and opportunity for a hearing regarding imposition of a period of ineligibility or denial of an undue hardship exception.

(4) Nothing in 53-6-143, 53-6-144, 53-6-165, 53-6-167 through 53-6-169, 53-6-171 through 53-6-189, or this section is intended to prohibit the department from adopting rules consistent with federal law that provide for a period of ineligibility for public assistance programs other than medical assistance when an applicant or recipient directly or indirectly disposes of assets for less than fair market value.

53-6-167. Recovery of medicaid benefits after recipient's death. (1) After the death of a recipient, the department shall execute and present a claim:

(a) against the recipient's estate, within the time specified in the published notice to creditors in the estate proceeding, for the total amount of recoverable medical assistance paid to or on behalf of the recipient; and

(b) against a person who has received property of the recipient by distribution or survival for an amount equal to the recoverable medical assistance paid on behalf of the recipient or the value of the property received by the person from the recipient by distribution or survival, whichever is less. The amount recoverable from a person with respect to property of the recipient must be reduced by the value of any property transferred to the person for less than full market value for which a period of ineligibility was imposed under 53-6-166 against the recipient during the recipient's life. The department may bring an action in district court to collect upon a claim under this subsection (1)(b).

(2) A department claim under subsection (1) must include notice of the right to seek an undue hardship exception under rules adopted by the department in accordance with subsection (7).

(3) (a) Notwithstanding any statute of limitations or other claim presentation deadline provided by law, a department claim against an estate is not barred for lack of timely presentation if it is presented in the probate proceeding within the time specified in the published notice to creditors.

(b) An action to collect a claim under subsection (1)(b) must be commenced within 3 years of the later of the recipient's death or the closing of the recipient's estate.

(4) (a) For purposes of this section, property of a deceased recipient received by distribution or survival is any real or personal property or other assets in which the recipient had any right, title, or interest immediately prior to the time of death, including but not limited to assets passing to one or more survivors, heirs, assignees, or beneficiaries of the deceased recipient through joint tenancy, tenancy in common, right of survivorship, conveyance by the recipient subject to life estate, living trust, or other arrangement. For purposes of this section, property is not received by distribution or survival to the extent that the person received the property or property interest for consideration equal to the fair market value of the property or property interest received.

(b) Property received by distribution includes but is not limited to:

(i) property from a deceased recipient's estate distributed to a person through a probated estate or a small estate administration procedure; and

(ii) property from a deceased recipient's estate otherwise distributed to or in the possession of a person through any other procedure or when a legal procedure for distribution has not been followed.

(c) Assets of a deceased recipient's estate and property of a deceased recipient received by distribution or survival are not exempt from recovery under this section because the assets or property were or may have been considered by the department as exempt income or resources for the purpose of determining eligibility for medical assistance during the recipient's lifetime.

(5) (a) The department may seek recovery under subsection (1)(a) or (1)(b), or both, with respect to a deceased recipient until its claim is satisfied in full. Upon full satisfaction of its claim, the department may not seek further recovery and shall provide appropriate releases to the deceased recipient's estate and to other affected persons.

(b) An estate or other person is not entitled to a reduction or waiver of the department's claim on the grounds that there is or may be another person from whom recovery may be made under this section.

(6) The department may waive recovery under this section if it determines that recovery would not be cost-effective. In determining whether recovery would be cost-effective for purposes of this subsection, the department may consider but is not limited to consideration of the following factors:

(a) the estimated cost of recovery;

(b) the amount reasonably likely to be recovered;

(c) the likelihood that recovery by the department will cause a person to become eligible for public assistance; and

(d) the importance of the case or the issues in the case and the need for judicial interpretation of issues that may recur with respect to the administration or implementation of this section.

(7) (a) Upon presentation or assertion of a claim by the department under this section, the personal representative of the estate or another affected person may apply to the department, in accordance with procedures established by department rule, for a waiver of recovery based on undue hardship. The department shall waive its recovery under this section in whole or in part if it determines that recovery would result in undue hardship as defined by department rule.

(b) The department shall adopt rules that are consistent with 42 U.S.C. 1396p, as may be amended, and that implement federal regulations and policies, establishing procedures and criteria for undue hardship exceptions. The rules adopted under this section must include but are not limited to rules addressing the following:

(i) a description of the circumstances considered to constitute an undue hardship;

(ii) the procedures by which an individual may seek an undue hardship exception;

(iii) the persons entitled to an undue hardship exception; and

(iv) whether an exception is partial or temporary and the circumstances under which partial or temporary exceptions may be granted.

(c) If a person is aggrieved by a department determination on an application for an undue hardship exception, the person may assert a claim of entitlement to an undue hardship exception in any court proceeding on a department petition for allowance of an estate claim or for recovery of an amount due under this section. When a person claims entitlement to an undue hardship exception in the proceeding, the court shall make a determination on the claim for an exception based upon the department rules adopted in accordance with this section. Department denial of all or any part of the relief requested in an exception application under this section may be reviewed by a district court only as provided in this subsection (c). Denial does not grant a right to a contested case hearing or a right to judicial review under the Montana Administrative Procedure Act or the department's rules.

(8) (a) Except as provided in subsection (8)(b), if the requirements of this section are met, the department may collect upon its claim.

(b) The department may not recover under this section while there is a surviving spouse of the recipient or while there is a surviving child of the recipient who is under 21 years of age, blind, or permanently and totally disabled. This subsection (b) does not preclude the department from recovering from the recipient's estate after the death of the surviving spouse or child.

(9) All money recovered under this section from any source must be distributed to the state general fund and to the United States as required by applicable state and federal laws and regulations.

53-6-168. Payment of certain funds of deceased recipient to department. (1) (a) A nursing facility or a person, other than a financial institution, holding personal funds of a deceased nursing facility resident who received medicaid benefits at any time shall, within 30 days following the resident's death, pay those funds to the department.

(b) A nursing facility may satisfy a debt owed by the deceased resident to the facility from the deceased resident's personal funds that are held by the nursing facility and that would have been payable to the facility from the resident's funds. The facility shall pay the remaining funds to the department as required by this section.

(c) Funds paid to the department under this section are not considered to be property of the deceased resident's estate, and 53-6-167 does not apply to recovery of the funds by the department.

(2) For purposes of this section, a nursing facility is holding personal funds of a resident if the facility:

(a) maintains possession of the funds in the facility; or

(b) as the recipient's trustee or representative, has deposited the resident's funds in an individual or shared account in a financial institution.

(3) The department shall apply any funds received under this section proportionately to the federal and state shares of recoverable medical assistance and shall pay any remaining amount to a person entitled by law to the funds.

53-6-169. Payment of excess burial funds or assets to department. (1) After the death of a person who at any time received medicaid benefits, a mortician, funeral director, or other person, including but not limited to the decedent's spouse, heir, devisee, or personal representative, who holds funds or other property in excess of $5,000 in value that was specifically designated and set aside for paying for the disposition of the decedent's remains and for related expenses shall, after paying for the disposition and related expenses, pay all remaining funds to the department within 30 days following the burial, cremation, or other final disposition of the decedent's remains. The funds must be paid to the department regardless of any provision in a written contract, trust, or other agreement entered into on or after July 1, 1995, directing a different disposition of the funds. Funds paid to the department under this section are not considered to be property of the decedent's estate, and 53-6-167 does not apply to recovery of the funds by the department.

(2) The department shall apply any funds received under this section proportionately to the federal and state shares of recoverable medical assistance and shall pay any remaining amount to a person entitled by law to the funds.

53-6-171. Department lien upon real property of certain medicaid recipients — conditions. (1) Following notice and opportunity for hearing as provided in 53-6-172, the department shall impose a lien upon the real property, including the home, of an institutionalized recipient of recoverable medical assistance to secure the assets of the recipient for recovery of medical assistance paid on behalf of the recipient prior to, on, or after the imposition of the lien if:

(a) the recipient has been admitted to a nursing facility, an intermediate care facility for the developmentally disabled, or an institution for mental disease;

(b) the property upon which a lien is being imposed is the recipient's home and the home is not lawfully resided in by:

(i) the recipient's spouse;

(ii) the recipient's child who is under 21 years of age, blind, or permanently and totally disabled; or

(iii) the recipient's sibling who was residing in the recipient's home for a period of at least 18 months immediately prior to the recipient's institutionalization; and

(c) the recipient has been determined by the department, pursuant to subsection (2), to be permanently institutionalized.

(2) A recipient is permanently institutionalized for purposes of subsection (1)(c) if the department determines that the recipient cannot reasonably be expected to be discharged from the facility and to return home. There is a rebuttable presumption that the recipient cannot reasonably be expected to be discharged from the facility and return home if the recipient or a representative of the recipient declares that there is no intent to return home or if the recipient has been institutionalized for 6 months or longer without a discharge plan. The recipient's institutionalization for a period of 6 months or longer without a discharge plan does not give rise to the presumption if the facility was required by law to adopt a discharge plan but failed to do so. A recipient or a recipient's representative who alleges that there is a reasonable expectation of discharge from the facility and a return home has the burden of demonstrating the reasonable expectation. The reasonable expectation must be established based upon medical evidence and medical opinion. A declaration by the recipient or a recipient's representative that the recipient intends to be discharged from the facility and to return home is not alone sufficient to establish that there is a reasonable expectation of discharge from the facility and a return home.

(3) For purposes of this section, real property of a recipient includes any interest in real property that may be subject to a judgment lien.

53-6-172. Notice of intent to impose lien — opportunity for hearing. Before imposing a lien under 53-6-171, the department shall provide the recipient 30 days' written notice of its determination under 53-6-171(1)(c), of its intent to impose a lien, and of an opportunity for a hearing pursuant to the department's hearing procedures under Title 2, chapter 4, part 6.

History: En. Sec. 9, Ch. 492, L. 1995.

53-6-173. Contents of lien document — scope of obligation secured. (1) The lien must contain the name and address of the recipient who owns an interest in the property, a legal description of the property, and an address and telephone number of the office or representative of the department who can provide more information about the lien. The lien applies only to the property described in the lien.

(2) The lien need not be executed by or on behalf of the medicaid recipient, but it must be executed by an authorized agent or employee of the department. The execution must be acknowledged as provided in 70-21-203.

(3) The lien need not state the specific amount of medical assistance repayment owed. The lien is sufficient to secure repayment of past, current, and future recoverable medical assistance if the lien states that:

(a) the lien is imposed under 53-6-171 through 53-6-188 to secure the described property for recovery of medical assistance paid on behalf of the recipient prior to, on, and after the date of the lien; and

(b) the amount paid for recoverable medical assistance is due upon sale, transfer, or exchange of any right, title, or interest of the recipient in the property or upon the recipient's death.

History: En. Sec. 10, Ch. 492, L. 1995.

53-6-174. Filing of lien — effect of filing — priority — renewal — dissolution of lien. (1) The lien must be filed in the office of the clerk and recorder in the county in which the real property is located.

(2) Filing of the lien constitutes legal notice of the lien to all persons, including subsequent purchasers, encumbrancers, mortgagees, and other lienholders. Upon filing, the lien is prior to any earlier unrecorded interest or claim and is prior to any subsequent interest or claim, whether or not recorded. The lien is subject to any unpaid property taxes, any prior recorded mortgage, or any other prior recorded encumbrance, interest, or claim. For purposes of recovery under 53-6-171 through 53-6-188, a sale, transfer, or exchange of the property by the recipient is considered a relinquishment of any homestead exemption under 70-32-201 and 70-32-202 of the recipient in the property subject to the lien.

(3) Except as provided in 53-6-171 through 53-6-188, the lien has the effect of a judgment lien when the lien is filed. For purposes of provisions of state laws relating to judgment liens, the department is considered the judgment creditor and the recipient or the recipient's spouse or successor in interest is considered the judgment debtor.

(4) After filing, the lien remains effective for a period of 6 years unless earlier satisfied, released, or dissolved. The department may renew a lien for one or more additional 6-year periods.

(5) If the recipient is discharged from the facility and returns home, the lien dissolves and is no longer effective unless a new lien is later imposed in accordance with 53-6-171 through 53-6-188. Following the recipient's discharge and return home, the department shall upon written request file a release of lien in the clerk and recorder's office. Dissolution of the lien under this subsection does not preclude the department from recovering under 53-6-167, 53-6-168, or 53-6-169.

(6) If the lien is imposed pursuant to 53-6-171 on the recipient's interest in jointly owned property that is subject to a right of survivorship, upon the recipient's death, the recipient's interest passes to the survivor, subject to the lien imposed pursuant to 53-6-171.

History: En. Sec. 11, Ch. 492, L. 1995.

53-6-175. Recovery of medical assistance secured by lien — application for issuance of writ of execution. (1) After the recipient's death or upon the sale, transfer, or exchange of any right, title, or interest of the recipient in the property, the department may file with the clerk of the district court in the county in which the real property is located an application for issuance of a writ of execution for levy on the real property described in the lien. The levy may be for the amount of recoverable medical assistance paid on behalf of the recipient prior to, on, and after the date of the lien, including amounts paid up to the date of sale of the property, plus interest and costs as provided by law. Costs do not include attorney fees.

(2) The application for the writ must be sworn and must contain the following:

(a) the name of the recipient, a legal description of the real property, and a description of the recipient's interest in the property;

(b) a statement that the department has imposed a lien upon the property under 53-6-171;

(c) a statement that the lien complies with the requirements of 53-6-171 through 53-6-188;

(d) the date upon which the lien was filed and the office in which it was filed;

(e) a description of the sale, transfer, exchange, or other event that entitles the department to recover;

(f) a statement that the lien has not dissolved under 53-6-174(5);

(g) the amount of recoverable medical assistance; the amount of any unreimbursed taxes, insurance costs, maintenance costs, or other costs paid under 53-6-186; and, if applicable, a statement that additional amounts may be paid up to the time that the property is sold in satisfaction of the lien;

(h) a statement that the total amount due has not been paid as of the date of the application for the writ;

(i) a statement that recovery is not prohibited by this section;

(j) the names and addresses of all persons who have a recorded interest in the property, including a recipient or recipient's estate, co-owner, purchaser, grantee, encumbrancer, mortgagee, and lienholder; and

(k) a request that a writ of execution be issued for sale of the described property if an action is not filed within the time provided for in 53-6-177.

(3) The filing of an application under this section for a writ of execution is not the filing of a legal action, and the requirements applicable to legal actions do not apply to the application or application proceedings.

History: En. Sec. 12, Ch. 492, L. 1995.

53-6-176. Notice of application — proof of notice — request for issuance of writ of execution. (1) The department shall provide notice, as required by this section, of the filing of the application for a writ of execution pursuant to 53-6-175 to all persons having a recorded interest in the property or residing lawfully on the property.

(2) The notice must contain a description of the property and must state that the department has a lien under 53-6-171 upon the described property, that the department has filed an application for a writ of execution seeking sale of the property, and that a writ will be issued unless an action challenging issuance of the writ has been filed in accordance with 53-6-177 within 60 days of the date of mailing or service of notice or first publication of notice. The department shall include with the notice a copy of the application for the writ. The notice must also include notice of the right to seek an undue hardship exception as provided in 53-6-180.

(3) (a) The department may mail a copy of the notice, postage prepaid and return receipt requested, to the name and address stated in the recorded instrument creating each person's interest in the property or, in the case of a person residing on the property, to the address of the residence on the property. Mailing as provided in this subsection (a) is sufficient notice to the addressee if the return receipt is returned to the department and indicates that the notice was received by or on behalf of the addressee.

(b) If the return receipt is not returned to the department indicating that the notice was received by or on behalf of the addressee, the department shall attempt with reasonable diligence to locate the addressee and to personally serve or mail notice to that person.

(c) If after the exercise of reasonable diligence the department is unable to locate the person owning the interest in the property, the department shall publish the notice required by subsection (2) three times, once each week for 3 successive weeks, in a newspaper published in the county in which the property is located if a newspaper is published in the county. If a newspaper is not published in the county, then publication must be in a newspaper having a general circulation in the county.

(d) With respect to a person residing lawfully on the property but having no recorded interest in the property, the notice may be delivered to the residence and delivery is sufficient notice as to that person.

(e) In the alternative, the notice and application may be personally served upon any person entitled to notice under this section.

(4) (a) After giving notice as required by this section, the department shall file with the clerk of court an affidavit describing:

(i) the manner in which notice has been provided to each person entitled to notice;

(ii) the date of mailing, personal service, or first publication of the notice; and

(iii) the date by which each person is required to file an action to challenge issuance of the writ of execution.

(b) The department shall attach to the affidavit the return receipt, the affidavit of personal service, the affidavit of publication, or other proof of service of the notice. If no action has been filed within the time required by 53-6-177, the affidavit must so state and may request immediate issuance of the writ.

History: En. Sec. 13, Ch. 492, L. 1995.

53-6-177. Action to challenge issuance of writ of execution. A person with a recorded interest in or residing lawfully upon the real property described in an application filed under 53-6-175, including the recipient or recipient's estate or a co-owner, purchaser, grantee, encumbrancer, mortgagee, or lienholder, or any person described in 53-6-171(1)(b) or 53-6-178(2) or (3), may, within 60 days of mailing or service of notice or first publication of notice as provided in 53-6-176, file an action in the district court in the county in which the real property is located challenging the requested issuance of a writ of execution. The court shall determine the validity or invalidity of the department's lien and order appropriate relief, including issuance of the writ or denial of the application for issuance of the writ.

History: En. Sec. 14, Ch. 492, L. 1995.

53-6-178. Department right of recovery — limitations. (1) Except as provided in 53-6-180, 53-6-182, and this section, the department may collect upon its lien as provided in 53-6-171 through 53-6-188.

(2) The department may not recover upon a lien imposed on the recipient's home under 53-6-171 while the recipient's sibling or child who has resided lawfully and continuously in the home for at least 1 year immediately before the recipient's institutionalization continues to lawfully reside in the home. This subsection does not preclude the department from recovering under 53-6-167, 53-6-168, or 53-6-169.

(3) The department may not recover on a lien imposed under 53-6-171 while there is a surviving spouse of the recipient or while there is a surviving child of the recipient who is under 21 years of age, blind, or permanently and totally disabled. This subsection does not preclude the department from later recovery in accordance with 53-6-181.

History: En. Sec. 15, Ch. 492, L. 1995.

53-6-179. Payment of amount due — periodic payments — substitute security. (1) If the total amount due to the department to satisfy a lien imposed under 53-6-171 through 53-6-188 is paid, the department may not file an application under 53-6-175, shall withdraw its application if the application has already been filed, or shall instruct the sheriff to cancel the sale proceedings.

(2) In lieu of applying for a writ of execution, the department may agree with the heirs or devisees of the recipient to accept periodic payments for the repayment of recoverable medical assistance or may agree with the recipient's surviving spouse to accept substitute security and partial payment. The department may agree to periodic payments or substitute security if the terms of agreement, including security for repayment, are acceptable to the department and if the agreement does not reduce the amount due or the likelihood of recovering the amount due. The department may delay filing an application for issuance of a writ of execution for purposes of conducting negotiations for an agreement in lieu of execution.

History: En. Sec. 16, Ch. 492, L. 1995.

53-6-180. Waiver of recovery in cases of undue hardship — rulemaking. (1) (a) A person with a recorded interest in real property subject to a lien under 53-6-171 through 53-6-188 or any other interested person may apply to the department, in accordance with procedures established by department rule, for a waiver of recovery because of undue hardship. The department shall waive its recovery under this section, in whole or in part, if it determines that recovery would result in undue hardship as defined by department rule.

(b) The department shall adopt rules, consistent with 42 U.S.C. 1396p, as may be amended, and implementing federal regulations and policies, establishing procedures and criteria for granting undue hardship exceptions under this section. The rules must include but are not limited to rules addressing the following:

(i) a description of the circumstances considered to constitute an undue hardship;

(ii) the procedures by which an individual may seek an undue hardship exception;

(iii) the persons entitled to an undue hardship exception; and

(iv) whether an exception is partial or temporary and the circumstances under which a partial or temporary exception may be granted.

(c) A person aggrieved by a department determination on an application for an undue hardship exception may assert a claim of entitlement to an undue hardship exception in an action filed under 53-6-177 to challenge issuance of the writ. If a person claims entitlement to an undue hardship exception as part of that action, the court shall make a determination on the undue hardship claim in accordance with the department's rules adopted pursuant to this section. Department denial of all or any part of the relief requested in an application for an undue hardship exception under this section may be reviewed by a district court only through filing of an action as provided in this subsection (c). Denial does not grant a right to a contested case hearing or a right to judicial review under the Montana Administrative Procedure Act or the department's rules.

(2) The department may waive recovery of recoverable medical assistance secured by a lien imposed under 53-6-171 if the department determines that recovery would not be cost-effective. In determining whether recovery would be cost-effective, the department may consider but is not limited to consideration of the following factors:

(a) the estimated cost of recovery;

(b) the amount reasonably likely to be recovered;

(c) the likelihood that recovery by the department will cause a person to become eligible for public assistance; and

(d) the importance of the case or the issues in the case and the need for judicial interpretation of issues that may recur with respect to the administration or implementation of 53-6-171 through 53-6-188.

History: En. Sec. 17, Ch. 492, L. 1995.

53-6-181. Delay in recovery — sale subject to lien. (1) If the department is precluded by 53-6-178(2) or (3) from recovery upon a lien imposed under 53-6-171 through 53-6-188, the department shall maintain the lien in place and upon elimination of the condition that precluded recovery, the department may recover under this section. The department may not file an application for issuance of a writ of execution to recover under this subsection more than 3 years after elimination of the last condition that precluded recovery.

(2) If upon sale, transfer, or exchange of property subject to a lien imposed pursuant to 53-6-171 through 53-6-188 the department is precluded by 53-6-178(2) or (3) from recovering upon the lien, the lien remains in effect, subject to renewal as provided in 53-6-174, and the sale, transfer, or exchange is also subject to the lien.

History: En. Sec. 18, Ch. 492, L. 1995.

53-6-182. Spouse's limited exemption from lien. (1) Subject to Title 70, chapter 32, a recipient's surviving spouse who owns a home or an interest in a home in which the spouse resides that is subject to a lien imposed under 53-6-171 through 53-6-188 is, upon sale, transfer, or exchange of the home, entitled to an exemption from the department's lien in an amount determined in accordance with this section. The exemption is in the form of:

(a) a partial release of the department's lien if the exemption amount is less than the full amount of the department's lien; or

(b) a full release of the department's lien if the exemption amount is equal to or greater than the full amount of the department's lien.

(2) The amount of the exemption is the lesser of an amount equal to:

(a) the fair market value of the interest in the home that the surviving spouse received from the recipient by distribution or survival; or

(b) $100,000 minus the total fair market value of all of the surviving spouse's assets, other than the interest in the home that the surviving spouse received from the recipient by distribution or survival. For purposes of this section, the surviving spouse's assets do not include personal property that is exempt from execution under Title 25, chapter 13, part 6.

(3) The department may by rule require a surviving spouse to file an application for the exemption and to provide information, documentation, and verification regarding the applicant's assets and the fair market value of assets. The department shall provide the applicant notice of its determination on the application and of the opportunity for a hearing pursuant to Title 2, chapter 4, part 6.

(4) Upon determination by the department that the applicant is entitled to an exemption, the department shall provide to the applicant an appropriate full or partial release in the amount of the exemption.

53-6-402. Medicaid-funded home and community-based services — waivers — funding limitations — populations — services — providers — long-term care preadmission screening — powers and duties of department — rulemaking authority. (1) The department may obtain waivers of federal medicaid law in accordance with section 1915 of Title XIX of the Social Security Act, 42 U.S.C. 1396n, and administer programs of home and community-based services funded with medicaid money for categories of persons with disabilities or persons who are elderly.

(2) The department may seek and obtain any necessary authorization provided under federal law to implement home and community-based services for seriously emotionally disturbed children pursuant to a waiver of federal law as permitted by section 1915 of Title XIX of the Social Security Act, 42 U.S.C. 1396n(c). The home and community-based services system must strive to incorporate the following components:

(a) flexibility in design of the system to attempt to meet individual needs;

(b) local involvement in development and administration;

(c) encouragement of culturally sensitive and appropriately trained mental health providers;

(d) accountability of recipients and providers; and

(e) development of a system consistent with the state policy as provided in 52-2-301.

(3) The department may, subject to the terms and conditions of a federal waiver of law, administer programs of home and community-based services to serve persons with disabilities or persons who are elderly who meet the level of care requirements for one of the categories of long-term care services that may be funded with medicaid money. Persons with disabilities include persons with physical disabilities, chronic mental illness, developmental disabilities, brain injury, or other characteristics and needs recognized as appropriate populations by the U.S. department of health and human services. Programs may serve combinations of populations and subsets of populations that are appropriate subjects for a particular program of services.

(4) The provision of services to a specific population through a home and community-based services program must be less costly in total medicaid funding than serving that population through the categories of long-term care facility services that the specific population would be eligible to receive otherwise.

(5) The department may initiate and operate a home and community-based services program to more efficiently apply available state general fund money, other available state and local public and private money, and federal money to the development and maintenance of medicaid-funded programs of health care and related services and to structure those programs for more efficient and effective delivery to specific populations.

(6) The department, in establishing programs of home and community-based services, shall administer the expenditures for each program within the available state spending authority that may be applied to that program. In establishing covered services for a home and community-based services program, the department shall establish those services in a manner to ensure that the resulting expenditures remain within the available funding for that program. To the extent permitted under federal law, the department may adopt financial participation requirements for enrollees in a home and community-based services program to foster appropriate utilization of services among enrollees and to maintain fiscal accountability of the program. The department may adopt financial participation requirements that may include but are not limited to copayments, payment of monthly or yearly enrollment fees, or deductibles. The financial participation requirements adopted by the department may vary among the various home and community-based services programs. The department, as necessary, may further limit enrollment in programs, reduce the per capita expenditures available to enrollees, and modify and reduce the types and amounts of services available through a home and community-based services program when the department determines that expenditures for a program are reasonably expected to exceed the available spending authority.

(7) The department may consider the following populations or subsets of populations for home and community-based services programs:

(a) persons with developmental disabilities who need, on an ongoing or frequent basis, habilitative and other specialized and supportive developmental disabilities services to meet their needs of daily living and to maintain the persons in community-integrated residential and day or work situations;

(b) persons with developmental disabilities who are 18 years of age and older and who are in need of habilitative and other specialized and supportive developmental disabilities services necessary to maintain the persons in personal residential situations and in integrated work opportunities;

(c) persons 18 years of age and older with developmental disabilities and chronic mental illness who are in need of mental health services in addition to habilitative and other developmental disabilities services necessary to meet their needs of daily living, to treat the their mental illness, and to maintain the persons in community-integrated residential and day or work situations;

(d) children under 21 years of age who are seriously emotionally disturbed and in need of mental health and other specialized and supportive services to treat their mental illness and to maintain the children with their families or in other community-integrated residential situations;

(e) persons 18 years of age and older with brain injuries who are in need, on an ongoing or frequent basis, of habilitative and other specialized and supportive services to meet their needs of daily living and to maintain the persons in personal or other community-integrated residential situations;

(f) persons 18 years of age and older with physical disabilities who are in need, on an ongoing or frequent basis, of specialized health services and personal assistance and other supportive services necessary to meet their needs of daily living and to maintain the persons in personal or other community-integrated residential situations;

(g) persons with human immunodeficiency virus (HIV) infection who are in need of specialized health services and intensive pharmaceutical therapeutic regimens for abatement and control of the HIV infection and related symptoms in order to maintain the persons in personal residential situations;

(h) persons with chronic mental illness who suffer from serious chemical dependency and who are in need of intensive mental health and chemical dependency services to maintain the persons in personal or other community-integrated residential situations;

(i) persons 65 years of age and older who are in need, on an ongoing or frequent basis, of health services, personal assistance, and other supportive services necessary to meet their needs of daily living and to maintain the persons in personal or other community-integrated residential situations; or

(j) persons 18 years of age and older with chronic mental illness who are in need, on an ongoing or frequent basis, of specialized health services and other supportive services necessary to meet their needs of daily living and to maintain the persons in personal or other community-integrated residential situations.

(8) For each authorized program of home and community-based services, the department shall set limits on overall expenditures and enrollment and limit expenditures as necessary to conform with the requirements of section 1915 of Title XIX of the Social Security Act, 42 U.S.C. 1396n, and the conditions placed upon approval of a program authorized through a waiver of federal law by the U.S. department of health and human services.

(9) A home and community-based services program may include any of the following categories of services as determined by the department to be appropriate for the population or populations to be served and as approved by the U.S. department of health and human services:

(a) case management services;
(b) homemaker services;
(c) home health aide services;
(d) personal care services;
(e) adult day health services;
(f) habilitation services;
(g) respite care services; and
(h) other cost-effective services appropriate for maintaining the health and well-being of persons and to avoid institutionalization of persons.

(10) Subject to the approval of the U.S. department of health and human services, the department may establish appropriate programs of home and community-based services under this section in conjunction with programs that have limited pools of providers or with managed care arrangements, as implemented through 53-6-116 and as authorized under section 1915 of Title XIX of the Social Security Act, 42 U.S.C. 1396n, or in conjunction with a health insurance

flexibility and accountability demonstration initiative or other demonstration project as authorized under section 1115 of Title XI of the Social Security Act, 42 U.S.C. 1315.

(11) (a) The department may conduct long-term care preadmission screenings in accordance with section 1919 of Title XIX of the Social Security Act, 42 U.S.C. 1396r.

(b) Long-term care preadmission screenings are required for all persons seeking admission to a long-term care facility.

(c) A person determined through a long-term care preadmission screening to have mental retardation or a mental illness may not reside in a long-term care facility unless the person meets the long-term care level-of-care determination applicable to the type of facility and is determined to have a primary need for the care provided through the facility.

(d) The long-term care preadmission screenings must include a determination of whether the person needs specialized mental retardation or mental health treatment while residing in the facility.

(12) The department may adopt rules necessary to implement the long-term care preadmission screening process as required by section 1919 of Title XIX of the Social Security Act, 42 U.S.C. 1396r. The rules must provide criteria, procedures, schedules, delegations of responsibilities, and other requirements necessary to implement long-term care preadmission screenings.

(13) The department shall adopt rules necessary for the implementation of each program of home and community-based services. The rules may include but are not limited to the following:

(a) the populations or subsets of populations, as provided in subsection (7), to be served in each program;

(b) limits on enrollment;

(c) limits on per capita expenditures;

(h) financial participation requirements for enrollees as provided in subsection (6);

(i) utilization measures;

(j) measures to ensure the appropriateness and quality of services to be delivered; and

(k) other appropriate provisions necessary to the administration of the program and the delivery of services in accordance with 42 U.S.C. 1396n and any conditions placed upon approval of a program by the U.S. department of health and human services.

Part 7
Medicaid Managed Care

53-6-701. Policy of medicaid managed care — system for integrated health care services. It is the public policy of the state of Montana to adopt, to the extent practicable, a health care system that encourages the integration of health care services and that manages the health care of enrollees to improve their health while preserving reasonable choice within a competitive and cost-efficient environment. In furtherance of this public policy, the department shall develop and implement integrated health care programs consistent with the provisions of this part. The provisions of this part apply only to programs created under this part. The department shall by rule identify persons eligible for enrollment in a program. The department shall inform enrollees of their choice, if any, among health care delivery systems. Persons enrolled in a program may also be offered cost-effective indemnity insurance plans, subject to availability.

History: En. Sec. 1, Ch. 502, L. 1995; amd. Sec. 4, Ch. 466, L. 2001.

53-6-702. Definitions. As used in this part, the following definitions apply:

(2) "Health maintenance organization" means a health maintenance organization as defined in 33-31-102.

(3) (a) "Managed care community network" or "network" means an entity, other than a health maintenance organization, that provides or arranges for comprehensive physical or mental health care services under a contract with the department, that is reimbursed by a capitated rate or a fixed monetary amount for a specified time period with a risk of financial loss or a financial incentive to the entity, and that:

(i) contracts for an estimated annual value of $1 million or more of state and federal medicaid funds; or

(ii) operates statewide or covers 20% or more of the medicaid population.

(b) The term does not include a provider of health care services under a contract with the department on a fee-for-service basis.

(4) "Managed health care entity" or "entity" means a health maintenance organization or a managed care community network.

(5) "Program" means an element of the integrated health care system created by this part.

History: En. Sec. 2, Ch. 502, L. 1995; amd. Sec. 5, Ch. 466, L. 2001; amd. Sec. 3, Ch. 401, L. 2003; amd. Sec. 4, Ch. 403, L. 2003.

53-6-703. Managed care community network. (1) A managed care community network shall comply with the federal requirements for prepaid health plans as provided in 42 CFR, part 434.

(2) A managed care community network may contract with the department to provide any combination of medicaid-covered health care services that is acceptable to the department.

(3) The department, prior to entering into a contract, shall require that a managed care community network demonstrate to the department its ability to bear the level of financial risk being assumed by servicing enrollees under a contract for comprehensive physical or mental health care services. The department shall by rule adopt criteria for assessing the financial solvency of a network. The rules must consider risk-bearing and management techniques and protections against financial insolvency if a managed care community network is declared insolvent or bankrupt, as determined appropriate by the department. The rules must also consider whether a network has sufficiently demonstrated its financial solvency and net worth. The department's criteria must be based on sound actuarial, financial, and accounting principles. The department is responsible for monitoring compliance with the rules. The

department shall provide for independent review of any contract provisions and contract compliance with the financial solvency rules.

(4) A managed care community network may not begin operation before the approval of any necessary federal waivers and the completion of the review of an application submitted to the department. The department may charge the applicant an application review fee for the department's actual cost of review of the application. The fee must be adopted by rule by the department. Fees collected by the department must be deposited in an account in the special revenue fund and are statutorily appropriated, as provided in 17-7-502, to the department to defray the cost of application review.

(5) A health care delivery system that contracts with the department under the program may not be required to provide or arrange for any health care or medical service, procedure, or product that violates religious or moral teachings and beliefs if that health care delivery system is owned, controlled, or sponsored by or affiliated with a religious institution or religious organization but must comply with the notice requirements of 53-6-705(4)(c).

Alcohol and substance abuse services, services for mental disorders, services related to children with chronic or acute conditions requiring longer-term treatment and followup, and rehabilitation care provided by a freestanding rehabilitation hospital or a rehabilitation unit may be excluded from a benefit package and those services may be made available through a separate delivery system. If a service is excluded from the program but made available in a separate delivery system by a managed care entity, that managed care entity is subject to this part. An exclusion does not prohibit the department from developing and implementing demonstration projects for categories of persons or services. Benefit packages for persons eligible for medical assistance under Title 53, chapter 6, parts 1 and 4, may be based on the requirements of those parts and must be consistent with the Title XIX of the Social Security Act. This part applies only to services purchased by the department.

(2) The program established by this part may be implemented by the department in various contracting areas at various times. The health care delivery systems and providers available under the program may vary throughout the state. Except as otherwise provided in a contract for mental health services, a licensed managed health care entity must be permitted to contract in any geographic area for which it has a sufficient provider network and that otherwise meets the requirements of the state contract.

53-6-705. Requirements for managed health care entities. (1) A managed health care entity that contracts with the department for the provision of services under the program shall comply with the requirements of this section for purposes of the program.

(2) The entity shall provide for reimbursement for health care providers for emergency care, as defined by the department by rule, that must be provided to its enrollees, including emergency room screening services and urgent care that it authorizes for its enrollees, regardless of the provider's affiliation with the managed health care entity. Health care providers must be reimbursed for emergency care in an amount not less than the department's rates for those medical services rendered by health care providers who are not under contract with the entity to enrollees of the entity.

(3) The entity shall provide that any health care provider affiliated with a managed health care entity may also provide services on a fee-for-service basis to department clients who are not enrolled in a managed health care entity.

(4) The entity shall provide client education services as determined and approved by the department, including but not limited to the following services:

(a) education regarding appropriate use of health care services in a managed care system;

(b) written disclosure of treatment policies and any restrictions or limitations on health services, including but not limited to physician services, clinical laboratory tests, hospital and surgical procedures, prescription drugs and biologicals, and radiological examinations; and

(c) written notice that the enrollee may receive from another provider those medicaid-covered services that are not provided by the managed health care entity but that are the financial responsibility of the entity.

(5) The entity shall provide that enrollees within its system will be informed of the full panel of health care providers. Contracts for the provision of services beyond 125 miles from the borders of Montana may not be entered into if services of comparable cost and quality are available within the state of Montana.

(6) The entity may not discriminate in its enrollment or disenrollment practices among recipients of medical services or program enrollees based on health status.

(7) For purposes of participation in the medicaid program, the entity shall comply with quality assurance and utilization review requirements established by the department by rule.

(8) The entity shall require that each provider meets the standards for accessibility and quality of care established by law. The department shall prepare an annual report regarding the effectiveness of the standards on ensuring access and quality of care to enrollees.

(9) The entity shall maintain, retain, and make available to the department records, data, and information, in a uniform manner determined by the department, that is sufficient for the department to monitor utilization, accessibility, and quality of care and that is consistent with accepted practices in the health care industry.

(10) Except for health care providers who are prepaid, the entity shall pay all approved claims for covered services that are correctly completed and submitted to the entity within 30 days after receipt of the claim or receipt of the appropriate capitation payment or payments by the entity from the state for the month in which the services included on the claim were rendered, whichever is later. If payment is not made or mailed to the provider by the entity by the due date under this subsection, an interest penalty of 1% of any amount unpaid must be added for each month or fraction of a month after the due date until final payment is made. This part does not prohibit managed health care entities and health care providers from mutually agreeing to terms that require more timely payment.

(11) The entity shall seek cooperation with community-based programs provided by local health departments, such as the women, infants, and children food supplement program, childhood immunization programs, health education programs, case management programs, and health screening programs.

(12) The entity shall seek cooperation with community-based organizations, as defined by rule of the department, that may continue to operate under a contract with the department or a managed health care entity under this part to provide case management services to medicaid clients.

(13) A managed health care entity that provides written notice pursuant to subsection (4)(c) to an enrollee of medicaid-covered services available from another provider is responsible for payment for those services by another provider.

History: En. Sec. 5, Ch. 502, L. 1995.

53-6-706. Requirements relating to enrollees. (1) All individuals enrolled in the program must be provided with a full written explanation of all fee-for-service and managed health care plan options as provided by rule. The department shall provide to enrollees, upon enrollment in the program and at least annually, notice of the process for requesting an appeal under the department's administrative appeal procedures. The department shall maintain a toll-free telephone number for program enrollees' use in reporting problems with managed health care entities.

(2) If an individual becomes eligible for participation in the program while the individual is hospitalized, the department may, but is not required to, enroll the individual in the program prior to the individual's discharge from the hospital. This subsection does not apply to a newborn infant whose mother is enrolled in the program.

(3) The department shall, by rule, establish rates for managed health care entities that:

(a) are in accordance with federal requirements and with the department's current payment system;

(b) take into account any difference of cost to provide health care to different populations based on age and eligibility category. The rates for managed health care entities must be determined on a capitated basis.

(c) are based on treatment settings reasonably available to enrollees.

53-6-707. Payment reductions and adjustments — freedom to contract. (1) The department shall by rule establish a method to reduce its payments to managed health care entities to take the following into consideration:

(a) any adjustment payments paid to health care facilities under subsection (2)(b) to the extent that those payments or any part of those payments have been taken into account in establishing capitated rates under 53-6-705; and

(b) the implementation of methodologies to limit financial liability for managed health care entities under 53-6-705.

(2) For key services provided by a hospital that contracts with an entity, adjustment payments that are not included in capitated rates must be paid directly to the hospital by the department. Adjustment payments may include but need not be limited to:

(a) adjustment payments to disproportionate share hospitals as defined by department rule;

(b) perinatal center payments; and

(c) payments for capital, direct medical education, indirect medical education, and certified registered nurse anesthetists.

(3) For any hospital eligible for the adjustment payments described in this section, the department shall maintain, through the period ending June 30, 1996, reimbursement levels in accordance with statutes and rules in effect at the time the payments are made.

(4) This part does not limit or otherwise impair the authority of the department to enter into a contract, negotiated pursuant to this part, with a managed health care entity, including a health maintenance organization, that provides for termination or nonrenewal of the contract without cause upon notice as provided in the contract and without a hearing. If available funds are not sufficient to provide medical assistance for all eligible persons, the department may set priorities to limit, reduce, or otherwise curtail the amount, scope, or duration of the medical services made available under the Montana medicaid program and managed care.

The department may seek a waiver of the federal requirement that the combined membership of medicare and medicaid enrollees in a managed health care entity may not exceed 75% of the managed health care entity's total enrollment. The department may not seek a waiver of the inpatient hospital reimbursement methodology in 42 U.S.C. 1396a(a)(13) even if the federal agency responsible for administering Title XIX determines that 42 U.S.C. 1396a(a)(13) applies to managed health care systems.

(2) A medical provider may not be compelled to provide individual medical records of patients unless the records are provided in accordance with the provisions of the Government

Health Care Information Act. State and local governmental agencies shall provide the requested information, assistance, or cooperation.

(3) All activities conducted by the legislative auditor must be conducted in a manner that ensures the preservation of evidence for use in criminal prosecutions. The legislative auditor may present for prosecution the findings of any activity to the office of the attorney general or to United States attorneys in Montana.

(4) The legislative auditor shall report all convictions, terminations, and suspensions taken against vendors, contractors, and health care providers to the department and to any agency responsible for licensing or regulating those persons or entities.

(5) The legislative auditor shall make periodic reports, findings, and recommendations regarding its oversight activities authorized by this section.

History: En. Sec. 1, Ch. 551, L. 2003; amd. Sec. 4, Ch. 287, L. 2005.

53-6-1002. Prescription drug plus discount program — rules. (1) The department may provide for a prescription drug plus discount program offering prescription drugs at a discounted price to qualified individuals whose income is at a level set by the department at or below 250% of the federal poverty level and who meet the requirements in 53-6-1003.

All money received by the state as rebates from pharmaceutical manufacturers for the program must be deposited in the account. The money in the account, which is administered by the department, must be used to expand prescription drug benefits to qualified individuals. Interest on account balances accrues to the account. The purpose of the account is to:

(a) reimburse participating retail pharmacies for the secondary discounted price; and

(b) reimburse the department for contracted services, administrative costs, associated computer costs, professional fees paid to participating retail pharmacies, pharmacy benefit administrators, and other reasonable program costs.

(3) The department shall provide for sufficient personnel to ensure efficient administration of the program. The extent and the magnitude of the program must be determined by the department on the basis of the calculated need of the recipient population and available funds. The department may not spend more on this program than is available through appropriations, federal or other grants, and other established and committed funding sources. The department may accept, for the purposes of carrying out this program, federal funds appropriated under any

federal law relating to the furnishing of free or low-cost drugs to disadvantaged, elderly, and disabled individuals, may take action that is necessary for the purposes of carrying out that federal law, and may accept from any other agency of government, individual, group, or corporation funds that may be available to carry out this part.

(4) The department may adopt rules relating to the conduct of this program.

(5) The department shall, if the department determines that sufficient funds are available, adopt rules to establish the secondary discounted price to be charged to participants in the program. The department may establish a secondary discounted price to encourage the use of generic drugs over higher-cost brand-name drugs.

(6) The department shall establish by rule eligibility based upon the applicant's family income as provided in 53-6-1003. The total income may not exceed 250% of the federal poverty level. The department may adopt rules defining income. In establishing eligibility based upon income, the department shall take into account the amount of funding available for the program. The department shall issue enrollment materials to eligible individuals.

(7) Establishment of the program is contingent upon compliance with all applicable federal laws. The department may adopt rules necessary to implement conditions required by federal law.

(8) If program costs are expected to exceed the legislative authorization for the program, the department shall adjust discounted prices or eligibility standards to maintain the program within the available funding.

(9) Participation in the program by a pharmacy or a pharmaceutical manufacturer is voluntary.

(10) (a) The department may not contract with either an in-state or out-of-state mail service pharmacy, as defined in 37-7-702, for the purposes of the program for at least 1 year after persons eligible for the program have begun to purchase drugs through the program. At that time, the department shall evaluate the number of pharmacies within the state providing prescription drugs as part of the program.

(b) If the department determines that there are insufficient pharmacies participating in the program to allow reasonable access to persons qualified to purchase prescription drugs through the program, it may, after the evaluation provided for in subsection (10)(a), use one or more in-state or out-of-state mail service pharmacies, or both, for the purposes of the program.

53-6-1004. State pharmacy access program. (1) The department shall administer a pharmacy access prescription drug benefit program that contributes to the cost of the premium and, optionally, to the cost of the deductible for the Part D medicare prescription drug benefit as established in Title I of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003.

(2) An individual is eligible for the pharmacy access program if the individual:

(a) has a family income, as adopted by rule, of up to 200% of the federal poverty guidelines set annually by the U.S. department of health and human services and is not eligible for federal low-income assistance under Part D;

(b) submits proof of enrollment in a prescription drug plan for the Part D medicare benefit.

(3) The department shall establish by rule eligibility based upon the applicant's family income within the range provided in subsection (2). The department may adopt rules defining income. In establishing eligibility based upon income, the department shall take into account the amount of funding available for the program.

(4) The department shall set an amount of benefit for the premium and may optionally set a portion of the deductible by rule based on the numbers enrolled and the appropriation.

(5) The department shall open the enrollment of the pharmacy access program at the same time as enrollment commences for the medicare Part D program.

(6) If the department determines that there are excess funds for the pharmacy access program, it may use the funds for the program provided for in 53-6-1002.

(1) There is a prescription drug consumer information and technical assistance program in the department to provide Montana residents with advice on the prudent use of prescription drugs and how to access government and private prescription drug programs and discounts. The program must include consultation by licensed pharmacists with individuals on how to avoid dangerous drug interactions and provide for substitution of more cost-effective drugs with approval by the prescribing health care professional.

(2) The department shall create educational resources, including a website, concerning the costs and benefits of various drugs to inform consumers and medical practitioners on clinically effective and cost-conscious prescription drugs.

(2) Information disclosed by manufacturers during negotiations and all terms and conditions negotiated between the director and manufacturers and all information requested or required under the program are public information, except for information that the department determines is proprietary information.

(3) The department may use a formulary or other committee to determine preferred drug lists for department programs. The department shall include a representative of consumers on any formulary committee or committee to determine preferred drug lists for purchase by the department or reimbursement of costs. Any formulary or preferred drug list must be based on objective clinical data on safety and effectiveness. If two or more drugs are found to be equally effective and safe for the treatment of the same medical condition, the drug available at the lowest net price, inclusive of discounts and rebates, must be placed on the list. Other drugs for treating the same medical condition may be added to the list if they are therapeutically equivalent and the department determines them to be cost-effective.

(4) The department may negotiate rebates from the prescription drug manufacturers for drugs that will be on any preferred drug list. The department may negotiate price discounts with prescription drug manufacturers for any state-purchased health care programs, including medicaid, the state children's health insurance program, and the program provided for in 53-6-1002.

(5) The department may use the access restrictions and a preferred drug list to negotiate for the most favorable discount prices and rebates for the program.

(6) The department may participate in multistate purchasing pool initiatives for the benefit of the program.

History: **En. Sec. 4, Ch. 551, L. 2003; amd. Sec. 7, Ch. 287, L. 2005.**

(3) This account may be used only to provide funding for:

(a) the state funds necessary to take full advantage of available federal matching funds in order to maximize enrollment of eligible children under the children's health insurance program, provided for under Title 53, chapter 4, part 10, and to provide outreach to the eligible children. The increased revenue in this account is intended to increase enrollment rates for eligible children in the program and not to be used to support existing levels of enrollment based upon appropriations for the biennium ending June 30, 2005.

(b) a new need-based prescription drug program established by the legislature for children, seniors, chronically ill, and disabled persons that does not supplant similar services provided under any existing program;

(c) increased medicaid services and medicaid provider rates. The increased revenue is intended to increase medicaid services and medicaid provider rates and not to supplant the general fund in the trended traditional level of appropriation for medicaid services and medicaid provider rates.

(d) an offset to loss of revenue to the general fund as a result of new tax credits;

(e) to fund new programs to assist eligible small employers with the costs of providing health insurance benefits to eligible employees;

(f) the cost of administering the tax credit, the purchasing pool, and the premium incentive payments and premium assistance payments as provided in Title 33, chapter 22, part 20; and

(g) to provide a state match for the medicaid program for premium incentive payments or premium assistance payments to the extent that a waiver is granted by federal law as provided in 53-2-216.

(4) (a) Except for $1 million appropriated for the startup costs of 53-6-1004 and 53-6-1005, the money appropriated for fiscal year 2006 for the programs in subsections (3)(b) and (3)(d) through (3)(g) may not be expended until the office of budget and program planning has certified that $25 million has been deposited in the account provided for in this section or December 1, 2005, whichever occurs earlier.

(b) On or before July 1, the budget director shall calculate a balance required to sustain each program in subsection (3) for each fiscal year of the biennium. If the budget director certifies that the reserve balance will be sufficient, then the agencies may expend the revenue for the programs as appropriated. If the budget director determines that the reserve balance of the revenue will not support the level of appropriation, the budget director shall notify each agency. Upon receipt of the notification, the agency shall adjust the operating budget for the program to reflect the available revenue as determined by the budget director.

(c) Until the programs or credits described in subsections (3)(b) and (3)(d) through (3)(g) are established, the funding must be used exclusively for the purposes described in subsections (3)(a) and (3)(c).

(5) The phrase "trended traditional level of appropriation", as used in subsection (3)(c), means the appropriation amounts, including supplemental appropriations, as those amounts were set based on eligibility standards, services authorized, and payment amount during the past five biennial budgets.

(6) The department of public health and human services may adopt rules to implement this section.

Compiler's Comments

2007 Amendment Not Codified: Section 4, Ch. 482, L. 2007, was not codified because of its short duration. Inserted (4) that read: "Money appropriated but not expended for the prescription drug program described in subsection (3)(b) must be transferred annually to the older Montanans trust fund provided for in 52-3-115"; and deleted former (4)(a) that read: "(4) (a) Except for $1 million appropriated for the startup costs of 53-6-1004 and 53-6-1005, the money appropriated for fiscal year 2006 for the programs in subsections (3)(b) and (3)(d) through (3)(g) may not be expended until the office of budget and program planning has certified that $25 million has been deposited in the account provided for in this section or December 1, 2005, whichever occurs earlier"; and made minor changes in style. Amendment effective May 11, 2007, and terminates July 1, 2007.

Retroactive Applicability: Section 31(2), Ch. 399, L. 2007, provided: "(2) For purposes of receiving a tax credit, [this act] and Chapter 595, Laws of 2005, apply retroactively, within the meaning of 1-2-109, to eligible premiums paid after December 31, 2005, by eligible small employers registered under 33-22-208."

Part Cross-References

Availability of remedies — liability, Title 27, ch. 1.

53-9-101. Short title. This part may be cited as "The Crime Victims Compensation Act of Montana".

History: En. 71-2601 by Sec. 1, Ch. 527, L. 1977; R.C.M. 1947, 71-2601.

53-9-102. Legislative purpose and intent. It is the intent of the legislature to provide a method of compensating those persons within the state who are innocent victims of criminal acts, including acts of international terrorism, as defined in 18 U.S.C. 2331, that are committed outside of the United States against a resident of this state, and who suffer bodily injury or death and those innocent citizens of this state who are injured or killed in a state that does not have a crime victims compensation program that covers out-of-state residents injured or killed in that state. To this end, it is the legislature's intention to provide compensation for injuries suffered as a direct result of the criminal acts of other persons and to coordinate victims assistance programs.

History: En. 71-2602 by Sec. 2, Ch. 527, L. 1977; R.C.M. 1947, 71-2602; amd. Sec. 1, Ch. 354, L. 1991; amd. Sec. 1, Ch. 397, L. 1991; amd. Sec. 7, Ch. 186, L. 1997.

53-9-103. Definitions. As used in this part, the following definitions apply:

(1) "Claimant" means any of the following claiming compensation under this part:

(a) a victim;

(b) a dependent of a deceased victim; or

(c) an authorized person acting on behalf of any of them.

(2) "Collateral source" means a source of benefits, other than welfare benefits, or advantages for economic loss otherwise compensable under this part that the claimant has received or that is readily available to the claimant from:

(a) the offender;

(b) the government of the United States or any agency thereof, a state or any of its political subdivisions, or an instrumentality of two or more states, unless the law providing for the benefits or advantages makes them excess or secondary to benefits under this part;

(c) social security, medicare, and medicaid;

(d) workers' compensation;

(e) wage continuation programs of any employer;

(f) proceeds of a contract of insurance payable to the claimant for loss that was sustained because of the criminally injurious conduct;

(g) a contract, including an insurance contract, providing hospital and other health care services or benefits for disability. A contract in this state may not provide that benefits under this part are a substitute for benefits under the contract or that the contract is a secondary source of benefits and benefits under this part are a primary source.

(h) a crime victims compensation program operated by the state in which the victim was injured or killed that compensates residents of this state injured or killed in that state; or

(i) any other third party.

(3) "Criminally injurious conduct" means conduct that:

(a) occurs or is attempted in this state or an act of international terrorism, as defined in 18 U.S.C. 2331, committed outside of the United States against a resident of this state;

(b) results in bodily injury or death; and

(c) is punishable by fine, imprisonment, or death or would be so punishable except that the person engaging in the conduct lacked capacity to commit the crime under the laws of this state; however, criminally injurious conduct does not include conduct arising out of the ownership, maintenance, or use of a motor vehicle unless the bodily injury or death occurred during the commission of an offense defined in Title 45 that requires the mental state of purposely as an element of the offense or the injury or death was inflicted by the driver of a motor vehicle who is found by the office, by a preponderance of the evidence, to have been operating the motor vehicle while under the influence, as that term is defined in 61-8-401; or

(d) is committed in a state without a crime victims compensation program that covers a resident of this state if the conduct meets the requirements in subsections (3)(b) and (3)(c).

(4) "Dependent" means a natural person who is recognized under the law of this state to be wholly or partially dependent upon the victim for care or support and includes a child of the victim conceived before the victim's death but born after the victim's death, including a child that is conceived as a result of the criminally injurious conduct.

(5) "Office" means the office of victims services established in 2-15-2016.

(6) "Victim" means a person who suffers bodily injury or death as a result of:

(a) criminally injurious conduct;

(b) the person's good faith effort to prevent criminally injurious conduct; or

(c) the person's good faith effort to apprehend a person reasonably suspected of engaging in criminally injurious conduct.

(d) require any person contracting directly or indirectly with an individual convicted of a qualifying crime for any book, photograph, movie, television production, or play prepared for a commercial purpose that is based directly upon the crime or for the sale of an item owned or obtained by an individual convicted of a qualifying crime or obtained, produced, or gained directly through unique knowledge about the crime or preparation for the crime to deposit any proceeds paid or owed to the individual under the terms of the contract into an escrow fund for the benefit of any victims of the qualifying crime and any dependents of a deceased victim, to be held for a period of time that the office may determine is reasonably necessary to perfect the claims of the victims or dependents. Deposited proceeds may also be used to reimburse the office of state public defender, provided for in 47-1-201, for costs associated with providing assigned counsel for the charged person. Each victim and dependent of a deceased victim is entitled to actual and unreimbursed damages of all kinds or $5,000, whichever is greater. Proceeds remaining after payments to victims, dependents of deceased victims, and the state for any public defender or any attorney assigned for the charged person must be deposited in the state general fund.

(2) The office may:

A statute providing confidentiality for a claimant's juvenile court records does not apply to proceedings under this part.

(b) request and obtain from a health care provider medical reports that are relevant to the physical condition of a claimant or from an insurance carrier, agent, or claims adjuster insurance payment information that is relevant to expenses claimed by a claimant if the office has made reasonable efforts to obtain from the claimant a release of the records or information. No civil or criminal liability arises from the release of information requested under this subsection (2)(b).

The office shall pay for the examination or autopsy. The order must specify the time, place, manner, conditions, and scope of the examination or

53-9-125. Limitations on awards. (1) Except as otherwise provided in this section, compensation may not be awarded unless the claim is filed with the office within 1 year after the day the criminally injurious conduct occurred causing the injury or death upon which the claim is based. Compensation in cases involving sexual offenses against minors may not be awarded unless the claim is filed with the office within 1 year after the day the criminally injurious conduct was reported to a law enforcement agency or an agency of the state responsible for provision of child welfare services, or within 1 year after the day the victim reaches 18 years of age, whichever occurs last. The time for filing a claim may be extended by the office for good cause shown.

(2) Compensation may not be awarded to a claimant who is the offender or an accomplice of the offender or to any claimant if the award would unjustly benefit the offender or accomplice.

(3) Compensation may not be awarded unless the criminally injurious conduct resulting in injury or death was reported to a law enforcement officer. The report must be made within 72 hours after its occurrence, except in a case involving a sexual offense against a minor or when the office finds there was good cause for the failure to report within that time.

(4) In order to be entitled to benefits under this part, a claimant shall fully cooperate with all law enforcement agencies and prosecuting attorneys in the apprehension and prosecution of the offender causing the criminally injurious conduct. The office, upon finding that the claimant or victim has not fully cooperated with appropriate law enforcement agencies or prosecuting attorneys, may deny or reconsider and reduce an award of compensation.

(5) Compensation otherwise payable to a claimant must be reduced or denied to the extent the compensation benefits payable are or can be recouped from collateral sources.

(6) Persons serving a sentence of imprisonment or residing in any other public institution which provides for the maintenance of the person are not entitled to the benefits of this part.

(7) Compensation may be denied or reduced if the victim contributed to the infliction of death or injury with respect to which the claim is made. Any reduction in benefits under this subsection must be in proportion to what the office finds to be the victim's contribution to the infliction of death or injury.

53-9-126. Tentative award of compensation. If the office determines that the claimant will suffer financial hardship unless a tentative award is made and it appears likely that a final award will be made, an amount may be paid to the claimant, to be deducted from the final award or repaid by and recoverable from the claimant to the extent that it exceeds the final award.

(2) An award may be made whether or not any person is prosecuted or convicted. Proof of conviction of a person whose acts give rise to a claim is conclusive evidence that the crime was committed unless an application for rehearing, an appeal of the conviction, or certiorari is pending or a rehearing or new trial has been ordered.

(3) The office may suspend the proceedings pending disposition of a criminal prosecution that has been commenced or is imminent and may make a tentative award under 53-9-126.

53-9-128. Compensation benefits. (1) A claimant is entitled to weekly compensation benefits when the claimant has a total actual loss of wages due to injury as a result of criminally injurious conduct. During the time the claimant seeks weekly benefits, the claimant, as a result of the injury, must have no reasonable prospect of being regularly employed in the normal labor market. The weekly benefit amount is 66 ⅔% of the wages received at the time of the criminally injurious conduct, subject to a maximum of one-half the state's average weekly wage as determined in 39-51-2201. Weekly compensation payments must be made at the end of each 2-week period. Weekly compensation payments may not be paid for the first week after the criminally injurious conduct occurred, but if total actual loss of wages continues for 1 week, weekly compensation payments must be paid from the date the wage loss began. Weekly compensation payments must continue until the claimant has a reasonable prospect of being regularly employed in the normal labor market.

(2) The claimant is entitled to be reimbursed for reasonable services by a physician or surgeon, reasonable hospital services and medicines, and other treatment approved by the office for the injuries suffered due to criminally injurious conduct. Unless expressly requested by the claimant, benefits may not be paid under this subsection until the claimant has been fully compensated for total wage loss benefits as provided in subsection (1) or (7).

(3) (a) The dependents of a victim who is killed as a result of criminally injurious conduct are entitled to receive, in a gross single amount payable to all dependents, weekly benefits amounting to 66 ⅔% of the wages received at the time of the criminally injurious conduct causing the death, subject to a maximum of one-half the state's average weekly wage as determined in 39-51-2201. Weekly compensation payments must be made at the end of each 2-week period.

(b) Benefits under subsection (3)(a) must be paid to the spouse for the benefit of the spouse and other dependents unless the office determines that other payment arrangements should be made. If a spouse dies or remarries, benefits under subsection (3)(a) must cease to be paid to the spouse but must continue to be paid to the other dependents as long as their dependent status continues.

(4) Reasonable funeral and burial expenses of the victim, not exceeding $3,500, must be paid if all other collateral sources have properly paid expenses but have not covered all expenses.

(5) Compensation payable to a victim and all of the victim's dependents in cases of the victim's death because of injuries suffered due to an act of criminally injurious conduct may not exceed $25,000 in the aggregate.

(6) Compensation benefits are not payable for pain and suffering, inconvenience, physical impairment, or nonbodily damage.

(7) (a) A person who has suffered injury as a result of criminally injurious conduct and as a result of the injury has no reasonable prospect of being regularly employed in the normal labor market and who was employable but was not employed at the time of the injury may in the discretion of the office be awarded weekly compensation benefits in an amount determined by the office not to exceed $100 per week. Weekly compensation payments must continue until the claimant has a reasonable prospect of being regularly employed in the normal labor market. The claimant must be awarded benefits as provided in subsection (2).

(b) The dependents of a victim who is killed as a result of criminally injurious conduct and who was employable but not employed at the time of death may in the discretion of the office be awarded, in a gross single amount payable to all dependents, a sum not to exceed $100 per week, which is payable in the manner and for the period provided by subsection (3)(b) or for a shorter period as determined by the office. The claimant must be awarded benefits as provided in subsection (4).

(8) Except for benefits paid under subsections (3), (5), and (7)(b) or other benefits paid when the victim is killed as a result of criminally injurious conduct, amounts payable as weekly compensation may not be commuted to a lump sum and may not be paid less frequently than every 2 weeks.

(9) (a) Subject to the limitations in subsection (9)(c), the spouse, parent, child, brother, or sister of a victim who is killed as a result of criminally injurious conduct is entitled to reimbursement for mental health treatment received as a result of the victim's death.

(b) Subject to the limitations in subsection (9)(c), the parent, brother, or sister of a minor who is a victim of criminally injurious conduct involving a sexual offense and who is not entitled to receive services under Title 41, chapter 3, is entitled to reimbursement for mental health treatment received as a result of that criminally injurious conduct.

(c) Total payments made under subsections (9)(a) and (9)(b) may not exceed $2,000 or 12 consecutive months of treatment for each person, whichever occurs first.

53-9-129. Award not subject to execution, attachment, garnishment, or assignment — exception. (1) An award is not subject to execution, attachment, garnishment, or other process, except an execution, attachment, or garnishment of a right to compensation for work loss to secure payment of maintenance or child support.

(2) An assignment or agreement to assign a right to compensation in the future is unenforceable except:

(a) an assignment of a right to compensation for work loss to secure payment of maintenance or child support; or

(b) an assignment of a right to compensation to the extent that the benefits are for the cost of products, services, or accommodations necessitated by the injury or death on which the claim is based and are provided or to be provided by the assignee.

53-9-130. Reconsideration and review of office's decisions. (1) The office on its own motion or on request of the claimant may reconsider a decision making or denying an award or determining its amount. The office shall reconsider at least annually every award being paid in installments. An order on reconsideration of an award may not require refund of amounts previously paid unless the award was obtained by fraud.

(2) The right of reconsideration does not affect the finality of an office decision for the purpose of appeal.

History: En. 71-2615 by Sec. 15, Ch. 527, L. 1977; R.C.M. 1947, 71-2615; amd. Sec. 19, Ch. 124, L. 2001.

53-9-131. Appeals. After the office has made final determination concerning any matter relating to a claim, if the claimant disputes the office's determination, the claimant may appeal to the district court for the county in which the claimant resides or Lewis and Clark County for review. Review on appeal must be in conformity with 2-4-701 through 2-4-704 of the Montana Administrative Procedure Act. The judge, after a hearing, shall make a final determination concerning the dispute and issue an appropriate order affirming, reversing, or modifying the office's determination.

53-9-132. Subrogation. (1) If a claimant seeks compensation under this part and compensation is awarded, the office is entitled to full subrogation against a judgment or recovery received by the claimant against the offender or a collateral source arising from the criminally injurious conduct committed by the offender for all compensation paid under this part. The office's right of subrogation is a first lien on the judgment or recovery. If the claimant does not institute the action against the offender or collateral source within 1 year from the date the criminally injurious conduct occurred, the office may institute the action in the name of the claimant or the claimant's personal representative.

(2) If the claimant institutes the action, the office shall pay a proportional share of costs and attorney fees if it recovers under its subrogation interest.

(3) If the office institutes the action in the name of the claimant or the claimant's personal representative and the recovery is in excess of the amount of compensation paid to the claimant and costs incurred by the office in pursuit of the action, the excess must be paid to the claimant.

(4) If a judgment or recovery includes both damages for bodily injury or death for which the office has paid compensation under this part and damages for which the office has not paid compensation, then the office's subrogation interest applies only to that proportion of the judgment or recovery for which it has paid compensation. In a civil action in a court of this state arising out of criminally injurious conduct, the judge, on timely motion, shall direct the jury to return a special verdict indicating separately the amounts of the various items of damages awarded. A claimant may not make recoveries against the offender or collateral source in such a way as to avoid and preclude the office from receiving its proper subrogation share as provided in this section. The office shall release its lien provided for in subsection (1) upon receipt of its subrogation share.

Part 2
Commission on Provider Rates and Services

53-10-201. Legislative findings, purpose, and intent. (1) The legislature finds that services provided by the department to persons who are living in a community setting outside of state institutions and who are persons with developmental disabilities, are mentally ill, or are elderly or very young are essential services and the essential nature of the services is not diminished because the services are provided by contracts. Because the services provided by contracts are many and are important to the well-being of Montana residents who can least care for themselves, the legislature finds that it is necessary to establish a system under which provider services, the costs of providers, and the reimbursement rates paid to providers are monitored on a regular basis to ensure that state funding is appropriately expended, that consumers' and taxpayers' expectations are attended to, and that the providers of the services are treated fairly.

(2) The purpose of this part is to provide a regular, predictable, and equitable mechanism under which contracted services, costs, and reimbursement rates are given optimum attention by the department. The legislature does, however, retain its constitutional duty to enact or amend law concerning contracted services, make appropriations for contracted services through funding of department programs, and review department contracted service programs through the mechanism provided in this part. This part is not intended to restrict the legislature in making its appropriate policy and fiscal judgments concerning the value of department programs or services.

(3) It is the intent of the legislature that to the greatest extent practicable, the commission should:

(a) establish an open and defensible process for conducting its work;

(b) create a set methodology or protocol through which provider reimbursement rates can be recommended for a service, service level, or population of service consumers served by a provider and the department;

(c) recommend a list of reimbursable expenses for every service and service level based upon the expenses necessary to provide that service or service level and comply with the licensure, contracts, and administrative rules that govern that service or service level;

(d) recommend rate equity among service levels within a group of services and between different groups of services; and

(e) recommend the best and most cost-effective method of regulating and auditing provider services.

History: En. Sec. 1, Ch. 520, L. 2005.

53-10-202. Definitions. As used in this part, the following definitions apply:

(2) Except as provided in this section, the commission is subject to the provisions of 2-15-122.

(3) Except as provided in this section, members shall serve for a term of 2 years and may be reappointed by the appointing authority for one additional term. A member appointed to fill an unexpired term may be appointed for an additional two terms. The appointing authority shall stagger the first terms of the first board to terms of 2 to 4 years. Members appointed to represent state departments, offices, or other state bodies may be appointed and reappointed as the department determines necessary.

(4) The commission shall elect a presiding officer and vice presiding officer and by vote determine its rules of operation. The commission shall meet at the call of the presiding officer, who shall determine meeting times in consultation with the department.

(2) The commission shall consult with the director concerning provider services, costs, and reimbursement rates subject to its review but shall make independent determinations of those matters within its authority. The commission shall establish the order in which provider services, costs, and reimbursement rates will be reviewed by the commission and the methodology that the commission will use in its review.

(3) The commission shall take into account the work of other advisory groups or councils working with the department on subjects concerning its authority and make recommendations to the director and appropriate members of those groups or councils concerning the subject and timing of the work of those groups or councils that will assist the commission and those groups or councils to exercise their legal or other authority and achieve their purpose.

(4) In conducting its review, the commission shall also consider:

(a) the need for the department to limit expenditures to appropriations;

(b) existing and future contracts with the department;

(c) state and federal laws, rules, and regulations; and

(d) the intention of the legislature to live within available revenue.

(5) In reviewing existing reimbursement rates and recommending new or altered reimbursement rates to be paid to providers, the commission shall consider the following factors:

(a) the level of financial risk taken by a provider in providing services;

(b) the complexity of the provider's services;

(c) the capital investment made by the provider;

(d) the administrative overhead in the provider's business; and

(e) any other matter affecting the cost of the provider's services.

Part 3
Telecommunications Services

53-19-301. Legislative findings and declaration. (1) The legislature finds and declares that many Montana citizens have physical disabilities and are unable to use traditional telecommunications equipment and services without assistance. These citizens constitute a substantial and valuable resource within the United States and the state of Montana, and this segment of our population needs access to telecommunications services in order to function as contributing and productive members of our society.

(2) The legislature further finds and declares that the role of telecommunications in our world today is inestimable. Telecommunications is the primary vehicle of commerce and industry, the means to convey and receive information and knowledge, and the way that we connect with others on a personal as well as business level. Telecommunications gives people independence and self-sufficiency, and it provides goods and services, human contact, and fellowship.

(3) The legislature further finds that access to telecommunications services should be provided to persons who have disabilities not only for their own sake but for the benefit of society at large. Access to telecommunications services would enhance the business and personal lives of persons with disabilities, and its availability to persons with disabilities would be an investment of benefit to all of Montana.

(4) Consistent with the findings stated in subsections (1) through (3), the legislature finds it appropriate to provide persons with disabilities access to telecommunications services by creating a program to make specialized telecommunications equipment and services available to persons with disabilities.

History: En. Sec. 1, Ch. 669, L. 1989; amd. Sec. 2, Ch. 396, L. 1997; amd. Sec. 62, Ch. 472, L. 1997.

(5) "Net amount billed for the fee" means the gross amount billed for fees imposed by 53-19-311, less adjustments for uncollectible accounts, refunds, incorrect billings, and other appropriate adjustments.

(6) "Person with a disability" means the condition of a person who is deaf and blind, deaf, hard-of-hearing, speech-disabled, or mobility-disabled.

(7) "Program" means the program established in 53-19-306.

(8) "Service provider" means an entity that offers services to subscribers in Montana to allow two or more persons in different locations to communicate orally, without regard to the technology or medium the entity uses to provide the telecommunications service, and access to telecommunications relay service. The term includes providers of telecommunications service, including but not limited to providers of internet protocol-enabled voice communications service.

(9) "Specialized telecommunications equipment" means any telecommunications device that enables or assists a person with a disability to communicate with others by means of the public switched telephone network or internet protocol-enabled voice communications service. The term includes but is not limited to text telephones (TTY), amplifiers, signaling devices, puff-blow devices, electronic artificial larynx devices, telebraille, and equipment for the mobility-disabled.

(10) "Subscriber" means an end user who receives telecommunications network access from a service provider.

(11) "Telecommunications" means the transmission, between or among points specified by the user, of information of the user's choosing without a change in the form or content of the information upon receipt.

(12) "Telecommunications relay service" means a service that permits full and simultaneous communication between those using specialized telecommunications equipment and those using conventional telephone equipment or any other technology or equipment, including but not limited to personal computers and videophones.

For purposes of this section, a return filed before the last day prescribed for filing is considered as filed on the last day. If the service provider, before the expiration of the period prescribed for assessment of the fee, consents in writing to an assessment after that time, the fee may be assessed at any time prior to the expiration of the period agreed upon.

(2) A refund or credit may not be allowed or paid with respect to the year for which a return is filed after 5 years from the last day prescribed for filing the return or after 1 year from the date of the overpayment, whichever period expires later, unless before the expiration of the period the service provider files a claim or the department determines the existence of the overpayment and approves the refund or credit. If the service provider has agreed in writing under the provisions of subsection (1) to extend the time within which the department may propose an additional assessment, the period within which a claim for refund or credit may be filed or a credit or refund is allowed if no claim is filed is automatically extended.

(3) If a return is required to be filed and the service provider fails to file the return, the fee may be assessed or an action to collect the fee may be brought at any time. If a return is required to be filed and the service provider files a fraudulent return, the 5-year period provided for in subsection (1) does not begin until discovery of the fraud by the department.

53-20-141. Denial of legal rights. (1) Unless specifically stated in an order by the court, a person committed to a residential facility or for whom a community treatment plan has been imposed for an extended course of habilitation does not forfeit any legal right or suffer any legal disability by reason of the provisions of this part, except to the extent that it may be necessary to detain the person for habilitation, evaluation, or care.

(2) Whenever a person is admitted to a residential facility or a community treatment plan is imposed for the person for a period of more than 30 days, the court ordering the commitment or imposing the community treatment plan may make an order stating specifically any legal rights that are denied and any legal disabilities that are imposed on the respondent. As part of its order, the court may appoint a person to act as conservator of the respondent's property. Any conservatorship created pursuant to this section terminates upon the conclusion of the commitment or expiration of the order imposing the community treatment plan if not previously terminated by the court. A conservatorship or guardianship extending beyond the period of the commitment or order imposing a community treatment plan may not be created except according to the procedures set forth under Montana law for the appointment of conservators and guardians generally.

However, this subsection does not affect any guardianship or conservatorship created independently of the proceedings according to the provisions of Montana law relating to the appointment of conservators and guardians generally. Upon termination of any commitment or order imposing a community treatment plan under this part, the qualified mental retardation professional or case manager in charge of the person's care shall give the person a written statement setting forth the substance of this subsection.

(1) Residents have a right to dignity, privacy, and humane care.

(2) Residents are entitled to send and receive sealed mail. Moreover, it is the duty of the facility to foster the exercise of this right by furnishing the necessary materials and assistance.

(3) Residents must have the same rights and access to private telephone communication as patients at any public hospital except to the extent that the individual treatment planning team or the qualified mental retardation professional responsible for formulation of a particular resident's habilitation plan writes an order imposing special restrictions and explains the reasons for the restrictions. The written order must be renewed monthly if any restrictions are to be continued.

(4) Residents have an unrestricted right to visitation except to the extent that the individual treatment planning team or the qualified mental retardation professional

responsible for formulation of a particular resident's habilitation plan writes an order imposing special restrictions and explains the reasons for the restrictions. The written order must be renewed monthly if restrictions are to be continued.

(5) Residents have a right to receive suitable educational and habilitation services regardless of chronological age, degree of retardation, or accompanying disabilities.

(6) Each resident must have an adequate allowance of neat, clean, suitably fitting, and seasonable clothing. Except when a particular kind of clothing is required because of a particular condition, residents must have the opportunity to select from various types of neat, clean, and seasonable clothing. The clothing must be considered the resident's throughout the resident's stay in the facility. Clothing, both in amount and type, must make it possible for residents to go out of doors in inclement weather, to go for trips or visits appropriately dressed, and to make a normal appearance in the community. The facility shall make provision for the adequate and regular laundering of the residents' clothing.

(7) Each resident has the right to keep and use the resident's own personal possessions except insofar as the clothes or personal possessions may be determined by the individual treatment planning team or the qualified mental retardation professional to be dangerous either to the resident or to others.

(8) Each resident has a right to a humane physical environment within the residential facility. The facility must be designed to make a positive contribution to the efficient attainment of the habilitation goals of the resident. To accomplish this purpose:

(a) regular housekeeping and maintenance procedures that will ensure that the facility is maintained in a safe, clean, and attractive condition must be developed and implemented;

(b) pursuant to an established routine maintenance and repair program, the physical plant must be kept in a continuous state of good repair and operation so as to ensure the health, comfort, safety, and well-being of the residents and so as not to impede in any manner the habilitation programs of the residents;

(c) the physical facilities shall meet all fire and safety standards established by the state and locality. In addition, the facility shall meet the provisions of the life safety code of the national fire protection association that are applicable to it.

(d) there must be special facilities for nonambulatory residents to ensure their safety and comfort, including special fittings on toilets and wheelchairs. Appropriate provision must be made to permit nonambulatory residents to communicate their needs to staff.

(9) Residents have a right to receive prompt and adequate medical treatment for any physical or mental ailments or injuries or physical disabilities and for the prevention of any illness or disability. The medical treatment must meet standards of medical practice in the community. However, nothing in this subsection may be interpreted to impair other rights of a resident in regard to involuntary commitment for mental illness, use of psychotropic medication, use of hazardous, aversive, or experimental procedures, or the refusal of treatment.

(10) Corporal punishment is not permitted.

(11) The opportunity for religious worship must be accorded to each resident who desires worship. Provisions for religious worship must be made available to all residents on a nondiscriminatory basis. An individual may not be compelled to engage in any religious activities.

(12) Residents have a right to a nourishing, well-balanced diet. The diet for residents must provide at a minimum the recommended daily dietary allowance as developed by the national academy of sciences. Provisions must be made for special therapeutic diets and for substitutes at the request of the resident, the resident's parents, guardian, or next of kin, or the responsible person appointed by the court in accordance with the religious requirements of any resident's faith. Denial of a nutritionally adequate diet may not be used as punishment.

particular resident's habilitation plan writes an order to the contrary and explains the reasons for the order. The order must be renewed monthly if the restriction is to be continued.

All prescriptions must be written with a termination date that may not exceed 90 days. Medication for newly admitted residents must be reviewed and reordered as necessary upon admission and then every 30 days for the first 90 days. Medications may not be used as punishment, for the convenience of staff, as a substitute for a habilitation program, or in quantities that interfere with the resident's treatment program. Nothing in this section may be interpreted to relieve a physician or other professional or medical staff person from any obligation to adequately monitor the medication of a resident, with due consideration to the nature of the medication, the purpose for which it is given, and the condition of the resident.

History: En. 38-1226 by Sec. 26, Ch. 468, L. 1975; R.C.M. 1947, 38-1226; amd. Sec. 7, Ch. 485, L. 1979; amd. Sec. 18, Ch. 381, L. 1991.

53-20-146. Right not to be subjected to certain treatment procedures. (1) Residents of a residential facility have a right not to be subjected to unusual or hazardous treatment procedures without the express and informed consent of the resident, if the resident is able to give consent, and of the resident's parents or guardian or the responsible person appointed by the court after opportunities for consultation with independent specialists and legal counsel. Proposed procedures must first have been reviewed and approved by the mental disabilities board of visitors before consent is sought.

(2) Physical restraint may be employed only when absolutely necessary to protect the resident from injury or to prevent injury to others. Mechanical supports used to achieve proper body position and balance that are ordered by a physician are not considered a physical restraint. Restraint may not be employed as punishment, for the convenience of staff, or as a substitute for a habilitation program. Restraint may be applied only if alternative techniques have failed and only if the restraint imposes the least possible restriction consistent with its purpose. Use of restraints may be authorized by a physician, a developmental disabilities professional, or a qualified mental retardation professional. Orders for restraints must be in writing and may not be in force for longer than 12 hours. Whenever physical restraint is ordered, suitable provision must be made for the comfort and physical needs of the resident restrained.

(3) Seclusion, defined as the placement of a resident alone in a locked room for nontherapeutic purposes, may not be employed. Legitimate "time out" procedures may be used under close and direct professional supervision as a technique in behavior-shaping programs.

(4) Behavior modification programs involving the use of noxious or aversive stimuli must be reviewed and approved by the mental disabilities board of visitors and may be conducted only with the express and informed consent of the affected resident, if the resident is able to give consent, and of the resident's parents or guardian or the responsible person appointed by the court after opportunities for consultation with independent specialists and with legal counsel. These behavior modification programs may be conducted only under the supervision of and in the presence of a qualified mental retardation professional who has had proper training.

(5) A resident may not be subjected to a behavior modification program that attempts to extinguish socially appropriate behavior or to develop new behavior patterns when the behavior modifications serve only institutional convenience.

(6) Electric shock devices are considered a research technique for the purpose of this part. Electric shock devices may be used only in extraordinary circumstances to prevent self-mutilation leading to repeated and possibly permanent physical damage to the resident and only after alternative techniques have failed. The use of electric shock devices is subject to the conditions prescribed by this part for experimental research generally and may be used only under the direct and specific order of a physician and the superintendent of the residential facility.

History: En. 38-1227 by Sec. 27, Ch. 468, L. 1975; R.C.M. 1947, 38-1227; amd. Sec. 8, Ch. 485, L. 1979; amd. Sec. 19, Ch. 381, L. 1991; amd. Sec. 18, Ch. 255, L. 1995.

53-20-147. Right not to be subjected to experimental research. (1) Residents of a residential facility have a right not to be subjected to experimental research without the express and informed consent of the resident, if the resident is able to give consent, and of the resident's parents or guardian or the responsible person appointed by the court after opportunities for consultation with independent specialists and with legal counsel.

(2) The proposed research must have been reviewed and approved by the mental disabilities board of visitors before consent may be sought. Prior to approval, the board shall determine that the research complies with the principles of the statement on the use of human subjects for research of the American association on mental deficiency and with the principles for research involving human subjects required by the United States department of health and human services for projects supported by that agency.

History: En. 38-1228 by Sec. 28, Ch. 468, L. 1975; R.C.M. 1947, 38-1228; amd. Sec. 71, Ch. 10, L. 1993.

53-20-148. Right to habilitation. (1) Persons admitted to residential facilities have a right to habilitation, including medical treatment, education, and care suited to their needs, regardless of age, degree of retardation, or disabling condition. Each resident has a right to a habilitation program that will maximize the resident's human abilities and enhance the resident's ability to cope with the environment. Every residential facility shall recognize that each resident, regardless of ability or status, is entitled to develop and realize the resident's fullest potential. The facility shall implement the principle of normalization so that each resident may live as normally as possible.

(2) Residents have a right to the least restrictive conditions necessary to achieve the purposes of habilitation. To this end, the facility shall make every attempt to move residents from:

(a) more to less structured living;
(b) larger to smaller facilities;
(c) larger to smaller living units;
(d) group to individual residences;
(e) segregated from the community to integrated into the community living;
(f) dependent to independent living.

(3) Within 30 days of admission to a residential facility, each resident must have an evaluation by appropriate specialists for programming purposes.

(4) Each resident must have an individualized habilitation plan formulated by an individual treatment planning team. This plan must be implemented as soon as possible, but no

later than 30 days after the resident's admission to the facility. An interim program of habilitation, based on the preadmission evaluation conducted pursuant to this part, must commence promptly upon the resident's admission. Each individualized habilitation plan must contain:

(a) a statement of the nature of the specific limitations and the needs of the resident;

(b) a description of intermediate and long-range habilitation goals, with a projected timetable for their attainment;

(c) a statement of and an explanation for the plan of habilitation for achieving these intermediate and long-range goals;

(d) a statement of the least restrictive setting for habilitation necessary to achieve the habilitation goals of the resident;

(e) a specification of the professionals and other staff members who are responsible for the particular resident's attaining these habilitation goals;

(f) criteria for release to less restrictive settings for habilitation, based on the resident's needs, including criteria for discharge and a projected date for discharge.

(5) As part of the habilitation plan, each resident must have an individualized postinstitutionalization plan that includes an identification of services needed to make a satisfactory community placement possible. This plan must be developed by the individual treatment planning team that shall begin preparation of the plan upon the resident's admission to the facility and shall complete the plan as soon as practicable. The parents or guardian or next of kin of the resident, the responsible person appointed by the court, if any, and the resident, if able to give informed consent, must be consulted in the development of the plan and must be informed of the content of the plan.

(6) In the interests of continuity of care, one qualified mental retardation professional shall whenever possible be responsible for supervising the implementation of the habilitation plan, integrating the various aspects of the habilitation program, and recording the resident's progress as measured by objective indicators. The qualified mental retardation professional is also responsible for ensuring that the resident is released when appropriate to a less restrictive habilitation setting.

(7) The habilitation plan must be reviewed monthly by the qualified mental retardation professional responsible for supervising the implementation of the plan and must be modified if necessary. In addition, 6 months after admission and at least annually thereafter, each resident must receive a comprehensive psychological, social, habilitative, and medical diagnosis and evaluation and the resident's habilitation plan must be reviewed and revised accordingly by the individual treatment planning team. A habilitation plan must be reviewed monthly.

(8) Each resident placed in the community must receive transitional habilitation assistance.

(9) The superintendent of the residential facility, or the superintendent's designee, shall report in writing to the parents or guardian of the resident or the responsible person at least every 6 months on the resident's habilitation and medical condition. The report must also state any appropriate habilitation program that has not been afforded to the resident because of inadequate habilitation resources.

(10) Each resident, the parents or guardian of each resident, and the responsible person appointed by the court must promptly upon the resident's admission receive a written copy of and be orally informed of all the above standards for adequate habilitation, the rights accorded by 53-20-142, and other information concerning the care and habilitation of the resident that may be available to assist them in understanding the situation of the resident and the rights of the resident in the facility.

53-20-149 through 53-20-160 reserved.

53-20-161. Maintenance of records. (1) Complete records for each resident must be maintained and must be readily available to persons who are directly involved with the particular resident and to the mental disabilities board of visitors. All information contained in a resident's records must be considered privileged and confidential. The parents or guardian, the responsible person appointed by the court, and any person properly authorized in writing by the resident, if the resident is capable of giving informed consent, or by the resident's parents or guardian or the responsible person must be permitted access to the resident's records. Information may not be released from the records of a resident or former resident of the residential facility unless the release of the information has been properly authorized in writing by:

(g) the superintendent of the residential facility or the superintendent's designee as custodian of a resident under the age of majority for whom there is no parent or legal guardian; or

(h) the superintendent of the residential facility or the superintendent's designee as custodian of a resident of that facility whenever release is required by federal or state law or department of public health and human services rules.

(2) Information may not be released by a superintendent or the superintendent's designee as set forth in subsection (1)(f), (1)(g), or (1)(h) less than 15 days after sending notice of the proposed release of information to the resident, the resident's parents or guardian, the attorney who most recently represented the resident, if any, the responsible person appointed by the court, if any, the resident's advocate, if any, and the court that ordered the admission. If any of the parties so notified objects to the release of information, they may petition the court for a hearing to determine whether the release of information should be allowed. Information may not be released pursuant to subsection (1)(f), (1)(g), or (1)(h) unless it is released to further some legitimate need of the resident or to accomplish a legitimate purpose of the facility that is not inconsistent with the needs and rights of the resident. Information may not be released pursuant to subsection (1)(f), (1)(g), or (1)(h) except in accordance with written policies consistent with the requirements of this part adopted by the facility. Persons receiving notice of a proposed release of information must also receive a copy of the written policy of the facility governing release of information.

All resident care workers who have not had prior clinical experience in a residential facility for habilitation of persons with developmental disabilities must be given suitable orientation training. 53-20-163. Abuse of residents prohibited. (1) Every residential facility shall prohibit mistreatment, neglect, or abuse in any form of any resident. Alleged violations must be reported immediately to the superintendent of the facility, and there must be a written record that:

(a) each alleged violation has been thoroughly investigated and findings stated; and

(b) the investigation into the alleged violation was initiated within 24 hours of the report of the incident and the results were reported to the director of the department of public health and human services.

(2) The reports must also be made to the mental disabilities board of visitors monthly. Each facility shall cause a written statement of this policy to be posted in each cottage and building and circulated to all staff members.

53-20-164. Resident labor. The following rules govern resident labor:

(1) A resident may not be required to perform labor that involves the operation and maintenance of the facility or for which the facility is under contract with an outside organization. Privileges or release from the facility may not be conditioned upon the performance of labor covered by this provision. Residents may voluntarily engage in such labor if the labor is compensated in accordance with the minimum wage laws of the Fair Labor Standards Act of 1938, 29 U.S.C. 206, as amended.

(2) A resident may not be involved in the care (feeding, clothing, bathing), training, or supervision of other residents unless he:

(a) has volunteered;

(b) has been specifically trained in the necessary skills;

(c) has the humane judgment required for such activities;

(d) is adequately supervised; and

(e) is reimbursed in accordance with the minimum wage laws of the Fair Labor Standards Act of 1938, 29 U.S.C. 206, as amended.

(3) Residents may be required to perform vocational training tasks that do not involve the operation and maintenance of the facility, subject to a presumption that an assignment of longer than 3 months to any task is not a training task, provided the specific task or any change in task assignment is:

(a) an integrated part of the resident's habilitation plan and approved as a habilitation activity by the qualified mental retardation professional and the individual treatment planning team responsible for supervising the resident's habilitation; and

(b) supervised by a staff member to oversee the habilitation aspects of the activity.

(4) Residents may voluntarily engage in habilitative labor at nonprogram hours for which the facility would otherwise have to pay an employee, provided the specific labor or any change in labor is:

(a) an integrated part of the resident's habilitation plan and approved as a habilitation activity by the qualified mental retardation professional and the individual treatment planning team responsible for supervising the resident's habilitation;

(b) supervised by a staff member to oversee the habilitation aspects of the activity; and

(c) compensated in accordance with the minimum wage laws of the Fair Labor Standards Act of 1938, 29 U.S.C. 206, as amended.

(5) If a resident performs habilitative labor that involves the operation and maintenance of a facility but due to physical or mental disability is unable to perform the labor as efficiently as a person not so physically or mentally disabled, then the resident may be compensated at a rate that bears the same approximate relation to the statutory minimum wage as his ability to perform that particular job bears to the ability of a person not so afflicted.

(6) Residents may be required to perform tasks of a personal housekeeping nature, such as the making of one's own bed.

(7) Deductions or payments for care and other charges may not deprive a resident of a reasonable amount of the compensation received pursuant to this section for personal and incidental purchases and expenses.

(8) Staffing must be sufficient so that the facility is not dependent upon the use of residents or volunteers for the care, maintenance, or habilitation of other residents or for income-producing services. The facility shall formulate a written policy to protect the residents from exploitation when they are engaged in productive work.

The trial must be held within 30 days. The county of residence shall pay the cost of travel and professional services associated with the trial. The judge shall appoint a professional person and a friend of respondent and set a date and time for the hearing on the petition that may not be on the same day as the initial appearance and that may not exceed 5 days, including weekends and holidays, unless the fifth day falls upon a weekend or holiday and unless additional time is requested on behalf of the respondent. The desires of the respondent must be taken into consideration in the appointment of the friend of respondent.

(3) If a judge is not available in the county in person, the clerk shall notify a resident judge by telephone and shall read the petition to the judge. The judge may do all things necessary through the clerk of court by telephone as if the judge were personally present, including ordering the office of state public defender, provided for in 47-1-201, to immediately provide assigned counsel. The judge, through the clerk of court, may also order that the respondent be

brought before a justice of the peace with the respondent's counsel to be advised of the respondent's constitutional rights, the respondent's rights under this part, and the contents of the order, as well as to furnish the respondent with a copy of the order. The justice of the peace shall ascertain the desires of the respondent with respect to the assignment of counsel or the hiring of private counsel, pursuant to 53-21-116 and 53-21-117, and this information must be immediately communicated to the resident judge.

If the professional person recommends commitment, the professional person's written report must contain a statement of the professional person's recommendations to the court for disposition under 53-21-127.

(2) The following action must be taken based on the professional person's findings:

(a) If the professional person recommends dismissal, the professional person shall additionally notify counsel and the respondent must be released and the petition dismissed. However, the county attorney may, upon good cause shown, request the court to order an additional, but no more than one, examination by a different professional person for a period of no more than 4 hours.

(b) If the court finds that commitment proceedings should continue, the hearing must be held as scheduled.

(3) The court may not order further evaluation pending the hearing unless sound medical reasons require additional time for a complete evaluation. The reasons must be set forth in the order, along with the amount of additional time needed.

Counsel must be orally notified immediately. Counsel for the respondent may then request a detention hearing, which must be held immediately.

(2) In the event of detention, the respondent must be detained in the least restrictive setting necessary to ensure the respondent's presence and ensure the safety of the respondent and of others as provided in 53-21-120.

(3) If the respondent is detained, the respondent has the right to be examined additionally by a professional person of the respondent's choice, which may not depend on the respondent's ability to pay, and the respondent must be informed of this right. Unless objection is made by counsel for the respondent, the respondent must continue to be evaluated and treated by the professional person pending the hearing.

(4) A respondent may not be detained in a jail or other correctional facility pending a hearing or trial to determine whether the respondent should be committed to a mental health facility.

53-21-125. Request for jury trial. At any time prior to the date set for hearing, the respondent, through his counsel, may request a jury trial, whereupon the time set for hearing shall be vacated and the matter set on the court's jury calendar at the earliest date possible, the matter taking precedence over all other matters. If there is not a jury in attendance, a jury shall be selected in the manner provided in 3-15-506 and a date set for trial by jury not later than 7 days, exclusive of Saturdays, Sundays, and holidays.

53-21-126. Trial or hearing on petition. (1) The respondent must be present unless the respondent's presence has been waived as provided in 53-21-119(2), and the respondent must be represented by counsel at all stages of the trial. The trial must be limited to the determination of whether or not the respondent is suffering from a mental disorder and requires commitment. At the trial, the court shall consider all the facts relevant to the issues of whether the respondent is suffering from a mental disorder. If the court determines that the respondent is suffering from a mental disorder, the court shall then determine whether the respondent requires commitment. In determining whether the respondent requires commitment and the appropriate disposition under 53-21-127, the court shall consider the following:

(a) whether the respondent, because of a mental disorder, is substantially unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety;

(b) whether the respondent has recently, because of a mental disorder and through an act or an omission, caused self-injury or injury to others;

(c) whether, because of a mental disorder, there is an imminent threat of injury to the respondent or to others because of the respondent's acts or omissions; and

(d) whether the respondent's mental disorder, as demonstrated by the respondent's recent acts or omissions, will, if untreated, predictably result in deterioration of the respondent's mental condition to the point at which the respondent will become a danger to self or to others or will be unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety. Predictability may be established by the respondent's relevant medical history.

(2) The standard of proof in a hearing held pursuant to this section is proof beyond a reasonable doubt with respect to any physical facts or evidence and clear and convincing evidence as to all other matters. However, the respondent's mental disorder must be proved to a reasonable medical certainty. Imminent threat of self-inflicted injury or injury to others must be proved by overt acts or omissions, sufficiently recent in time as to be material and relevant as to the respondent's present condition.

(3) The professional person appointed by the court must be present for the trial and subject to cross-examination. The trial is governed by the Montana Rules of Civil Procedure. However, if the issues are tried by a jury, at least two-thirds of the jurors shall concur on a finding that the respondent is suffering from a mental disorder and requires commitment. The written report of the professional person that indicates the professional person's diagnosis may be attached to the petition, but any matter otherwise inadmissible, such as hearsay matter, is not admissible merely because it is contained in the report. The court may order the trial closed to the public for the protection of the respondent.

(4) The professional person may testify as to the ultimate issue of whether the respondent is suffering from a mental disorder and requires commitment. This testimony is insufficient unless accompanied by evidence from the professional person or others that:

(a) the respondent, because of a mental disorder, is substantially unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety;

(b) the respondent has recently, because of a mental disorder and through an act or an omission, caused self-injury or injury to others;

(c) because of a mental disorder, there is an imminent threat of injury to the respondent or to others because of the respondent's acts or omissions; or

(d) (i) the respondent's mental disorder:

(A) has resulted in recent acts, omissions, or behaviors that create difficulty in protecting the respondent's life or health;

(B) is treatable, with a reasonable prospect of success;

(C) has resulted in the respondent's refusing or being unable to consent to voluntary admission for treatment; and

(ii) will, if untreated, predictably result in deterioration of the respondent's mental condition to the point at which the respondent will become a danger to self or to others or will be unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety. Predictability may be established by the respondent's relevant medical history.

(5) The court, upon the showing of good cause and when it is in the best interests of the respondent, may order a change of venue.

(6) An individual with a primary diagnosis of a mental disorder who also has a co-occurring diagnosis of chemical dependency may satisfy criteria for commitment under this part.

53-21-127. Posttrial disposition. (1) If, upon trial, it is determined that the respondent is not suffering from a mental disorder or does not require commitment within the meaning of this part, the respondent must be discharged and the petition dismissed.

(2) If it is determined that the respondent is suffering from a mental disorder and requires commitment within the meaning of this part, the court shall hold a posttrial disposition hearing. The disposition hearing must be held within 5 days (including Saturdays, Sundays, and holidays unless the fifth day falls on a Saturday, Sunday, or holiday), during which time the court may order further evaluation and treatment of the respondent.

(3) At the conclusion of the disposition hearing and pursuant to the provisions in subsection (7), the court shall:

(a) subject to the provisions of 53-21-193, commit the respondent to the state hospital or to a behavioral health inpatient facility for a period of not more than 3 months;

(b) commit the respondent to a community facility or program or to any appropriate course of treatment, which may include housing or residential requirements or conditions as provided in 53-21-149, for a period of:

(i) not more than 3 months; or

(ii) not more than 6 months in order to provide the respondent with a less restrictive commitment in the community rather than a more restrictive placement in the state hospital if a respondent has been previously involuntarily committed for inpatient treatment in a mental health facility and the court determines that the admission of evidence of the previous involuntary commitment is relevant to the criterion of predictability, as provided in 53-21-126(1)(d), and outweighs the prejudicial effect of its admission, as provided in 53-21-190; or

(c) commit the respondent to the Montana mental health nursing care center for a period of not more than 3 months if the following conditions are met:

(i) the respondent meets the admission criteria of the center as described in 53-21-411 and established in administrative rules of the department; and

(ii) the superintendent of the center has issued a written authorization specifying a date and time for admission.

(4) Except as provided in subsection (3)(b)(ii), a treatment ordered pursuant to this section may not affect the respondent's custody or course of treatment for a period of more than 3 months.

(5) In determining which of the alternatives in subsection (3) to order, the court shall choose the least restrictive alternatives necessary to protect the respondent and the public and to permit effective treatment.

(6) The court may authorize the chief medical officer of a facility or a physician designated by the court to administer appropriate medication involuntarily if the court finds that involuntary medication is necessary to protect the respondent or the public or to facilitate effective treatment. Medication may not be involuntarily administered to a patient unless the chief medical officer of the facility or a physician designated by the court approves it prior to the beginning of the involuntary administration and unless, if possible, a medication review committee reviews it prior to the beginning of the involuntary administration or, if prior review is not possible, within 5 working days after the beginning of the involuntary administration. The medication review committee must include at least one person who is not an employee of the facility or program. The patient and the patient's attorney or advocate, if the patient has one,

must receive adequate written notice of the date, time, and place of the review and must be allowed to appear and give testimony and evidence. The involuntary administration of medication must be again reviewed by the committee 14 days and 90 days after the beginning of the involuntary administration if medication is still being involuntarily administered. The mental disabilities board of visitors and the director of the department of public health and human services must be fully informed of the matter within 5 working days after the beginning of the involuntary administration. The director shall report to the governor on an annual basis.

(7) Satisfaction of any one of the criteria listed in 53-21-126(1) justifies commitment pursuant to this chapter. However, if the court relies solely upon the criterion provided in 53-21-126(1)(d), the court may require commitment only to a community facility or program or an appropriate course of treatment, as provided in subsection (3)(b), and may not require commitment at the state hospital, a behavioral health inpatient facility, or the Montana mental health nursing care center.

(8) In ordering commitment pursuant to this section, the court shall make the following findings of fact:

(a) a detailed statement of the facts upon which the court found the respondent to be suffering from a mental disorder and requiring commitment;

(b) the alternatives for treatment that were considered;

(c) the alternatives available for treatment of the respondent;

(d) the reason that any treatment alternatives were determined to be unsuitable for the respondent;

(e) the name of the facility, program, or individual to be responsible for the management and supervision of the respondent's treatment;

(f) if the order includes a requirement for inpatient treatment, the reason inpatient treatment was chosen from among other alternatives;

(g) if the order commits the respondent to the Montana mental health nursing care center, a finding that the respondent meets the admission criteria of the center and that the superintendent of the center has issued a written authorization specifying a date and time for admission; and

(h) if the order includes involuntary medication, the reason involuntary medication was chosen from among other alternatives.

53-21-128. Petition for extension of commitment period. (1) (a) Not less than 2 calendar weeks prior to the end of the 3-month period of commitment to the state hospital, a behavioral health inpatient facility, or the Montana mental health nursing care center or the period of commitment to a community facility or program or a course of treatment provided for in 53-21-127, the professional person in charge of the patient at the place of commitment may petition the district court in the county where the patient is committed for extension of the commitment period unless otherwise ordered by the original committing court. The petition must be accompanied by a written report and evaluation of the patient's mental and physical condition. The report must describe any tests and evaluation devices that have been employed in evaluating the patient, the course of treatment that was undertaken for the patient, and the future course of treatment anticipated by the professional person.

(b) Upon the filing of the petition, the court shall give written notice of the filing of the petition to the patient, the patient's next of kin, if reasonably available, the friend of respondent appointed by the court, and the patient's counsel. If any person notified requests a hearing prior to the termination of the previous commitment authority, the court shall immediately set a time and place for a hearing on a date not more than 10 days, not including Saturdays, Sundays, and holidays, from the receipt of the request and notify the same people, including the professional person in charge of the patient. When a hearing is requested less than 10 days prior to the termination of the previous commitment authority, the previous commitment is considered extended until the hearing is held. The notice of hearing must include a notice of this extension. If a hearing is not requested, the court shall enter an order of commitment for a period not to exceed 6 months.

(c) Procedure on the petition for extension when a hearing has been requested must be the same in all respects as the procedure on the petition for the original 3-month commitment, except that the patient is not entitled to a trial by jury. The hearing must be held in the district court having jurisdiction over the facility in which the patient is detained unless otherwise ordered by the court. Court costs and witness fees, if any, must be paid by the county that paid the same costs in the initial commitment proceedings.

(d) If upon the hearing the court finds the patient not to be suffering from a mental disorder and requiring commitment within the meaning of this part, the patient must be discharged and the petition dismissed. If the court finds that the patient continues to suffer from a mental disorder and to require commitment, the court shall order commitment as set forth in 53-21-127. However, an order extending the commitment period may not affect the patient's custody for more than 6 months and may not commit the patient to a behavioral health inpatient facility. In its order, the court shall describe what alternatives for treatment of the patient are available, what alternatives were investigated, and why the investigated alternatives were not found suitable. The court may not order continuation of an alternative that does not include a comprehensive, individualized plan of treatment for the patient. A court order for the continuation of an alternative must include a specific finding that a comprehensive, individualized plan of treatment exists.

(2) Prior to the end of the period of commitment to a community facility or program or course of treatment, a respondent may request that the treating provider petition the district court for an extension of the commitment order. The petition must be accompanied by a written report and evaluation of the respondent's mental and physical condition, an updated treatment plan, and a written statement by the respondent that an extension is desired. The extension procedure must follow the procedure required in subsections (1)(b) through (1)(d).

(3) Further extensions under subsection (1) or (2) may be obtained under the same procedure described in subsection (1). However, the patient's custody may not be affected for more than 1 year without a renewal of the commitment under the procedures set forth in subsection (1), including a statement of the findings required by subsection (1).

53-21-129. Emergency situation — petition — detention. (1) When an emergency situation exists, a peace officer may take any person who appears to have a mental disorder and to present an imminent danger of death or bodily harm to the person or to others into custody only for sufficient time to contact a professional person for emergency evaluation. If possible, a professional person should be called prior to taking the person into custody.

(2) If the professional person agrees that the person detained is a danger to the person or to others because of a mental disorder and that an emergency situation exists, then the person may be detained and treated until the next regular business day. At that time, the professional person shall release the detained person or file findings with the county attorney who, if the county attorney determines probable cause to exist, shall file the petition provided for in 53-21-121 through 53-21-126 in the county of the respondent's residence. In either case, the professional person shall file a report with the court explaining the professional person's actions.

(3) The county attorney of a county may make arrangements with a federal, state, regional, or private mental facility or with a mental health facility in a county for the detention of persons held pursuant to this section. If an arrangement has been made with a facility that does not, at the time of the emergency, have a bed available to detain the person at that facility, the person may be transported to the state hospital or to a behavioral health inpatient facility, subject to 53-21-193 and subsection (4) of this section, for detention and treatment as provided in this part. This determination must be made on an individual basis in each case, and the professional person at the local facility shall certify to the county attorney that the facility does not have adequate room at that time.

(4) Before a person may be transferred to the state hospital or to a behavioral health inpatient facility under this section, the state hospital or the behavioral health inpatient facility must be notified prior to transfer and shall state whether a bed is available for the person. If the professional person determines that a behavioral health inpatient facility is the appropriate facility for the emergency detention and a bed is available, the county attorney shall direct the person to the appropriate facility to which the person must be transported for emergency detention.

2007 Amendment: Chapter 116 in (4) in second sentence near beginning substituted "professional person" for "Montana state hospital" and near middle after "detention" substituted "and a bed is available, the county attorney" for "it". Amendment effective October 1, 2007.

53-21-130. Transfer or commitment to mental health facility from other institutions. (1) A person who is in the custody of the department for any purpose other than treatment of severe mental illness may not be transferred or committed to a mental health facility for more than 10 days unless the transfer or commitment is effected according to the procedures set out in this part. However, proceedings for involuntary commitment may be commenced in the county of the mental health facility where the person is, in the county of the institution from which the person was transferred to the mental health facility, or in the county of the person's residence. Notice of a transfer must be given immediately to the assigned counsel at the mental health facility and to the parents of minors, guardians, friends of respondent, or conservators.

(2) A person who is in the custody of the department of corrections may be transferred for placement in a mental health facility for a period of up to 10 days, subject to the approval of the mental health facility. A placement in excess of 10 days must be performed according to the procedures for voluntary admission or involuntary commitment as provided in this part. Proceedings for involuntary commitment may be commenced in the county of the mental health facility where the person is placed or in the county of the correctional facility from which the person was transferred. Notice of a transfer must be given to the legal counsel for the person and to the parents of minors, guardians, friends of respondent, or conservators.

53-21-131. Appeal procedure. Appellate review of any order of short-term evaluation and treatment or long-term commitment may be had by appeal to the supreme court of Montana in the manner as other civil cases, except that the appeal may be taken at any time within 90 days of the actual service of the written notice of the right to appeal required by 53-21-114 or within 90 days after discharge, whichever is later. The patient shall not be released pending appeal unless ordered by the court. The appeal shall have priority above all other matters before the supreme court.

53-21-132. Cost of examination and commitment. (1) The cost of psychiatric precommitment examination, detention, treatment, and taking a person who is suffering from a mental disorder and who requires commitment to a mental health facility must be paid pursuant to subsection (2)(a). The sheriff must be allowed the actual expenses incurred in taking a committed person to the facility, as provided by 7-32-2144.

(2) (a) The costs of precommitment psychiatric detention, precommitment psychiatric examination, and precommitment psychiatric treatment of the respondent and any cost associated with testimony during an involuntary commitment proceeding by a professional person acting pursuant to 53-21-123 must be billed to the following entities in the listed order of priority:

(i) the respondent, the parent or guardian of a respondent who is a minor, or the respondent's private insurance carrier, if any;

(ii) a public assistance program, such as medicaid, for a qualifying respondent; or

(iii) the county of residence of the respondent in an amount not to exceed the amount paid for the service by a public assistance program.

(b) The county of residence is not required to pay costs of treatment and custody of the respondent after the respondent is committed pursuant to this part. Precommitment costs related to the use of two-way electronic audio-video communication in the county of commitment must be paid by the county in which the person resides at the time that the person is committed. The costs of the use of two-way electronic audio-video communication from the state hospital for a patient who is under a voluntary or involuntary commitment to the state hospital must be paid by the state. The fact that a person is examined, hospitalized, or receives medical, psychological, or other mental health treatment pursuant to this part does not relieve a third party from a contractual obligation to pay for the cost of the examination, hospitalization, or treatment.

(3) The adult respondent or the parent or guardian of a minor shall pay the cost of treatment and custody ordered pursuant to 53-21-127, except to the extent that the adult or minor is eligible for public mental health program funds.

(4) A community service provider that is a private, nonpublic provider may not be required to treat or treat without compensation a person who has been committed.

53-21-133. Transfer to nonstate facilities. (1) If a person is committed under the provisions of this part and is eligible for hospital care or treatment by an agency of the United States and if a certificate of notification from such agency showing that facilities are available and that the person is eligible for care or treatment therein is received, the court may order the person to be placed in the custody of the agency for hospitalization. The chief officer of any hospital or institution operated by such an agency and in which a person is so hospitalized shall be vested with the same powers as the superintendent of the state hospital with respect to detention, custody, transfer, conditional release, or discharge of the person. Jurisdiction shall be retained in the appropriate courts of this state to inquire into the mental condition of persons so hospitalized and to determine the necessity for continuance of their hospitalization.

(2) Consistent with other provisions of this part, a person committed under this part for a period of 3 months or longer may be committed by the court to the custody of friends or next of kin residing outside the state or to a mental health facility located outside the state if the out-of-state facility agrees to receive the patient. No such commitment shall be for a longer period of time than is permitted within the state. If the patient is indigent, the expense of supporting him in an out-of-state facility and the expense of transportation shall be borne by the state of Montana.

(3) The transfer out of Montana of persons committed under the provisions of this part or into Montana under the laws of another jurisdiction shall be governed by the provisions of the Interstate Compact on Mental Health.

53-21-138. Diversion of certain persons suffering from mental disorders from detention center. (1) The sheriff or administrator of a detention center in each county shall require screening of inmates to identify persons accused of minor misdemeanor offenses who appear to be suffering from mental disorders and who may require commitment, as defined in 53-21-102.

(2) If as a result of screening and observation it is believed that an inmate is suffering from a mental disorder and may require commitment, the sheriff or administrator of the detention center shall:

(a) request services from a crisis intervention program established by the department, as provided for in 53-21-139;

(b) refer the inmate to the nearest qualified mental health care provider as arranged by the county; or

(c) subject to 53-21-193 and subsection (3) of this section, transfer the inmate to a private mental health facility, a behavioral health inpatient facility, or a hospital equipped to provide treatment and care of persons who are suffering from a mental disorder and who require commitment.

(3) The facility must be notified, and the facility shall state that a bed is available and agree to accept transfer of the patient based on admission criteria before a person may be transferred under this section.

(4) As used in this section, the term "minor misdemeanor offense" includes but is not limited to a nonserious misdemeanor, such as criminal trespass to property, loitering, disorderly conduct, and disturbing the public peace.

(5) A person intoxicated by drugs or alcohol who is accused of a minor misdemeanor offense may be detained in a jail until the level of intoxication is reduced to the point that screening for a mental disorder and the need for commitment can be performed.

53-21-139. Crisis intervention programs. (1) The department shall, subject to available appropriations, establish crisis intervention programs. The programs must be designed to provide 24-hour emergency admission and care of persons suffering from a mental disorder and requiring commitment in a temporary, safe environment in the community as an alternative to placement in jail.

(2) The department shall provide information and technical assistance regarding needed services and assist counties in developing county plans for crisis intervention services and for the provision of alternatives to jail placement.

(3) The department may provide crisis intervention programs as:

(a) a rehabilitative service under 53-6-101(4)(j); and

(b) a targeted case management service authorized in 53-6-101(4)(n).

53-21-140. Use of two-way electronic audio-video communication. (1) For purposes of this chapter, a hearing that is conducted by the use of two-way electronic audio-video communication, allowing all of the participants to be observed and heard by all present, is considered to be a hearing in open court.

(2) Whenever the law requires that a respondent or patient in any of the hearings provided for in subsection (3) be present before a court, this requirement may, in the discretion of the court, be satisfied either by the respondent's or patient's physical appearance before the court or by two-way electronic audio-video communication. The audio-video communication must operate so that the respondent or patient, the respondent's or patient's counsel, and the judge can see each other simultaneously and converse with each other, so that the respondent or patient and the respondent's or patient's counsel can communicate privately, and so that the respondent or patient and counsel are both present during the two-way electronic audio-video

communication. A respondent or patient may request that counsel from the board be present, for consulting purposes only, if the respondent or patient is located at the state hospital.

(3) At the discretion of the court, the following hearings may be conducted through two-way electronic audio-video communication:

(a) the initial hearing provided for in 53-21-122;

(b) the detention hearing provided for in 53-21-124;

(c) the trial or hearing on a petition provided for in 53-21-126;

(d) a hearing on posttrial disposition as provided for in 53-21-127;

(e) a hearing on the extension of a commitment period as provided for in 53-21-128;

(f) a hearing on rehospitalization of a person conditionally released from an inpatient treatment facility as provided for in 53-21-197;

(g) a hearing on an extension of the conditions of release as provided for in 53-21-198.

(4) This section does not abrogate a person's rights under 53-21-115, 53-21-116, or 53-21-117. A respondent or patient, the respondent's or patient's counsel, and a friend of respondent or patient, if any, must be informed of these rights prior to a hearing by two-way electronic audio-video communication in lieu of a hearing in person. A respondent or patient or the respondent's or patient's counsel and a friend of respondent or patient, acting together, may waive any of the rights, as provided under 53-21-119.

(5) If a respondent or patient, the respondent's or patient's counsel, or the professional person object to two-way electronic audio-video communication in lieu of a hearing in person, the court may not allow a two-way electronic audio-video communication.

History: En. Sec. 1, Ch. 212, L. 2001.

53-21-141. Civil and legal rights of person committed. (1) Unless specifically stated in an order by the court, a person involuntarily committed to a facility for a period of evaluation or treatment does not forfeit any legal right or suffer any legal disability by reason of the provisions of this part except insofar as it may be necessary to detain the person for treatment, evaluation, or care. All communication between an alleged mentally ill person and a professional person is privileged under normal privileged communication rules unless it is clearly explained to the person in advance that the purpose of an interview is for evaluation and not treatment.

(2) Whenever a person is committed to a mental health facility for a period of 3 months or longer, the court ordering the commitment may make an order stating specifically any legal rights which are denied the respondent and any legal disabilities which are imposed on him. As part of its order, the court may appoint a person to act as conservator of the respondent's property. Any conservatorship created pursuant to this section terminates upon the conclusion of the involuntary commitment if not sooner terminated by the court. A conservatorship or guardianship extending beyond the period of involuntary commitment may not be created except according to the procedures set forth under Montana law for the appointment of conservators and guardians generally. In the case of a person admitted to a program or facility for the purpose of receiving mental health services, an individual employed by or receiving remuneration from the program or facility may not act as the person's guardian or representative unless the program or facility can demonstrate that no other person is available or willing to act as the person's guardian or representative.

(3) A person who has been committed to a mental health facility pursuant to this part is automatically restored upon the termination of the commitment to all of his civil and legal rights which may have been lost when he was committed. This subsection does not affect, however, a guardianship or conservatorship created independently of the commitment proceedings according to the provisions of Montana law relating to the appointment of conservators and guardians generally. A person who leaves a mental health facility following a period of evaluation and treatment shall be given a written statement setting forth the substance of this subsection.

(4) A person committed to a mental health facility prior to July 1, 1975, enjoys all the rights and privileges of a person committed after that date.

(1) Patients have a right to privacy and dignity.

(2) Patients have a right to the least restrictive conditions necessary to achieve the purposes of commitment. Patients must be accorded the right to appropriate treatment and related services in a setting and under conditions that:

(a) are the most supportive of the patient's personal liberty; and

(b) restrict the patient's liberty only to the extent necessary and consistent with the patient's treatment need, applicable requirements of law, and judicial orders.

(3) Patients shall have the same rights to visitation and reasonable access to telephone communications, including the right to converse with others privately, except to the extent that the professional person responsible for formulation of a particular patient's treatment plan writes an order imposing special restrictions. The written order must be renewed after each periodic review of the treatment plan if any restrictions are to be continued. Patients shall have an unrestricted right to visitation with attorneys, with spiritual counselors, and with private physicians and other professional persons.

(4) Patients shall have an unrestricted right to send sealed mail. Patients shall have an unrestricted right to receive sealed mail from their attorneys, private physicians and other professional persons, the mental disabilities board of visitors, courts, and government officials. Patients shall have a right to receive sealed mail from others except to the extent that a professional person responsible for formulation of a particular patient's treatment plan writes an order imposing special restrictions on receipt of sealed mail. The written order must be renewed after each periodic review of the treatment plan if any restrictions are to be continued.

(5) Patients have an unrestricted right to have access to letter-writing materials, including postage, and have a right to have staff members of the facility assist persons who are unable to write, prepare, and mail correspondence.

(6) Patients have a right to wear their own clothes and to keep and use their own personal possessions, including toilet articles, except insofar as such clothes or personal possessions may be determined by a professional person in charge of the patient's treatment plan to be dangerous or otherwise inappropriate to the treatment regimen. The facility has an obligation to supply an adequate allowance of clothing to any patients who do not have suitable clothing of their own. Patients shall have the opportunity to select from various types of neat, clean, and seasonable clothing. Such clothing shall be considered the patient's throughout his stay at the facility. The facility shall make provision for the laundering of patient clothing.

(7) Patients have the right to keep and be allowed to spend a reasonable sum of their own money.

(8) Patients have the right to religious worship. Provisions for such worship shall be made available to all patients on a nondiscriminatory basis. No individual shall be required to engage in any religious activities.

Patients have a right to be outdoors at regular and frequent intervals in the absence of contrary medical considerations.

(10) Patients have the right to be provided, with adequate supervision, suitable opportunities for interaction with members of the opposite sex except to the extent that a professional person in charge of the patient's treatment plan writes an order stating that such interaction is inappropriate to the treatment regimen.

(11) Patients have a right to receive prompt and adequate medical treatment for any physical ailments. In providing medical care, the mental health facility shall take advantage of whatever community-based facilities are appropriate and available and shall coordinate the patient's treatment for mental illness with his medical treatment.

(12) Patients have a right to a diet that will provide at a minimum the recommended daily dietary allowances as developed by the national academy of sciences. Provisions shall be made for special therapeutic diets and for substitutes at the request of the patient or the friend of

respondent in accordance with the religious requirements of any patient's faith. Denial of a nutritionally adequate diet shall not be used as punishment.

(13) Patients have a right to a humane psychological and physical environment within the mental health facilities. These facilities shall be designed to afford patients with comfort and safety, promote dignity, and ensure privacy. The facilities shall be designed to make a positive contribution to the efficient attainment of the treatment goals set for the patient. In order to assure the accomplishment of this goal:

(a) regular housekeeping and maintenance procedures which will ensure that the facility is maintained in a safe, clean, and attractive condition shall be developed and implemented;

(b) there must be special provision made for geriatric and other nonambulatory patients to assure their safety and comfort, including special fittings on toilets and wheelchairs. Appropriate provision shall be made to permit nonambulatory patients to communicate their needs to the facility staff.

(c) pursuant to an established routine maintenance and repair program, the physical plant of every facility shall be kept in a continuous state of good repair and operation in accordance with the needs of the health, comfort, safety, and well-being of the patients;

(d) every facility must meet all fire and safety standards established by the state and locality. In addition, any hospital shall meet such provisions of the life safety code of the national fire protection association as are applicable to hospitals. Any hospital shall meet all standards established by the state for general hospitals insofar as they are relevant to psychiatric facilities.

(a) to be informed of the rights described in this section at the time of his admission and periodically thereafter, in language and terms appropriate to the patient's condition and ability to understand;

(b) to assert grievances with respect to infringement of the rights described in this section, including the right to have a grievance considered in a fair and timely manner according to an impartial grievance procedure that must be provided for by the facility; and

(c) to exercise the rights described in this section without reprisal and may not be denied admission to the facility as reprisal for the exercise of the rights described in this section.

(15) In order to assist a person admitted to a program or facility in the exercise or protection of the patient's rights, the patient's attorney, advocate, or legal representatives shall have reasonable access to:

(a) the patient;

(b) the program or facility areas where the patient has received treatment or has resided or the areas to which he has had access; and

(c) pursuant to the written authorization of the patient, records and information pertaining to the patient's diagnosis, treatment, and related services.

(16) A person admitted to a facility shall have access to any available individual or service that provides advocacy for the protection of the person's rights and that assists the person in understanding, exercising, and protecting his rights as described in this section.

(17) This section may not:

(a) obligate a professional person to administer treatment contrary to the professional's clinical judgment;

(b) prevent a facility from discharging a patient for whom appropriate treatment, consistent with the clinical judgment of a professional person responsible for the patient's treatment, is or has become impossible to administer because of the patient's refusal to consent to the treatment;

(c) require a facility to admit a person who has, on prior occasions, repeatedly withheld consent to appropriate treatment; or

(d) obligate a facility to treat a person admitted to the facility solely for diagnostic evaluation.

A medication may not be administered unless at the written order of a physician or advanced practice registered nurse with a clinical specialty in psychiatric mental health nursing. The attending physician or advanced practice registered nurse with a clinical specialty in psychiatric mental health nursing is responsible for all medication given or administered to a patient. The use of medication may not exceed standards of use that are advocated by the United States food and drug administration. Notation of each individual's medication must be kept in the individual's medical records. The department shall adopt rules governing attending physician or advanced practice registered nurse with a clinical specialty in psychiatric mental health nursing review of the drug regimen of each patient under the physician's or the advanced practice registered nurse's care in a mental health facility, except that the drug regimen of inpatients in hospitals must be reviewed no less than weekly. Except in the case of outpatients, all prescriptions must be written with a termination date, which may not exceed 30 days. Medication may not be used as punishment, for the convenience of staff, as a substitute for a treatment program, or in quantities that interfere with the patient's treatment program.

53-21-146. Right to be free from physical restraint and isolation. Patients have a right to be free from physical restraint and isolation. Except for emergency situations in which it is likely that patients could harm themselves or others and in which less restrictive means of restraint are not feasible, patients may be physically restrained or placed in isolation only on a professional person's written order which explains the rationale for such action. The written order may be entered only after the professional person has personally seen the patient concerned and evaluated whatever episode or situation is said to call for restraint or isolation. Emergency use of restraints or isolation shall be for no more than 1 hour, by which time a professional person shall have been consulted and shall have entered an appropriate order in writing. Such written order shall be effective for no more than 24 hours and must be renewed if restraint and isolation are to be continued. Whenever a patient is subject to restraint or isolation, adequate care shall be taken to monitor his physical and psychiatric condition and to provide for his physical needs and comfort. Physical restraint may not be used as punishment, for the convenience of the staff, or as a substitute for a treatment program.

If there is no friend of respondent or if the friend of respondent appointed by the court is no longer available, then a friend of respondent who is in no way connected with the facility, the department, or the research project must be appointed prior to the involvement of the patient in any experimental research. At least 10 days prior to the commencement of experimental research, the facility shall send notice of intent to involve the patient in experimental research to the patient, the patient's next of kin, if known, the patient's legal guardian, if any, the attorney who most recently represented the patient, and the friend of respondent appointed by the court.

(2) The proposed research must have been reviewed and approved by the mental disabilities board of visitors before consent may be sought. Prior to approval, the board shall determine that the research complies with the principles of the statement on the use of human subjects for research of the American association on mental deficiency and with the principles for research involving human subjects required by the United States department of health and human services for projects supported by that agency.

(3) A patient has the right to appropriate protection before participating in an experimental treatment, including the right to a reasonable explanation of the procedure to be followed, expected benefits, relative advantages, and the potential risks and discomforts of any experimental treatment. At least one of those consulted must consent to the treatment, along with the patient's counsel. If there is no friend of respondent or if the friend of respondent appointed by the court is no longer available, then a friend of respondent who is in no way connected with the facility or with the department shall be appointed before any such treatment procedure can be employed. At least 10 days prior to the commencement of the extraordinary treatment program, the facility shall send notice of intent to employ extraordinary treatment procedures to the patient, his next of kin, if known, the legal guardian, if any, the attorney who most recently represented him, and the friend of respondent appointed by the court.

(2) If the court orders a treatment plan under this section as a condition of a commitment for treatment in a community facility, program, or course of treatment, the chief medical officer of the facility or program at which the respondent has been ordered to receive outpatient treatment and at which the respondent is treated as an outpatient or the chief medical officer's designee shall submit a treatment plan, including any outpatient treatment recommendations that the respondent is required to follow, to the clerk of district court as soon as practical. However, the plan must be submitted no later than 30 days after the respondent has been ordered to receive treatment as an outpatient.

(3) A treatment plan must be developed with the respondent and the friend of respondent or respondent's family, if family involvement is determined by the court in consultation with the mental health professional to be in the best interests of the respondent.

(4) The clerk of district court shall send a copy of the proposed treatment plan to the court, to the respondent, to the friend of respondent, and to the respondent's attorney of record, who may relay the respondent's objections to the treatment plan, if any, and provide alternative treatment recommendations to the court.

(2) The court may take reasonable steps to ensure compliance with the court's outpatient treatment order, including but not limited to the following:

(a) directing that the friend of respondent remind the respondent of the respondent's treatment obligations and attempt to persuade the noncompliant respondent to comply with the treatment plan;

(b) presenting the respondent to the mental health facility or program for treatment, including administration of medication pursuant to 53-21-127(6); or

(c) directing the treating provider to work with the respondent to bring about compliance with the treatment plan.

History: En. Sec. 3, Ch. 342, L. 2001.

53-21-152. Department funding responsibility. The department shall develop a separate funding category and procedure for payment for services that are court-ordered for a commitment to a community facility or program or course of treatment. However, nothing in this chapter obligates the department to pay for services ordered under 53-21-127 unless the respondent is eligible for mental health services under the public mental health system funded by the department, the service is one that the department has included in its mental health program, and the department determines that the mental health service is medically necessary for the respondent.

(i) revoked by the individual, orally or in writing, at a time that the individual has the mental capacity to revoke the advance directive, as determined by the treating mental health professional;

(ii) the directive expires by its own terms; or

(iii) the individual dies;

The inpatient facility shall make a valid revocation a part of the individual's medical record.

(b) An advance directive is valid and enforceable only with respect to the matters provided for in subsection (2) even if the directive addresses subjects in addition to those provided for in this section.

(5) If an inpatient facility fails to act in accordance with a mental health advance directive of which the facility was furnished a copy, an individual who has executed the mental health advance directive or who has the right to be notified or to visit the individual at the facility pursuant to a mental health advance directive has a cause of action against the facility for injunctive relief and reasonable costs and attorney fees incurred in bringing the action.

(d) "Mental capacity" means sufficient ability to make or communicate decisions regarding a need for treatment.

(1) an anticipated discharge date;

(2) criteria for discharge;

(3) identification of the facility staff member responsible for discharge planning;

(4) identification of the community-based agency or individual who is assisting in arranging postdischarge services;

(5) referrals for financial assistance needed by the patient upon discharge; and

(6) other information necessary to ensure an appropriate discharge and adequate postdischarge services.

53-21-181. Discharge during or at end of initial commitment period — patient's right to referral. (1) At any time within the period of commitment provided for in 53-21-127, the patient may be discharged on the written order of the professional person in charge of the patient. If the patient is not discharged within the period of commitment and if the term is not extended as provided for in 53-21-128, the patient must be discharged by the facility at the end of the period of commitment without further order of the court. Notice of the discharge must be filed with the court and the county attorney at least 5 days prior to the discharge.

(2) Upon being discharged, each patient has a right to be referred, as appropriate, to other providers of mental health services.

History: **En. 38-1306 by Sec. 6, Ch. 466, L. 1975; amd. Sec. 6, Ch. 546, L. 1977; R.C.M. 1947, 38-1306(2); amd. Sec. 9, Ch. 579, L. 1991; amd. Sec. 14, Ch. 342, L. 2001.**

53-21-182. Court-ordered release to alternative placement or treatment. At any time during the patient's commitment, the court may, on its own initiative or upon application of the professional person in charge of the patient, the patient, the patient's next of kin, the patient's attorney, a third party responsible for payment for the care of the patient, or the friend of respondent appointed by the court, order the patient to be placed in the care and custody of relatives or guardians or to be provided outpatient therapy or other appropriate placement or treatment.

History: **En. 38-1306 by Sec. 6, Ch. 466, L. 1975; amd. Sec. 6, Ch. 546, L. 1977; R.C.M. 1947, 38-1306(5); amd. Sec. 14, Ch. 547, L. 1979; amd. Sec. 31, Ch. 490, L. 1997.**

53-21-183. Release conditioned on receipt of outpatient care. (1) When, in the opinion of the professional person in charge of a mental health facility providing involuntary treatment, the committed person can be appropriately served by outpatient care prior to the expiration of the period of commitment, then outpatient care may be required as a condition for early release for a period which, when added to the inpatient treatment period, except as provided in 53-21-198, may not exceed the period of commitment. If the mental health facility designated to provide outpatient care is other than the facility providing involuntary treatment, the outpatient facility so designated must agree in writing to assume such responsibility.

(2) The mental health facility designated to provide outpatient care or the professional person in charge of the patient's case may modify the conditions for continued release when the modification is in the best interest of the patient. This includes the authorization to transfer the patient to another mental health facility designated to provide outpatient care, provided the transfer is in the best interest of the patient and the outpatient facility so designated agrees in writing to assume responsibility. Notice of an intended transfer shall be given to the professional person in charge of the mental health facility that provided the involuntary treatment.

(3) Notice in writing to the court which committed the patient for treatment and the county attorney who initiated the action shall be provided by the professional person in charge of him at least 5 days prior to his release from commitment or outpatient care.

(4) This section and 53-21-195 through 53-21-198 do not apply to a temporary release, certified as such by the professional person in charge of the mental health facility, from the facility for the purposes of a home visit not exceeding 30 days.

History: **En. 38-1308 by Sec. 8, Ch. 466, L. 1975; amd. Sec. 8, Ch. 546, L. 1977; R.C.M. 1947, 38-1308; amd. Sec. 14, Ch. 547, L. 1979; amd. Sec. 1, Ch. 541, L. 1985.**

53-21-185. Care and treatment following release. The department and its agents have an affirmative duty to provide adequate transitional treatment and care for all patients released after a period of involuntary confinement. Transitional care and treatment possibilities include but are not limited to psychiatric day care, treatment in the home by a visiting therapist, nursing home or extended care, a halfway house, outpatient treatment, and treatment in the psychiatric ward of a general hospital.

53-21-186. Support of patient conditionally released. When a mental health facility conditionally releases a patient committed to its care, it is not liable for the patient's support while conditionally released. Liability transfers to the legal guardian, parent, or person under whose care the patient is placed when conditionally released or to any other person legally liable for the patient's support. The local office of public assistance in the county where the patient resides or is found is responsible for providing relief and care for a conditionally released patient who is unable to be self-supporting or who is unable to secure support from the person under whose care the patient was placed on convalescent leave, like any other person in need of relief and care, under the public assistance laws.

53-21-189. Fact of evaluation or treatment not to be used for discrimination. No person who has received evaluation or treatment under any of the provisions of this part may be discriminated against because of that status. For purposes of this section, "discrimination" means giving any unfavorable weight to the fact of hospitalization or outpatient care and treatment unrelated to a person's present capacity to meet standards applicable to all persons.

(1) If a respondent is committed to the state hospital under 53-21-127 or if a person in an emergency situation requires detention under 53-21-129 and a bed is available at a behavioral health inpatient facility, the professional person shall inform the county attorney who shall inform the person who is responsible for transporting the individual as to the appropriate facility to which the individual is to be transported for admission.

(2) If a respondent is committed to or an individual requires emergency detention in a behavioral health inpatient facility, the facility must be notified and the facility shall state that a bed is available and agree to accept transfer of the patient based on admission criteria before an individual may be transferred to the behavioral health inpatient facility under this section.

(3) A respondent who is committed to or an individual who is transferred to a behavioral health inpatient facility may be transferred to the state hospital for the remaining period of commitment in accordance with criteria established by the department by rule pursuant to 53-21-194. A court order for commitment or transfer must include the transfer authority, and all conditions contained in the court order apply after a transfer.

(4) The court may not order commitment of the respondent or transfer of an individual to a behavioral health inpatient facility under this part if a bed is not available or if the licensed capacity would be exceeded.

(5) If a bed is available, a behavioral health inpatient facility may admit a person for voluntary treatment.

53-21-194. Department licensure of behavioral health inpatient facilities — rulemaking authority — transfer criteria. (1) The department may license behavioral health inpatient facilities to provide inpatient psychiatric care to persons involuntarily committed or detained under this title or to persons seeking treatment voluntarily.

(2) The department shall adopt rules:

(b) establishing criteria pursuant to subsection (4) for admission to a behavioral health inpatient facility or transfer of a patient from a behavioral health inpatient facility to the state hospital.

(3) The rules for licensure must provide standards for the protection of the health and safety of persons committed to or detained in a behavioral health inpatient facility, including:

(a) requirements for medical stability;

(b) maximum length of stay;

(c) staffing levels and qualifications;

(d) building code classifications for occupancy; and

(e) security.

(4) The criteria for admission or transfer of an individual must reflect:

(a) individualized consideration of the patient's treatment needs and the safety of the public, including the prospects for the patient's successful transition to community care within the current period of commitment;

(b) the appropriateness of specialized programs or facilities at the state hospital; and

(c) the recommendations of the individual's treating professionals or state hospital staff.

(5) The department shall provide notice to the district courts and professional persons of the designation of any mental health facility as a behavioral health inpatient facility, the facility's capacity, and the criteria for admission and transfer.

2007 Amendment: Chapter 116 in (1) near beginning substituted "license" for "contract with one or more" and at end inserted "or to persons seeking treatment voluntarily"; in (2)(a) substituted "qualifications for licensure" for "number, geographic distribution, capacity, and qualifications"; inserted (3) concerning rules for licensure; in (5) near beginning after "courts" inserted "and professional persons"; and made minor changes in style. Amendment effective October 1, 2007.

53-21-195. Rehospitalization of patient conditionally released from inpatient treatment facilities — petition. (1) A proceeding for the rehospitalization of a patient conditionally released from an inpatient mental health facility pursuant to 53-21-182 or 53-21-183 is commenced by the filing of a written petition in any district court by the county attorney, the professional person in charge of the patient's case, or the patient's next of kin. Upon the filing of a petition under this subsection, the clerk of court shall notify each district court that committed the patient for the period of the patient's present hospitalization under 53-21-127 or 53-21-128 and request that the file of the earlier proceeding or proceedings be forwarded to the clerk. The file or files must be promptly forwarded.

(2) The patient has the rights set forth in 53-21-115 in a proceeding under this section.

(3) The petition must state:

(a) the patient's name and last-known address;

(b) the name and address of the patient's spouse, next of kin, attorney, or the friend of respondent appointed by the court, if any and if this information is reasonably ascertainable;

(c) that the patient has been determined by the district court to be suffering from a mental disorder and requiring commitment within the meaning of this part and is presently under a valid order of commitment pursuant to 53-21-127 or 53-21-128;

(d) a simple and precise statement of the facts showing that the patient has violated a condition of the release, that the violation has caused a deterioration of the patient's mental disorder, and that as a result of this deterioration, the patient can no longer be appropriately served by outpatient care; and

(e) a statement of the rights of the respondent, including those set forth in 53-21-115, which must be in conspicuous print and identified by a suitable heading.

(4) The petition must be filed with the clerk of court, who shall immediately notify the judge.

(5) The judge shall issue notice of the time and place of the hearing on the petition. The hearing must be held no more than 5 days after the date that the petition is filed, including weekends and holidays, unless the fifth day falls upon a weekend or holiday or unless additional time is requested by the patient. Further, the judge shall ensure that the notice and copy of the petition are immediately hand-delivered to the patient, to the patient's friend of respondent, if any, and to the patient's counsel.

53-21-196. Detention of conditionally released patient pending hearing. The court may not order detention of the conditionally released patient pending the hearing, except as permitted under 53-21-124.

History: En. Sec. 3, Ch. 541, L. 1985.

53-21-197. Hearing on rehospitalization petition — revocation of conditional release. (1) The court may order that the patient's conditional release status be revoked and that the patient be returned to the mental health facility from which the patient was conditionally released or be sent to another appropriate inpatient mental health facility if, after a hearing, the court finds by clear and convincing evidence that:

(a) the conditionally released patient has been determined by the district court to be suffering from a mental disorder and requiring commitment and is presently under a valid order of commitment pursuant to 53-21-127 or 53-21-128; and

(b) the conditionally released patient has violated a condition of the release, that the violation has caused a deterioration of the patient's mental condition, and that as a result of this deterioration, the patient can no longer be appropriately served by outpatient care.

(2) A revocation of the patient's conditional release status under subsection (1) must be based on the testimony of the professional person responsible for the patient's case.

(3) If the court revokes the patient's conditional release status pursuant to subsection (1), a treatment plan must be updated or a new plan prepared for the patient as required by and within the time set forth in 53-21-162.

(4) Except as provided in 53-21-198, an order revoking the patient's conditional release status may not order hospitalization or impose other conditions of release that extend beyond the expiration date of the order committing the patient under 53-21-127 or 53-21-128.

History: En. Sec. 4, Ch. 541, L. 1985; amd. Sec. 33, Ch. 490, L. 1997.

53-21-198. Extension of conditions of release — hearing. (1) Conditions of release may be extended by the district court beyond the expiration date of the order committing the patient under 53-21-127 or 53-21-128, but in no case for longer than 2 years beyond that date, upon a showing by clear and convincing evidence that:

(a) continuation of the conditions of release is necessary to prevent the deterioration of the patient's mental disorder; and

(b) the deterioration will predictably result in the necessity of further inpatient care for the patient. Predictability may be established by the patient's medical history.

(2) Not less than 2 calendar weeks prior to the end of the period of detention ordered under 53-21-127 or 53-21-128 or the period of extension ordered under subsection (5) of this section, the professional person responsible for the patient's case may petition the court for extension of the conditions of release. The petition must be accompanied by a written report and evaluation of the patient's mental and physical condition. The report must describe any tests and evaluation devices that have been employed in evaluating the patient, the course of treatment that has been undertaken for the patient, and the future course of treatment anticipated by the professional person.

(3) Upon the filing of the petition, the court shall give written notice of the filing of the petition to the patient, the patient's next of kin, if reasonably available, the friend of respondent appointed by the court, if any, and the patient's counsel. If any person notified requests a hearing prior to the end of the period of detention ordered under 53-21-127 or 53-21-128, the court shall immediately set a time and place for a hearing on a date not more than 10 days from the receipt of the request and notify the same people, including the professional person in charge of the patient. If a hearing is not requested, the court shall enter an order extending the conditions of release for a period not to exceed 6 months.

(4) Procedure on the petition for extension is the same in all respects as the procedure for hearing on a rehospitalization petition pursuant to 53-21-197. However, in an extension proceeding, the finding required is that set forth in subsection (1) of this section. The hearing must be held in the district court for the county in which the patient is residing. Court costs and witness fees, if any, must be paid by the county that paid the same costs in the initial commitment proceeding.

(5) If upon the hearing the court finds that the showing required by subsection (1) has not been made, the conditions of release may not be extended. If the court finds that the required showing has been made, the court may extend the conditions of release as recommended by the professional person. In its order, the court shall describe what alternatives for treatment of the patient are available, what alternatives were investigated, and why the investigated alternatives were not considered suitable. The court may not order continuation of an alternative that does not include a comprehensive, individualized plan of treatment for the patient, as required by 53-21-162. A court order for the continuation of an alternative must include a specific finding that a comprehensive, individualized plan of treatment exists.

(6) Further extensions may be obtained under the same procedure described in this section. However, the patient's custody may not be affected for more than 1 year without a renewal of the extension under the procedures set forth in this section, including a hearing and a statement of the findings required by subsection (5). Extensions under this subsection may not extend the 2-year extension limitation provided in subsection (1).

(3) shall adopt rules for staffing requirements and the admission of patients;

Mental Health Managed Care

53-21-701. Mental health managed care allowed — contract. (1) The department of public health and human services may contract with one or more persons for the management of comprehensive mental health services for medicaid recipients, as provided in 53-6-116, and for persons in households not eligible for medicaid with family income that does not exceed 160% of the federal poverty threshold or that does not exceed a lesser amount determined in the discretion of the department. The department shall determine whether or not a potential contractor that will serve medicaid enrollees is a managed care community network, as defined in 53-6-702, prior to entering into a contract and shall ensure that each contractor that qualifies as a managed care community network complies with the provisions of Title 53, chapter 6, part 7, for the medicaid portion of the program.

(2) A managed care system is a program organized to serve the mental health needs of recipients in an efficient and cost-effective manner by managing the receipt of comprehensive mental health care and services for a geographical or otherwise defined population of recipients through appropriate health care professionals. The management of mental health care services must provide for services in the most cost-effective manner through coordination and management of the appropriate level of care and appropriate level of services.

(3) The department may enter into one or more contracts with a managed health care entity, as defined in 53-6-702, for the administration or delivery of mental health services. These contracts may be based upon a fixed monetary amount or a capitated amount for each individual, and a contractor may assume all or a part of the financial risk of providing and making payment for services to a set population of eligible individuals if the contractor has complied with Title 53, chapter 6, part 7. The department may require the participation of recipients in managed care systems based upon geographical, financial, medical, or other factors that the department may determine are relevant to the development and efficient operation of the managed care systems. Any contract for delivery of mental health care services that includes hospitalization or physician services, or both, must include a provision that, prior to final award of a contract, a successful bidder that serves adults shall enter into an agreement regarding the Montana state hospital and the Montana mental health nursing care center that is consistent with 53-1-402, 53-1-413, and 90-7-312 and that includes financial incentives for the development and use of community-based services, rather than the use of the state institutional services.

(4) The department shall formally evaluate contract performance with regard to specific outcome measures. The department shall explicitly identify performance and outcome measures that contractors are required to achieve in order to comply with contract requirements and to continue the contract. The contract must provide for progressive intermediate sanctions that

may be imposed for nonperformance. The contract performance evaluation must include a section concerning contract enforcement, including any sanctions imposed along with the rationale for not imposing a sanction when the imposition is authorized. The evaluation must be performed at least annually.

The public mental health care system shall:

(a) include specific outcome and performance measures for the administration or delivery of a continuum of mental health services;

(b) provide for local advisory councils that shall report to and meet on a regular basis with the advisory council provided for in subsection (4);

(c) provide level-of-care appeals that are understandable and accessible; and

(d) provide a system for tracking children who need mental health services that are provided under substantive interagency agreements between state agencies responsible for addictive and mental disorders, foster care, children with developmental disabilities, special education, and juvenile corrections.

(2) The department may establish resource and income standards of eligibility for mental health services that are more liberal than the resource and income standards of eligibility for physical health services. The standards of eligibility for mental health services may provide for eligibility for households not eligible for medicaid with family income that does not exceed 160% of the federal poverty threshold or that does not exceed a lesser amount determined at the discretion of the department. The department may by rule specify under what circumstances deductions for medical expenses should be used to reduce countable family income in determining eligibility. The department may also adopt rules establishing fees, premiums, or copayments to be charged recipients for services. The fees, premiums, or copayments may vary according to family income.

(3) The department shall establish the amount, scope, and duration of services to be provided under the program. Services for nonmedicaid-eligible individuals may be more limited than those services provided to medicaid-eligible individuals. Services to nonmedicaid-eligible individuals may include a pharmacy benefit.

(4) (a) The department shall form an advisory council, to be known as the mental health oversight advisory council, to provide input to the department in the development and management of any public mental health system. The advisory council is not subject to 2-15-122. The advisory council membership must include:

(i) one-half of the members as consumers of mental health services, including persons with serious mental illnesses who are receiving public mental health services, other recipients of mental health services, former recipients of public mental health services, and immediate family members of recipients of mental health services; and

(ii) advocates for consumers or family members of consumers, members of the public at large, providers of mental health services, legislators, and department representatives.

(b) The advisory council under this section may be administered so as to fulfill any federal advisory council requirements to obtain federal funds for this program.

(c) Geographic representation must be considered when appointing members to the advisory council in order to provide the widest possible representation.

(d) The advisory council shall provide a summary of each meeting and a copy of any recommendations made to the department to the legislative finance committee and any other designated appropriate legislative interim committee. The department shall provide the same committees with the department's rationale for not accepting or implementing any recommendation of the advisory council.

The rules must establish eligibility criteria and may include but are not limited to financial standards and criteria for income and resources, treatment of resources, nonfinancial criteria, residency, application, termination, definition of terms, and confidentiality of applicant and recipient information.

(2) The department shall adopt rules establishing the amount, scope, and duration of services. The rules may also include but are not limited to ensuring that services are medically necessary and that the services are the most efficient and cost-effective available.

(3) The department may adopt rules establishing rates of reimbursement of services provided under this part, selection and qualification of providers, and standards for managed care.

(4) Rules adopted by the department must take into account, when appropriate, the availability of appropriated funds, the actual costs of services, the quality of services, the professional knowledge and skills necessary for the delivery of services, and the availability of services.

Transfer to nonstate facilities, 53-21-133.

53-22-101. Enactment of compact. The Interstate Compact on Mental Health as contained herein is hereby enacted into law and entered into by this state with all other jurisdictions legally joining therein in the form substantially as follows:

The contracting states solemnly agree that:

Article I

The party states find that the proper and expeditious treatment of the mentally ill and mentally deficient can be facilitated by cooperative action, to the benefit of the patients, their families, and society as a whole. Further, the party states find that the necessity of and desirability for furnishing such care and treatment bears no primary relation to the residence or citizenship of the patient but that, on the contrary, the controlling factors of community safety and humanitarianism require that facilities and services be made available for all who are in need of them. Consequently, it is the purpose of this compact and of the party states to provide the necessary legal basis for the institutionalization or other appropriate care and treatment of the mentally ill and mentally deficient under a system that recognizes the paramount importance of patient welfare and to establish the responsibilities of the party states in terms of such welfare.

Article II

As used in this compact:

(1) "sending state" means a party state from which a patient is transported pursuant to the provisions of the compact or from which it is contemplated that a patient may be so sent;

(2) "receiving state" means a party state to which a patient is transported pursuant to the provisions of the compact or to which it is contemplated that a patient may be so sent;

(3) "institution" means any hospital or other facility maintained by a party state or political subdivision thereof for the care and treatment of mental illness or mental deficiency;

(4) "patient" means any person subject to or eligible, as determined by the laws of the sending state, for institutionalization or other care, treatment, or supervision pursuant to the provisions of this compact;

(5) "aftercare" means care, treatment, and services provided a patient, as defined herein, on convalescent status or conditional release;

(6) "mental illness" means mental disease to such extent that a person so afflicted requires care and treatment for his own welfare, the welfare of others, or of the community;

(7) "mental deficiency" means mental deficiency as defined by appropriate clinical authorities to such extent that a person so afflicted is incapable of managing himself and his affairs but shall not include mental illness as defined herein; and

(8) "state" means any state, territory, or possession of the United States, the District of Columbia, and the Commonwealth of Puerto Rico.

Article III

(1) Whenever a person physically present in any party state shall be in need of institutionalization by reason of mental illness or mental deficiency, he shall be eligible for care and treatment in an institution in that state irrespective of his residence, settlement, or citizenship qualifications.

(2) The provisions of subsection (1) of this article to the contrary notwithstanding, any patient may be transferred to an institution in another state whenever there are factors based upon clinical determinations indicating that the care and treatment of said patient would be facilitated or improved thereby. Any such institutionalization may be for the entire period of care and treatment or for any portion or portions thereof. The factors referred to in this subsection shall include the patient's full record with due regard for the location of the patient's family, character of the illness and probable duration thereof, and such other factors as shall be considered appropriate.

(3) No state shall be obliged to receive any patient pursuant to the provisions of subsection (2) of this article unless the sending state gives advance notice of its intention to send the patient, furnishes all available medical and other pertinent records concerning the patient, gives the qualified medical or other appropriate clinical authorities of the receiving state an opportunity to examine the patient if said authorities so wish, and unless the receiving state agrees to accept the patient.

(4) In the event that the laws of the receiving state establish a system of priorities for the admission of patients, an interstate patient under this compact shall receive the same priority as a local patient and shall be taken in the same order and at the same time that he would be taken if he were a local patient.

(5) Pursuant to this compact, the determination as to the suitable place of institutionalization for a patient may be reviewed at any time and such further transfer of the patient may be made as seems likely to be in the best interest of the patient.

Article IV

(1) Whenever, pursuant to the laws of the state in which a patient is physically present, it shall be determined that the patient should receive aftercare or supervision, such care or supervision may be provided in a receiving state. If the medical or other appropriate clinical authorities having responsibility for the care and treatment of the patient in the sending state shall have reason to believe that aftercare in another state would be in the best interest of the patient and would not jeopardize the public safety, they shall request the appropriate authorities in the receiving state to investigate the desirability of affording the patient such aftercare in said receiving state, and such investigation shall be made with all reasonable speed. The request for investigation shall be accompanied by complete information concerning the patient's intended place of residence and the identity of the person in whose charge it is proposed to place the patient, the complete medical history of the patient, and such other documents as may be pertinent.

(2) If the medical or other appropriate clinical authorities having responsibility for the care and treatment of the patient in the sending state and the appropriate authorities in the receiving state find that the best interest of the patient would be served thereby and if the public safety would not be jeopardized thereby, the patient may receive aftercare or supervision in the receiving state.

(3) In supervising, treating, or caring for a patient on aftercare pursuant to the terms of this article, a receiving state shall employ the same standards of visitation, examination, care, and treatment that it employs for similar local patients.

Article V

Whenever a dangerous or potentially dangerous patient escapes from an institution in any party state, that state shall promptly notify all appropriate authorities within and without the jurisdiction of the escapee in a manner reasonably calculated to facilitate the speedy apprehension of the escapee. Immediately upon the apprehension and identification of any such dangerous or potentially dangerous patient, he shall be detained in the state where found pending disposition in accordance with law.

Article VI

The duly accredited officers of any state party to this compact, upon the establishment of their authority and the identity of the patient, shall be permitted to transport any patient being moved pursuant to this compact through any and all states party to this compact without interference.

Article VII

(1) No person shall be deemed a patient of more than one institution at any given time. Completion of transfer of any patient to an institution in a receiving state shall have the effect of making the person a patient of the institution in the receiving state.

(2) The sending state shall pay all costs of and incidental to the transportation of any patient pursuant to this compact, but any two or more party states may, by making a specific arrangement for that purpose, arrange for a different allocation of costs as among themselves.

(3) No provision of this compact shall be construed to alter or affect any internal relationships among the departments, agencies, and officers of and in the government of a party state or between a party state and its subdivisions as to the payment of costs or responsibilities therefor.

(4) Nothing in this compact shall be construed to prevent any party state or subdivision thereof from asserting any right against any person, agency, or other entity in regard to costs for which such party state or subdivision thereof may be responsible pursuant to any provision of this compact.

(5) Nothing in this compact shall be construed to invalidate any reciprocal agreement between a party state and a nonparty state relating to institutionalization, care, or treatment of the mentally ill or mentally deficient or any statutory authority pursuant to which such agreements may be made.

Article VIII

(1) Nothing in this compact shall be construed to abridge, diminish, or in any way impair the rights, duties, and responsibilities of any patient's guardian on his own behalf or in respect of any patient for whom he may serve, except that, where the transfer of any patient to another jurisdiction makes advisable the appointment of a supplemental or substitute guardian, any court of competent jurisdiction in the receiving state may make such supplemental or substitute appointment and the court which appointed the previous guardian shall, upon being duly advised of the new appointment and upon the satisfactory completion of such accounting and other acts as such court may by law require, relieve the previous guardian of power and responsibility to whatever extent shall be appropriate in the circumstances. In the case of any patient having settlement in the sending state, the court of competent jurisdiction in the sending state shall have the sole discretion to relieve a guardian appointed by it or continue his power and responsibility, whichever it shall deem advisable. The court in the receiving state may, in its discretion, confirm or reappoint the person or persons previously serving as guardian in the sending state in lieu of making a supplemental or substitute appointment.

(2) The term "guardian" as used in subsection (1) of this article shall include any guardian, trustee, legal committee, conservator, or other person or agency however denominated who is charged by law with power to act for or responsibility for the person or property of a patient.

Article IX

(1) No provisions of this compact except Article V shall apply to any person institutionalized while under sentence in a penal or correctional institution or while subject to trial on a criminal charge or whose institutionalization is due to the commission of an offense for which, in the absence of mental illness or mental deficiency, said person would be subject to incarceration in a penal or correctional institution.

(2) To every extent possible it shall be the policy of states party to this compact that no patient shall be placed or detained in any prison, jail, or lockup, but such patient shall with all expedition be taken to a suitable institutional facility for mental illness or mental deficiency.

Article X

(1) Each party state shall appoint a compact administrator who, on behalf of his state, shall act as general coordinator of activities under the compact in his state and who shall receive copies of all reports, correspondence, and other documents relating to any patient processed under the compact by his state either in the capacity of a sending or receiving state. The compact administrator or his duly designated representative shall be the official with whom other party states shall deal in any matter relating to the compact or any patient processed thereunder.

(2) The compact administrators of the respective party states shall have power to promulgate reasonable rules to carry out more effectively the terms and provisions of this compact.

Article XI

The duly constituted administrative authorities of any two or more party states may enter into supplementary agreements for the provision of any service or facility or for the maintenance of any institution on a joint or cooperative basis whenever the states concerned find that such agreements will improve services, facilities, or institutional care and treatment in the fields of mental illness or mental deficiency. No such supplementary agreement shall be construed so as to relieve any party state of any obligation which it otherwise would have under other provisions of this compact.

Article XII

This compact shall enter into full force and effect as to any state when enacted by it into law, and such state shall thereafter be a party thereto with any and all states legally joining therein.

Article XIII

(1) A state party to this compact may withdraw therefrom by enacting a statute repealing the same. Such withdrawal shall take effect 1 year after notice thereof has been communicated officially and in writing to the governors and compact administrators of all other party states. However, the withdrawal of any state shall not change the status of any patient who has been sent to said state or sent out of said state pursuant to the provisions of the compact.

(2) Withdrawal from any agreement permitted by Article VII(2) as to costs or from any supplementary agreement made pursuant to Article XI shall be in accordance with the terms of such agreement.

Article XIV

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable, and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any party thereto, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.

The compact administrator is hereby directed to consult with the immediate family of any proposed transferee and, in the case of a proposed transferee from an institution in this state to an institution in another party state, to make no transfer out of the state without approval of the district or probate court. Before granting such approval, the court shall hold such hearings as it considers appropriate. In addition, the court shall designate some appropriate person to deliver written notice of the proposed transferee's right to a hearing to the proposed transferee and his guardian ad litem. 53-24-208. Facility standards. (1) The department shall establish standards for approved treatment facilities that must be met for a treatment facility to be approved as a public or private treatment facility and fix the fees to be charged for the required inspections. The standards must be adopted by rule and may concern the health standards to be met and standards for the approval of treatment programs for patients.

(2) Facilities applying for approval shall demonstrate that a local need currently exists for proposed services and that the proposed services do not duplicate existing local services.

(3) The department shall periodically inspect approved public and private treatment facilities at reasonable times and in a reasonable manner.

(4) The department shall maintain a list of approved public and private treatment facilities.

(5) Each approved public or private treatment facility shall, on request, file with the department data, statistics, schedules, and information that the department reasonably requires. An approved public or private treatment facility that without good cause fails to furnish any data, statistics, schedules, or information as requested or files fraudulent returns of the requested material must be removed from the list of approved treatment facilities.

(6) The department, after holding a hearing in accordance with the Montana Administrative Procedure Act, may suspend, revoke, limit, or restrict an approval or refuse to grant an approval for failure to meet its standards.

(7) A district court may restrain any violation of this section, review any denial, restriction, or revocation of approval, and grant other relief required to enforce its provisions.

(8) Upon petition of the department and after a hearing held upon reasonable notice to the facility, a district court may issue a warrant to the department authorizing it to enter and inspect at reasonable times and examine the books and accounts of any approved public or private treatment facility that refuses to consent to inspection or examination by the department or that the department has reasonable cause to believe is operating in violation of this chapter.

(9) If a rehabilitation facility otherwise meets the requirements of subsection (2), the department may consider as eligible for approval during the accreditation period any rehabilitation facility that furnishes written evidence, including the recommendation for future compliance statements, of accreditation of its programs by the commission on accreditation of rehabilitation facilities. The department may, but is not required to, inspect a facility considered eligible for approval under this section to ensure compliance with state approval standards.

In adopting the rules, the department must be guided by the following standards:

(1) If possible, a patient must be treated on a voluntary rather than an involuntary basis.

(2) A patient must be initially assigned or transferred to outpatient treatment unless found to require inpatient treatment.

(3) An individualized treatment plan must be prepared and maintained on a current basis for each person.

(4) Provision must be made for a continuum of coordinated treatment services so that a person who leaves a facility or a form of treatment will have available and use other appropriate treatment.

Each county shall also submit annual plan updates that include, at a minimum, allocation to approved programs of revenues generated by taxation on alcoholic beverages.

(2) The plan must have been approved by the board of county commissioners and must contain information regarding existing private and public chemical dependency programs within the county. The plan must also contain information regarding the current and future needs of the county for the treatment, rehabilitation, and prevention of chemical dependency.

Part 3

Treatment of Alcoholics and Intoxicated Persons

53-24-301. Treatment of the chemically dependent. (1) An applicant for voluntary admission or court-referred admission to an approved public treatment facility shall obtain confirmation from a licensed addiction counselor that the applicant is chemically dependent and appropriate for inpatient, freestanding care as described in the administrative rules. The department shall adopt rules to establish policies and procedures governing assessment, patient placement, confirmation, and admission to an approved public treatment facility. If the proposed patient is a minor or an incompetent person, the proposed patient, a parent, legal guardian, or other legal representative may make the application.

(2) Subject to rules adopted by the department, the administrator of an approved public treatment facility may determine who is admitted for treatment. If a person is refused admission to an approved public treatment facility, the administrator, subject to departmental rules, shall refer the person to an approved private treatment facility for treatment if possible and appropriate.

(3) If a patient receiving inpatient care leaves an approved public treatment facility, the patient must be encouraged to consent to appropriate outpatient or intermediate treatment. If it appears to the administrator of the treatment facility that the patient is chemically dependent and requires help, the department shall arrange for assistance in obtaining supportive services and residential facilities.

(4) If a patient leaves an approved public treatment facility, with or against the advice of the administrator of the facility, the department shall make reasonable provisions for the patient's transportation to another facility or to the patient's home. If the patient has no home, the patient must be assisted in obtaining shelter. If the patient is a minor or an incompetent person, the request for discharge from an inpatient facility must be made by a parent, legal guardian, or other legal representative or by the minor or incompetent, if the minor or incompetent person was the original applicant.

53-24-302. Involuntary commitment of alcoholics — rights. (1) A person may be committed to the custody of the department by the district court upon the petition of the person's spouse or guardian, a relative, the certifying physician, or the chief of any approved public treatment facility. The petition must allege that the person is an alcoholic who habitually lacks self-control as to the use of alcoholic beverages and that the person has threatened, attempted, or inflicted physical harm on another and that unless committed is likely to inflict physical harm on another or is incapacitated by alcohol. A refusal to undergo treatment does not constitute evidence of lack of judgment as to the need for treatment. The petition must be accompanied by a certificate of a licensed physician who has examined the person within 2 days before submission of the petition unless the person whose commitment is sought has refused to submit to a medical examination, in which case the fact of refusal must be alleged in the petition. The certificate must set forth the physician's findings in support of the allegations of the petition. A physician employed by the admitting facility or the department is not eligible to be the certifying physician.

(2) Upon filing the petition, the court shall fix a date for a hearing no later than 10 days after the date the petition was filed. A copy of the petition and of the notice of the hearing, including the date fixed by the court, must be served on the petitioner, the person whose commitment is sought, the person's next of kin other than the petitioner, a parent or the person's legal guardian if the person is a minor, the administrator in charge of the approved public treatment facility to which the person has been committed for emergency care, and any other person the court believes advisable. A copy of the petition and certificate must be delivered to each person notified.

(3) At the hearing, the court shall hear all relevant testimony, including, if possible, the testimony of at least one licensed physician who has examined the person whose commitment is sought. The person has a right to have a licensed physician of the person's own choosing conduct an examination and testify on the person's behalf. If the person has no funds with which to pay the physician, the reasonable costs of one examination and testimony must be paid by the county. The person must be present unless the court believes that the person's presence is likely to be injurious to the person. The court shall examine the person in open court or, if advisable, shall examine the person in chambers. If the person refuses an examination by a licensed

physician and there is sufficient evidence to believe that the allegations of the petition are true or if the court believes that more medical evidence is necessary, the court may make a temporary order committing the person to the department for a period of not more than 5 days for purposes of a diagnostic examination.

(4) If after hearing all relevant evidence, including the results of any diagnostic examination by the department, the court finds that grounds for involuntary commitment have been established by clear and convincing evidence, it shall make an order of commitment to the department. The court may not order commitment of a person unless it determines that the department is able to provide adequate and appropriate treatment for the person and that the treatment is likely to be beneficial.

(5) A person committed under this section must remain in the custody of the department for treatment for a period of 40 days unless sooner discharged. At the end of the 40-day period, the person must automatically be discharged unless before expiration of the period the department obtains a court order from the district court of the committing district for the person's recommitment upon the grounds set forth in subsection (1) for a further period of 90 days unless sooner discharged. If a person has been committed because the person is an alcoholic likely to inflict physical harm on another, the department shall apply for recommitment if after examination it is determined that the likelihood still exists.

(6) A person recommitted under subsection (5) who has not been discharged by the department before the end of the 90-day period must be discharged at the expiration of that period unless before expiration of the period the department obtains a court order from the district court of the committing district on the grounds set forth in subsection (1) for recommitment for a further period not to exceed 90 days. If a person has been committed because the person is an alcoholic likely to inflict physical harm on another, the department shall apply for recommitment if after examination it is determined that the likelihood still exists. Only two recommitment orders under subsections (5) and (6) are permitted.

(7) Upon the filing of a petition for recommitment under subsection (5) or (6), the court shall fix a date for hearing no later than 10 days after the date the petition was filed. A copy of the petition and of the notice of hearing, including the date fixed by the court, must be served on the petitioner, the person whose commitment is sought, the person's next of kin other than the petitioner, the original petitioner under subsection (1) if different from the petitioner for recommitment, one of the person's parents or the person's legal guardian if the person is a minor, and any other person the court believes advisable. At the hearing, the court shall proceed as provided in subsection (3).

(8) A person committed to the custody of the department for treatment must be discharged at any time before the end of the period for which the person has been committed if either of the following conditions is met:

(b) in case of an alcoholic committed on the grounds of incapacity and the need of treatment, that the incapacity no longer exists, further treatment will not be likely to bring about significant improvement in the person's condition, or treatment is no longer adequate or appropriate.

(9) The court shall inform the person whose commitment or recommitment is sought of the person's right to contest the application, be represented by counsel at every stage of any proceedings relating to the person's commitment and recommitment, and have assigned counsel pursuant to the Montana Public Defender Act, Title 47, chapter 1, if the person wants the assistance of counsel and is unable to obtain private counsel. If the court believes that the person needs the assistance of counsel, the court shall order the office of state public defender, provided for in 47-1-201, to assign counsel for the person regardless of the person's wishes. The person whose commitment or recommitment is sought must be informed of the right to be examined by a licensed physician of the person's choice. If the person is unable to obtain a licensed physician and requests examination by a physician, the court shall employ a licensed physician.

(10) If a private treatment facility agrees with the request of a competent patient or the patient's parent, sibling, adult child, or guardian to accept the patient for treatment, the department may transfer the patient to the private treatment facility.

(11) A person committed under this section may at any time seek to be discharged from commitment by writ of habeas corpus or other appropriate means.

53-30-507. Rulemaking authority. (1) The department may adopt rules to implement this part, including rules for the determination of how sites are to be chosen for regional correctional facilities. The rules must provide that in selecting a site, the department shall consider the need for a regional correctional facility in the area, the ability and willingness of a local governmental entity or a corporation to enter into a long-term contract with the department, and the availability of rehabilitative services to inmates. The rules must require that a corporation respond to a request for proposals prepared by the department for a regional correctional facility before a contract may be entered with that corporation.

(2) The department shall adopt rules that include the minimum applicable standards for the construction, operation, and physical condition of a state correctional facility portion of a regional correctional facility and for the security, safety, health, treatment, and discipline of persons confined in a state correctional facility portion of a regional correctional facility. The

rules must require that a privately operated or privately owned and operated state correctional facility portion of a regional correctional facility conform to applicable American correctional association and national commission on correctional health care standards.

(3) (a) The department shall adopt rules pursuant to Title 2, chapter 4, that specify a per diem rate that must be paid to a regional correctional facility for the confinement of persons in the state correctional facility portion of the regional correctional facility.

(b) The rules adopted pursuant to subsection (3)(a) must include but are not limited to:

(i) a definition of per diem rate;

(ii) a method of calculating the per diem rate; and

(iii) the costs to be included in the per diem rate calculation.

(c) At a minimum, the per diem rate must include compensation for:

(i) direct costs, including budget expenditures directly attributable to confining inmates;

(ii) indirect costs, including budget expenditures that are not directly associated with the confinement of inmates but that are incurred to provide support services for the regional correctional facility;

(iii) capital costs, including depreciation or a pro rata portion of capital costs incurred; and

(iv) other costs that the department determines are necessary, including medical or transportation costs.

(d) The department shall determine by rule the costs that are not allowable as part of a per diem rate. Unallowable costs must include programs and services that do not have a direct benefit to persons confined in the regional correctional facility and depreciation for capital improvements paid for by the department and depreciation for equipment used in providing support services.

(e) A population factor must be included in the per diem rate to allow for accurate compensation based on the number of inmates confined in the regional correctional facility.

(f) The rules must provide for billing procedures and must allow for review of the per diem rate at least once each fiscal year. When reviewing the per diem rate, the department shall accept public comment that must be considered when the department is determining the accuracy of the per diem rate for the next fiscal year.

(2) The department may grant a temporary license for 1 year to a facility that loses accreditation if the department determines that the facility is making satisfactory progress toward substantial conformity with this part, applicable American correctional association and national commission on correctional health care standards, as determined by the department by administrative rule, department rules, and contract requirements and that the interests and

well-being of the residents of the state and of the persons to be confined in the facility are protected. A temporary license may not be renewed.

(3) Except as provided in subsection (2), the department may not grant a license unless the contractor conforms to all state and federal statutes, applicable American correctional association and national commission on correctional health care standards, as determined by the department by administrative rule, department rules, and other requirements as defined in administrative rule. During the initial 3-year period of a contract, a private correctional facility is not required to be accredited by the American correctional association or the national commission on correctional health care in order to be granted a license by the department.

(4) The department may not grant a license to a private correctional facility unless the department determines that the facility conforms to the long-range correctional needs, objectives, and goals of the department and state.

(5) The department may not grant a license to a private correctional facility until the owner or operator of the facility has provided the department with proof of indemnity insurance that appropriately indemnifies the state and that is acceptable to the department.

(1) The department may not grant a license to a private correctional facility located within 1 mile of a public or nonpublic school, not including a home school. However, if a public or nonpublic school is established after a facility has been approved, the department may not prevent the private correctional facility from operating because of this subsection (1).

(2) The department may not grant a license to a private correctional facility unless there has been a public hearing in the county in which the private correctional facility is to be located and unless the county commissioners approve the location of the private correctional facility by a majority vote. If the proposed facility is to be located within the limits of a municipality, the department may not grant a license to a private correctional facility unless there has been a public hearing in the municipality and the local governing body approves the location of the private correctional facility by a majority vote.

(3) If the siting of a private correctional facility is proposed within 7 ½ miles of an adjacent county or if the department determines that there are reasonable expectations that the siting may have a significant impact on an adjacent county, the department may not grant a license to a private correctional facility unless there has been a public hearing in the adjacent county and unless the concerns of the adjacent county have been considered.

History: En. Sec. 7, Ch. 511, L. 1997.

53-30-608. Contracts with owners or operators of private correctional facilities. (1) Upon request of the legislative audit committee, the legislative audit division shall review the procedures by which a contract was awarded and shall review each contract prior to execution to determine if the contract includes the requirements provided in this part.

(2) A contract with an owner or operator of a private correctional facility must be awarded to the contractor who best meets the needs of the state and the department and demonstrates the capability of providing services requested.

(3) A contract must specify the type and level of services to be provided by the contractor. The contract must provide that a private contractor may not:

(a) choose the correctional facility to which an inmate is initially or subsequently assigned. A contractor may request the department to transfer an inmate to a state facility or to another private correctional facility.

(b) develop or adopt disciplinary rules that differ from the disciplinary rules, penalties, and policies of the department;

(c) make a decision that affects the sentence imposed on an inmate or the time served by an inmate;

(d) make recommendations to the board of pardons and parole with respect to the denial or granting of parole or release, except to submit reports to the board of pardons and parole and to respond to requests by the department or the board of pardons and parole;

(e) develop or implement requirements that inmates engage in any type of work, except to the extent that those requirements are accepted by the department;

(f) determine inmate eligibility for any form of release from a correctional facility; or

(g) use an inmate classification system unless it is approved by the department.

(4) Contracts may not exceed a term of 30 years and must contain provisions for renegotiation after 30 years. The provisions of 18-4-313 that limit the term of a contract do not apply to a contract authorized by this section.

(5) The contract must specify that the private correctional facility shall grant access to the legislative audit division or a person contracting with the legislative audit division for compliance auditing. The contractor shall provide access to all areas of the facility and to all records maintained onsite or offsite that pertain to all aspects of the facility, including but not limited to operation, financial, and inmate records.

History: En. Sec. 8, Ch. 511, L. 1997.

53-30-609. Contractor costs responsibility. (1) The contractor is responsible for costs incurred by the state or any political subdivision of the state for legal costs relating to escapes, riots or disturbances, or other natural or human-caused events that occur at the facility because of the contractor's negligence, errors, omissions, intentional acts, or failure to comply with the terms of the contract.

(2) The contractor is responsible for all reasonable costs and expenses incurred by the state or a political subdivision of the state for defense of causes of action brought by or on behalf of an inmate that accrue while an inmate is incarcerated at a private correctional facility.

(3) The provisions of this part are not intended to create a private or public cause of action for any person, partnership, corporation, or other entity, including any inmate housed within any private correctional facility or any inmate housed within the state of Montana.

History: En. Sec. 9, Ch. 511, L. 1997.

53-30-610. Restrictions on inmate movements. An inmate may not leave the secure premises of a private correctional facility except to comply with a court order, to receive medical care that is not available at the private correctional facility, or as part of a work program without the express written approval of the department. Any movement of an inmate outside of the secure premises of the private correctional facility must be in compliance with approved policies and procedures established by the department.

History: En. Sec. 10, Ch. 511, L. 1997.

53-30-611. Failure to comply with law — action by department. (1) A contractor shall remain in strict compliance with this part, established applicable American correctional association and national commission on correctional health care standards, as determined by the department by administrative rule, department rules, and contract requirements.

(2) If the department determines at any time that a private correctional facility does not conform to this part, applicable American correctional association and national commission on correctional health care standards, department rules, and contract requirements, the department shall notify the chief executive officer and the owner or operator, or both, of the

private correctional facility. The notice must state the deficiencies and order that they be remedied within a specified period of time not to exceed 1 year. If the deficiencies are not remedied within that time, the department may hold a contested case hearing under Title 2, chapter 4, and if the department finds that suspension or revocation is warranted by nonconformance with this part, applicable American correctional association and national commission on correctional health care standards, department rules, and contract requirements, the department may suspend or revoke the facility's license.

(3) If a private correctional facility fails to comply with this part, applicable American correctional association and national commission on correctional health care standards, department rules, or contract requirements within the specified time period, the state may assume control of the facility for the purpose of protecting the inmates, facility staff, or the public. If the state assumes control of the facility, the department shall suspend payment for any services, and the department assumes the costs of assuming control.

(4) The department may assume emergency control of a private correctional facility if substantial violations exist that affect the life, health, or safety of the inmates, facility employees, or the public or that otherwise substantially impact the security of the private correctional facility.

(5) In the event that a contractor fails to comply with this part, applicable American correctional association and national commission on correctional health care standards, department rules, or contract requirements, the state may retain the option of purchasing or leasing the facility.

(6) If either the state or the contractor fails to renew a contract, the state may retain the option of purchasing or leasing the facility.

(7) If the state retains the option of purchasing or leasing the facility under subsections (5) and (6) of this section, because it requires the creation of state debt, the appropriation bill that funds the purchase of services from the facility must be treated in the same manner as a bill creating state debt and requires a vote of two-thirds of the members of each house of the legislature for passage.

60-1-101. Legislative findings. The legislature recognizes that safe and efficient highway transportation is of important interest to all of the people of the state and declares that:

(1) inadequate highways, roads, and streets obstruct the free flow of traffic, increase costs of motor vehicle operation, endanger the health and safety of the citizens of the state, depreciate property values, and impede generally the economic progress of the state;

(2) the problems of establishing and maintaining adequate highways, roads, and streets, eliminating congestion, reducing accident frequency, providing parking facilities, and taking all necessary steps to insure safe and convenient transportation are urgent;

(3) adequate and integrated systems of highways, roads, and streets are essential to the general welfare of the state;

(4) providing adequate highway facilities is a proper public use and purpose, and this title is necessary for the preservation of the public peace, health, and safety, for the promotion of the general welfare, and as a contribution to the national defense.

History: En. Sec. 1, Ch. 197, L. 1965; R.C.M. 1947, 32-2201; amd. Sec. 1, Ch. 23, L. 1979.

60-1-102. Legislative policy and intent. Consistent with the foregoing determinations and declarations, the legislature intends:

(1) to place a high degree of trust in the hands of those officials whose duty it is, within the limits of available funds, to plan, develop, operate, maintain, and protect the highway facilities of this state for present as well as for future use;

(2) to make the department of transportation custodian of the federal-aid and state highways and to impose similar responsibilities upon the boards of county commissioners with respect to county roads and upon municipal officials with respect to the streets under their jurisdiction;

(3) that the state shall have integrated systems of highways, roads, and streets and that the department of transportation, the counties, and municipalities assist and cooperate with each other to that end;

(4) to provide sufficiently broad authority to enable the highway officials at all levels of government to function adequately and efficiently in all areas of their respective responsibilities, subject to the limitations of the constitution and the legislative mandate hereinafter imposed.

Scenic-Historic Byways Program

60-2-601. Scenic-historic byways program — advisory council — expenditure of funds. (1) There is a scenic-historic byways program. The commission may designate roads to be included as part of the program and may add or delete roads from the program. The commission may not designate a road as a scenic-historic byway without the concurrence of the affected local governments and the agencies responsible for maintenance and operation of the road. A road or right-of-way across federal land that was granted by 43 U.S.C. 932 and recognized by 43 U.S.C. 1701 may be considered for inclusion in the program.

(2) Notwithstanding the provision of 2-15-122, the commission shall appoint an advisory council for the scenic-historic byways program.

(3) The advisory council is a technical oversight council composed of no more than 11 members who must have expertise in one or more of the subjects of tourism, visual assessment, Montana history, resource protection, economic development, transportation, or planning. One member of the advisory council must be a representative of the Montana chamber of commerce.

(4) The advisory council shall:

(a) assist the department and the commission in designing the program;

(b) review applications for nominating roads to the scenic-historic byways program; and

(c) recommend to the commission roads that should be included in or deleted from the scenic-historic byways program.

(5) The department, upon the direction of the commission, may expend any funds appropriated for or otherwise available to the scenic-historic byways program.

History: En. Sec. 2, Ch. 546, L. 1999.

60-2-602. Scenic-historic byways program — rules. (1) The department shall adopt rules to effectively administer the scenic-historic byways program. The rules must include the criteria that will be considered for designating a road for inclusion in the scenic-historic byways program.

(2) In developing the criteria, to be included in the rules, for designating a road for inclusion in the scenic-historic byways program, the advisory council, commission, and department shall specifically address:

(a) factors that allow each locality choosing to participate in or seeking participation in the scenic-historic byways program the opportunity to:

(i) enhance the experience of the traveling public;

(ii) stimulate or allow for economic development and new marketing strategies; or

(iii) preserve intrinsic resources for the benefit of future generations;

(b) a methodology by which a locality choosing to participate in or seeking participation in the scenic-historic byways program may participate in the national scenic byways program, described in section 1047 of Public Law 102-240;

(c) means by which a road may be excluded from designation as a scenic-historic byway by:

(i) an incorporated municipality for a road or segment of a road within its jurisdiction; or

(ii) a landowner for a road or segment of a road adjacent to the landowner's private property;

(d) factors to be considered in assessing the intrinsic, scenic, historic, recreational, cultural, archaeological, educational, or natural qualities of the road nominated for inclusion in the scenic-historic byways program;

(e) factors to be considered in a locality's corridor management plan, including that the plan:

(i) serves as a visioning tool to provide direction for enhancing and marketing the corridor, but not as a land management document, zoning tool or mandate, highway improvement scoping or prioritization document, or highway management document;

(ii) accommodates commerce and commercial vehicles and maintains a safe and efficient level of highway services;

(iii) protects private property rights, including assurances that the private property rights of a person who owns land adjacent to or visible from the road are not in any way diminished by the road being designated a scenic-historic byway or are accommodated through mutually agreeable compensation;

(iv) precludes the locality having adopted the corridor management plan from establishing goals or commitments outside the locality's jurisdiction; and

(v) has accommodated all jurisdictions affected or to be affected by the designation of a road as a scenic-historic byway; and

(f) procedures to ensure that localities choosing to participate in the scenic-historic byways program:

(i) may exclude from designation any segment of a highway that is inconsistent with the state's criteria for designating scenic-historic byways. Within an excluded segment, a locality may allow off-premises advertising in the form of billboards or painted signs, subject to applicable federal, state, or local laws.

(ii) may use signage recognized as exceptions or as information signs in all areas along a designated route, provided that the signage complies with 23 U.S.C. 131, Title 60, chapter 5, part 5, Title 75, chapter 15, part 1, and all applicable state or locally adopted rules, requirements, and restrictions.

(1) All money received in payment of license taxes under the Distributor's Gasoline License Tax Act, except those amounts paid out of the department's suspense account for gasoline tax refund, must be used and expended as provided in this section. The portion of that money on hand at any time that is needed to pay highway bonds and interest on highway bonds when due and to accumulate and maintain a reserve for payment of highway bonds and interest, as provided in laws and in resolutions of the state board of examiners authorizing the bonds, must be deposited in the highway bond account in the debt service fund established by 17-2-102. After deductions for amounts paid out of the suspense account for gasoline tax refunds, the remainder is allocated as follows:

(a) 9/10 of 1% to the state park account;

(b) 15/28 of 1% to a snowmobile account in the state special revenue fund;

(c) 1/8 of 1% to an off-highway vehicle account in the state special revenue fund; and

(d) 1/25 of 1% to the aeronautics revenue fund of the department under the provisions of 67-1-301.

(e) The remainder of the money must be used:

(i) by the department on the highways in this state selected and designated by the commission;

(ii) for collection of the license taxes; and

(iii) for the enforcement of the Montana highway code under Article VIII, section 6, of the constitution of this state.

(2) The department shall, in expending this money, carry forward construction from year to year, using the money expended in accordance with this title. Nothing in this title conflicts with Title 23, U.S.C., and the rules by which it is administered.

(3) The department may enter into cooperative agreements with the national park service and the federal highway administration for the purpose of maintaining national park approach roads in Montana.

(4) Money credited to the state park account in the state special revenue fund may be used only for the creation, improvement, and maintenance of state parks where motorboating is allowed. The legislature finds that of all the fuel sold in the state for consumption in internal combustion engines, except fuel for which refunds have been made, not less than 9/10 of 1% is used for propelling boats on waterways of this state.

(5) (a) Money credited to the snowmobile account may be used only to develop and maintain facilities open to the general public at no admission cost, to promote snowmobile safety, for enforcement purposes, and for the control of noxious weeds.

(b) Of the amounts deposited in the snowmobile account:

(i) 13% of the amount deposited must be used by the department of fish, wildlife, and parks to promote snowmobile safety and education and to enforce snowmobile laws. Two-thirds of the 13% deposited must be used to promote snowmobile safety and education and one-third of the 13% deposited must be used for the enforcement of snowmobile laws.

(ii) 1% of the amount deposited must be credited to the noxious weed management special revenue fund provided for in 80-7-816.

(c) The legislature finds that of all fuels sold in this state for consumption in internal combustion engines, except fuel for which refunds have been made, not less than 15/28 of 1% is used for propelling registered snowmobiles in this state.

(6) (a) Money credited to the off-highway vehicle account under subsection (1)(c) may be used only to develop and maintain facilities open to the general public at no admission cost, to repair areas that are damaged by off-highway vehicles, and to promote off-highway vehicle safety. Ten percent of the money deposited in the off-highway vehicle account must be used to promote off-highway vehicle safety. Up to 10% of the money deposited in the off-highway vehicle account may be used to repair areas that are damaged by off-highway vehicles.

(b) The legislature finds that of all fuel sold in this state for consumption in internal combustion engines, except fuel for which refunds have been made, not less than 1/8 of 1% is used for propelling off-highway vehicles in this state.

(7) Money credited to the aeronautics account of the department of transportation may be used only to develop, improve, and maintain facilities open to the public at no admission cost and to promote aviation safety. The legislature finds that of all the fuel sold in this state for consumption in internal combustion engines, except fuel for which refunds have been made, not less than 1/25 of 1% is used for propelling aircraft in this state.

60-3-205. Apportionment of state funds to primary highway system. (1) Prior to the beginning of each biennium, the commission, referring to highway sufficiency ratings developed by the department, shall designate a level of sufficiency considered adequate and a lesser level of sufficiency considered critical, both to be used to compute the apportionment of federal-aid highway funds for the primary highway system during the succeeding biennium.

(2) The department shall then compute the ratio:

(a) between the mileage rated below adequate sufficiency in each financial district and the total mileage rated below adequate sufficiency of the primary highway system in the state; and

(b) between the mileage rated at or below critical sufficiency in each financial district and the total mileage rated at or below critical sufficiency of the primary highway system in the state.

(3) The department, subject to the limitation provided in subsection (4), shall then distribute three-fourths of the available federal-aid highway funds for the primary highway system among the financial districts according to the ratios computed in subsection (2)(a) and one-fourth of the available federal-aid highway funds for the primary highway system among the financial districts according to the ratios computed in subsection (2)(b).

(4) A financial district may not receive more than one-third of the total funds available for the primary highway system in any biennium. If a financial district would receive more than one-third of the total funds available under the formula in subsection (3), its apportionment is limited to the one-third maximum and any excess funds that it would have received must be redistributed among the other districts according to the formula.

(5) (a) To the extent necessary to permit the orderly programming and construction of projects, the commission may transfer and obligate apportioned primary system funds for any project located on the federal-aid interstate or national highway systems within a financial district. The commission may transfer and obligate any amount of apportioned primary system funds to any other financial district if the financial district receiving primary system funds transfers an equal amount of federal-aid interstate or national highway system funds to the financial district from which the transfer originated. This transferred amount is in addition to the federal-aid interstate and national highway system funds that would have been obligated on these systems within the federal fiscal year of transfer.

(b) The intent of the provisions allowing transfers between financial districts is that a district may not receive less funding than the amount distributed by the formula of this subsection (5) and that a district may not transfer more than is received by virtue of this formula for a given federal fiscal year.

60-3-206. Apportionment of funds to secondary highway system. (1) Each fiscal year the department shall apportion at least 65% of the federal-aid highway funds allocated for the secondary highway system among the districts for capital construction needs. The remainder of the funds must be used by the department for secondary highway system pavement preservation. The proportion that each district receives is computed on the following basis:

(a) 30% in the ratio of land area in each district to the total land area in the state;

(b) 35% in the ratio of the rural population in each district to the total rural population in the state;

(c) 30% in the ratio of the rural road mileage in each district to the total rural road mileage in the state;

(d) 5% in the ratio of the rural bridge square footage in each district to the total rural bridge square footage in the state.

(2) To the extent necessary to permit orderly programming and construction of projects, obligations in a district may exceed the amount apportioned to that district if a majority of the boards of county commissioners of the counties in another district approve the donation of the extra amount. The amount of excess obligations must be deducted from future apportionments to that recipient district and returned to the donor district.

(3) For the purposes of this section, terms are defined as follows:

(a) "Capital construction" means a highway or bridge project undertaken to improve structural strength, increase capacity, or eliminate hazardous design features. A capital construction project may include paved or gravel road reconstruction and rehabilitation.

(b) "District" means the transportation commission districts identified in 2-15-2502.

(c) "Pavement preservation" means a project undertaken to extend the useful life of a paved road.

(d) "Rural bridge square footage" means the total square footage of all deck areas of structures 20 feet long or longer located on the roadways that are used to calculate rural road mileage as provided in subsection (3)(f).

(e) "Rural population" means the total population of all of the counties in a district as reported in the latest decennial federal census less the population in cities over 5,000 persons and their unincorporated fringe urban areas as determined by the department, using the latest decennial federal census.

(f) (i) "Rural road mileage" means all road mileage on roads functionally classified and approved by the transportation commission as major collectors or minor arterials, exclusive of road mileage on the primary highway system.

(ii) Road mileage within national parks or road mileage that lies within incorporated cities over 5,000 persons and their unincorporated fringe urban areas, whose population is determined by the department, using the latest decennial federal census, is not considered rural road mileage.

(iii) Rural road mileage reported by the road inventory of the department must be used in determining rural road mileage.

(4) For the purpose of determining secondary highway capital construction priorities within a district, each board of county commissioners in a district has one vote and the department has two votes. An existing paved secondary highway may not be converted to a graveled surface without the concurrence of the board of county commissioners in the county where the road is located.

(3) any other matters regarding secondary highway construction which the department considers advisable and of interest to the counties.

60-3-212. Interim apportionment to match federal-aid funds. During the interim between legislative sessions, the department of transportation is delegated power and authority to develop formulas to apportion state construction funds in an equitable manner consistent with the intent of this title to match federal-aid funds for highway systems or purposes not enumerated in this title. Such apportionment formulas shall be valid only until approved, modified, or rejected by the next legislative session.

60-3-303. Footpaths and bicycle trails to be established — funding. (1) The commission or a county or city, with funds received from the commission, may construct footpaths and bicycle trails. Footpaths and bicycle trails may be established and extended to the nearest city or town or termination point of the highway or road wherever a highway, road, or street is being constructed, reconstructed, or relocated. In addition, footpaths and bicycle trails may be established along all streets under state jurisdiction. Funds may also be expended to construct footpaths and bicycle trails along other highways, roads, and streets and in parks and recreation areas if the construction enhances traffic safety and convenience. Footpaths and bicycle trails may be constructed along all sections of the national defense interstate highway system.

(2) Footpaths and trails may not be established under subsection (1):

(a) if the cost of establishing the paths and trails is excessively disproportionate to the need or probable use; or

(b) if sparsity of population, other available ways, or other factors indicate an absence of any need for the paths and trails.

(3) The commission shall let to contract in any period of 5 consecutive fiscal years not less than an average of $200,000 each year for footpaths and bicycle trails. The department shall establish accounting procedures to document compliance with this subsection.

60-3-304. Duties of department of transportation. (1) The establishment of paths and trails and the expenditure of funds as authorized by this part are for the promotion of traffic safety on the highways, roads, and streets of the state. The transportation commission shall, when requested, provide technical assistance and advice to cities and counties in carrying out the purpose of this part.

(2) The department of transportation shall recommend construction standards for footpaths and bicycle trails. The department shall provide a uniform system of signing footpaths and bicycle trails which shall apply to paths and trails under the jurisdiction of the commission and cities and counties. The commission and cities and counties shall restrict the use of footpaths and bicycle trails under their jurisdiction to pedestrians and nonmotorized vehicles to the maximum possible extent, except that the commission, in cooperation with local governments, may authorize the operation of snowmobiles on designated portions of bicycle trails and footpaths when snow conditions permit.

60-4-104. Exercise of right of eminent domain — presumption. (1) Subject to subsections (4) and (5), whenever the department cannot acquire lands or other property or interests in the lands or property at a price or cost that it considers reasonable, it may direct the attorney general or any county attorney to procure the interests by proceedings to be instituted as provided in Title 70, chapter 30, against all nonaccepting landholders.

(2) The department may not direct the attorney general or any county attorney to procure the interests until it adopts an order declaring that:

(a) public interest and necessity require the construction or completion by the state of the highway or improvement for one of the purposes set forth in 60-4-103;

(b) the interest described in the order and sought to be condemned is necessary for the highway or improvement;

(c) the highway or improvement is planned and located in a manner that will be compatible with the greatest public good and the least private injury.

(3) The order creates and establishes a disputable presumption:

(a) of the public necessity of the proposed highway or improvement;

(b) that the taking of the interest sought is necessary for the project;

(c) that the proposed highway or improvement is planned or located in a manner that will be most compatible with the greatest public good and the least private injury.

(4) (a) Once the department has acquired at least three-fourths of all the parcels needed to construct a project that has been selected by the commission, it may use the procedures outlined in subsection (5) and this subsection (4) to acquire the remaining parcels required for the project.

(b) Not less than 30 days or more than 45 days after service of the summons and complaint provided for in 70-30-203, the department shall deposit into an account and in the manner provided for in 70-30-302 the estimated fair market value of the property that is to be acquired and that is described in the complaint. Once the funds are deposited, the department may request, by motion filed with the court, an order to show cause why the property should not be placed in the possession of the department as requested in the complaint.

(5) (a) If the condemnee does not file an objection to the motion within 10 days, the court shall issue the preliminary condemnation order as provided in 70-30-206 and place the condemnor in possession of the property as provided in 70-30-311.

(b) If the condemnee files an objection to the motion, the court shall schedule a hearing at which the condemnee shall appear and show cause why the property should not be placed in the possession of the department as requested in the complaint. The hearing must take place not less than 20 days or more than 30 days after the objection is filed. The court shall rule on the condemnor's motion as soon after the hearing as possible. (2) Except as provided in 60-4-213 through 60-4-218, before the sale of an interest having a value in excess of $10,000, the department must have the interest appraised at a price representing a fair market value. The appraised value must be stated in the published notice.

(3) Except as provided in 60-4-213 through 60-4-218, a sale of an interest may not be made unless it has been appraised within 3 months prior to the date of the sale. A sale may not be made for less than 90% of the appraised value.

(1) Except as provided in 60-4-213 through 60-4-218, upon abandonment by the state in the manner provided in subsection (2) of an interest in real property acquired for the purpose of establishment of a highway, the owner of contiguous real property or the owner's successor in interest is vested with the abandoned interest to the extent provided in subsection (3).

(2) For the purposes of this section:

(a) a fee simple interest may be abandoned only by the proper order of the commission; and

(b) an interest of less than fee simple may be abandoned in the manner provided in subsection (2)(a), by operation of law, and by judgment of a court of competent jurisdiction.

(3) Except as provided in 60-4-213 through 60-4-218, the interest acquired by the contiguous property owner under subsection (1) is the abandoned interest or portion of the interest:

(a) if there are different contiguous property owners on each side of the abandoned interest, bounded on one side by the contiguous property and on the remaining two opposite sides by lines following the shortest distance from the extreme ends of the contiguous property abutting upon the abandoned interest to the center of the abandoned interest; and

(b) if the owners of the contiguous property on each side of the abandoned interest are the same, bounded on two opposite sides by the contiguous properties and on the two remaining opposite sides by lines following the shortest distance from the extreme ends of the contiguous property on one side of the abandoned interest to the extreme ends of the contiguous property on the other side of the abandoned interest.

(4) For the purpose of this section, an interest in property abandoned by a proper order of the commission includes an interest in property that the commission determines to be unnecessary to the laying out, altering, construction, improvement, or maintenance of a highway, whether or not the commission determines to sell the interest.

(5) Except as provided in 60-4-213 through 60-4-218, the interest acquired by a contiguous property owner under subsection (3) is conditioned upon the use of the property for agricultural or noncommercial purposes. If the property is used for commercial purposes or for purposes of future subdivision or other similar development, the property must revert to the state for sale pursuant to this part. This restriction applies to all subsequent holders of title to the property.

(2) "Abandonment" means cessation of use of right-of-way or activity on the right-of-way with no intention to reclaim or use the right-of-way again.

(3) "Contiguous property" means subdivided parcels along one side of the length of the remainder.

(4) "Remainder" means the area lying between the centerline and the new right-of-way line as determined by the department, in its sole discretion, as necessary for the reconstruction and maintenance of a road or highway.

(5) "Subject property" means that portion of highway right-of-way for which abandonment is sought.

60-4-216. Procedure for abandonment. (2) The department shall prepare an order of abandonment to propose to the commission.

(3) The proposed order must state that the subject property is subject to all easements and utilities apparent or of record.

(4) Before abandoning the subject property, the commission shall notify the board of county commissioners in writing of its intent to abandon the subject property and shall hold a public hearing in the county or counties affected by the abandonment.

(5) The commission shall publish the notice of proposed abandonment and public hearing for 3 successive weeks in local newspapers within the county.

(6) The commission, in its sole discretion, may enter an order abandoning the subject property.

(7) The order with exhibits attached must be recorded by the department in the office of the clerk and recorder in the county or counties in which the subject property is located.

History: En. Sec. 4, Ch. 226, L. 2005.

60-4-217. Criteria for abandonment. (1) Subject to subsection (2), the commission shall enter an order abandoning the subject property upon finding that:

(a) the department has determined that the cost of disposing of the subject property by sale pursuant to 60-4-202 or exchange pursuant to 60-4-201 exceeds the fair market value of the subject property;

(b) a remainder exists to provide reasonable access; and

(c) at least one of the following applies:

(i) the disposal qualifies as an exception to 23 CFR 710.403(d);

(ii) reimbursement of federal funds is not required; or

(iii) the commission agrees to any required reimbursement of federal funds.

(2) An owner of contiguous property who does not object to the proposed receipt of title to the abandoned interest is considered to have consented to the receipt of title.

History: En. Sec. 5, Ch. 226, L. 2005.

60-4-218. Title. (1) The department is not responsible for apportioning the abandoned interest among the owners of the contiguous property, and the provisions of 60-4-209(3) do not apply to this abandonment.

(2) By consummating the abandonment, neither the department nor the commission gives the covenants set forth in 30-11-110 or warrants title.

(3) The interest acquired by each owner of contiguous property is the abandoned interest in the subject property between the extension of the boundaries of the contiguous property, extending on the same course and intersecting with the linear boundary of the remainder.

60-5-101. Policy. The legislature declares it to be the policy of this state to facilitate the flow of traffic and promote public safety by controlling access to:

(1) highways included by the federal highway administration in the national system of interstate highways;

(2) throughways and intersections with throughways;

(3) such other federal-aid and state highways as shall be designated by the commission in accordance with the requirements set forth in this chapter.

History: En. Sec. 10-101, Ch. 197, L. 1965; amd. Sec. 152, Ch. 316, L. 1974; R.C.M. 1947, 32-4301; amd. Sec. 23, Ch. 23, L. 1979.

60-5-102. Definitions. When used in this chapter, the following definitions apply:

(1) "Arterial highway" means a state highway designated by agreement between the commission and the secretary of transportation as part of the federal-aid primary system and

any highway so designated as a part of the federal-aid secondary system which has been constructed and is being used primarily for through traffic on a continuous route.

(2) "Controlled-access facility" means and includes streets, alleys, public roads, private roads, and ways of passage intersecting a controlled-access highway and real property contiguous to the right-of-way of a controlled-access highway.

(3) "Controlled-access highway" means those portions of an interstate highway, throughway, or throughway intersection which the commission designates for through traffic or other federal-aid or state highway over, from, or to which owners or occupants of abutting land or other persons have no easement of access or only a limited easement of access, light, air, or view. It also means those portions of spurs to the interstate highway system which the commission designates as unsafe or impeded by unrestricted access of traffic from intersecting streets or alleys or public or private roads or ways of passage.

(4) "Existing highway" means and includes highways, roads, and streets established, constructed, and in use on March 2, 1955. It does not include highways, roads, or streets, established, constructed, and in use after that date or highways, roads, or streets, or portions thereof relocated after that date.

(5) "Highway authorities" or "authority" means the entities in state, county, and municipal governments which have authority to construct, repair, and maintain highways, roads, and streets.

(6) "Interstate highway" means a highway included as a part of the national system of interstate highways.

60-5-103. Designation as controlled-access highway. (1) No portion of any interstate highway, throughway or throughway intersection, or other federal-aid or state highway shall be designated as a controlled-access highway unless the commission shall adopt a resolution so designating it. The resolution shall be adopted by the majority vote of the members in attendance at any regular or special meeting. In it, the commission shall find and determine that it is necessary and desirable that:

(a) the owners or occupants of the abutting land or other persons shall have no easement of access or only a limited easement of access, light, air, or view;

(b) the rights of or easements to access, light, air, or view be acquired by the state so as to prevent such portion of highway from becoming unsafe for or impeded by unrestricted access of traffic from intersecting streets, alleys, public or private roads, or ways of passage.

(2) The resolution shall contain a statement of the reasons for its adoption and shall set forth the location, distance, and termini of the portion of the highway designated as a controlled-access highway.

Each authority shall by resolution make the findings and determinations provided for in 60-5-103 in order to designate a highway as a controlled-access facility.

(2) The highway authorities of the state, counties, incorporated cities, and towns, respectively or in cooperation each with the other, may acquire private or public property and property rights for controlled-access highways or controlled-access facilities and service roads. The property rights may include rights of access, air, view, and light. The property and property rights may be acquired by gift, devise, purchase, or condemnation, as provided in Title 70,

chapter 30, and chapter 4 of this title, for the acquisition of property or property rights in connection with highways, roads, and streets in their respective jurisdictions.

(3) Within incorporated cities and towns and upon county roads or secondary highways, the department of transportation may not control access without the consent of the appropriate governing body.

(4) Each authority may also exercise with relation to controlled-access facilities any current or future authority it has over highways, roads, or streets within its jurisdiction. Each authority may, within its jurisdiction, regulate, restrict, or prohibit the use of controlled-access facilities by any vehicles or traffic.

(1) Each highway authority may so design any controlled-access facility and so regulate, restrict, or prohibit access as to best serve the traffic for which the facility is intended. In so doing, it may divide and separate any controlled-access facility into separate roadways by the construction of raised curbings, central dividing sections, or other physical separations or by designating the separate roadways by signs, markers, stripes, and other devices.

(2) No person shall have any right to enter upon, exit from, or cross any controlled-access facility except at designated points at which access may be permitted. Terms and conditions governing such access may be specified from time to time.

(2) After the establishment of any controlled-access highway or facility, no private or public highway or street which is not a part of the highway or facility shall intersect it at grade, except as may be provided in the resolution designating it a controlled-access highway or facility. No street, road, highway, or other public or private way shall be opened into or connected with any controlled-access highway or facility without the prior consent and approval of the appropriate highway authority which adopted the controlled-access resolution.

(3) The commission may, whenever it determines that the public safety is not thereby impaired, authorize the continued intersection at grade of lightly traveled farm entrances and minor public roads as ways of access to controlled-access highways in sparsely populated rural areas. The commission shall have sole jurisdiction to determine the existence and location of any intersection with interstate highways, throughways, and other federal-aid and state highways.

Fencing of Open Range

Part Cross-References

Open range defined, 81-4-203.

60-7-101. Purpose. It is the purpose of 60-7-101 through 60-7-103 to balance the tradition of the open range and the economic and geographic problems of raising livestock with the need for safer highways and the policy of taking all feasible measures to reduce the high incidence of traffic accidents and fatalities on Montana highways.

History: En. 32-2425.1 by Sec. 1, Ch. 255, L. 1974; R.C.M. 1947, 32-2425.1.

60-7-102. Definitions. As used in 60-2-208 and 60-7-101 through 60-7-103, the following definitions apply:

(1) A "high-hazard area" is a segment of the primary or secondary highway system passing through open range where livestock move on or across the highway often enough, in enough numbers, and with enough ease of access that the animals create a significant traffic safety hazard. Evidence bearing on whether animals on the highway pose a significant hazard includes, without limitation, past accident records, the opinions of persons qualified by experience to evaluate the relative safety of road conditions, and the terrain around the road.

(2) "Livestock" means cattle, sheep, swine, horses, mules, and goats.

(3) A "low-hazard area" is a segment of the primary or secondary highway system passing through open range that is not a high-hazard area.

(4) "Open range" means those areas of the state where livestock are raised and maintained in sufficient numbers to constitute a significant part of the local or county economy and where livestock graze and move about generally unrestrained by fences.

History: En. Sec. 1, Ch. 311, L. 1969; amd. Sec. 2, Ch. 255, L. 1974; amd. Sec. 91, Ch. 316, L. 1974; R.C.M. 1947, 32-2426(2); amd. Sec. 1, Ch. 204, L. 2001.

60-7-103. Department to fence right-of-way through open range — exception. (1) Except as provided in subsection (3), the department shall fence the right-of-way of any part of a primary or secondary highway or a county road or bridge that is constructed or reconstructed after July 1, 1969, through open range where livestock present a hazard to the safety of the motorist. When a fence is constructed, adequate stock gates or stock passes, as necessary, must be provided to make land on either side of the highway usable for livestock purposes.

(2) The department shall erect a right-of-way fence in the high-hazard areas where fencing is warranted as promptly as possible, and the cost of the fence construction is an expenditure for the enforcement of federal-aid highway safety programs. Even if a right-of-way fence is determined to be unwarranted pursuant to subsection (3), gates, stock underpasses, water facilities, and cattle guards may be installed where necessary to enhance safety and to make the land on either side of the highway usable for livestock purposes or where a public right-of-way intersects the state highway.

(3) The department is not required to fence the right-of-way of a secondary highway through open range that passes through a county park, provided that:

(a) the department and the board of county commissioners:

(i) agree that the criteria listed in this subsection (3) have been adequately met; and

(ii) cooperate in developing an accident mitigation plan for the portion of the highway that will remain unfenced. The plan may include the speed limit established as provided in 61-8-309 or 61-8-310, how the criteria listed in this subsection (3) have been met, how the plan will be implemented, and any other issues related to minimizing accidents involving livestock and motor vehicles where a fence has not been erected.

(b) livestock grazing does not occur from Memorial Day to Labor Day;

(c) the speed limit established as provided in 61-8-309 or 61-8-310 is clearly posted and enforceable;

(d) warning signs indicating that livestock may be on the road are posted at regular intervals along the road and maintained during the months that livestock grazing occurs;

(e) livestock management practices, such as locating water and administering dietary supplements away from the road and developing grazing and herding plans that minimize the amount of time that livestock are on or near the road, are employed; and

(f) the unfenced portion of the road does not exceed 20 miles in length.

History: (1)En. Sec. 1, Ch. 311, L. 1969; amd. Sec. 2, Ch. 255, L. 1974; amd. Sec. 91, Ch. 316, L. 1974; Sec. 32-2426, R.C.M. 1947; (2)En. 32-2429 by Sec. 5, Ch. 255, L. 1974; Sec. 32-2429, R.C.M. 1947; R.C.M. 1947, 32-2426(1), 32-2429; amd. Sec. 2, Ch. 204, L. 2001.

(1) a state highway running through cultivated areas or a part of the fenced right-of-way of a state highway if in either case the highway has been designated by agreement between the transportation commission and the secretary of transportation as a part of the national system of interstate and defense highways; or

(2) the parts of fenced highways adjacent to open range where a highway device has not been installed to exclude range livestock;

(3) the parts of a state highway or a part of the federal-aid primary system that the department of transportation designates as being impracticable to exclude livestock. These portions of the highway must be marked by proper signs in accordance with the department's manual and specifications for a uniform system of traffic control devices.

In a civil action for damages caused by collision between a motor vehicle and a domestic animal or animals on a highway brought by the owner, driver, or occupant of a motor vehicle or by their personal representatives or assigns or by the owner of livestock, there is no presumption or inference that the collision was due to negligence on the part of the owner or the person in possession of the livestock or the driver or owner of the vehicle.

History: En. Sec. 1, Ch. 602, L. 2005.

60-11-114. Purpose. (1) Montana's railroad branch lines provide critical transportation to Montana businesses and communities. These lines are especially important to Montana's agricultural and wood products industries that rely on railroads to transport Montana products to national and international markets. The branch lines are also critical to efforts to increase or expand businesses that process Montana commodities into more valuable products.

(2) A state rail funding program will provide Montana with an important tool to help preserve and enhance Montana's branch lines.

(3) The purpose of sections 60-11-113 through 60-11-116 is to provide low-interest loans to railroads, cities, counties, companies, or regional rail authorities for the purposes provided in 60-11-120 to preserve or enhance cost-effective rail service to Montana communities and businesses.

History: En. Sec. 2, Ch. 602, L. 2005.

60-11-115. Revolving loan account — statutory appropriation — rulemaking. (1) There is a revolving loan account to be administered by the department. Any interest or income that is earned by the account and loan repayments must be deposited into the revolving loan account unless revenue bonds are issued to fund a loan, in which case the loan repayments must be deposited in the debt service account. The department may request the board of investments to issue revenue bonds, as provided in 60-11-117 through 60-11-119, for the purpose of providing funds for a loan.

(2) The department may make loans from the account pursuant to 60-11-120.

(3) Funds in the account that are deposited pursuant to former 49 U.S.C. 1654 must continue to be managed as local rail freight assistance program funds. Any additional federal funds received for local rail freight assistance programs or for railroad projects must be deposited in the account.

(4) There is statutorily appropriated, as provided in 17-7-502, to the department up to $2 million annually for the purposes of making loans pursuant to 60-11-120.

(5) Loans may not be made if the loan would cause the balance in the account to be less than $500,000.

(6) The department may adopt rules to implement 60-11-113 through 60-11-116.

History: En. Sec. 3, Ch. 602, L. 2005.

60-11-116. Funding for account. Federal funds received for local freight assistance programs under former 49 U.S.C. 1654 in an amount up to $1.1 million must be deposited in the account established in 60-11-115.

History: En. Sec. 4, Ch. 602, L. 2005.

60-11-117. Definitions. As used in 60-11-117 through 60-11-119, the following definitions apply:

60-11-118. Revenue bond debt service account — deposit of bond proceeds. (1) There is in the debt service fund an essential freight rail revenue bond debt service account. The state treasurer shall deposit revenue as may be pledged to the payment of particular bonds to the credit of the essential freight rail revenue bond debt service account as required by resolution or indenture.

(2) All proceeds of an issue of bonds must be deposited in a separate account in the state special revenue fund, except that any premiums and accrued interest received may be deposited in a separate account in the debt service fund established for that bond issue by resolution or indenture. No more than the principal and interest on the bonds due in any year may be retained in the essential freight rail revenue bond debt service account for the payment of bonds. The remainder of pledged revenue is available for authorized purposes of the department. Money deposited in the separate accounts in the state special revenue fund until spent for project purposes may be pledged and appropriated for the payment of bonds, which are a first lien and prior charge upon the funds, and the funds may be used for payment of bonds to the extent that revenue deposited in the essential freight rail revenue bond debt service account are not sufficient for those purposes.

(3) Interest and investment earnings on the separate accounts in subsections (1) and (2) must be retained in the separate accounts referred to in subsection (2).

History: En. Sec. 8, Ch. 602, L. 2005.

60-11-119. Authority to issue revenue bonds. (b) the development, improvement, construction, purchase, maintenance, or rehabilitation of:

(i) intermodal transportation facilities except as prohibited by federal law;

(iii) sidings;

(iv) light density railroad lines; and

(v) rolling stock, including rail cars.

(b) derives revenue from the continued operation of the railroad.

(3) A port authority created under Title 7, chapter 14, part 11, is eligible for a loan under this section if:

(a) the port authority is included in the state transportation planning process as described in 23 U.S.C. 135; and

(b) the purpose for which a loan is sought is integrally related to the railroad transportation system of the state.

(4) Applications for a loan must include:

(a) a financial statement;

(b) evidence of matching funds required pursuant to subsection (5);

(c) an operating or business plan that demonstrates the applicant's ability to repay the funds; and

(d) upon request of the department, an independent feasibility study.

The transportation commission, provided for in 2-15-2502, shall establish matching fund requirements for other project categories.

(6) The transportation commission is responsible for determining funding recipients. Recipients must be determined using the guidelines provided in 60-2-110.

(7) The department shall administer the Montana Essential Freight Rail Act with input from the department of commerce, the department of agriculture, and the governor's office.

History: En. Sec. 5, Ch. 541, L. 1993; amd. Sec. 49, Ch. 422, L. 1997; amd. Sec. 3, Ch. 496, L. 2005; amd. Sec. 6, Ch. 602, L. 2005.

60-11-121. Legislative findings. (1) The legislature finds that it is in the interests of the state of Montana to preserve and encourage, whenever possible, Montana's railroad transportation infrastructure, especially:

(a) those railroads classified as Class III carriers under 49 CFR, chapter X, that operate mainly within the state; and

(b) those railroads within the state that are eligible for rail freight assistance programs under 49 U.S.C. 1654.

(2) The legislature further finds that:

(a) the railroad transportation infrastructure of the state is enhanced by the development and improvement of intermodal transportation facilities by port authorities created under Title 7, chapter 14, part 11; and

(b) abandonment of railroad branch lines and the increased demands for shipping have a negative impact on the highways of the state.

(3) The legislature further finds that the preservation of those railroads described in subsection (1)(b) and the development and improvement of intermodal transportation facilities are necessary to enhance access to markets, to mitigate rural isolation and long-term negative impacts on the highways of the state, and to promote the efficiency and effectiveness of the state's transportation system.

(4) The legislature declares that loans and grants made available under 60-11-120 to railroads and to port authorities are in the interest of the state.

History: En. Sec. 1, Ch. 513, L. 1991; amd. Sec. 2, Ch. 541, L. 1993; amd. Sec. 244, Ch. 42, L. 1997.

History: En. Sec. 2, Ch. 513, L. 1991; amd. Sec. 3, Ch. 541, L. 1993.

60-11-123. Disposition of revenue from state-owned railroads — use of money. (1) Unless otherwise required by law, revenue from the lease or sale of assets of or revenue paid to the state of Montana by an operator of a railroad owned by the state of Montana must be deposited in the state general fund.

(2) The department of transportation is authorized to administer, as provided in 60-11-120 through 60-11-123, funding available to provide for improvement of railroad tracks and associated facilities of any state-owned railroad in Montana and to provide loans and grants to railroad lines and intermodal transportation facilities as provided in 60-11-120.

History: En. Sec. 3, Ch. 513, L. 1991; amd. Sec. 4, Ch. 541, L. 1993; amd. Sec. 50, Ch. 422, L. 1997.

The governor may not participate in the submission of an application until the base agreement and any application have been approved by the legislature. Vehicle Equipment Safety

Part Cross-References

61-2-201. Vehicle Equipment Safety Compact. This part shall be known and may be cited as the "Vehicle Equipment Safety Compact".

Article I. Findings and Purposes

(1) The party states find that:

(a) accidents and deaths on their streets and highways present a very serious human and economic problem with a major deleterious effect on the public welfare;

(b) there is a vital need for the development of greater interjurisdictional cooperation to achieve the necessary uniformity in the laws, rules, regulations, and codes relating to vehicle equipment, and to accomplish this by such means as will minimize the time between the development of demonstrably and scientifically sound safety features and their incorporation into vehicles.

(2) The purposes of this compact are to:

(a) promote uniformity in regulation of and standards for equipment;

(b) secure uniformity of law and administrative practice in vehicular regulation and related safety standards to permit incorporation of desirable equipment changes in vehicles in the interest of greater traffic safety;

(c) provide means for the encouragement and utilization of research which will facilitate the achievement of the foregoing purposes, with due regard for the findings set forth in subsection (1) of this article.

(3) It is the intent of this compact to emphasize performance requirements and not to determine the specific detail of engineering in the manufacture of vehicles or equipment except to the extent necessary for the meeting of such performance requirements.

Article II. Definitions

As used in this compact:

(1) "Vehicle" means every device in, upon, or by which any person or property is or may be transported or drawn upon a highway, excepting devices moved by human power or used exclusively upon stationary rails or tracks.

(2) "State" means a state, territory, or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

(3) "Equipment" means any part of a vehicle or any accessory for use thereon which affects the safety of operation of such vehicle or the safety of the occupants.

Article III. The Commission

(1) There is hereby created an agency of the party states to be known as the "Vehicle Equipment Safety Commission", hereinafter called the commission. The commission shall be composed of one commissioner from each party state who shall be appointed, serve, and be subject to removal in accordance with the laws of the state which he represents. If authorized by the laws of his party state, a commissioner may provide for the discharge of his duties and the performance of his functions on the commission, either for the duration of his membership or for any lesser period of time, by an alternate. No such alternate shall be entitled to serve unless notification of his identity and appointment shall have been given to the commission in such form as the commission may require. Each commissioner, and each alternate when serving in the place and stead of a commissioner, shall be entitled to be reimbursed by the commission for expenses actually incurred in attending commission meetings or while engaged in the business of the commission.

(2) The commissioners shall be entitled to one vote each on the commission. No action of the commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the commission are cast in favor thereof. Action of the commission shall be only at a meeting at which a majority of the commissioners, or their alternates, are present.

(3) The commission shall have a seal.

(4) The commission shall elect annually, from among its members, a chairman, a vice-chairman, and a treasurer. The commission may appoint an executive director and fix his duties and compensation. Such executive director shall serve at the pleasure of the commission, and together with the treasurer shall be bonded in such amount as the commission shall determine. The executive director also shall serve as secretary. If there be no executive director, the commission shall elect a secretary in addition to the other officers provided by this subdivision.

(5) Irrespective of the civil service, personnel, or other merit system laws of any of the party states, the executive director with the approval of the commission, or the commission if there be no executive director, shall appoint, remove, or discharge such personnel as may be necessary for the performance of the commission's functions, and shall fix the duties and compensation of such personnel.

(6) The commission may establish and maintain independently or in conjunction with any one or more of the party states a suitable retirement system for its full time employees. Employees of the commission shall be eligible for social security coverage in respect of old age and survivor's insurance provided that the commission takes such steps as may be necessary pursuant to the laws of the United States to participate in such program of insurance as a governmental agency or unit. The commission may establish and maintain or participate in such additional programs of employee benefits as may be appropriate.

(7) The commission may borrow, accept, or contract for the services of personnel from any party state, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party states or their subdivisions.

(8) The commission may accept for any of its purposes and functions under this compact any and all donations and grants of money, equipment, supplies, materials, and services, conditional or otherwise, from any state, the United States, or any other governmental agency and may receive, utilize, and dispose of the same.

(9) The commission may establish and maintain such facilities as may be necessary for the transacting of its business. The commission may acquire, hold, and convey real and personal property and any interest therein.

(10) The commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto with the appropriate agency or officer in each of the party states. The bylaws shall provide for appropriate notice to the commissioners of all commission meetings and hearings and the business to be transacted at such meetings or hearings. Such notice shall also be given to such agencies or officers of each party state as the laws of such party state may provide.

(11) The commission annually shall make to the governor and legislature of each party state a report covering the activities of the commission for the preceding year, and embodying such recommendations as may have been issued by the commission. The commission may make such additional reports as it may deem desirable.

Article IV. Research and Testing

The commission shall have power to:

(1) collect, correlate, analyze, and evaluate information resulting or derivable from research and testing activities in equipment and related fields;

(2) recommend and encourage the undertaking of research and testing in any aspect of equipment or related matters when, in its judgment, appropriate or sufficient research or testing has not been undertaken;

(3) contract for such equipment research and testing as one or more governmental agencies may agree to have contracted for by the commission, provided that such governmental agency or agencies shall make available the funds necessary for such research and testing;

(4) recommend to the party states changes in law or policy with emphasis on uniformity of laws and administrative rules, regulations, or codes which would promote effective governmental action or coordination in the prevention of equipment-related highway accidents or the mitigation of equipment-related highway safety problems.

Article V. Vehicular Equipment

(1) In the interest of vehicular and public safety, the commission may study the need for or desirability of the establishment of or changes in performance requirements or restrictions for any item of equipment. As a result of such study, the commission may publish a report relating to any item or items of equipment, and the issuance of such a report shall be a condition precedent to any proceedings or other action provided or authorized by this article. No less than 60 days after the publication of a report containing the results of such study, the commission upon due notice shall hold a hearing or hearings at such place or places as it may determine.

(2) Following the hearing or hearings provided for in subsection (1) of this article, and with due regard for standards recommended by appropriate professional and technical associations and agencies, the commission may issue rules, regulations, or codes embodying performance requirements or restrictions for any item or items of equipment covered in the report, which in the opinion of the commission will be fair and equitable and effectuate the purposes of this compact.

(3) Each party state obligates itself to give due consideration to any and all rules, regulations, and codes issued by the commission and hereby declares its policy and intent to be the promotion of uniformity in the laws of the several party states relating to equipment.

(4) The commission shall send prompt notice of its action in issuing any rule, regulation, or code pursuant to this article to the appropriate motor vehicle agency of each party state and such notice shall contain the complete text of the rule, regulation, or code.

(5) If the constitution of a party state requires, or if its statutes provide, the approval of the legislature by appropriate resolution or act may be made a condition precedent to the taking effect in such party state of any rule, regulation, or code. In such event, the commissioner of such party state shall submit any commission rule, regulation, or code to the legislature as promptly as may be in lieu of administrative acceptance or rejection thereof by the party state.

(6) Except as otherwise specifically provided in or pursuant to subsections (5) and (7) of this article, the appropriate motor vehicle agency of a party state shall in accordance with its constitution or procedural laws adopt the rule, regulation, or code within 6 months of the sending of the notice and, upon such adoption, the rule, regulation, or code shall have the force and effect of law therein.

(7) The appropriate motor vehicle agency of a party state may decline to adopt a rule, regulation, or code issued by the commission pursuant to this article if such agency specifically finds, after public hearing on due notice, that a variation from the commission's rule, regulation, or code is necessary to the public safety, and incorporates in such finding the reasons upon which it is based. Any such finding shall be subject to review by such procedure for review of administrative determinations as may be applicable pursuant to the laws of the party state. Upon request, the commission shall be furnished with a copy of the transcript of any hearings held pursuant to this subsection.

Article VI. Finance

(1) The commission shall submit to the executive head or designated officer or officers of each party state a budget of its estimated expenditures for such period as may be required by the laws of that party state for presentation to the legislature thereof.

(2) Each of the commission's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states. The total amount of appropriations under any such budget shall be apportioned among the party states as follows: one-third in equal shares and the remainder in proportion to the number of motor vehicles registered in each party state. In determining the number of such registrations, the commission may employ such source or sources of information as in its judgment present the most equitable and accurate comparisons among the party states. Each of the commission's budgets of estimated expenditures and requests for appropriations shall indicate the source or sources used in obtaining information concerning vehicular registrations.

(3) The commission shall not pledge the credit of any party state. The commission may meet any of its obligations in whole or in part with funds available to it under Article III(8) of this compact, provided that the commission takes specific action setting aside such funds prior to incurring any obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it under Article III(8) hereof, the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

(4) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its rules. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a qualified public accountant and the report of the audit shall be included in and become part of the annual reports of the commission.

(5) The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.

(6) Nothing contained herein shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

Article VII. Conflict of Interest

(1) The commission shall adopt rules and regulations with respect to conflict of interest for the commissioners of the party states, and their alternates, if any, and for the staff of the commission and contractors with the commission to the end that no member or employee or contractor shall have a pecuniary or other incompatible interest in the manufacture, sale, or distribution of motor vehicles or vehicular equipment or in any facility or enterprise employed by the commission or on its behalf for testing, conduct of investigations, or research. In addition to any penalty for violation of such rules and regulations as may be applicable under the laws of the violator's jurisdiction of residence, employment, or business, any violation of a commission rule or regulation adopted pursuant to this article shall require the immediate discharge of any violating employee and the immediate vacating of membership, or relinquishing of status as a

member on the commission by any commissioner or alternate. In the case of a contractor, any violation of any such rule or regulation shall make any contract of the violator with the commission subject to cancellation by the commission.

(2) Nothing contained in this article shall be deemed to prevent a contractor for the commission from using any facilities subject to his control in the performance of the contract even though such facilities are not devoted solely to work of or done on behalf of the commission, or to prevent such a contractor from receiving remuneration or profit from the use of such facilities.

Article VIII. Advisory and Technical Committees

The commission may establish such advisory and technical committees as it may deem necessary, membership on which may include private citizens and public officials, and may cooperate with and use the services of any such committees and the organizations which the members represent in furthering any of its activities.

Article IX. Entry Into Force and Withdrawal

(1) This compact shall enter into force when enacted into law by any six or more states. Thereafter, this compact shall become effective as to any other state upon its enactment thereof.

(2) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until 1 year after the executive head of the withdrawing state has given notice in writing of the withdrawal to the executive heads of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

Article X. Construction and Severability

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any state or of the United States or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating herein, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters.

(1) the public safety necessitates the continuous development, modernization, and implementation of standards and requirements of law relating to vehicle equipment, in accordance with expert knowledge and opinion;

(2) the public safety further requires that such standards and requirements be uniform from jurisdiction to jurisdiction, except to the extent that specific and compelling evidence supports variation;

(3) the department, acting upon recommendations of the vehicle equipment safety commission and pursuant to the Vehicle Equipment Safety Compact, provides a just, equitable, and orderly means of promoting the public safety in the manner and within the scope contemplated by this part.

Driver Improvement Program

61-2-301. Purpose. The toll of accidents, personal injuries, and deaths resulting from the operation of motor vehicles remains a matter of great concern to the legislature. The failure to apply proper driving techniques in the operation of vehicles and improper driving attitudes and habits on the part of operators constitute major factors in a substantial portion of both fatal and nonfatal automobile accidents. Current efforts to improve driver skills, responsibilities, attitudes, and habits have not proved adequate to stem the accident, injury, and death toll. The public interest in the cause of highway safety will be well served by additional methods of driver rehabilitation and improvement and the establishment of programs of rehabilitative instruction, driver improvement, and direction for drivers with poor driving records.

History: En. 31-191 by Sec. 1, Ch. 526, L. 1977; R.C.M. 1947, 31-191.

61-2-302. Establishment of driver rehabilitation and improvement program — participation by offending drivers. (1) The department may establish by administrative rules a driver rehabilitation and improvement program or programs. The programs may consist of classroom instruction in rules of the road, driving techniques, defensive driving, driver attitudes and habits, actual on-the-road driver's training, and other subjects or tasks designed to contribute to proper driving attitudes, habits, and techniques and must include the requirements for obtaining a restricted probationary driver's license.

(2) Except when otherwise provided or restricted by statute, a person whose driver's license is suspended or revoked by the department may participate in any driver rehabilitation and improvement program established under this section if the person's license is:

(a) suspended as a result of a violation of the traffic laws of this state, unless the suspension was imposed under the authority provided in Title 61, chapter 8, part 8; or

(b) revoked and the person has:

(i) completed at least 3 months of a 1-year revocation; or

(ii) completed 1 year of a 3-year revocation; and

(iii) met the requirements for reobtaining a Montana driver's license.

(3) Notwithstanding any provision of this part inconsistent with any other law of the state of Montana, the enforcement of any suspension or revocation order that constitutes the basis for any person's participation in the driver rehabilitation and improvement program provided for in this section may be stayed if that person complies with the requirements established for the driver rehabilitation and improvement program and meets the eligibility requirements of subsection (2).

(4) If a person's driver's license has been surrendered before the person's selection for participation in the driver rehabilitation and improvement program, the license may be returned upon receipt of the person's agreement to participate in the program.

(5) The stay of enforcement of any suspension or revocation action must be terminated and the suspension or revocation action must be reinstated if a person declines to participate in the driver rehabilitation and improvement program or fails to meet the attendance or other requirements established for participation in the program.

(6) This part does not create a right to be included in any program established under this part.

(7) The department may establish a schedule of fees that may be charged to those persons participating in the driver improvement and rehabilitation program. The fees must be used to help defray costs of maintaining the program.

(8) A person may be referred to this program by a driver improvement analyst, city judge, justice of the peace, youth court judge, judge of a district court of the state, or hearing examiner of the department.

(9) (a) Except as provided in subsection (9)(b), the department may issue a restricted probationary license to any person who enrolls and participates in the driver rehabilitation and improvement program. Upon issuance of a probationary license under this section, the licensee is subject to the restrictions set forth on the license.

(b) The department may not issue a restricted probationary license that would permit an individual to drive a commercial motor vehicle during a period in which:

(i) the individual is disqualified from operating a commercial motor vehicle under state or federal law; or

(ii) the individual's driver's license or driving privilege is revoked, suspended, or canceled.

(10) It is a misdemeanor for a person to operate a motor vehicle in any manner in violation of the restrictions imposed on a restricted license issued to the person under this section.

(b) The notice required by subsection (4)(a) must be sent to an insurer, an agent authorized by an insurer to act on its behalf, an authorized governmental agency that has an interest in the information, and a specific lienholder.

(i) include the facts and circumstances through which the applicant acquired ownership and possession of the motor vehicle, trailer, semitrailer, pole trailer, camper, motorboat, personal watercraft, sailboat, or snowmobile;

(a) 3 years from the date of issuance of the certificate of title; or

(b) the date of surrender of the valid certificate of title to the department if the motor vehicle, trailer, semitrailer, pole trailer, camper, motorboat, personal watercraft, sailboat, or snowmobile is no longer required to have a certificate of title in this state.

61-3-211. Surrender of certificate of title — issuance of salvage certificate — salvage retitling requirements. (1) An insurer acquiring ownership of a motor vehicle that is less than 5 years of age and that the insurer determines to be a salvage vehicle shall surrender the certificate of title to the department within 15 days after acquiring the certificate of title. If the insurer has not sold the salvage vehicle prior to the time of surrendering the certificate of title, the insurer shall apply for a salvage certificate on a form prescribed by the department. If the certificate of title names one or more holders of a perfected security interest in the motor vehicle, the insurer shall secure and deliver to the department a release from each secured party of the secured interest.

(2) Upon receipt of a properly executed certificate of title and a salvage certificate application from an insurer, the department shall issue a salvage certificate to the insurer within 5 working days of the date of receipt of the application. Upon receipt of a salvage certificate issued by the department, an insurer may possess, retain, transport, sell, transfer, or otherwise dispose of the salvage vehicle. Upon receipt of the certificate of title from the insurer and the application from the salvage vehicle purchaser, the department shall issue a salvage certificate to the salvage vehicle purchaser that is prima facie evidence of ownership.

(4) If an insurer determines that a salvage vehicle will remain with the owner after an agreed settlement, the insurer shall notify the department of the settlement on a form prescribed by the department. Upon receipt of the notice, the department may require the owner to surrender the certificate of title in compliance with this part, regardless of whether ownership of the salvage vehicle was obtained in a jurisdiction not requiring the surrender of the certificate of title or a comparable ownership document.

(5) At the time of surrender of a certificate of title for a salvage vehicle not acquired by an insurer, the department shall issue a salvage certificate to the owner. Upon receipt of a salvage certificate issued by the department to a noninsurer, the owner may possess, retain, transport, sell, transfer, or otherwise dispose of the salvage vehicle. A salvage certificate is prima facie evidence of ownership of a salvage vehicle.

(6) A fee of $5 must be paid to the department for the issuance of a salvage certificate.

61-3-323. Definitions. As used in 61-3-323 through 61-3-325, unless the context requires otherwise, the following definitions apply:

(1) "Domicile" means the county in which a motor vehicle is most frequently used, dispatched, or controlled.

(2) "Fleet" means 100 or more motor vehicles, trailers, semitrailers, or pole trailers owned or leased by a person operating the motor vehicles, trailers, semitrailers, or pole trailers in this state.

History: En. Sec. 1, Ch. 61, L. 1989; amd. Sec. 78, Ch. 542, L. 2005.

61-3-324. Fleet registration — application — additions to and deletions from fleet. (1) A person owning or leasing a fleet may register the fleet annually through the department in lieu of registering each motor vehicle, trailer, semitrailer, or pole trailer in its domicile.

(2) (a) Except as provided in subsection (2)(b), fleet registration information, as prescribed by the department, must be submitted to the department prior to November 1 of each year.

(b) The fleet owner or lessor and the department may enter into an agreement to change the registration period for the fleet in a manner that comports with the requirements of 61-3-311(3).

(3) A motor vehicle, trailer, semitrailer, or pole trailer may be added to the fleet at any time during the registration period. If a certificate of title for a vehicle to be added to the fleet has not been issued by the department, the fleet owner or lessor may submit the application for certificate of title directly to the department.

(4) A motor vehicle, trailer, semitrailer, or pole trailer may be removed from a fleet if the fleet owner or lessor notifies the department of its removal. Upon receipt of the notice, the department shall cancel the vehicle's registration.

History: En. Sec. 2, Ch. 61, L. 1989; amd. Sec. 3, Ch. 512, L. 1991; amd. Sec. 1, Ch. 22, L. 2005; amd. Sec. 79, Ch. 542, L. 2005; amd. Sec. 60, Ch. 596, L. 2005.

61-3-325. Fleet registration — license plates. (1) (a) The department shall compute fees and taxes due on each motor vehicle, trailer, semitrailer, or pole trailer in the fleet as provided in parts 3 and 5 of this chapter, based on its domicile.

(b) Unless the fleet's registration period is changed under 61-3-324, all fees and taxes must be paid no later than February 15 each year.

(2) The department may issue a separate series of license plates for fleet vehicles that have the same background as standard license plates issued under 61-3-332 but have a separate numbering system determined by the department. At the request of the fleet owner or lessor and upon payment of all applicable fees, a license plate type other than the fleet plate may be issued to a fleet vehicle.

61-3-326 through 61-3-330 reserved.

61-3-331. Assignment of license plates. The county treasurer shall, at the time of issuing a registration receipt under 61-3-322, assign the motor vehicle, trailer, semitrailer, or pole trailer a distinctive license plate number and, unless the license plates must be specially ordered from the department, deliver to the applicant, depending on the type of motor vehicle that was registered, a set of two license plates or one license plate, each of which must bear the assigned distinctive number.

61-3-332. Standard license plates. (1) In addition to special license plates, collegiate license plates, generic specialty license plates, and fleet license plates authorized under this chapter, a separate series of standard license plates must be issued for motor vehicles, quadricycles, travel trailers, trailers, semitrailers, and pole trailers registered in this state or offered for sale by a vehicle dealer licensed in this state. Standard license plates issued to licensed vehicle dealers must be readily distinguishable from license plates issued to vehicles owned by other persons.

(2) (a) Except as provided in 61-3-479 and subsections (2)(b), (3)(b), and (3)(c) of this section, all standard license plates for motor vehicles, trailers, semitrailers, or pole trailers must bear a distinctive marking, as determined by the department, and be furnished by the department. In years when standard license plates are not issued, the department shall provide a registration decal that must be affixed to the rear license plate of the vehicle.

(b) For light vehicles that are permanently registered as provided in 61-3-562 and motor vehicles described in 61-3-303(9) that are permanently registered, the department shall provide a distinctive registration decal indicating that the motor vehicle is permanently registered. The registration decal must be affixed to the rear license plate of the permanently registered motor vehicle.

(3) (a) Beginning January 1, 2010, and every 4 years after that date, the department shall manufacture and issue new standard license plates to replace previously issued standard license plates upon renewal.

(b) A motor vehicle that is registered for a 13-month to a 24-month period, as provided in 61-3-311, may display the license plate and plate design in effect at the time of registration for the entire registration period.

(c) A light vehicle described in subsection (2)(b) or a motor home that is permanently registered may display the license plate and plate design in effect at the time of registration for the entire period that the light vehicle or motor home is permanently registered.

(4) For trailers and motor vehicles, other than motorcycles and quadricycles, plates must be of metal 6 inches wide and 12 inches in length. Except for generic specialty license plates, the outline of the state of Montana must be used as a distinctive border on all license plates, and the word “Montana” must be placed on each license plate. All license plates must be treated with a reflectorized background material according to specifications prescribed by the department.

(5) The distinctive registration numbers for standard license plates must begin with a number one or with a letter-number combination, such as “A 1” or “AA 1”, or any other similar combination of letters and numbers. Except for special license plates, collegiate license plates, generic specialty license plates, and fleet license plates, the distinctive registration number or letter-number combination assigned to the motor vehicle must appear on the plate preceded by the number of the county and appearing in horizontal order on the same horizontal baseline. The county number must be separated from the distinctive registration number by a separation mark unless a letter-number combination is used. The dimensions of the numerals and letters must be determined by the department, and all county and registration numbers must be of equal height.

(6) For the use of exempt motor vehicles, trailers, semitrailers, or pole trailers and motor vehicles, trailers, semitrailers, or pole trailers that are exempt from the registration fee as provided in 61-3-321, in addition to the markings provided in this section, standard license plates must bear the following distinctive markings:

(a) For motor vehicles, trailers, semitrailers, or pole trailers owned by the state, the department may designate the prefix number for the various state departments. All numbered plates issued to state departments must bear the words “State Owned”, and a year number may not be indicated on the plates because these numbered plates are of a permanent nature and will be replaced by the department only when the physical condition of numbered plates requires it.

(b) For motor vehicles, trailers, semitrailers, or pole trailers that are owned by the counties, municipalities, and special districts, as defined in 18-8-202, organized under the laws of Montana and not operating for profit, and that are used and operated by officials and employees in the line of duty and for motor vehicles on loan from the United States government or the state of Montana to, or owned by, the civil air patrol and used and operated by officials and employees in the line of duty, there must be placed on the standard license plates assigned, in a position that the department may designate, the letter “X” or the word “EXEMPT”. Distinctive registration numbers for plates assigned to motor vehicles, trailers, semitrailers, or pole trailers of each of the counties in the state and those of the municipalities and special districts that obtain plates within each county must begin with number one and be numbered consecutively. Because these standard license plates are of a permanent nature, they are subject to replacement by the department only when the physical condition of the license plates requires it and a year number may not be displayed on the plates.

(7) For the purpose of this chapter, the several counties of the state are assigned numbers as follows: Silver Bow, 1; Cascade, 2; Yellowstone, 3; Missoula, 4; Lewis and Clark, 5; Gallatin, 6; Flathead, 7; Fergus, 8; Powder River, 9; Carbon, 10; Phillips, 11; Hill, 12; Ravalli, 13; Custer, 14; Lake, 15; Dawson, 16; Roosevelt, 17; Beaverhead, 18; Chouteau, 19; Valley, 20; Toole, 21; Big Horn, 22; Musselshell, 23; Blaine, 24; Madison, 25; Pondera, 26; Richland, 27; Powell, 28; Rosebud, 29; Deer Lodge, 30; Teton, 31; Stillwater, 32; Treasure, 33; Sheridan, 34; Sanders, 35; Judith Basin, 36; Daniels, 37; Glacier, 38; Fallon, 39; Sweet Grass, 40; McCone, 41; Carter, 42; Broadwater, 43; Wheatland, 44; Prairie, 45; Granite, 46; Meagher, 47; Liberty, 48; Park, 49; Garfield, 50; Jefferson, 51; Wibaux, 52; Golden Valley, 53; Mineral, 54; Petroleum, 55; Lincoln, 56. Any new counties must be assigned numbers by the department as they are formed, beginning with the number 57.

(8) (a) Each type of special license plate approved by the legislature, except collegiate license plates authorized in 61-3-463 and generic specialty license plates authorized in 61-3-472 through 61-3-481, must be a separate series of plates, numbered as provided in subsection (5), except that the county number must be replaced by a design that distinguishes each separate plate series. Unless otherwise specifically stated in this section, the special plates are subject to the same rules and laws as govern the issuance of standard license plates, must be placed or mounted on a motor vehicle, trailer, semitrailer, or pole trailer owned by the person who is eligible to receive them, with the registration decal affixed to the rear license plate of the motor vehicle, trailer, semitrailer, or pole trailer, and must be removed upon sale or other disposition of the motor vehicle, trailer, semitrailer, or pole trailer.

(b) Beginning January 1, 2008, and every succeeding 4 years, the department shall manufacture and issue a new set of special license plates, bearing the same design and, if requested by the owner, the same plate number to replace, upon renewal of the registration of a motor vehicle under 61-3-314 and payment of the new plate fee provided for in 61-3-321, any special license plates issued prior to the prescribed date. This requirement applies to collegiate license plates authorized under 61-3-461 through 61-3-468, generic specialty license plates authorized under 61-3-472 through 61-3-481, and commemorative centennial license plates authorized under 61-3-448.

(9) (a) A Montana resident who is eligible to receive a special parking permit under 49-4-301 may, upon written application on a form prescribed by the department, be issued a special license plate with a design or decal bearing a representation of a wheelchair as the symbol of a person with a disability.

(b) If the motor vehicle to which the license plate is attached is permanently registered, the owner of the motor vehicle shall provide, upon request of a person authorized to enforce special parking laws or ordinances in this or any state, evidence of continued eligibility to use the license plate in the form of a valid special parking permit issued to or renewed by the vehicle owner under 49-4-304 and 49-4-305.

(c) A person with a permanent condition, as provided in 49-4-301(2)(b), who has been issued a special license plate upon written application, as provided in this subsection (9), is not required to reapply upon reregistration of the motor vehicle.

(10) The provisions of this section do not apply to a motor vehicle, trailer, semitrailer, or pole trailer that is registered as part of a fleet, as defined in 61-3-712, and that is subject to the provisions of 61-3-711 through 61-3-733.

(1) For the purposes of 61-3-412 and this section, a "general transportation collector's item" is a motor vehicle, trailer, semitrailer, or pole trailer that is 25 years old or older and that is used for general transportation purposes.

(2) An owner of a general transportation collector's item who wishes to display original Montana license plates on the motor vehicle, trailer, semitrailer, or pole trailer shall file with the department an application for the registration of the motor vehicle, trailer, semitrailer, or pole trailer. The application must state:

(b) the year and number of the license plate the applicant wishes to use; and

(c) the make, the gross weight, the year and number of the model, and the manufacturer's identification number and serial number of the motor vehicle, trailer, semitrailer, or pole trailer.

(3) Upon receipt of an application for registration of a general transportation collector's item, the department shall compare the number of the license plate that the applicant intends to use with the license plate numbers assigned to currently registered motor vehicles, trailers, semitrailers, or pole trailers. The department may reject an application if the number the applicant intends to use matches a number that is assigned to a currently registered motor vehicle, trailer, semitrailer, or pole trailer. If the department approves the application, the department shall file the application and register the motor vehicle, trailer, semitrailer, or pole trailer in the manner specified in 61-3-101.

(4) Once an application is approved, appropriate fees are paid, and the requirements provided in 61-3-412(2) are met, an owner of a general transportation collector's item shall permanently register the motor vehicle, trailer, semitrailer, or pole trailer as provided in 61-3-562 and shall display on the motor vehicle's, trailer's, semitrailer's, or pole trailer's license plate a decal indicating that the motor vehicle, trailer, semitrailer, or pole trailer has been permanently registered.

61-3-503. Assessment — definition. (1) (a) Except as provided in 61-3-520, light vehicles subject to a local option motor vehicle tax under 61-3-537 must be assessed the tax as of the first day of the registration period, using the depreciated value of the manufacturer's suggested retail price as determined in subsection (2).

(b) If the depreciated value is less than $500, the department shall value the motor vehicle at $500.

(2) (a) Except as provided in subsections (2)(c) and (2)(d), the depreciated value for the taxation of light vehicles is computed by multiplying the manufacturer's suggested retail price by a percentage multiplier based on the type and age of the light vehicle determined from the following table:

Age of Vehicle	Type of Vehicle			
(in years)	Automobile	Truck	Van	Sport Utility
-1	100%	100%	100%	100%
0	90	96	93	98
1	80	91	86	94
2	69	86	78	90
3	58	80	69	84
4	49	73	60	76
5	41	66	52	67
6	33	57	45	57
7	26	49	38	48
8	21	43	32	39
9	17	37	27	33
10	14	31	22	29
11	12	26	18	25
12	10	22	15	22
13	09	18	13	21
14	09	15	11	19
15	09	13	09	17
16	09	12	09	15

(b) The age for the light vehicle is determined under 61-3-501.

(c) If the value of the light vehicle determined under subsection (2)(a) is $500 or less, the value of the light vehicle is $500 and the value must remain at that amount as long as the light vehicle is registered.

(d) The depreciated value of a light vehicle that is 17 years old or older is computed by depreciating the value obtained for the vehicle at 16 years old, as determined under subsection (2)(a), by 10% a year until a minimum value of $500 is attained. The value must remain at that amount as long as the light vehicle is registered.

(3) (a) For the purposes of this section, "manufacturer's suggested retail price" means the price suggested by the manufacturer for each given type, style, or model of light vehicle produced and first made available for retail sale by the manufacturer.

(b) The manufacturer's suggested retail price is based on standard equipment of a light vehicle and does not contain price additions or deductions for optional accessories.

(c) When a manufacturer's suggested retail price is unavailable for a motor vehicle, the department shall determine an alternative valuation for the motor vehicle.

(4) This section is not applicable to a motor vehicle covered by a valid and existing reciprocal agreement or declaration entered into under Montana law.

61-3-712. Definitions. As used in 61-3-711 through 61-3-733 the following definitions apply:

(1) "Apportionable motor vehicle" means a motor vehicle, trailer, semitrailer, or pole trailer that is used or intended for use in more than one jurisdiction and that is used for the transportation of persons for hire, compensation, or profit or designed or used primarily for the transportation of property.

(2) "Fleet" means one or more apportionable motor vehicles.

(3) "Jurisdiction" means and includes a state, territory, or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, a foreign country, and a state or province of a foreign country.

The use of the word "residence" in 61-3-711 through 61-3-733 must be confined to the definition given and may not be confused with the word "domicile". This definition of "residence" further recognizes that a person may have several residences, but only one domicile.

(5) "Preceding year" means a period of 12 consecutive months fixed by the department of transportation, which period must be within 18 months immediately preceding the commencement of the registration or license year for which proportional registration is sought. The department in fixing the period shall conform the period to the terms, conditions, and requirements of any applicable agreement or arrangements for the proportional registration of motor vehicles, trailers, semitrailers, or pole trailers.

(6) (a) "Properly registered", as applied to place of registration, means:

(i) the jurisdiction where the person registering the motor vehicle, trailer, semitrailer, or pole trailer has the person's legal residence;

(ii) in the case of an apportionable motor vehicle, the jurisdiction in which it is registered if the enterprise in which the motor vehicle, trailer, semitrailer, or pole trailer is used has a place of business in the jurisdiction and if the motor vehicle, trailer, semitrailer, or pole trailer is most frequently dispatched, garaged, serviced, maintained, operated, or otherwise controlled in or from the place of business and the motor vehicle, trailer, semitrailer, or pole trailer has been assigned to the place of business; or

(iii) in the case of an apportionable motor vehicle, the jurisdiction where because of an agreement or arrangement between two or more jurisdictions or pursuant to a declaration the motor vehicle, trailer, semitrailer, or pole trailer has been registered as required by that jurisdiction.

(b) In case of doubt or dispute as to the proper place of registration of a motor vehicle, trailer, semitrailer, or pole trailer, the transportation commission shall make the final determination, but in making the determination, the commission may confer with departments of the other jurisdictions affected.

61-3-716. Proportional registration of fleet motor vehicles. (1) If a jurisdiction permits or requires the licensing of fleets of motor vehicles, trailers, semitrailer, or pole trailers in interstate or combined interstate and intrastate commerce and payment of registration fees, license fees, taxes, or other fixed fees on those motor vehicles, trailers, semitrailers, or pole trailers on an apportionment basis commensurate with and determined by the miles traveled on and the use made of the jurisdiction's highways as compared with the miles traveled on and the use made of other jurisdiction's highways or any other equitable basis of apportionment and if the jurisdiction exempts motor vehicles, trailers, semitrailers, or pole trailers registered in any other jurisdiction under this apportionment basis from the requirements of full payment of its own registration, license fees, taxes, or other fixed fees, then the department may, by agreement, adopt exemptions with respect to motor vehicles, trailers, semitrailers, or pole trailers of these fleets, whether owned by residents or nonresidents of this state and regardless of where they are based. An agreement, under the terms, conditions, or restrictions that the department considers proper, may provide that owners of motor vehicles, trailers, semitrailers, or pole trailers operated in interstate or combined interstate and intrastate commerce in this state be permitted to pay registration, license fees, taxes, or other fixed fees on an apportionment basis commensurate with and determined by the miles traveled on and the use made of the highways of this state as compared with the use made of the highways of other jurisdictions or any other equitable basis of apportionment. This agreement may not authorize or be construed to authorize a motor vehicle, trailer, semitrailer, or pole trailer so registered to be operated in intrastate commerce in this state unless the owner of the motor vehicle, trailer, semitrailer, or pole trailer has been granted intrastate authority or rights by the public service commission if a grant is otherwise required by law.

(2) The department of transportation may adopt rules that it considers necessary to carry out and administer this section, and the registration of fleet motor vehicles, trailers, semitrailers, or pole trailers under 61-3-711 through 61-3-733 is subject to the rights, terms, and conditions granted by or contained in any applicable agreement, arrangement, or declaration made by the department. The department of transportation shall adopt rules providing for a change of registration period for a fleet in a case in which the owner of the fleet requests that the registration period be changed to coincide with the registration period of one or more other fleets in the same ownership.

61-3-717. Declarations of extent of reciprocity. In the absence of an agreement or arrangement with another jurisdiction, the department may examine the laws and requirements of the jurisdiction and declare the extent and nature of exemptions, benefits, and privileges to be extended to motor vehicles, trailers, semitrailers, or pole trailers properly registered or licensed in the other jurisdiction or to the owners of the motor vehicles, trailers, semitrailers, or pole trailers that are in the judgment of the department in the best interests and fair and equitable to this state and its citizens determined on the basis and recognition of the benefits that accrue to the economy of this state from the uninterrupted flow of commerce.

61-3-718. Extension of reciprocal privileges to lessees authorized. 61-3-719. Automatic reciprocity. If an agreement, arrangement, or declaration is not in effect with respect to another jurisdiction as authorized by 61-3-711 through 61-3-733, any motor vehicle, trailer, semitrailer, or pole trailer properly registered or licensed in another jurisdiction and for which evidence of compliance is supplied must receive, when operated in this state, the same exemptions, benefits, and privileges granted by the other jurisdictions to motor vehicles, trailers, semitrailers, or pole trailers properly registered in this state. Reciprocity extended under this section applies to commercial motor vehicles, trailers, semitrailers, or pole trailers only when engaged exclusively in interstate commerce.

61-3-721. Proportional registration of motor fleet vehicles, registration periods, application, fee formula, and payment — permanent registration of trailer and semitrailer fleets — transfer of ownership — transfer of license plates. (1) An owner of one or more fleets may register and license each fleet for operation in this state by filing an application with the department of transportation. The application must contain the information pertinent to motor vehicle, trailer, semitrailer, or pole trailer registration that is required by the department of transportation. If an electronic record of title has not been created for or a certificate of title issued for an apportionable vehicle in the fleet, the department of transportation, as an authorized agent of the department of justice, may also process the application for certificate of title for the vehicle as provided in 61-3-203 and 61-3-217.

(2) Except as provided in 61-3-318(1) and subsection (6) of this section, each fleet subject to the provisions of 61-3-711 through 61-3-733 must be registered for an annual registration period based upon the date that the fleet is first registered in this state.

(3) There are four annual registration periods, each of which begins on the first day of a calendar quarter. As used in this subsection, "calendar quarter" means the period of 3 consecutive months ending March 31, June 30, September 30, or December 31. The periods are:

(a)	January 1 through March 31	1st period
(b)	April 1 through June 30	2nd period
(c)	July 1 through September 30	3rd period
(d)	October 1 through December 31	4th period

(4) Registration of a fleet of apportionable motor vehicles under subsection (2) must be renewed on or before the last day of the month for the designated annual registration period unless a different registration period has been authorized pursuant to 61-3-716(2). The department shall provide for simultaneous registration of multiple fleets of apportionable motor vehicles in common ownership.

(5) Except as provided in subsection (6), the application for each fleet may be accompanied by a fee payment computed by:

(a) dividing in-state miles by total fleet miles as defined in the applicable agreement, arrangement, or declaration entered into pursuant to 61-3-711 through 61-3-733;

(b) determining the total amount necessary to register each motor vehicle, trailer, semitrailer, or pole trailer in the fleet for which registration is requested, based on the regular annual registration fees prescribed by 61-3-321 and chapter 10, part 2, and the property taxes that are due on the fleet;

(c) multiplying the sum obtained under subsection (5)(b) by the fraction obtained under subsection (5)(a).

(6) Upon renewal or new registration, each trailer, semitrailer, or pole trailer fleet must be permanently registered and assessed a registration fee of $82.50. Each trailer, semitrailer, or pole trailer in the fleet must be issued a permanent license plate and registration decal.

(7) The fee assessed in subsection (6) is a one-time fee except upon transfer of ownership of a trailer, semitrailer, or pole trailer.

(8) If the owner of a fleet removes a trailer, semitrailer, or pole trailer from the fleet, the owner shall surrender the registration and license plate assigned to the trailer, semitrailer, or pole trailer to the department of transportation. The owner may not transfer the license plate and registration decal to a trailer, semitrailer, or pole trailer that is added to the fleet.

(9) Applications submitted with fees may be recomputed by the department of transportation. The department of transportation shall furnish a statement showing the overpayment or balance due.

(10) Applications submitted without fees must be computed by the department of transportation. The department of transportation shall furnish a statement showing the amount of fees due.

61-3-722. Registration and identification of proportionally registered motor vehicles — fees — effect of registration. (1) The department shall register each proportionally registered motor vehicle, trailer, semitrailer, or pole trailer and issue a license plate or plates, a distinctive registration decal, or other suitable identification device for each motor vehicle, trailer, semitrailer, or pole trailer described in the application upon payment of the appropriate fees and property taxes, as provided by law, for the application and for the license plates, registration decals, or devices issued. A fee of $2 must be paid for each license plate, each registration decal, and each device issued for each proportionally registered motor vehicle, trailer, semitrailer, or pole trailer. A fee of $5 must be paid for each motor vehicle, trailer, semitrailer, or pole trailer receiving temporary registration as authorized by section 704 of the international registration plan of the American association of motor vehicle administrators, adopted in April 1988. A registration card must be issued for each proportionally registered motor vehicle, trailer, semitrailer, or pole trailer. The registration card must, in addition to other information required by chapter 3, show the number of the license, registration decal, or other device issued for the proportionally registered motor vehicle, trailer, semitrailer, or pole trailer and must be carried in the motor vehicle, trailer, semitrailer, or pole trailer at all times.

(2) Fleet motor vehicles, trailers, semitrailers, or pole trailers registered and identified as fleet motor vehicles are considered fully licensed and registered in this state for any type of movement or operation, except that, in those instances in which a grant of authority is required for intrastate movement or operation, the motor vehicle, trailer, semitrailer, or pole trailer may not be operated in intrastate commerce in this state unless the owner has been granted intrastate authority by the public service commission and unless the motor vehicle, trailer, semitrailer, or pole trailer is being operated in conformity with that authority.

History: En. Sec. 13, Ch. 206, L. 1963; amd. Sec. 3, Ch. 88, L. 1965; amd. Sec. 196, Ch. 316, L. 1974; R.C.M. 1947, 53-713; amd. Sec. 1, Ch. 32, L. 1993; amd. Sec. 6, Ch. 42, L. 1995; amd. Sec. 68, Ch. 130, L. 2005; amd. Sec. 142, Ch. 542, L. 2005.

61-3-723. Proportional registration not applicable in a single jurisdiction. The right to the privilege and benefits of proportional registration of fleet motor vehicles, trailers, semitrailers, or pole trailers extended by 61-3-711 through 61-3-733 or by any contract, agreement, arrangement, or declaration made under the authority of 61-3-711 through 61-3-733 is subject to the condition that each fleet motor vehicle, trailer, semitrailer, or pole trailer proportionally registered under the authority of 61-3-711 through 61-3-733 must also be proportionally or otherwise properly registered in at least one other jurisdiction during the period for which it is proportionally registered in this state.

History: En. Sec. 14, Ch. 206, L. 1963; R.C.M. 1947, 53-714; amd. Sec. 143, Ch. 542, L. 2005.

61-3-724. Registration of additional fleet motor vehicles. Motor vehicles, trailers, semitrailers, or pole trailers acquired by the owner after the commencement of the registration period and subsequently added to a proportionally registered fleet must be proportionally registered by applying the mileage percentage used in the original application for the fleet for the registration period to the regular registration fees due with respect to the motor vehicle, trailer, semitrailer, or pole trailer for the remainder of the registration period.

History: En. Sec. 15, Ch. 206, L. 1963; R.C.M. 1947, 53-715; amd. Sec. 7, Ch. 42, L. 1995; amd. Sec. 144, Ch. 542, L. 2005.

61-3-725. Withdrawal of fleet motor vehicles — procedure, credits, and accounting. (1) If a motor vehicle, trailer, semitrailer, or pole trailer is withdrawn from a proportionally registered fleet during the period for which it is registered, the owner of the fleet shall notify the department of transportation of that fact on forms prescribed by the department. The department may require the owner to surrender proportional registration cards and other identification devices that have been issued with respect to that motor vehicle, trailer, semitrailer, or pole trailer. If a motor vehicle, trailer, semitrailer, or pole trailer is permanently withdrawn from a proportionally registered fleet because it has been destroyed, sold, or otherwise completely removed from the service of the registrant, the unused portion of the gross vehicle weight fees paid with respect to that motor vehicle, trailer, semitrailer, or pole trailer must be credited to the proportional registration account of the owner. This unused portion equals the amount paid with respect to the motor vehicle, trailer, semitrailer, or pole trailer when it was first proportionally registered in the registration period, reduced by one-twelfth of the total annual gross vehicle weight fee of the motor vehicle, trailer, semitrailer, or pole trailer for each calendar month and fraction of a month elapsing between the first day of the month of the current period in which the motor vehicle, trailer, semitrailer, or pole trailer was registered and the date the notice of withdrawal is received by the department. This credit must be applied against liability for additional fees due during the registration period or for additional fees due upon audit under 61-3-728. If a credit is less than $5, it may not be made or entered. A credit may not be taken against fees other than those for the registration period and is not subject to refund.

(2) If the owner replaces a motor vehicle, trailer, semitrailer, or pole trailer withdrawn from the fleet at the same time as the withdrawal and the replacement motor vehicle, trailer, semitrailer, or pole trailer is of the same or of a lesser weight category than the one withdrawn, the gross vehicle weight fees are transferable to the replacement motor vehicle, trailer, semitrailer, or pole trailer. If the transfer is to a smaller motor vehicle, trailer, semitrailer, or pole trailer, a credit may not be given or entered.

History: En. Sec. 16, Ch. 206, L. 1963; amd. Sec. 197, Ch. 316, L. 1974; R.C.M. 1947, 53-716; amd. Sec. 3, Ch. 36, L. 1981; amd. Sec. 3, Ch. 414, L. 1983; amd. Sec. 3, Ch. 512, L. 1991; amd. Sec. 8, Ch. 42, L. 1995; amd. Sec. 145, Ch. 542, L. 2005.

61-3-726. New fleet — estimated mileage. The initial application for proportional registration of a fleet shall state the mileage data with respect to the fleet for the preceding year in this and other jurisdictions. If operations were not conducted with this fleet during the preceding year, the application shall contain a full statement of the proposed method of operation and estimates of annual mileage in this state and other jurisdictions. The department shall determine the in-state and total fleet miles to be used in computing the fee payment for the fleet. The department may evaluate and adjust the estimate in the application if it is not satisfied as to the correctness of the estimate.

61-3-727. Fleet registration — denial when no reciprocity. The department may refuse to accept proportional registration applications for the registration of motor vehicles, trailers, semitrailers, or pole trailers based in another jurisdiction or owned by residents of another jurisdiction if the department finds that the other jurisdiction does not grant similar registration privileges to fleet motor vehicles, trailers, semitrailers, or pole trailers based in or owned by residents of this state.

61-3-728. Preservation of proportional registration records. An owner whose application for proportional registration has been accepted shall preserve the records on which the application is based for a period of 4 years following the year or period upon which the application is based. Upon request of the department, the owner shall make these records available to the department for audit as to accuracy of computations and payments or pay the reasonable costs of an audit at the owner's home office by an appointed representative of the department. The department may make arrangements with agencies of other jurisdictions administering motor vehicle, trailer, semitrailer, or pole trailer registration laws for joint audits of the owner.

61-3-736. Assessment of proportionally registered interstate motor vehicle fleets — payment of fees required for registration. (1) (a) The department of transportation shall determine the fee for the purpose of imposing the fee in lieu of tax as provided in 61-3-529 on buses, trucks having a manufacturer's rated capacity of more than 1 ton, and truck tractors and the light vehicle registration fee under 61-3-321(2) on light vehicles in interstate motor vehicle fleets that are proportionally registered under the provisions of 61-3-711 through 61-3-733. The fee must be apportioned on the ratio of total miles traveled to in-state miles traveled as prescribed by 61-3-721. The fee in lieu of tax or registration fee on interstate motor vehicle, trailer, semitrailer, or pole trailer fleets is imposed upon application for proportional registration and must be paid by the persons who own or claim the fleet or in whose possession or control the fleet is at the time of the application.

(b) With respect to an original application for a fleet that has a situs in Montana for the purpose of the fee in lieu of tax or registration fee under this part or any other provision of the laws of Montana, the fee in lieu of tax or registration fee on fleet motor vehicles, trailers, semitrailers, or pole trailers must be prorated according to the ratio that the remaining number of months in the year bears to the total number of months in the year.

(c) Motor vehicles subject to the light vehicle registration fee as part of a fleet under this subsection (1) are not subject to the local option motor vehicle tax or flat fee imposed under 61-3-537 or 61-3-570.

(2) With respect to a renewal application for a fleet, the fee in lieu of tax and the light vehicle registration fee are imposed for a full year. The department of transportation shall prorate the new fee in lieu of tax in 61-3-529 for motor vehicles, trailers, semitrailers, or pole trailers that are proportionally registered, as provided in 61-3-721, and whose annual registration period does not coincide with the calendar year.

(3) Motor vehicles, trailers, semitrailers, or pole trailers contained in a fleet for which current fees have been assessed and paid may not be assessed or charged fees under this section upon presentation to the department of proof of payment of fees for the current registration year. The payment of fleet motor vehicle, trailer, semitrailer, or pole trailer fees in lieu of tax, light vehicle registration fees, and license fees is a condition precedent to proportional registration or reregistration of an interstate motor vehicle, trailer, semitrailer, or pole trailer fleet.

(4) All fees collected on motor vehicle, trailer, semitrailer, or pole trailer fleets under this chapter must be deposited and distributed as provided in 61-3-738.

61-3-737. Situs in state of proportionally registered fleets — collection of fees. (1) For the purposes of this part, any motor vehicle previously registered or that has had application for registration made under the provisions of 61-3-711 through 61-3-733 has a situs in Montana for the purposes of the light vehicle registration fee or the fee in lieu of tax.

(2) The department of transportation shall collect the fleet motor vehicle, trailer, semitrailer, or pole trailer registration fees, fees in lieu of tax, and license fees prescribed in this part.

61-4-101. Types of licenses and terms — common application — bonds — zoning. (1) Except as provided in 61-4-120 and 61-4-125, a person may not engage in the business of buying, selling, exchanging, accepting on consignment, or acting as a broker of a motor vehicle, trailer, travel trailer, semitrailer, pole trailer, motorcycle, quadricycle, motorboat, personal watercraft, snowmobile, off-highway vehicle, or special mobile equipment that is not registered in the person's name unless the person is the holder of a license issued by the department under this part.

(2) (a) The department may issue a new dealer's license, a used dealer's license, a broker's license, an auto auction license, or a wholesaler license to any person it determines is qualified to hold the license under the provisions of this section.

(b) A new dealer's license authorizes the holder to sell:

(i) any new motor vehicle, new power sports vehicle, or new trailer that is covered under a franchise agreement between the holder and the manufacturer, importer, or distributor of the line of vehicle or trailer offered for sale; and

(ii) any used motor vehicle, used power sports vehicle, or used trailer.

(c) A used dealer license authorizes the holder to sell any used motor vehicle, used power sports vehicle, or used trailer.

(d) A broker's license authorizes the holder to negotiate the purchase, sale, or exchange of a motor vehicle, power sports vehicle, or trailer from a dealer or another person upon behalf of a client when the broker does not store, display, or take ownership of the motor vehicle, power sports vehicle, or trailer being purchased, sold, or exchanged.

(e) Except as provided in 61-4-120, an auto auction license authorizes the holder to take possession of a used vehicle owned by another person through consignment, bailment, or any other arrangement and to sell to the highest bidder when all bidders are licensed vehicle dealers, wholesalers, or wrecking facilities.

(f) A wholesaler license authorizes the holder to sell used vehicles to a new or used vehicle dealer, an auto auction, or another wholesaler.

(3) Subject to the provisions of 61-4-120, 61-4-124, and 61-4-125, a license issued by the department is valid until:

(a) voluntarily returned to the department for surrender and cancellation upon the cessation of the licensee's business operations; or

(b) suspended or revoked for a violation of this chapter or any other laws relating to the sale of motor vehicles, power sports vehicles, or trailers.

(4) (a) An applicant for a new dealer's license, a used dealer's license, a broker's license, an auto auction license, or a wholesaler license shall submit a written application to the department. The application must be signed by the applicant and contain a verification by the applicant, under penalty of law, that the information contained in the application is true and correct. Any information provided in the license application process is subject to independent verification by the department or an authorized representative of the department.

(b) After examining a license application and conducting an investigation necessary to verify the information contained in the application and if the department is satisfied that the applicant qualifies for the issuance of a license under the provisions of this chapter, the department may issue the license. The department may refuse, after examination and investigation, to issue a license to an applicant who is not qualified for licensure or whose prior financial or other activities or criminal record, as determined by the department:

(i) poses a threat to the effective regulation of dealers, wholesalers, or auto auctions;

(ii) poses a threat to the public interest of the state; or

(iii) creates a danger of illegal or deceptive practices being used in the conduct of the proposed dealership, wholesaler, or auto auction.

(5) To be qualified for licensure, an applicant shall provide to the department the following information:

(a) the name under which the applicant intends to conduct business and the applicant's name, the street address and, if different, mailing address for the business, and customer identification number;

(b) the name, date of birth, and social security number of any person who:

(i) possesses or will possess an ownership interest in the business for which the license is sought;

(ii) is a corporate officer or the managing member of a business entity applying for the license; or

(iii) is or will be designated by the applicant to manage or oversee the applicant's business;

(c) for each person subject to the provisions of subsection (5)(b), information concerning whether the person has:

(i) an ownership interest in a vehicle dealership, an auto auction, or a wholesaler business in Montana or any other state and, if so, the name and address of each dealership, auto auction, or wholesaler; and

(ii) been found guilty of, or pleaded guilty to, a felony in this or any other jurisdiction and, if so, shall provide a summary of the conduct resulting in the felony charge, including the dates of the conduct and any court proceedings pertaining to the conduct and the name and address of any court in which the matter was heard;

(d) the name, address, and telephone number of the insurance carrier from whom the applicant has acquired general liability insurance, naming the department as a certificate holder of the policy, and the name, address, and telephone number of the local insurance agent for the carrier and the applicant's policy number. The insurance must cover any motor vehicle bearing dealer or demonstrator license plates and any motorboat, snowmobile, or off-highway vehicle displaying a dealer's identification card that is offered for demonstration or loan to a customer or otherwise operated by a customer in the regular course of the applicant's business and must be for a minimum of 1 year;

(e) the geographic location of the physical lot or lots upon which vehicles will be displayed for sale, if applicable, and of a permanent nonresidential building that will be maintained to store the actual physical or electronic records resulting from the purchase, sale, trade, or consignment of vehicles for which licensure is sought. An applicant may use more than one location to display vehicles for sale if the maximum distance between each display lot does not exceed 200 feet and if the distance between a display lot and the building in which vehicle sales records are stored does not exceed 1,000 feet.

(f) for each geographic location specified in the application, evidence of the applicant's compliance with applicable local land use planning, zoning, and business permitting requirements, if any. Evidence of compliance may be documented by means of a written verification of compliance signed by the authorized representative of the local land use planning or zoning board or the local business-permitting agency.

(g) a diagram or plat showing the geographic location, lot dimensions, if applicable, and building and sign placement for the applicant's proposed established place of business, along with two or more photographs of the geographic location, building premises, and sign, as prescribed by the department;

(h) if the applicant is seeking a new motor vehicle dealer's license:

(i) the name and address of the manufacturer, importer, or distributor with whom the applicant has a written new motor vehicle, power sports vehicle, or trailer franchise or sales agreement, the term of the agreement, and the name and make of all motor vehicles, power sports vehicles, or trailers to be handled by the applicant;

(ii) the geographic location or locations, specified in writing, upon which the applicant will provide and maintain a permanent building to display and sell new motor vehicles, power sports vehicles, or trailers and offer and maintain a bona fide service department for the repair, service, and maintenance of the motor vehicles, power sports vehicles, or trailers; and

(iii) verification that the applicant otherwise meets the requirements of part 2 of this chapter.

(6) If an applicant wants to maintain more than one established place of business, the applicant shall file a separate license application for each proposed place of business and otherwise qualify for licensure at each place separately.

(7) Each application under this section must be accompanied by the following fees:

(a) for a new or used dealer's license, a broker's license, or a wholesaler's license, $30; and

(b) for an auto auction license, the fee provided for in 61-4-120.

(8) (a) Except as provided in subsection (8)(b), an applicant for a dealer's license, broker's license, wholesaler's license, or auto auction license shall also file with the application a bond of $50,000.

(b) An applicant whose business will be restricted to the sale of motorcycles or quadricycles shall file a bond of $15,000. An applicant whose business will be restricted to the sale of motorboats, personal watercraft, snowmobiles, or off-highway vehicles, other than motorcycles originally equipped for use on the highway, shall file a bond of $5,000.

(c) All bonds must be conditioned that the applicant shall conduct the business in accordance with the requirements of the law. All bonds must be approved by the department, must be filed in its office, and must be renewed annually.

(b) An auto auction licensed under this part may auction a new motor vehicle only if the auto auction is authorized by a new motor vehicle manufacturer, importer, distributor, or representative, for the purpose of conducting a closed-factory fleet sale to dispose of new motor vehicles by the franchisor (manufacturer, distributor, or importer) to franchisee purchasers when the purchasers are licensed new motor vehicle dealers purchasing new motor vehicle line-makes authorized by their respective franchise, sales, or distributor agreements. An auto auction licensed under the provisions of this section shall notify and update the department with current fleet sale agreements between the auto auction and franchisor. An auto auction may not conduct a factory fleet sale unless authorized or appointed by a franchisor licensed under part 2 of this chapter.

(2) On or before December 31 of each year, an auto auction shall submit an annual report, in a form or manner prescribed by the department, to the department to advise the department of any changes that may have occurred in that calendar year affecting the information originally filed under 61-4-101. The report must contain information concerning owner identity, other ownership interests, felony conduct, general liability insurance status, surety bond filings, and any other relevant information requested by the department. The fee required for each first-time applicant is $500, and when the annual report is filed in subsequent years, it must be accompanied by a filing fee of $100.

(3) An auto auction that is an authorized agent may issue a temporary registration permit to a person who buys a motor vehicle, power sports vehicle, or trailer at the auction, pursuant to 61-3-224. Within 30 days following the date of delivery of the motor vehicle, power sports vehicle, or trailer, the auto auction shall provide the purchaser with the assigned certificate of title or, if a certificate of title for the motor vehicle, power sports vehicle, or trailer has not been issued in this state, a copy of the then-current registration receipt or the certificate and any related documents for each motor vehicle, power sports vehicle, or trailer. It is unlawful for the auto auction to issue more than one temporary registration permit for each motor vehicle, power sports vehicle, or trailer sale.

(4) (a) Upon the issuance of an auto auction license and payment of a $5 fee for each plate, the department shall furnish to the auto auction one or more demonstrator plates that may be used to transport inventory motor vehicles to and from a point of storage or a point of delivery in this state and to and from the auto auction's place of business, for road testing authorized motor vehicles, or for moving motor vehicles for purposes of repairing, painting, upholstering, polishing, and related activities. One license plate is required to be conspicuously displayed on the rear of the motor vehicle.

(b) Auto auctions may appoint designated persons, service stations, or repair garages to use the license plate only when conducting work for the auto auction involving repairing, painting, upholstering, polishing, or performing similar types of work upon a motor vehicle.

(c) When applying for license plates, an auto auction shall submit a sworn affidavit on a form prescribed by the department, listing each authorized person designated by the auction to use the license plates. The auto auction is responsible for reporting any changes to the affidavit within 72 hours after the change has occurred.

(d) An auto auction licensed under the provisions of this section is liable for the proper use of the license plates, which may not be used for private purposes. The department may revoke an auto auction's temporary registration permit and license plate privileges if an auto auction issues, authorizes the use of, or uses a temporary registration permit or an auto auction license plate in violation of the provisions of this section.

(5) (a) An auto auction licensed under this section shall validate the sale of a motor vehicle, a power sports vehicle, or a trailer through its auction by stamping its name and license number upon the certificate of title at a location on the certificate of title, at the margin in the assignment section as executed between the transferor and transferee. An auto auction's stamp must be legible and may not interfere with the information recorded on the certificate of title between the transferor and transferee. If the certificate of title lacks adequate space for the auto auction to place its stamp, the auction may provide the transferee a copy of the auction invoice bearing the:

(i) name and license number of the auction, along with an indication of the year, make, model, and identification number of the motor vehicle, power sports vehicle, or trailer;

(ii) name, address, and signature of the transferor;

(iii) name, license number, and signature of the transferee; and

(iv) date the motor vehicle was sold through the auction.

(1) Any designated family member who receives notice of the manufacturer's, factory branch, distributor's, or importer's refusal to honor the family member's succession to the ownership and operation of the dealership may, within the 90-day period, file with the department a verified complaint for a hearing and determination by the department on whether good cause exists for refusal and discontinuance.

(2) The manufacturer, factory branch, distributor, or importer must establish good cause for refusal by showing that the succession would be detrimental to the public interest or to the representation of the manufacturer, factory branch, distributor, or importer.

(3) The franchise agreement must continue in effect until the final adjudication by the department on the verified complaint and the exhaustion of all appellate remedies available to the designated family member. The manufacturer, factory branch, distributor, or importer and the designated family member shall abide by the terms of the franchise agreement and the laws of Montana during the appeals process.

(4) If the manufacturer, factory branch, distributor, or importer prevails, the department shall include in its order approving the termination of the franchise agreement reasonable conditions affording the complainant an opportunity to receive fair and reasonable compensation for the value of the dealership.

(5) Any decision by the department may be reviewed pursuant to Title 2, chapter 4, part 7.

This may occur if the sale or transfer is conditioned upon either the manufacturer or dealer entering into a dealer agreement with the proposed new owner or transferee if all the following requirements are met:

(a) the manufacturer or distributor notifies the dealer in writing of the manufacturer's or dealer's intent to exercise the right of first refusal within 60 days of receipt of the dealer's written proposal for sale or transfer;

(b) the dealer and the dealer's owner receive the same or greater consideration as they have contracted to receive in connection with the proposed change of ownership or transfer;

(2) This section does not prohibit the display or parking of a motor vehicle offered or posted for sale when:

(a) the display or parking of the motor vehicle is incidental to actual operation and immediate use of the motor vehicle by the motor vehicle owner;

(b) the motor vehicle owner obtains the written consent of the real property owner, lessee, or agent of the owner or lessee on whose property the motor vehicle is displayed and posts the written consent or a copy of the written consent in the front or rear window of the motor vehicle; or

61-4-204. Filing agreement — product liability. (1) A franchisee shall, at the time of application for a new motor vehicle dealer license under the provisions of 61-4-101, file with the department a certified copy of the franchisee's written agreement with a manufacturer and a certificate of appointment as dealer or distributor. The certificate of appointment must be signed by an authorized agent of the manufacturer of domestic motor vehicles whenever there is a direct manufacturer dealer agreement or by an authorized agent of the distributor whenever the manufacturer is wholesaling through an appointed distributorship. The certificate must be signed by an authorized agent of the importer of foreign-made vehicles whenever there is a direct importer-dealer agreement or by an authorized agent of the distributor whenever there is an indirect distributor-dealer agreement. The distributor's certificate of appointment must be signed by an authorized agent of the manufacturer of domestically manufactured motor vehicles or by an authorized agent of the manufacturer or importer of foreign-made motor vehicles.

(2) A franchisee need not file a written agreement or certificate of appointment if the manufacturer on direct dealerships or distributor on indirect dealerships or importer on direct dealerships uses the identical basic agreement for all its franchised dealers or distributors in this state and certifies in the certificate of appointment that the blanket agreement is on file and the written agreement with the particular dealer or distributor, respectively, is identical with the filed blanket agreement and that the franchisee has filed with the department one agreement together with a list of franchised dealers or distributors.

(3) A manufacturer, distributor, or importer shall notify the department within 30 days of any revision of or addition to the basic agreement on file or of any franchise supplement to the agreement. Annual renewal of a certificate filed as provided in this section is not required.

(4) A manufacturer shall file with the department a copy of the delivery and preparation obligations required to be performed by a dealer prior to the delivery of a new motor vehicle to a buyer. These delivery and preparation obligations constitute the dealer's only responsibility for product liability as between the dealer and the manufacturer. Any mechanical, body, or parts defects arising from an express or implied warranty of the manufacturer constitute the manufacturer's product or warranty liability only. However, this section may not affect the obligations of new motor vehicle dealers to perform warranty repair and maintenance that may be required by law or contract. Except with regard to household appliances, including but not limited to ranges, refrigerators, and water heaters, in a recreational vehicle and except with regard to a truck rated at more than 10,000 pounds gross vehicle weight, the manufacturer shall compensate an authorized dealer for labor, parts, and other expenses incurred by a dealer who performs work to rectify the manufacturer's product or warranty defect or for delivery and preparation obligations at the same rate and time the dealer charges to its retail customers for nonwarranty work of a like kind, based upon a published, nationally recognized, retail flat-rate

labor time guide manual if the dealer uses the manual as the basis for computing charges for both warranty and retail work.

(5) (a) All claims made by the dealer pursuant to this section for compensation for delivery, preparation, warranty, and recall service, including labor, parts, and other expenses, must be paid by the manufacturer within 30 days of receipt of the claim from the dealer, except that a manufacturer of a motor home shall pay any claim within 60 days of receipt from the dealer.

(b) If a claim is disapproved, the dealer must be notified in writing of the grounds for disapproval. A claim that has not been disapproved in writing within 30 days of having been received must be considered approved, and payment is due to the claimant immediately. However, the manufacturer retains the right to audit a claim for a period of 12 months following the payment of the claim.

(c) A claim that has been approved and paid may not be charged back to the dealer unless the manufacturer proves that:

(i) the claim was false or fraudulent;

(ii) the repairs were not properly made; or

(iii) the repairs were not necessary to correct the defective condition.

(d) A manufacturer may not deny a claim or reduce the amount to be reimbursed to the dealer if the dealer has provided reasonably sufficient documentation demonstrating that the dealer performed the services in compliance with the written policies and procedures of the manufacturer.

(e) A franchisor may reasonably and periodically audit a motor vehicle dealer to determine the validity of paid claims or chargebacks for customer or dealer incentives. An audit of incentive payments may apply only to the 18-month period immediately preceding the date on which the dealer was notified of an impending audit.

(6) The dealer shall furnish the purchaser of a new motor vehicle with a signed copy of the manufacturer's delivery and preparation requirements indicating that each of those requirements has been performed.

61-4-205. Limitations on cancellation and termination. (1) Notwithstanding the terms, provisions, or conditions of any agreement or franchise, a franchisor may not cancel, terminate, or refuse to continue a franchise unless the franchisor has cause for termination or noncontinuance.

(2) A franchisor may not enter into a franchise for the purpose of establishing an additional new motor vehicle dealership in any community in which the same line-make is then represented unless there is good cause for an additional new motor vehicle dealership under a franchise and it is in the public interest.

(3) If a franchisor seeks to terminate or not continue a franchise or seeks to enter into a franchise establishing an additional new motor vehicle dealership of the same line-make, the franchisor shall, not less than 60 days prior to the intended action, and the franchisee may, at any time, file a notice with the department of intention to terminate or not continue the franchise or to enter into a franchise for additional representation of the same line-make. A notice of intention to terminate or not continue a franchise is not required from a franchisor until the conclusion of any review proceeding of that intention offered to the franchisee under the franchise. This section does not apply to an intended termination or noncontinuance of a franchise that the franchisee elects voluntarily, pursuant to a plan established by a franchisor, to submit to binding arbitration.

(4) Upon receiving a notice of intention under the provisions of subsection (3), the department shall, within 5 days of receipt of a notice of intention, send by certified mail, with return receipt requested, a copy of the notice to the franchisor and to the franchisee whose franchise the franchisor seeks to establish, terminate, or not continue. If the notice states an intent to establish an additional new motor vehicle dealership, a copy of the notice must be sent within 5 days of receipt to all franchisees in the community who are then engaged in the business of offering to sell or selling the same line-make. Copies of notices must be addressed to the principal place of business of each recipient and to the statutory agent of each corporate recipient. The department may also give a copy of the franchisor's notice to any other parties whom the department may consider interested persons.

(5) In instances where the change in ownership has the effect of the sale of the franchise, the franchisor may not without good cause withhold its consent to the sale. Good cause relates only to the transferee's financial and managerial capabilities or to the inability of the transferee to comply with a state or federal law relating to new motor vehicle dealerships. The burden of establishing good cause is upon the franchisor.

(6) Notwithstanding the terms, provisions, or conditions of an agreement or franchise, in the event of the sale or transfer of ownership of the franchisee's dealership by sale or transfer of the business or by stock transfer to the dealer's or wholesaler's spouse, son, or daughter, the franchisor shall give effect to the sale or transfer of ownership in the franchise unless the transfer of the franchisee's new motor vehicle dealer's or wholesaler's license is denied or the new owner is unable to obtain a license under the laws of this state.

(7) If a franchisor enters into or attempts to enter into a franchise, whether upon termination or refusal to continue another franchise or upon the establishment of an additional new motor vehicle dealership in a community where the same line-make is then represented, without first complying with the provisions of this part, a license under Title 23 or 61-4-101 may not be issued to that franchisee or proposed franchisee to engage in the business of selling new motor vehicles manufactured or distributed by that franchisor.

(3) Upon hearing or upon objection to the establishment of a new motor vehicle dealership, the franchisor has the burden of proof to establish that good cause exists to terminate, not continue, or not establish the franchise.

(4) The rules of evidence for a hearing provided for in subsection (2) are the same as those found in Title 2, chapter 4. The department shall reasonably apportion all costs related to the contested case hearing between the parties.

(5) The department may issue subpoenas, administer oaths, and compel the attendance of witnesses and production of books, papers, documents, and all other evidence. The department

61-4-207. Determination of good cause. (1) In determining whether good cause has been established for terminating or not continuing a franchise, the department shall take into consideration the existing circumstances, including but not limited to:

(a) amount of business transacted by the franchise;

(b) investment necessarily made and obligations incurred by the franchisee in the performance of the franchisee's part of the franchise;

(c) permanency of the investment;

(d) whether it is injurious to the public welfare for the business of the franchisee to be discontinued;

(e) whether the franchisee has adequate new motor vehicle facilities, equipment, parts, and qualified management, sales, and service personnel to reasonably provide consumer care for the new motor vehicles sold at retail by the franchisee and any other new motor vehicle of the same line-make;

(f) whether the franchisee refuses to honor warranties of the franchisor to be performed by the franchisee if the franchisor reimburses the franchisee for warranty work performed by the franchisee; and

(g) except as provided in subsection (2), failure by the franchisee to substantially comply with the written and uniformly applied requirements of the franchise that are determined by the department to be reasonable and material.

(2) Notwithstanding the terms, provisions, or conditions of an agreement or franchise, the following do not constitute good cause for the termination or noncontinuance of a franchise:

(a) a change in ownership of the franchisee's dealership; or

(b) the fact that the franchisee refused to purchase or accept delivery of a new motor vehicle, part, accessory, or any other commodity or service not ordered by the franchisee.

(3) In determining whether good cause has been established for entering into an additional franchise for the same line-make, the department shall take into consideration the existing circumstances, including but not limited to:

(a) amount of business transacted by other franchisees of the same line-make in that community;

(b) investment necessarily made and obligations incurred by other franchisees of the same line-make in that community in the performance of their part of their franchises; and

(c) whether the franchisees of the same line-make in that community are providing adequate consumer care, including satisfactory new motor vehicle dealer sales and service facilities, equipment, parts supply, and qualified management, sales, and service personnel, for the new motor vehicle products of the line-make.

61-4-208. Prohibited acts. (1) A manufacturer of new motor vehicles, a factory branch, a distributor, a distributor branch, an importer, a field representative, an officer, an agent, or any representative of the persons or entities listed may not:

(a) coerce, attempt to coerce, or require a new motor vehicle dealer to:

(i) accept delivery of a new motor vehicle, a part, or an accessory for a new motor vehicle or any other commodity that has not been ordered by the dealer;

(ii) participate in or contribute to any local, regional, or national advertising fund or to participate in or to contribute to contests, giveaways, or other sales devices;

(iii) change location of the dealership or to make substantial alterations to the use or number of franchises or the dealership premises or facilities when to do so would be unreasonable, or without written assurance of a sufficient supply of new motor vehicles that would justify an expansion;

(iv) either establish or maintain exclusive facilities, personnel, or display space or to abandon an existing franchise relationship with another manufacturer that was established before April 8, 1997, when those requirements are not justified by reasonable business considerations;

(v) refrain from participation in the management of, investment in, or acquisition of any other line of new motor vehicle or related products if the new motor vehicle dealer maintains a reasonable line of credit for each make or line of new motor vehicles and remains in compliance with any reasonable capital standards and facility requirements of the manufacturer; or

(vi) enter into an agreement with a manufacturer, factory branch, distributor, distributor branch, or representative of the listed persons or entities or do any other act unfair to the dealer by:

(A) threatening to cancel or not renew a franchise existing between the manufacturer, factory branch, distributor, distributor branch, or representative of the listed persons or entities and the dealer; or

(B) threatening to withhold, delay, or disrupt the receipt of new motor vehicles or any motor vehicle parts or supplies ordered by the dealer from the manufacturer, factory branch, distributor, distributor branch, importer, or representative or agent of the listed entities;

(b) delay, refuse, or fail to deliver new motor vehicles in a reasonable time in a reasonable quantity relative to the new motor vehicle dealer's facilities and sales potential after accepting an order from a new motor vehicle dealer if the new motor vehicles are publicly advertised as being available for immediate delivery; or

(c) impose unreasonable restrictions on the assertion of legal or equitable rights on the new motor vehicle dealer or franchise regarding transfer; sale; right to renew; termination; discipline; noncompetition covenants; site control, whether by sublease, collateral pledge of lease, or otherwise; or compliance with subjective standards.

(2) There is no violation of subsection (1)(a)(iii) or (1)(b) if a failure on the part of the manufacturer, factory branch, distributor, or distributor branch is beyond the control of the listed persons or entities.

(3) (a) Except as provided in subsection (3)(b) or (3)(c), a manufacturer of new motor vehicles, a factory branch, a distributor, a distributor branch, an importer, a field representative, an officer, an agent, or any representative of any of these persons or entities may not own or operate, directly or indirectly, a motor vehicle dealership in Montana that is for sale or has been for sale under a franchise agreement with a new motor vehicle dealer in Montana.

(b) If there is no independent person available to own and operate a motor vehicle dealership in a manner that is consistent with the public interest, a manufacturer of new motor vehicles, a factory branch, a distributor, a distributor branch, an importer, a field representative, an officer, an agent, or any representative of any of these persons or entities may own and operate a motor vehicle dealership for a temporary period, not to exceed 1 year, during the transition from one owner of the dealership to another. Approval of the sale may not be unreasonably withheld by the manufacturer.

(c) A manufacturer of new motor vehicles, a factory branch, a distributor, a distributor branch, an importer, a field representative, an officer, an agent, or any representative of any of these persons or entities may own an interest in a motor vehicle dealership but may not operate the dealership unless a manufacturer of new motor vehicles, a factory branch, a distributor, a distributor branch, an importer, a field representative, an officer, an agent, or any representative of any of these persons or entities has a bona fide business relationship with an independent person who is not a franchisor or a franchisor's agent or affiliate, who has made an investment that is subject to loss in the dealership, and who reasonably expects to acquire full ownership of the dealership on reasonable terms and conditions.

61-4-501. Definitions. For purposes of this part, the following definitions apply:

(1) "Collateral charge" means all governmental charges, including but not limited to sales tax, property tax, license and registration fees, and fees in lieu of tax.

(2) "Consumer" means the purchaser or lessee, other than for purposes of resale or lease, of a passenger motor vehicle used for personal, family, or household purposes that has not been brought into nonconformity as the result of abuse, neglect, or unauthorized modifications or alterations. The term includes any person to whom the passenger motor vehicle is transferred for the same purposes during the duration of an express warranty applicable to the passenger motor vehicle and any other person entitled by the terms of the warranty to enforce the obligations of the warranty.

(3) "Incidental damage" means incidental and consequential damage as defined in 30-2-715.

(4) "Manufacturer" has the meaning applied to that word in 61-4-201.

(5) (a) "Motor vehicle" means a vehicle, including the nonresidential portion of a motor home, propelled by its own power, designed primarily to transport persons or property upon the public highways, and sold or registered in this state.

(b) The term does not include:

(i) a truck with 15,000 pounds or more gross vehicle weight rating; or

(ii) components, systems, fixtures, appliances, furnishings, accessories, and features that are designed, used, and maintained primarily for residential purposes.

(6) "Reasonable allowance for use" is an amount directly attributable to use of the motor vehicle by the consumer and any previous consumers prior to the first written notice of the nonconformity to the manufacturer or its agent and during any subsequent period when the motor vehicle is not out of service because of nonconformity. The reasonable allowance for use must be computed by multiplying the total contract price of the motor vehicle by a fraction having as its denominator 100,000 and having as its numerator the number of miles that the motor vehicle traveled prior to the manufacturer's acceptance of its return.

(7) "Warranty period" means the period ending 2 years after the date of the original delivery to the consumer of a new motor vehicle or during the first 18,000 miles of operation, whichever is earlier.

Amendment effective March 30, 2007.

61-4-502. Notice — warranty enforceable after warranty period — when. (1) If a consumer notifies in writing the manufacturer or its agent during the warranty period that a new motor vehicle does not conform to all applicable express warranties, the repairs necessary to conform the new motor vehicle to the express warranties shall be made by or at the expense of the warrantor, regardless of the expiration of the warranty period after notification of nonconformity is given by the consumer.

(2) The warranty period of an express warranty is extended to equal the time that repair services are not available because of war or invasion or because of strike or fire, flood, or other natural disaster. The presumption provided herein may not apply against a manufacturer who has not received prior written notification from or on behalf of the consumer and has not had an opportunity to cure the alleged defect.

(3) The manufacturer must clearly and conspicuously disclose to the consumer in the warranty or owner's manual that written notification of a nonconformity is required before a consumer may be eligible for a refund or replacement of the vehicle. The manufacturer must include with the warranty or owner's manual the name and address where the written notification must be sent.

(2) As an alternative to replacement, the manufacturer may accept return of the new motor vehicle from the consumer upon refund to the consumer of the full purchase price, plus reasonable collateral charges and incidental damages, less a reasonable allowance for the consumer's use of the motor vehicle. The refund must be paid to the consumer and to a lienholder, if any, in proportion to their interests.

Except as provided in subsections (1)(b) and (1)(c), an instruction permit entitles the permitholder, while in immediate possession of the permit and accompanied by a licensed driver seated beside the permitholder, to drive a motor vehicle other than a motorcycle upon the public highways.

(b) If the permitholder is under 18 years of age, the driver supervising the permitholder must be a parent or a legal guardian of the permitholder or, with the permission of the permitholder's parent or legal guardian, a licensed driver 18 years of age or older. (b) When in immediate possession of the traffic education permit, the permittee may operate on a designated highway or within a designated area:

(i) a motor vehicle when an approved instructor is seated beside the permittee; or

(ii) a motorcycle or quadricycle when under the immediate and proximate supervision of an approved instructor.

(4) The department may in its discretion issue a temporary driver's permit to an applicant for a driver's license permitting the applicant to operate a motor vehicle while the department is

completing its investigation and determination of all facts relative to the applicant's right to receive a driver's license. The temporary driver's permit must be in the permittee's immediate possession while operating a motor vehicle, and it is invalid when the applicant's license has been issued or for good cause has been refused.

(5) The department may in its discretion issue a temporary commercial driver's license to an applicant permitting the applicant to operate a commercial motor vehicle while the department is completing its investigation and determination of all facts relative to the applicant's right to receive a commercial driver's license. (b) When received, the driving records must be appended to the driver's record created and maintained in this state. The department may rely on information contained in driving records received under this section to determine the appropriate action to be taken against the applicant upon subsequent receipt of a report of a conviction or other conduct requiring suspension or revocation of a driver's license under state law.

(1) The application of a person who is under 18 years of age for an instruction permit, driver's license, or medical assessment and rehabilitation driving permit must be signed and verified before a person authorized to administer oaths or an employee of the department by a parent of the applicant or, if none is available, by some other responsible adult who is willing to assume the obligation imposed under this chapter upon a person signing the application of a minor.

(2) Any negligence or willful misconduct of a minor who is under 18 years of age when driving a motor vehicle upon a highway must be imputed to a person who has signed the

application of the minor for an instruction permit, driver's license, or medical and rehabilitation driving permit. The person who signs the application is jointly and severally liable with the minor for any damages caused by the negligence or willful misconduct unless a motor vehicle liability policy, as provided for in chapter 6 of this title, covering the minor is in effect, in which case there is no imputed liability as described in this section.

61-5-110. Records check of applicants — examination of applicants — cooperative driver testing programs. (1) Prior to examining an applicant for a driver's license, the department shall conduct a check of the applicant's driving record by querying the national driver register, established under 49 U.S.C. 30302, and the commercial driver's license information system, established under 49 U.S.C. 31309.

(2) (a) The department shall examine each applicant for a driver's license or motorcycle endorsement, except as otherwise provided in this section. The examination must include a test of the applicant's eyesight, a knowledge test examining the applicant's ability to read and understand highway signs and the applicant's knowledge of the traffic laws of this state, and, except as provided in 61-5-118, a road test or a skills test demonstrating the applicant's ability to exercise ordinary and reasonable control in the safe operation of a motor vehicle or motorcycle. The road test or skills test must be performed by the applicant in a motor vehicle that the applicant certifies is representative of the class and type of motor vehicle for which the applicant is seeking a license or endorsement.

(b) The knowledge test, road test, or skills test may be waived by the department upon certification of the applicant's successful completion of the test by a certified cooperative driver testing program, as provided in subsection (3) or by a certified third-party commercial driver testing program as provided in 61-5-118.

(3) The department is authorized to certify as a cooperative driver testing program any state-approved high school traffic education course offered by or in cooperation with a school district that employs an approved instructor who has current endorsement from the superintendent of public instruction as a teacher of traffic education or any motorcycle safety training course approved by the board of regents and that employs an approved instructor of motorcycle safety training and who agrees to:

(a) administer standardized knowledge and road tests or skills tests required by the department to students participating in the district's high school traffic education courses or motorcycle safety training courses approved by the board of regents;

(b) certify the test results to the department; and

(c) comply with regulations of the department, the superintendent of public instruction, and the board of regents.

(4) (a) Except as otherwise provided by law, a resident who has a valid driver's license issued by another jurisdiction may surrender that license for a Montana license of the same class, type, and endorsement upon payment of the required fees and successful completion of a vision examination. In addition, a resident surrendering a commercial driver's license issued by another jurisdiction shall successfully complete any examination required by federal regulations before being issued a commercial driver's license by the department.

(b) The department may require an applicant who surrenders a valid driver's license issued by another jurisdiction to submit to a knowledge and road or skills test if:

(i) the applicant has a physical or mental disability, limitation, or condition that impairs, or may impair, the applicant's ability to exercise ordinary and reasonable control in the safe operation of a motor vehicle on the highway; and

(ii) the surrendered license does not include readily discernible adaptive equipment or operational restrictions appropriate to the applicant's functional abilities; or

(iii) the applicant wants to remove or modify a restriction imposed on the surrendered license.

(c) When a license from another jurisdiction is surrendered, the department shall notify the issuing agency from the other jurisdiction that the applicant has surrendered the license. If the applicant wants to retain the license from another jurisdiction for identification or other nondriving purposes, the department shall place a distinctive mark on the license, indicating that the license may be used for nondriving purposes only, and return the marked license to the applicant.

(b) The department may enter into an authorized agent agreement with the county treasurer of any county in which the department no longer maintains a driver examination station for the purpose of providing driver's license renewal services.

(2) (a) The department, upon receipt of payment of the fees specified in this section, shall issue a driver's license to each qualifying applicant. The license must contain:

(i) a full-face photograph of the licensee in the size and form prescribed by the department;

(ii) a distinguishing number issued to the licensee;

(iii) the full legal name, date of birth, Montana mailing address, and a brief description of the licensee; and

(iv) either the licensee's customary signature or a digital reproduction of the licensee's customary signature.

(3) (a) When a person applies for renewal of a driver's license, the department shall conduct a records check in accordance with 61-5-110(1) to determine the applicant's eligibility status and shall test the applicant's eyesight. The department may also require the applicant to submit to a knowledge and road or skills test if:

(i) the renewal applicant has a physical or mental disability, limitation, or condition that impairs, or may impair, the applicant's ability to exercise ordinary and reasonable control in the safe operation of a motor vehicle on the highway; and

(ii) the expired or expiring license does not include adaptive equipment or operational restrictions appropriate to the applicant's functional abilities; or

(iii) the applicant wants to remove or modify the restrictions stated on the expired or expiring license.

(b) In the case of a commercial driver's license, the department shall, if the information was not provided in a prior licensing cycle, require the renewal applicant to provide the name of each jurisdiction in which the applicant was previously licensed to drive any type of motor vehicle during the 10-year period immediately preceding the date of the renewal application and may also require that the applicant successfully complete a written examination as required by federal regulations.

(c) A person is considered to have applied for renewal of a Montana driver's license if the application is made within 6 months before or 3 months after the expiration of the person's license. Except as provided in subsection (3)(d), a person seeking to renew a driver's license shall appear in person at a Montana driver's examination station.

(d) (i) Except as provided in subsections (3)(d)(iv) through (3)(d)(vi), a person may renew a driver's license by mail if the person certifies that the person is temporarily out of state and will not be returning to the state prior to the expiration of the license. A person may not renew by mail for a subsequent license term after a mail renewal, except that a spouse or dependent of a person stationed outside Montana on active military duty may renew a driver's license by mail for one additional consecutive term following a mail renewal.

(ii) An applicant who renews a driver's license by mail shall submit to the department an approved vision examination and a medical evaluation from a licensed physician, licensed physician assistant, or advanced practice registered nurse, as defined in 37-8-102, in addition to the fees required for renewal.

(iii) If the department does not have a digitized photograph or signature record of the renewal applicant from the expiring license, then the department may require the renewal applicant to submit a personal photograph and signature that meets the requirements prescribed by the department.

(iv) Except as provided in subsections (4)(b) and (4)(c), the term of a license renewed by mail is 8 years.

(v) The department may not renew a license by mail if:

(A) the records check conducted in accordance with 61-5-110(1) shows an ineligible license status for the applicant; or

(B) the applicant holds a commercial driver's license with a hazardous materials endorsement, the retention of which requires additional testing and a security threat assessment under 49 CFR, part 1572.

(vi) If a license was issued to a foreign national whose presence in the United States is temporarily authorized under federal law, the license may not be renewed by mail.

(e) The department shall mail a driver's license renewal notice no earlier than 60 days and no later than 30 days prior to the expiration date of a driver's license. Except as provided in 61-3-119 and 61-5-115, the department shall mail the notice to the Montana mailing address shown on the driver's license.

(4) (a) Except as provided in subsections (4)(b) through (4)(e), a license expires on the anniversary of the licensee's birthday 8 years or less after the date of issue or on the licensee's 75th birthday, whichever occurs first.

(b) A license issued to a person who is 75 years of age or older expires on the anniversary of the licensee's birthday 4 years or less after the date of issue.

(c) A license issued to a person who is under 21 years of age expires on the licensee's 21st birthday.

(d) (i) Except as provided in subsection (4)(d)(ii), a commercial driver's license expires on the anniversary of the licensee's birthday 5 years or less after the date of issue.

(ii) When a person obtains a Montana commercial driver's license with a hazardous materials endorsement after surrendering a comparable commercial driver's license with a hazardous materials endorsement from another licensing jurisdiction, the license expires on the anniversary of the licensee's birthday 5 years or less after the date of the issue of the surrendered license if, as reported in the commercial driver's license information system, a security threat assessment was performed on the person as a condition of issuance of the surrendered license.

(e) A license issued to a person who is a foreign national whose presence in the United States is temporarily authorized under federal law expires, as determined by the department, no later than the expiration date of the official document issued to the person by the bureau of citizenship and immigration services of the department of homeland security authorizing the person's presence in the United States.

(5) When the department issues a driver's license to a person under 18 years of age, the license must be clearly marked with a notation that conveys the restrictions imposed under 61-5-133.

(6) (a) Upon application for a driver's license or commercial driver's license and any combination of the specified endorsements, the following fees must be paid:

(i) driver's license, except a commercial driver's license — $5 a year or fraction of a year;

(ii) motorcycle endorsement — 50 cents a year or fraction of a year;

(1) The department shall adopt rules that it considers necessary for the safety and welfare of the traveling public governing the classification of commercial driver's licenses and related endorsements and the examination of commercial driver's license applicants and renewal applicants. (a) subject to the exceptions provided in this section, comport with the licensing standards and requirements of 49 CFR, part 383, the medical qualifications of 49 CFR, part 391, and the security threat assessment provisions of 49 CFR, part 1572;

(b) allow for the issuance of a type 2 (intrastate only) commercial driver's license in accordance with medical qualification and visual acuity standards prescribed by the department;

(c) allow for the issuance of a type 2 commercial driver's license to a person who is 18 years of age or older;

(d) allow for issuance of a seasonal commercial driver's license based on standards established by the department for the waiver of the knowledge and road or skills test for a qualified person employed in farm-related service industries who has a good driving record and sufficient prior driving experience;

(1) If, upon an applicant's completion of the vision, knowledge, and skills tests required under 61-5-110, 61-5-111, and 61-5-207, the department determines that an applicant's ability to exercise ordinary and reasonable control in the safe operation of a motor vehicle on the highway depends on the use of adaptive equipment or operational restrictions, then the department shall include the appropriate restrictions on a license issued to the applicant. Once imposed, the restrictions may not be removed unless the department determines that the adaptive equipment or operational restrictions are no longer essential to the licensee's ability to exercise ordinary and reasonable control in the safe operation of a motor vehicle on the highway.

(2) The department may either issue a special restricted license or may include the restrictions on the usual license form.

(a) has committed or permitted an unlawful or fraudulent use of the license as specified in 61-5-302;

(b) has falsified the licensee's date of birth on the application for a driver's license;

(2) If the department suspends a driver's license under 61-5-207 or this section or reinstates a license suspension or revocation upon conviction or forfeiture of bail not vacated of any traffic violation by a person who holds a probationary driver's license under 61-2-302, the department shall immediately notify the licensee in writing and upon the licensee's request shall afford the licensee an opportunity for a hearing as early as practical, within 20 days after receipt of the

request, in the county in which the licensee resides unless the department and the licensee agree that the hearing may be held in some other county. At the hearing, the department through its authorized agent may administer oaths and may issue subpoenas for the attendance of witnesses and the production of relevant books and papers and may require a reexamination of the licensee. At the hearing, the department shall either rescind its order of suspension or, for good cause, may affirm, reduce, or extend the period of suspension of the license.

(1) If the department receives reliable evidence that a licensed driver lacks the ability to exercise ordinary and reasonable control in the safe operation of a motor vehicle on the highway, the department may, upon written notice of at least 5 days to the licensee, require the licensee to obtain a medical evaluation from a licensed physician, licensed physician assistant, or advanced practice registered nurse, as defined in 37-8-102, or submit to one or more tests customarily conducted by the department for licensure under 61-5-110.

(2) Upon the review of a medical evaluation, the conclusion of testing, or both, the department may:

(a) impose restrictions on the license, as provided in 61-5-113, that are appropriate to the licensee's acknowledged or demonstrated functional abilities;

(b) suspend the license indefinitely based upon a licensee's inability to exercise ordinary and reasonable control in the safe operation of a motor vehicle on the highway; or

(c) take no action modifying the license or placing restrictions on the licensee.

(3) The age of a licensee, by itself, does not constitute evidence of a condition requiring a reexamination or a medical evaluation.

(4) A suspension under this section continues in effect until evidence satisfactory to the department establishes that the licensee has regained the ability to exercise ordinary and reasonable control in the safe operation of a motor vehicle on a highway.

(5) Refusal or neglect of the licensee to obtain a medical evaluation from a licensed physician, licensed physician assistant, or advanced practice registered nurse or submit to testing as required by the department is grounds for suspension of the person's license.

Upon receiving a report of a conviction or forfeiture of bail or collateral for a second, third, or subsequent offense within 5 years of the first offense, the department shall suspend the license or driving privilege of the person for a period of 1 year and may not issue a probationary license during the period of suspension. (c) For the purposes of subsection (2)(b), a person is considered to have committed a second, third, or subsequent offense if fewer than 5 years have passed between the date of an offense that resulted in a prior conviction and the date of the offense that resulted in the most recent conviction.

(i) operation is authorized by the person's probation officer; or

(ii) a motor vehicle operated by the person is equipped with an ignition interlock device.

(1) (a) A person commits the offense of driving a motor vehicle without a valid license or without statutory exemption or during a suspension or revocation period if the person drives:

(i) a motor vehicle on any public highway of this state at a time when the person's privilege to drive or apply for and be issued a driver's license is suspended or revoked in this state or any other state;

(ii) a commercial motor vehicle while the person's commercial driver's license is revoked, suspended, or canceled in this state or any other state or the person is disqualified from operating a commercial motor vehicle or from obtaining a commercial driver's license; or

(iii) a motor vehicle on any public highway of this state without possessing a valid driver's license, as provided in 61-5-102, or without proof of a statutory exemption, as provided in 61-5-104.

(b) (i) Except as provided in subsection (1)(b)(ii), a person convicted of the offense of driving a motor vehicle without a valid driver's license or without proof of a statutory exemption for the second time or driving during a suspension or revocation period shall be punished by imprisonment for not less than 2 days or more than 6 months and may be fined not more than $500.

(ii) If the reason for the suspension or revocation was that the person was convicted of a violation of 61-8-401 or 61-8-406 or a similar offense under the laws of any other state or the suspension was under 61-8-402 or 61-8-409 or a similar law of any other state for refusal to take a test for alcohol or drugs requested by a peace officer who believed that the person might be driving under the influence, the person shall be punished by imprisonment for a term of not less than 2 days or more than 6 months or a fine not to exceed $2,000, or both, and in addition, the court may order the person to perform up to 40 hours of community service.

(2) (a) Upon receiving a record of the conviction of any person under this section upon a charge of driving a noncommercial vehicle while the person's driver's license, privilege to drive, or privilege to apply for and be issued a driver's license was suspended or revoked, the department shall extend the period of suspension or revocation for an additional 1-year period.

(5) A convicted person is responsible for all costs associated with actions taken under subsection (3). Joint ownership of the vehicle with another person does not prohibit the actions required by subsection (3) unless the sentencing court determines that those actions would constitute an extreme hardship on a joint owner who is determined to be without fault.

(6) A court may not suspend or defer imposition of penalties provided by this section.

(2) For purposes of this section, a driver rehabilitation program may be approved by the department if the program provider annually certifies to the department that the provider's program:

(a) provides a participant with a minimum of 4 hours of instruction on Montana driving laws, the importance of positive driving attitudes and habits, defensive driving techniques, and the responsible use of drugs and alcohol;

(b) includes preinstruction and postinstruction testing of each participant;

61-5-220. Limitations on issuance of hazardous materials endorsement to commercial driver's license — security threat assessment. (1) The department may not issue, transfer, or renew a hazardous materials endorsement for a person who holds a commercial driver's license unless it receives notice from the transportation security administration of the department of homeland security that:

(a) the person does not pose a security threat warranting denial of a hazardous materials endorsement;

(b) the person has been granted a waiver from the transportation security administration; or

(c) less than 4 years have elapsed since a favorable security threat assessment was performed in a former licensing jurisdiction.

(2) In addition to any requirements under this chapter and in accordance with the security threat assessment standards provided in 49 CFR, part 1572, an applicant who is seeking a hazardous materials endorsement shall:

(a) complete a separate application as prescribed by the transportation security administration;

(b) submit, as directed by the department, to a fingerprint-based background check by the transportation security administration; and

(c) pay to the agent of the transportation security administration the fees imposed under 49 CFR, part 1572, for collection and transmission of fingerprints and applicant information, processing of fingerprint identification records, and the security threat assessment and adjudication.

Revocation of the hazardous materials endorsement results in immediate withdrawal of the person's authority to transport hazardous materials, as defined in 61-8-801, in commerce, but does not otherwise affect the person's commercial driver's license or any unrelated endorsements.

(2) A person whose hazardous materials endorsement has been revoked or removed under this section shall surrender the person's commercial driver's license to the department and apply for a replacement license, as provided in 61-5-114, that does not include the hazardous materials endorsement.

(3) Upon surrender of a hazardous materials endorsement by a person who is disqualified from holding a hazardous materials endorsement under 49 CFR, part 1572, the department shall note the removal of the hazardous materials endorsement on its records and on the commercial driver's license information system.

Part 4
Driver License Compact

61-5-401. Driver License Compact. This part shall be known and may be cited as the "Driver License Compact".

Article I. Findings and Declaration of Policy

(1) The party states find that:

(a) the safety of their streets and highways is materially affected by the degree of compliance with state laws and local ordinances relating to the operation of motor vehicles;

(b) violation of such a law or ordinance is evidence that the violator engages in conduct which is likely to endanger the safety of persons and property;

(c) the continuance in force of a license to drive is predicated upon compliance with laws and ordinances relating to the operation of motor vehicles in whichever jurisdiction the vehicle is operated.

(2) It is the policy of each of the party states to:

(a) promote compliance with the laws, ordinances, and administrative rules relating to the operation of motor vehicles by their operators in each of the jurisdictions where such operators drive motor vehicles;

(b) make the reciprocal recognition of licenses to drive and eligibility therefor more just and equitable by considering the overall compliance with motor vehicle laws, ordinances, and administrative rules as a condition precedent to the continuance or issuance of any license by reason of which the licensee is authorized or permitted to operate a motor vehicle in any of the party states.

Article II. Definitions

As used in this compact:

(1) "state" means a state, territory, or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico;

(2) "home state" means the state which has issued and has the power to suspend or revoke the use of the license or permit to operate a motor vehicle;

(3) "conviction" means a conviction of any offense related to the use or operation of a motor vehicle which is prohibited by state law, municipal ordinance, or administrative rule, or a forfeiture of bail, bond, or other security deposited to secure appearance by a person charged with having committed any such offense, and which conviction or forfeiture is required to be reported to the licensing authority.

Article III. Reports of Conviction

The licensing authority of a party state shall report each conviction of a person from another party state occurring within its jurisdiction to the licensing authority of the home state of the licensee. Such report shall clearly identify the person convicted; describe the violation specifying the section of the statute, code, or ordinance violated; identify the court in which action was taken; indicate whether a plea of guilty or not guilty was entered or the conviction was a result of the forfeiture of bail, bond, or other security; and include any special findings made in connection therewith.

Article IV. Effect of Conviction

(1) The licensing authority in the home state, for the purposes of suspension, revocation, or limitation of the license to operate a motor vehicle, shall give the same effect to the conduct reported, pursuant to Article III of this compact, as it would if such conduct had occurred in the home state, in the case of convictions for:

(a) manslaughter or negligent homicide resulting from the operation of a motor vehicle;

(b) driving a motor vehicle while under the influence of intoxicating liquor or a narcotic drug, or under the influence of any other drug to a degree which renders the driver incapable of safely driving a motor vehicle;

(c) any felony in the commission of which a motor vehicle is used;

(d) failure to stop and render aid in the event of a motor vehicle accident resulting in the death or personal injury of another.

(2) As to other convictions, reported pursuant to Article III, the licensing authority in the home state shall give such effect to the conduct as is provided by the laws of the home state.

(3) If the laws of a party state do not provide for offenses or violations denominated or described in precisely the words employed in subdivision (1) of this article, such party state shall construe the denominations and descriptions appearing in subdivision (1) hereof as being applicable to and identifying those offenses or violations of a substantially similar nature, and the laws of such party state shall contain such provisions as may be necessary to ensure that full force and effect is given to this article.

Article V. Applications for New Licenses

Upon application for a license to drive, the licensing authority in a party state shall ascertain whether the applicant has ever held, or is the holder of a license to drive issued by any other party state. The licensing authority in the state where application is made shall not issue a license to drive to the applicant if:

(1) the applicant has held such a license, but the same has been suspended by reason, in whole or in part, of a violation and if such suspension period has not terminated;

(2) the applicant has held such a license, but the same has been revoked by reason, in whole or in part, of a violation and if such revocation has not terminated, except that after the expiration of 1 year from the date the license was revoked, such person may make application for a new license if permitted by law. The licensing authority may refuse to issue a license to any such applicant if, after investigation, the licensing authority determines that it will not be safe to grant to such person the privilege of driving a motor vehicle on the public highways.

(3) the applicant is the holder of a license to drive issued by another party state and currently in force unless the applicant surrenders such license.

Article VI. Applicability of Other Laws

Except as expressly required by provisions of this compact, nothing contained herein shall be construed to affect the right of any party state to apply any of its other laws relating to licenses to drive to any person or circumstance or to invalidate or prevent any driver license agreement or other cooperative arrangement between a party state and a nonparty state.

Article VII. Compact Administrator and Interchange of Information

(1) The head of the licensing authority of each party state shall be the administrator of this compact for his state. The administrators, acting jointly, shall have the power to formulate all necessary and proper procedures for the exchange of information under this compact.

(2) The administrator of each party state shall furnish to the administrator of each other party state any information or documents reasonably necessary to facilitate the administration of this compact.

Article VIII. Entry Into Force and Withdrawal

(1) This compact shall enter into force and become effective as to any state when it has enacted the same into law.

(2) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until 6 months after the executive head of the withdrawing state has given notice of the withdrawal to the executive heads of all other party states. No withdrawal shall affect the validity or applicability by the licensing authorities of states remaining party to the compact of any report of conviction occurring prior to the withdrawal.

Article IX. Construction and Severability

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state party thereto, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.

(1) "Judgment" means any judgment that has become final by expiration without appeal of the time within which an appeal might have been perfected or by final affirmation on appeal rendered by a court of competent jurisdiction of any state or of the United States upon a cause of action arising out of the ownership, maintenance, or use of any motor vehicle, for damages, including damages for care and loss of services, because of bodily injury to or death of any person or for damages because of injury to or destruction of property, including the loss of use of property, or upon a cause of action on an agreement of settlement for damages.

(2) "License" means any license, temporary instruction permit, or temporary license issued under the laws of this state pertaining to the licensing of persons to operate motor vehicles.

(3) "Nonresident's operating privilege" means the privilege conferred upon a nonresident by the laws of this state pertaining to the operation by the nonresident of a motor vehicle or the use of a motor vehicle owned by the nonresident in this state.

(4) "Person" means every natural person, firm, partnership, association, or corporation.

(5) "Proof of financial responsibility" means proof of ability to respond in damages for liability on account of accidents occurring subsequent to the effective date of the proof of financial responsibility, arising out of the ownership, maintenance, or use of a motor vehicle.

(6) "State" means any state, territory, or possession of the United States, the District of Columbia, or any province of the Dominion of Canada.

61-6-103. Motor vehicle liability policy defined. (1) A "motor vehicle liability policy", as the term is used in this part, means an owner's or operator's policy of liability insurance, certified as provided in 61-6-133 or 61-6-134 as proof of financial responsibility and issued, except as otherwise provided in 61-6-134, by an insurance carrier duly authorized to transact business in this state, to or for the benefit of the person named therein as insured.

(2) The owner's policy of liability insurance must:

(a) designate by explicit description or by appropriate reference all motor vehicles with respect to which coverage is thereby to be granted; and

(b) insure the person named therein and any other person, as insured, using any motor vehicle or motor vehicles with the express or implied permission of the named insured, against loss from the liability imposed by law for damages arising out of the ownership, maintenance, or use of the motor vehicle or motor vehicles within the United States of America or the Dominion of Canada, subject to limits exclusive of interest and costs, with respect to each motor vehicle, as follows:

(i) $25,000 because of bodily injury to or death of one person in any one accident and subject to said limit for one person;

(ii) $50,000 because of bodily injury to or death of two or more persons in any one accident; and

(iii) $10,000 because of injury to or destruction of property of others in any one accident.

(3) An operator's policy of liability insurance must insure the person named as insured therein against loss from the liability imposed upon him by law for damages arising out of the use by him of any motor vehicle not owned by him, within the same territorial limits and subject to the same limits of liability as are set forth above with respect to the operator's policy of liability insurance.

(4) A motor vehicle liability policy must state the name and address of the named insured, the coverage afforded by the policy, the premium charged therefor, the policy period, and the limits of liability and contain an agreement or be endorsed that insurance is provided thereunder in accordance with the coverage defined in this part as respects bodily injury and death or property damage, or both, and is subject to all the provisions of this part.

(5) A motor vehicle liability policy need not insure any liability under any workers' compensation law or any liability on account of bodily injury to or death of an employee of the insured while engaged in the employment, other than domestic, of the insured or while engaged in the operation, maintenance, or repair of a motor vehicle or any liability for damage to property owned by, rented to, in charge of, or transported by the insured.

(6) A motor vehicle liability policy is subject to the following provisions, which need not be contained therein:

(a) The liability of the insurance carrier with respect to the insurance required by this part becomes absolute whenever injury or damage covered by the motor vehicle liability policy occurs. The policy may not be canceled or annulled as to the liability by any agreement between the insurance carrier and the insured after the occurrence of the injury or damage. No statement made by the insured or on his behalf and no violation of the policy may defeat or void the policy.

(b) The satisfaction by the insured of a judgment for the injury or damage may not be a condition precedent to the right or duty of the insurance carrier to make payment on account of the injury or damage.

(c) The insurance carrier has the right to settle any claim covered by the policy, and if the settlement is made in good faith, the amount is deductible from the limits of liability specified in subsection (2)(b).

(d) The policy, the written application therefor, if any, and any rider or endorsement which does not conflict with the provisions of this part constitute the entire contract between the parties.

(7) A motor vehicle policy is not subject to cancellation, termination, nonrenewal, or premium increase due to injury or damage incurred by the insured or operator unless the insured or operator is found to have violated a traffic law or ordinance of the state or a city, is found negligent or contributorily negligent in a court of law or by the arbitration proceedings contained in chapter 5 of Title 27, or pays damages to another party, whether by settlement or otherwise. In no event may a premium be increased during the term of the policy unless there is a change in exposure.

(8) Any policy which grants the coverage required for a motor vehicle liability policy may also grant any lawful coverage in excess of or in addition to the coverage specified for a motor vehicle liability policy, and the excess or additional coverage is not subject to the provisions of this part. With respect to a policy which grants the excess or additional coverage, the term "motor vehicle liability policy" applies only to that part of the coverage which is required by this section.

(9) Any motor vehicle liability policy may provide that the insured shall reimburse the insurance carrier for any payment the insurance carrier would not have been obligated to make under the terms of the policy except for the provisions of this part.

(10) Any motor vehicle liability policy may provide for the prorating of the insurance thereunder with other valid and collectible insurance.

(11) The requirements for a motor vehicle liability policy may be fulfilled by the policies of one or more insurance carriers, which policies together meet such requirements.

(12) Any binder issued pending the issuance of a motor vehicle liability policy fulfills the requirements for such a policy.

(13) A reduced limits endorsement may not be issued by any company to be attached to any policy issued in compliance with this section.

61-6-106. Appeal to court. (1) At any time within 60 days after the rendition of any decision or order by the department under the provisions of this part, any party in interest may appeal to the district court of the judicial district of the state of Montana, in and for any county wherein any party in interest may reside or in which any party in interest which is a corporation may have its principal office, or place of business, and said appeal may be for the purpose of having the lawfulness of any order, decision, or act of the department inquired into and determined. The court shall determine whether the filing of an appeal shall operate as a stay of any order or decision of the department.

(2) Said appeal shall be taken by serving a written notice of said appeal upon the department, which said service shall be made by delivering a copy of such notice to the department and filing the original thereof with the clerk of the court to which said appeal is taken. A copy of such notice must also be served upon all other parties in interest, if there be any, by mailing the same to said parties in interest to such addresses of such parties as such parties shall have left with the department. If such parties shall have left no address with the department, then no service on such parties shall be required. The order of filing and service of said notice is immaterial.

(3) Immediately upon service upon said department of said notice, the department shall certify to said district court a complete record of all proceedings had by it with reference to the decision, order, or act appealed from, together with all official forms or documents in the possession of said department pertaining to said decision, order, or act and all correspondence and other written matter in the possession of said department pertaining to said decision, order, or act, with the clerk of the district court.

(4) Immediately upon the return of such certified matter, the district court shall fix a day for the hearing of said appeal and shall cause notice to be served upon the department and upon the appellant and also upon any other parties in interest upon whom service was required under the provisions of this section. The court may upon the hearing for a good cause shown permit evidence in addition to the matter certified by the department to the court, but in the absence of such permission from the court, the cause shall be heard on the matter certified to the court by the department. The trial of the matter shall be de novo, without a jury, and upon such trial the court shall determine whether or not the department regularly pursued its authority, whether or not the findings of the department ought to be sustained, and whether or not such findings are

reasonable under all circumstances of the case. The department and each party in interest shall have the right to appear in the proceeding.

(5) If the court shall find from such trial, as aforesaid, that the findings and conclusions of the department are not in accordance with either the facts or the law or that they ought to be other or different from those made by the department or that any finding and conclusion or any decision, order, act, rule, or requirement of the department is unreasonable, the court shall set aside such finding, conclusion, decision, order, act, rule, or requirement of said department or shall modify or change the same as law and justice shall require, and the court shall also make and enter any finding, conclusion, order, or judgment that shall be required or shall be legal and proper in the premises. Either the department or the appellant or any other party in interest, if there be any, may appeal to the supreme court from any final order, judgment, or decree of said district court, which said appeal shall be taken in like manner as appeals are now taken in other civil actions to the supreme court.

(6) Upon such appeal, the supreme court shall make such orders in reference to a stay of proceedings as it finds to be just in the premises and may stay the operation of any order, judgment, or decree of said district court without requiring any bond or undertaking from the applicant for such stay. When any such cause is so appealed, it shall have precedence upon the calendar of said supreme court upon the record made in said district court and upon the matters certified to or which ought to have been certified by said department to said district court, and judgment and decree shall be entered therein as expeditiously as possible.

61-6-137. Bond as proof of responsibility. (1) Proof of financial responsibility may be furnished by filing with the department the bond of a surety company duly authorized to transact business in the state or a bond with at least two individual sureties each owning real estate within this state and together having equities equal in value to at least twice the amount of such bond, which real estate shall be scheduled in the bond approved by a judge of a court of record. The bond shall be conditioned for payments in amounts and under the same circumstances as would be required in a motor vehicle liability policy and shall not be cancelable except after 10 days' written notice to the department. Upon the filing of notice to this effect by the department in the office of the county clerk and recorder of the county wherein such real estate is located, the bond shall constitute a lien in favor of the state upon the real estate so scheduled of any surety, which lien shall exist in favor of any holder of a judgment against the person who has filed the bond.

(2) The person in whose favor the lien exists may, for his own use and benefit and at his sole expense, bring an action or actions in the name of the state against the company or persons executing the bond, including an action or proceeding to foreclose any lien that may exist upon the real estate of any person who has executed such bond. (1) Proof of financial responsibility may be evidenced by the certificate of the state treasurer that the person named therein has deposited with him $55,000 in cash, or securities such as may legally be purchased by savings banks or for trust funds of a market value of $55,000. The state treasurer shall not accept any such deposit and issue a certificate therefor and the department shall not accept such certificate unless accompanied by evidence that there are no unsatisfied judgments of any character against the depositor in the county where the depositor resides.

(2) Such deposit shall be held by the state treasurer to satisfy, in accordance with the provisions of this part, any execution on a judgment issued against such person making the deposit, for damages, including damages for care and loss of services, because of bodily injury to

61-6-142. Duration of proof — when money or securities may be canceled or returned. (1) The department shall direct and the state treasurer shall return to the person entitled thereto any money or securities deposited pursuant to this part as proof of financial responsibility, or the department shall waive the requirement of filing proof under this part, in any of the following events:

(a) at any time after 3 years from the date such proof was required when during the 3-year period preceding the request the department has not received record of a conviction or a forfeiture of bail which would require or permit the suspension or revocation of the license or nonresident's operating privilege of the person by or for whom such proof was furnished;

(b) in the event of the death of the person on whose behalf such proof was filed or the permanent incapacity of such person to operate a motor vehicle; or

(c) in the event the person who has given proof surrenders his license to the department.

(2) However, the department shall not consent to the return of any money or securities in the event any action for damages upon a liability covered by such proof is then pending or any judgment upon any such liability is then unsatisfied, or in the event the person who has deposited such money or securities has, within 1 year immediately preceding such request, been involved as an operator or owner in any motor vehicle accident resulting in injury or damage to the person or property of others. An affidavit of the applicant as to the nonexistence of such facts, or that he has been released from all of his liability, or has been finally adjudicated not to be liable for such injury or damage, shall be sufficient evidence thereof in the absence of evidence to the contrary in the records of the department.

(3) Whenever any person whose proof has been canceled or returned under subsection (1)(c) of this section applies for a license within a period of 3 years from the date proof was originally

required, any such application shall be refused unless the applicant complies with the insurance or bond requirements under 61-6-301 and 61-6-302.

61-6-143. Self-insurers. (1) Any person in whose name more than 25 motor vehicles are registered may qualify as a self-insurer by obtaining a certificate of self-insurance issued by the department as provided in subsection (2) of this section.

(2) The department may, in its discretion, upon the application of such a person, issue a certificate of self-insurance when it is satisfied that such person is possessed and will continue to be possessed of ability to pay judgments obtained against such person.

(3) Upon not less than 5 days' notice and a hearing pursuant to such notice, the department may upon reasonable grounds cancel a certificate of self-insurance. Failure to pay any judgment within 30 days after such judgment shall have become final shall constitute a reasonable ground for the cancellation of a certificate of self-insurance.

When any such plan has been approved, all such insurance companies shall subscribe thereto and participate therein. Any applicant for any such policy, any person insured under any such plan, and any insurance company affected, may appeal to the commissioner of insurance from any ruling or decision of the manager or committee designated to operate such plan. Any person aggrieved hereunder by any order or act of the commissioner of insurance may, within 10 days after notice thereof, file a petition in the district court of Lewis and Clark County for a review thereof. 61-6-301. Required motor vehicle insurance — family member exclusion. (1) (a) Except as provided in subsection (1)(b), an owner of a motor vehicle that is registered and operated in Montana by the owner or with the owner's permission shall continuously provide insurance against loss resulting from liability imposed by law for bodily injury or death or damage to property suffered by any person caused by maintenance or use of a motor vehicle in an amount not less than that required by 61-6-103, or a certificate of self-insurance issued in accordance with 61-6-143.

(b) Notwithstanding the mandatory motor vehicle liability insurance protection provided for in subsection (1)(a), nothing in this part may be construed to prohibit the exclusion from insurance coverage of a named family member in a motor vehicle liability insurance policy.

(2) A motor vehicle owner who prefers to post an indemnity bond with the department in lieu of obtaining a policy of liability insurance may do so. The bond must guarantee that any loss resulting from liability imposed by law for bodily injury, death, or damage to property suffered by any person caused by accident and arising out of the operation, maintenance, and use of the motor vehicle sought to be registered must be paid within 30 days after final judgment is entered establishing the liability. The indemnity bond must guarantee payment in the amount provided for insurance under subsection (1).

(3) Any bond given in connection with this section is a continuing instrument and must cover the period for which the motor vehicle is to be registered and operated. The bond must be on a form approved by the commissioner of insurance and must be with a surety company authorized to do business in the state.

(4) It is unlawful for a person to operate a motor vehicle upon ways of this state open to the public as defined in 61-8-101 without a valid policy of liability insurance in effect in an amount not less than that required by 61-6-103 unless the person has been issued a certificate of self-insurance under 61-6-143, has posted an indemnity bond with the department as provided in this section, or is operating a vehicle exempt under 61-6-303.

(2) Each person shall carry in a motor vehicle being operated by the person an insurance card approved by the department but issued by the insurance carrier to the motor vehicle owner as proof of compliance with 61-6-301. A motor vehicle operator shall exhibit the insurance card upon demand of a justice of the peace, a city or municipal judge, a peace officer, a highway patrol officer, or a field deputy or inspector of the department. A person commits an offense under this subsection if the person fails to carry the insurance card in a motor vehicle or fails to exhibit the insurance card upon demand of a person specified in this subsection. (1) Conviction of a first offense under 61-6-301 or 61-6-302 is punishable by a fine of not less than $250 or more than $500 or by imprisonment in the county jail for not more than 10 days, or both. A second conviction is punishable by a fine of $350 or by imprisonment in the county jail for not more than 10 days, or both. A third or subsequent conviction is punishable by a fine of $500 or by imprisonment in the county jail for not more than 6 months, or both.

(2) Upon a second or subsequent conviction under 61-6-301 or 61-6-302, the sentencing court shall order the surrender of the vehicle registration receipt and license plates for the vehicle operated at the time of the offense if that vehicle was operated by the registered owner or a member of the registered owner's immediate family or by a person whose operation of that vehicle was authorized by the registered owner. The court shall report the surrender of the registration receipt and license plates to the department, which shall immediately suspend the vehicle's registration. The vehicle's registration status may not be reinstated until proof of compliance with 61-6-301 is furnished to the department, but if the vehicle is transferred to a new owner, the new owner is entitled to register the vehicle. The surrendered license plates must be recycled or destroyed by the court unless the court decides to retain the license plates for the owner until the registration suspension has been completed or the requirements for a restricted registration receipt have been met. Upon proof of compliance with 61-6-301 and payment of fees required under 61-3-333 for replacement license plates and registration decal and under 61-3-341 for a replacement registration receipt, during the period of 90 days from the date of a second conviction or 180 days from the date of a third or subsequent conviction, the department shall issue a restricted registration receipt to the offender. A restricted registration receipt limits the use of the motor vehicle operated at the time of the offense to use solely for employment purposes until the date indicated on the restricted registration receipt.

(3) Upon a fourth or subsequent conviction under 61-6-301 or 61-6-302, the court shall order the surrender of the driver's license of the offender, if the vehicle operated at the time of the offense was registered to the offender or a member of the offender's immediate family. The court shall send the driver's license, along with a copy of the complaint and the dispositional order, to the department, which shall immediately suspend the driver's license. The department may not reinstate a driver's license suspended under this subsection until the registered owner provides the department proof of compliance with 61-6-301 and the department determines that the registered owner is otherwise eligible for licensure.

(4) The court may suspend a required fine only upon a determination that the offender is or will be unable to pay the fine.

(5) A court may not defer imposition of penalties provided by this section.

(6) An offender is considered to have been previously convicted for the purposes of sentencing if less than 5 years have elapsed between the commission of the present offense and a previous conviction.

61-8-207. Traffic control signal legend. Except for lane use control signals and special pedestrian control signals carrying a legend, whenever traffic is controlled by traffic control signals exhibiting different colored lights or colored lighted arrows successively one at a time or in combination, only the colors green, red, and yellow may be used. The lights indicate and apply to drivers of vehicles and pedestrians as follows:

(1) (a) Vehicular traffic facing a circular green signal may proceed straight through or turn left or right unless a traffic control device at the place prohibits either turn. However, vehicular traffic, including vehicles turning right or left, must yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time the signal is exhibited.

(b) Vehicular traffic facing a green arrow signal shown alone or in combination with another indication may cautiously enter the intersection only to make either the movement indicated by the arrow or another movement that is permitted by another indication shown at the same time. Vehicular traffic making the movements permitted by this subsection (1)(b) must yield the right-of-way to pedestrians who are lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.

(c) Unless otherwise directed by a pedestrian control signal as provided in 61-8-208, a pedestrian facing a green signal, except when the only green signal is a turn arrow, may proceed in the direction of the green signal across the roadway within any marked or unmarked crosswalk. A driver of a vehicle shall yield the right-of-way to the pedestrian.

(2) (a) Vehicular traffic facing a steady circular yellow or yellow arrow signal is warned that the traffic movement permitted by the related green signal is being terminated or that a red signal will be exhibited immediately thereafter. Vehicular traffic may not enter the intersection when the red signal is exhibited after the yellow signal.

(b) Unless otherwise directed by a pedestrian control signal as provided in 61-8-208, a pedestrian facing a steady circular yellow or yellow arrow signal is advised that there is insufficient time to cross the roadway before a red indication is shown.

(3) (a) Vehicular traffic facing a steady circular red signal must stop at a marked stop line. If there is not a marked stop line, vehicular traffic must stop before entering the crosswalk on the near side of the intersection. If there is not a marked crosswalk, vehicular traffic must stop before entering the intersection and, except as provided in subsection (3)(c), must remain standing until an indication to proceed is shown.

(b) Vehicular traffic facing a steady red arrow signal may not enter the intersection to make the movement indicated by the arrow and must stop at a marked stop line unless the traffic is entering the intersection to make a movement indicated by another signal. If there is not a marked stop line, vehicular traffic must stop before entering the crosswalk on the near side of the intersection. If there is not a marked crosswalk, vehicular traffic must stop before entering the intersection and must remain standing until an indication is shown that permits movement.

(c) (i) Except when a traffic control device is in place that prohibits a turn, vehicular traffic facing a steady circular red signal may cautiously enter the intersection to turn right or to turn left from a one-way street onto another one-way street after stopping as required under subsection (3)(a). After stopping, the operator of a vehicle shall yield the right-of-way to any vehicle in the intersection or approaching the intersection close enough to constitute an immediate hazard during the time that the operator is moving within the intersection.

(ii) An operator of a vehicle entering an intersection as provided in subsection (3)(c)(i) shall yield the right-of-way to pedestrians within the intersection or within an adjacent crosswalk.

(d) Unless otherwise directed by a pedestrian control signal as provided in 61-8-208, a pedestrian facing a steady circular red or red arrow signal alone may not enter the roadway.

(4) (a) If an official traffic control signal is erected and maintained at a place other than an intersection, the provisions of this section are applicable except as to those provisions that by their very nature can have no application.

(b) A required stop must be made at a sign or marking on the pavement indicating where the stop must be made, but in the absence of any sign or marking, the stop must be made at the signal.

(1) A pedestrian facing a "Walk" signal or a walking person symbol may proceed across the roadway in the direction of the signal and the operators of all vehicles shall yield the right-of-way to the pedestrian.

(2) A pedestrian may not start to cross the roadway in the direction of a signal exhibiting a flashing or steady "Don't Walk" signal or upraised palm symbol, but a pedestrian who has partially completed crossing on the "Walk" signal or walking person symbol shall proceed to a sidewalk or safety island while the "Don't Walk" signal or upraised palm symbol is showing. An operator of a vehicle shall yield the right-of-way to a pedestrian who has partially completed crossing and is proceeding to the sidewalk or safety island.

61-8-209. Flashing signals. (1) Whenever an illuminated flashing red or yellow signal is used in a traffic control device, it requires obedience by vehicular traffic as follows:

(a) When a red lens is illuminated with rapid intermittent flashes, an operator of a vehicle shall stop at a marked stop line. If there is no marked stop line, an operator shall stop before entering the nearest crosswalk at an intersection. If there is no crosswalk, an operator shall stop at the point nearest the intersecting roadway where the operator has a view of approaching traffic. The right to proceed is subject to the rules applicable after making a stop at a stop sign, as provided in 61-8-344.

(b) When a yellow lens is illuminated with rapid intermittent flashes, the operator of a vehicle may proceed through the intersection or past the flashing yellow signal only with caution.

(2) This section does not apply at railroad grade crossings. Conduct of an operator of a vehicle approaching a railroad grade crossing is governed by the provisions of 61-8-347.

(2) A person may not place or maintain and a public authority may not permit commercial advertising on an official traffic control device on a highway, except for business signs included as a part of official motorist service panels or roadside area information panels approved by the department of transportation.

(1) An operator of a vehicle may drive in the lane over which a steady downward green arrow signal is located.

(2) An operator of a vehicle must be prepared to vacate, in a safe manner, the lane over which a steady yellow X signal is located because a lane control change is being made to a steady red X signal.

(3) An operator of a vehicle may not use the lane over which the steady red X signal is located.

(4) An operator of a vehicle may use a lane over which a steady white two-way left-turn arrow signal is located for a left turn but not for through travel. The operator must be aware that common use of the lane by oncoming vehicular traffic is also permitted.

61-8-309. Establishment of special speed zones. (1) (a) If the commission determines upon the basis of an engineering and traffic investigation that a speed limit set by 61-8-303 is greater or less than is reasonable or safe under the conditions found to exist at an intersection, curve, or dangerous location or on a segment of a highway less than 50 miles in length under its jurisdiction, the commission may set a reasonable and safe special speed limit at that location.

(b) If a local authority requests the department of transportation or an engineer, as provided in subsection (1)(c)(i), to conduct an engineering and traffic investigation based on the belief that a speed limit on a highway under the jurisdiction of the department of transportation is greater than is reasonable or safe, the commission may not increase the speed limit under consideration as a result of the investigation.

(c) (i) A local authority may request at its own expense that an engineering and traffic investigation be completed by a licensed professional engineer selected from a list compiled and approved by a committee as provided in subsection (1)(c)(ii).

(ii) A committee containing two department of transportation staff appointed by the director and two representatives of associations whose membership comprises cities, towns, and counties, as authorized by 7-5-2141 and 7-5-4141, shall review credentials submitted by licensed professional engineers and shall determine who appears on the list of individuals authorized to conduct engineering and traffic investigations for local governments. The list must be updated every 2 years.

(iii) Upon completion of an engineering and traffic investigation conducted for a local government, the department of transportation shall submit a report to the commission with findings and recommendations. The commission shall decide on an appropriate speed limit based on the traffic investigation within 120 days from the date the investigation is submitted to the department of transportation.

(d) A local authority may request a temporary special reduced or increased speed zone for a route or route segment that is under consideration for a reduced or increased speed limit under subsection (1)(a), (1)(b), or (1)(c). If a local authority makes multiple requests for temporary special reduced or increased speed zones, the local authority shall prioritize the requests. The department of transportation shall conduct a preliminary visual and engineering review of a route or a route segment for which a temporary special speed zone is requested. The reviewing party must include a representative of the local authority. Upon completion of the preliminary review, if the department of transportation concurs with the local authority that a temporary special reduced or increased speed limit is warranted, a temporary special reduced or increased speed zone may be established upon formal approval by the commission. The temporary special reduced or increased speed limit remains in effect until a complete traffic and engineering study has been done on the route or route segment and the commission has made a determination on changing the speed limit.

(2) The department of transportation shall erect and maintain appropriate signs giving notice of special limits. When the signs are erected, the limits are effective for those zones at all times or at other times that the commission sets.

(3) The authority of the commission under this section includes the authority to set reduced nighttime speed limits on curves and other dangerous locations.

(4) This section does not authorize the commission to set a statewide speed limit.

61-8-310. When local authorities may and shall alter limits. (1) If a local authority in its jurisdiction determines on the basis of an engineering and traffic investigation that the speed permitted under 61-8-303 and 61-8-309 through 61-8-313 is greater or less than is reasonable and safe under the conditions found to exist upon a highway or part of a highway, the local authority may set a reasonable and safe limit that:

(a) decreases the limit at an intersection;

(b) increases the limit within an urban district, but not to more than 65 miles an hour during the nighttime;

(c) decreases the limit outside an urban district, but not to less than 35 miles an hour; or

(d) decreases the limit in an area near a school, a senior citizen center, as defined in 23-5-112, or a designated crosswalk that is close to a school or a senior citizen center to not less than 80%, rounded down to the nearest whole number evenly divisible by 5, of the limit that would be set on the basis of an engineering and traffic investigation, but not less than 15 miles an hour. If warranted by an engineering and traffic investigation, a local authority may adopt variable speed limits to adapt to traffic conditions by time of day, provided that the variable limits comply with the provisions of 61-8-206.

(2) A board of county commissioners may set limits, as provided in subsection (1)(c), without an engineering and traffic investigation on a county road.

(3) A local authority in its jurisdiction may determine the proper speed for all arterial streets and shall set a reasonable and safe limit on arterial streets that may be greater or less than the speed permitted under 61-8-303 for an urban district.

(4) An altered limit established as authorized under this section is effective at all times or at other times determined by the authority when appropriate signs giving notice of the altered limit are erected upon the highway.

(5) Except as provided in subsection (1)(d), the commission has exclusive jurisdiction to set special speed limits on all federal-aid highways or extensions of federal-aid highways in all municipalities or urban areas. The commission shall set these limits in accordance with 61-8-309.

61-8-311. Minimum speed regulations. (1) A person may not drive a motor vehicle at a speed slow enough to impede or block the normal and reasonable movement of traffic except when reduced speed is necessary for safe operation or in compliance with law.

(2) On a two-lane highway where passing is unsafe because of oncoming traffic or other conditions, the operator of a slow-moving vehicle behind which four or more vehicles are formed in line shall turn off the roadway at the nearest area where a sufficient and safe turnout exists in order to permit the vehicles following it to proceed. If the shoulder of the highway to the right of the slow-moving vehicle is wide enough and is in a condition allowing safe travel, the operator of the slow-moving vehicle may drive onto the shoulder and proceed at a safe speed until passed. As used in this section, a slow-moving vehicle is one that is proceeding at a rate of speed less than the normal flow of traffic at the particular time and place. The department of transportation is authorized to designate and construct turnouts and to erect official traffic control devices at appropriate places advising motorists of this statute.

(3) If the department of transportation or local authorities within their respective jurisdictions determine on the basis of an engineering and traffic investigation that slow speeds on any part of a highway impede the normal and reasonable movement of traffic, the commission or the local authority may set a minimum speed limit below which a person may not operate a vehicle except when necessary for safe operation or in compliance with law.

(a) a federal-aid interstate highway is 65 miles an hour; and

(b) any other public highway is 60 miles an hour during the daytime and 55 miles an hour during the nighttime as those terms are defined in 61-8-303.

(2) Except as provided in 61-8-303, 61-8-309, and 61-8-310, the speed limit for a vehicle subject to a term permit under 61-10-124(2)(d) or a truck-trailer-trailer or truck tractor-semitrailer-trailer-trailer combination of vehicles subject to special permits under 61-10-124(4) is 55 miles an hour unless otherwise stated in the permit.

(3) A person may not operate a motor-driven cycle at any time mentioned in 61-9-201 at a speed greater than 35 miles an hour unless the motor-driven cycle is equipped with a headlamp or lamps that are adequate to reveal a person or vehicle at a distance of 300 feet ahead.

(2) A person may not drive a vehicle over a bridge or other elevated structure constituting a part of a highway at a speed which is greater than the maximum speed which can be maintained with safety to the bridge or structure when the structure is signposted as provided in this section.

(3) The department of transportation upon request from a local authority may, or upon its own initiative shall, conduct an investigation of a bridge or other elevated structure constituting a part of a highway, and if it finds on investigation that the structure cannot safely withstand

vehicles traveling at the speed otherwise permissible under this chapter, the commission shall set the maximum speed of vehicles which the structure can withstand, and the department shall erect and maintain suitable signs stating the maximum speed at a distance of not less than 100 feet before each end of the structure.

(4) Upon the trial of a person charged with a violation of this section, proof of the setting of the maximum speed by the commission and the existence of the signs is conclusive evidence of the maximum speed which can be maintained with safety to the bridge or structure.

61-8-314. Traffic violations in construction zone and work zone — definitions. (1) As used in this section, the following definitions apply:

(a) "Construction zone" means an area on a public highway or on the adjacent right-of-way where construction, repair, maintenance, or survey work is being performed by the department of transportation, a local authority, a utility company, or a private contractor under contract with the department of transportation or a local authority. A construction zone may include a work zone.

(b) "Public highway" has the same meaning as in 60-1-103.

(c) "Work zone" means the area where the construction, repair, maintenance, or survey work is actually taking place. The boundaries of the work zone must be clearly identified by the posting of signs.

(2) A person may not operate a motor vehicle in a construction zone or in a work zone on a public highway in violation of any of the provisions of part 3 of this chapter.

(3) The speed limit in a construction zone or in a work zone must be set by the department of transportation or the local authority based on traffic conditions or the condition of the construction, repair, maintenance, or survey project.

(4) (a) If the department of transportation, the local authority, the utility company, or the private contractor determines, based on traffic conditions or the condition of the construction, repair, maintenance, or survey project, that special speed limits in work zones or construction zones are warranted, then the department, the local authority, the utility company, or the private contractor shall post signs that:

(i) conform to the department of transportation's manual on uniform traffic control devices;

(ii) indicate the boundaries of the construction zone and the work zone; and

(iii) display the speed limit in effect within both zones.

(b) The department of transportation, the local authority, the utility company, or the private contractor shall clearly indicate at the boundary of a construction zone that a person who violates any of the provisions of part 3 of this chapter in the work zone is subject to the fine provided in subsection (5)(a).

(c) The boundaries of the work zone may not exceed 500 feet in advance of and beyond the actual construction activity.

(d) The department of transportation, the local authority, the utility company, or the private contractor shall remove or cover the signs when no work is in progress and no hazard exists.

(5) (a) A person convicted of a traffic violation in a work zone is guilty of a misdemeanor. Upon arrest and conviction, the person shall be punished by a fine of not less than double the penalty provided for the violation in part 7 of this chapter.

(b) A person convicted of a traffic violation in a construction zone is guilty of a misdemeanor. Upon arrest and conviction, the person is subject to the penalty provided for the violation in part 7 of this chapter.

(2) (a) Except as provided in subsection (2)(b), a person convicted of or pleading guilty or nolo contendere to an offense under subsection (1) shall be imprisoned for a term not to exceed 1 year or fined an amount not to exceed $2,000, or both.

(b) A person convicted of an offense of fleeing from or eluding a peace officer during which the person causes serious bodily injury to or the death of any other person shall be imprisoned for a term not to exceed 10 years or fined an amount not to exceed $10,000, or both.

(a) when overtaking and passing another vehicle proceeding in the same direction under the rules governing the passing movement;

(b) when the right half of a roadway is closed to traffic while under construction or repair;

(c) upon a roadway divided into three marked lanes for traffic under the rules applicable on a divided roadway;

(d) upon a roadway designated by official traffic control devices for one-way traffic;

(e) when the operator of a vehicle is complying with the provisions of 61-8-346; or

(f) when an obstruction exists that makes it necessary to drive to the left of the center of the roadway.

(2) A person operating a vehicle to the left of the center of the roadway for any of the reasons provided in subsection (1) shall yield the right-of-way to all vehicles traveling in the proper direction upon the unobstructed portion of the roadway that are within a distance that constitutes an immediate hazard.

(3) A vehicle proceeding at less than the normal speed of traffic at the time and place and under the conditions then existing must be operated in the right-hand lane then available for traffic, or as close as practicable to the right-hand curb or edge of the roadway except when overtaking and passing another vehicle proceeding in the same direction or when preparing for a left turn at an intersection or into a private road or driveway.

61-8-323. Overtaking vehicle on left. The following rules govern the overtaking and passing of vehicles proceeding in the same direction, subject to the limitations, exceptions, and special rules provided in this chapter:

(1) The operator of a vehicle overtaking another vehicle proceeding in the same direction shall pass to the left of the other vehicle at a safe distance and may not again drive to the right side of the roadway until safely clear of the overtaken vehicle.

(2) Except when overtaking and passing on the right is permitted, the operator of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle upon an audible signal or the use of signal lamps, as provided in 61-9-218, and may not increase the speed of the vehicle until completely passed by the overtaking vehicle. When giving way to the right on a two-lane highway, the operator of the vehicle being overtaken may travel upon the shoulder at a safe speed until passed if the shoulder is wide enough and is in a condition allowing safe travel.

61-8-324. Overtaking vehicle on right. (1) The operator of a vehicle may overtake and pass upon the right of another vehicle only under the following conditions:

(a) when the vehicle overtaken is making or about to make a left turn; or

(b) upon a roadway with unobstructed pavement of sufficient width for two or more lanes of vehicles moving lawfully in the direction being traveled by the overtaking vehicle.

(2) The operator of a vehicle may overtake and pass another vehicle upon the right only under conditions permitting safe movement. The movement may not be made by driving off the pavement or main-traveled portion of the roadway.

61-8-325. Limitations on overtaking on the left. (1) A vehicle may not be driven to the left side of the center of the roadway in overtaking and passing another vehicle proceeding in the same direction unless the left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit the overtaking and passing to be completely made without interfering with the safe operation of any vehicle approaching from the opposite direction or any vehicle overtaken.

(2) A vehicle may not be driven to the left side of the roadway under the following conditions:

(a) when approaching the crest of a grade or upon a curve in the highway where the driver's view is obstructed within a distance that creates a hazard in the event that another vehicle might approach from the opposite direction;

(b) when approaching within 100 feet of or traversing any intersection or railroad grade crossing, unless otherwise indicated by an official traffic control device; or

(c) when the view is obstructed upon approaching within 100 feet of any bridge, viaduct, or tunnel.

(3) The limitations provided in this section do not apply upon a one-way roadway.

61-8-326. No-passing zones. (1) The department of transportation and local authorities may determine those portions of a highway in their respective jurisdictions where overtaking and passing or driving to the left of the center of the roadway would be especially hazardous, and they may by official traffic control devices on the highway indicate the beginning and end of these zones. When the official traffic control devices are in place and clearly visible to an ordinarily observant person, an operator of a vehicle shall obey the directions of those devices.

(2) Where official traffic control devices are in place to define a no-passing zone as set forth in subsection (1) an operator of a vehicle may not drive on the left side of the roadway within the

no-passing zone or on the left side of a pavement striping designed to mark the no-passing zone throughout its length.

(3) The provisions of this section do not apply under the conditions provided in 61-8-321(1) or to the operator of a vehicle that is turning left into or from an alley, private road, or driveway.

(1) The department of transportation or a local authority may designate a highway, roadway, part of a roadway, or specific lanes under its respective jurisdiction for one-way traffic and shall erect official traffic control devices giving notice of that designation.

(2) Upon a roadway designated by official traffic control devices for one-way traffic a vehicle may be driven only in the direction designated.

(3) A vehicle passing around a rotary traffic island or a roundabout may be driven only to the right of the island or the center of the roundabout.

(4) For the purposes of this section, a "roundabout" is a circular intersection where all entering traffic must yield to the vehicles within the intersection.

61-8-328. Driving on roadways laned for traffic. Whenever a roadway has been divided into two or more clearly marked lanes for traffic, the following rules, in addition to all other consistent rules, apply:

(1) A vehicle must be operated as nearly as practicable entirely within a single lane and may not be moved from the lane until the operator has first ascertained that the movement can be made with safety.

(2) Upon a roadway that is divided into three lanes and that provides for two-way movement of traffic, a vehicle may not be operated in the center lane except:

(a) when overtaking and passing another vehicle traveling in the same direction where passing is allowed and where the center lane is clear of traffic within a safe distance; or

(b) when the center lane is at the time allocated exclusively to traffic moving in the direction that the vehicle is proceeding and the allocation is designated by official traffic control devices.

(3) Official traffic control devices may be erected directing specified traffic to use a designated lane or designating those lanes to be used by traffic moving in a particular direction regardless of the center of the roadway. Operators of vehicles shall obey the directions of every official traffic control device that designates use of specific lanes.

(4) A person may turn a vehicle left across a lane marked with two yellow lines into a public or private parking lot, private road, private driveway, or roadway if the turn can be made safely and if the person does not hinder the flow of oncoming traffic.

(5) Official traffic control devices may be installed that prohibit the changing of lanes on sections of a roadway, and operators of vehicles shall obey the directions of those devices.

(6) A motor vehicle may not be driven or parked in a bicycle lane that is signed and delineated as a bicycle lane by official traffic control devices.

(a) operate a vehicle over, upon, or across a curb, central dividing section, or other separation or dividing line;

(b) make a left turn or a semicircular or U-turn except through an opening provided for that purpose in the dividing curb, section, separation, or line if travel through the opening is not prohibited by an official traffic control device;

(c) operate a vehicle except in the proper lane, in the proper direction, and to the right of the central dividing curb, separation, section, or line;

(d) operate a vehicle from a local service road except through an opening provided for that purpose in the dividing curb, section, or line that separates the service road from the highway or facility;

(1) The department of transportation may by rule and local authorities may by ordinance regulate or prohibit the use of a controlled-access highway under their respective jurisdictions by any class or kind of traffic that is found to be incompatible with the normal and safe movement of traffic or by any vehicle.

(2) The department or the local authority that adopts the prohibitory regulation shall erect and maintain official traffic control devices on the controlled-access highway on which these regulations are applicable. 61-8-333. Required position and method of turning at intersections. (1) The operator of a vehicle intending to turn at an intersection shall do so as follows:

(a) Both the approach for a right turn and a right turn must be made as close as practicable to the right-hand curb or edge of the roadway.

(b) At an intersection where traffic is permitted to move in both directions on each roadway entering the intersection, an approach for a left turn must be made in that portion of the right half of the roadway nearest the center line of the roadway and by passing to the right of the center line where it enters the intersection. After entering the intersection, the left turn must be made so as to leave the intersection to the right of the center line of the roadway being entered. Whenever practicable the left turn must be made in that portion of the intersection to the left of the center of the intersection.

(c) At an intersection where traffic is restricted to one direction on one or more of the roadways, the operator of a vehicle intending to turn left shall approach the intersection in the extreme left-hand lane lawfully available to traffic moving in the direction of travel of the vehicle. After entering the intersection, the left turn must be made so as to leave the intersection, as nearly as practicable, in the left-hand lane lawfully available to traffic moving in the direction upon the roadway being entered.

(d) A person making a turn under subsection (1)(a), (1)(b), or (1)(c) is entitled to the full use of the lane from which the turn may be legally made.

(2) (a) A person operating a bicycle who intends to turn left shall follow the course described in subsection (1) or in subsection (2)(b).

(b) A person operating a bicycle who intends to turn left shall approach the turn as close as practicable to the right curb or edge of the roadway. After proceeding across the intersecting roadway, the person shall make the turn as close as practicable to the curb or edge of the roadway on the far right side of the intersection. After turning, the person shall yield to through traffic and shall comply with any official traffic control device or police officer regulating traffic on the highway along which the person intends to proceed.

(3) Local authorities in their respective jurisdictions may place official traffic control devices within or adjacent to intersections, directing that a different course from that specified in this section be traveled by vehicles turning at an intersection. Where official traffic control devices that direct a different course are placed, the operator of a vehicle may not turn the vehicle other than as directed by the official traffic control devices.

(4) Where a special lane has been indicated by official traffic control devices allowing operators of vehicles proceeding in opposite directions to make left turns:

(a) a left turn may not be made from any other lane; and

(b) a vehicle may not be operated in the lane except when making a left turn from or onto the roadway or when making a U-turn when that movement is permitted by law.

(1) A person may not turn a vehicle at an intersection unless the vehicle is in proper position upon the roadway as required by 61-8-333 or turn a vehicle to enter a private road or driveway or otherwise turn a vehicle from a direct course or move right or left upon a roadway unless the movement can be made with reasonable safety and until an appropriate signal has been given. A person may not turn a vehicle without giving an appropriate signal in the manner provided in this section.

(2) A signal of intention to turn right or left, other than when passing, must be given continuously during not less than the last 100 feet traveled by the vehicle before turning in any business district, residence district, or urban district.

(3) A signal of intention to turn right or left, other than when passing, must be given continuously during not less than the last 300 feet traveled by the vehicle before turning in areas other than those set forth in subsection (2).

(4) A person may not stop or suddenly decrease the speed of a vehicle without first giving an appropriate signal to the operator of a vehicle immediately to the rear when there is opportunity to give the signal.

(2) Any motor vehicle in use on a highway shall be equipped with and required signal shall be given by a signal lamp or lamps when the distance from the center of the top of the steering post to the left outside limit of the body, cab, or load of such motor vehicle exceeds 24 inches or when the distance from the center of the top of the steering post to the rear limit of the body or load thereof exceeds 14 feet. The latter measurement shall apply to any single vehicle, also to any combination of vehicles.

61-8-338. Method of giving hand-and-arm signals. (1) Except as provided in subsection (2), all signals required in this part that are given by hand and arm must be given from the left side of the vehicle by the operator of the vehicle in the following manner:

(a) For a left turn, the operator's hand and arm must be extended horizontally.

(b) For a right turn, the operator's hand and forearm must be extended upward.

(c) For a stop or a decrease in speed, the operator's hand and arm must be extended downward.

61-8-339. Vehicle approaching or entering intersection. (1) When two or more vehicles enter or approach an intersection from different highways, the driver of the vehicle on the left shall yield the right-of-way to all vehicles approaching from the right that are close enough to constitute an immediate hazard.

(2) The right-of-way rule declared in subsection (1) is modified at through highways and otherwise as stated in this chapter.

The operator of a vehicle within an intersection intending to turn to the left shall yield the right-of-way to any vehicle approaching from the opposite direction that is within the intersection or close enough to the intersection to constitute an immediate hazard. Once the operator has yielded and provided the operator is giving a signal when and as required by this chapter, the operator may make the left turn and the operators of all other vehicles approaching the intersection from the opposite direction shall yield the right-of-way to the vehicle making the left turn. Once the operator has yielded, the operator may proceed and the operators of all other vehicles approaching the intersection on the through highway shall yield the right-of-way to the vehicle proceeding into or across the through highway.

(2) As used in this section, "through highway" means a highway or portion of a highway at the entrances to which vehicular traffic from intersecting highways is required by law to stop before entering or crossing and when stop signs are erected as provided in this chapter.

61-8-342. Vehicles approaching "Yield" sign. An operator of a vehicle approaching a "Yield" sign is subject to the following provisions:

(1) The operator shall slow to a speed that is reasonable for existing conditions and, if required for safety, shall stop before entering the intersection.

(2) After slowing or stopping, the operator shall yield the right-of-way to any vehicle in the intersection or approaching on another roadway close enough to constitute an immediate hazard during the time that the operator is moving across or within the intersection or junction of roadways.

(3) An operator of a vehicle shall yield the right-of-way to pedestrians within crosswalks at the intersection.

(4) If an operator of a vehicle, after having driven past a "Yield" sign, is involved in a collision with another vehicle at an intersection or junction of roadways or with a pedestrian in an adjacent crosswalk, the collision is considered prima facie evidence of the operator's failure to yield right-of-way.

61-8-346. Operation of vehicles on approach of authorized emergency vehicles or police vehicles — approaching stationary emergency vehicles or police vehicles. (1) Upon the immediate approach of an authorized emergency vehicle making use of audible and visual signals meeting the requirements of 61-9-402 or of a police vehicle properly and lawfully making use of an audible signal only, the operator of every other vehicle shall yield the right-of-way and shall immediately drive to a position parallel to, and as close as possible to, the right-hand edge or curb of the roadway clear of any intersection and shall stop and remain in that position until the authorized emergency vehicle or police vehicle has passed, except when otherwise directed by a police officer or highway patrol officer.

(2) This section does not relieve the driver of an authorized emergency vehicle or police vehicle from the duty to drive with due regard for the safety of all persons using the highway.

(3) Except as provided in subsection (4), upon approaching a stationary authorized emergency vehicle or police vehicle that is displaying visible signals of flashing or rotating amber, blue, red, or green lights, the operator of the approaching vehicle shall:

(a) reduce the vehicle's speed, proceed with caution, and, if possible considering safety and traffic conditions, move to a lane that is not adjacent to the lane in which the authorized emergency vehicle or police vehicle is located or move as far away from the authorized emergency vehicle or police vehicle as possible; or

(b) if changing lanes is not possible or is determined to be unsafe, reduce the vehicle's speed, proceed with caution, and maintain a reduced speed, appropriate to the road and the conditions, through the area where the authorized emergency vehicle or police vehicle is stopped.

(4) Upon approaching a stationary authorized emergency vehicle or police vehicle that is displaying visible signals of flashing or rotating amber, blue, red, or green lights on a public highway with a posted speed limit of 50 miles per hour or greater when driving in a lane that is directly next to the emergency vehicle or police vehicle, the operator of the approaching vehicle shall reduce the vehicle's speed by at least 20 miles per hour below the posted speed limit.

61-8-347. Obedience to signal indicating approach of train. (1) When a person operating a vehicle approaches a railroad crossing under any of the circumstances stated in this section, the operator of the vehicle shall stop as close as practicable but not less than 15 feet from the nearest rail of the railroad and may not proceed until the operator can do so safely. These requirements apply when:

(a) a clearly visible electric or mechanical signal device gives warning of the presence or immediate approach of a railroad train;

(b) a crossing gate is lowered or when a flag person gives a signal of the approach or passage of a railroad train;

(c) a railroad train approaching within approximately 1,500 feet of the crossing emits a signal audible from that distance, except at crossings within quiet zones established under 69-14-620, indicating that the train is an immediate hazard because of its speed or nearness to the crossing; or

(d) an approaching railroad train is plainly visible and is in hazardous proximity to the crossing.

(2) A person may not operate a vehicle through, around, or under any crossing gate or barrier at a railroad grade crossing while the gate or barrier is closed or is being opened or closed.

61-8-348. All vehicles to stop at certain railroad grade crossings. (1) The department of transportation and local authorities in their respective jurisdictions may designate particularly dangerous highway grade crossings of railroads and erect stop signs at these crossings. Where these stop signs are erected, the operator of a vehicle shall stop as close as practicable but not less than 15 feet from the nearest rail of the railroad and may proceed only upon exercising due care.

(2) The operator of a vehicle upon a highway outside of the limits of an incorporated city or town who is approaching a highway grade crossing where a flag person or a mechanical device is not in place or maintained to warn the public of approaching trains shall, before crossing the railroad tracks, stop the vehicle as close as practicable but not less than 15 feet from the nearest rail if:

(a) a curve in the tracks or vegetation or some other feature or characteristic obscures the view of approaching trains; or

(b) a moving train is within sight or hearing.

(1) (a) Except as provided in subsection (1)(b), the driver of a motor vehicle carrying seven or more passengers for hire, a school bus with or without passengers, or a vehicle carrying explosive substances or flammable liquids as a cargo or part of a cargo, before crossing at grade any track or tracks of a railroad, shall stop the vehicle as close as practicable but not less than 15 feet from the nearest rail of the railroad and while stopped shall open the door (in the case of a school bus) and shall listen and look in both directions along the track for an approaching train and for signals indicating the approach of a train and may not proceed until the driver can do so safely. After stopping as required in this section and upon proceeding when it is safe to do so, the operator of a vehicle may cross only in a gear of the vehicle that requires no changing gears while traversing the crossing. The operator may not shift gears while crossing the track or tracks.

(b) A stop is not required at a crossing where a police officer, highway patrol officer, or official traffic control device directs traffic to proceed.

(2) As used in this section, "official traffic control device" does not include a railroad grade crossing signal.

61-8-350. Moving heavy equipment at railroad grade crossings. (1) A person shall comply with the provisions of this section before operating or moving upon or across the tracks at a railroad grade crossing any crawler-type tractor, steam shovel, derrick, roller, or any equipment or structure that has:

(a) a normal operating speed of 10 or less miles an hour; or

(b) a vertical body or load clearance measured above the surface of the roadway of:

(i) less than one-half inch for each foot of the distance between any two adjacent axles; or

(ii) at least 9 inches.

(2) Notice of an intended crossing must be given to a representative of the railroad and reasonable time must be given to the railroad to provide proper protection at the crossing.

(3) Before making a crossing, the person operating or moving the vehicle or equipment shall first stop the vehicle or equipment as close as practicable but not less than 15 feet from the nearest rail of the railroad and while stopped shall listen and look in both directions along the track for any approaching train and for signals indicating the approach of a train. The person may not proceed until the crossing can be made safely.

(4) A crossing may not be made when warning is given by automatic signal, crossing gates, a flag person, or other official traffic control device of the immediate approach of a railroad train or car. If a flag person is provided by the railroad, movement over the crossing must be under the flag person's direction.

61-8-351. Meeting or passing school bus — vehicle operator liability for violation — penalty. (1) Upon overtaking from either direction a school bus that has stopped on the highway or street to receive or discharge school children, a driver of a motor vehicle:

(a) shall stop the motor vehicle not less than approximately 15 feet before reaching the school bus when there is in operation on the bus a visual flashing red signal as specified in 61-9-402; and

(b) may not proceed until the children have entered the school bus or have alighted and reached the side of the highway or street and until the school bus ceases operation of its visual flashing red signal.

(2) The driver of a motor vehicle shall slow to a rate of speed that is reasonable under the conditions existing at the point of operation and must be prepared to stop when meeting or overtaking from either direction a school bus that is preparing to stop on the highway or street to receive or discharge school children as indicated by flashing amber lights as specified in 61-9-402.

(3) Each bus used for the transportation of school children must bear upon the front and rear plainly visible signs containing the words "SCHOOL BUS" in letters not less than 8 inches in height and, in addition, must be equipped with visual signals meeting the requirements of 61-9-402. Amber flashing lights must be actuated by the driver approximately 150 feet in cities and approximately 500 feet in other areas before the bus is stopped to receive or discharge school children on the highway or street. Red lights must be actuated by the driver of the school bus whenever but only whenever the school bus is stopped on the highway or street whether inside or outside the corporate limits of any city or town to receive or discharge school children. However, a school district board of trustees may, in its discretion, adopt a policy prohibiting the operation of amber or red lights when a school bus is stopped at the school site to receive or discharge school children and the receipt or discharge does not involve street crossing by the children. The lights may not be operated in violation of that policy.

(4) The requirements that a driver of a motor vehicle shall stop when a school bus receives or discharges school children under subsection (1) and the requirements that amber and red lights must be actuated by a school bus driver under subsection (3) do not apply when a school bus receives or discharges school children in a designated school bus pullout on a state highway. A designated school bus pullout must meet the following requirements:

(a) The pullout must be located on a roadway separated by a physical barrier, such as a guardrail, raised median, drainage ditch, or irrigation ditch.

(b) The separate roadway must be designed, constructed, and signed specifically for use by school buses, with sufficient space for safe ingress and egress from the main traveled way.

(c) The pullout must be approved by the local affected school district, by a resolution of the district trustees, and by the district superintendent as a mandatory school bus stop for receiving and discharging school children.

(5) When a school bus is being operated upon a highway for purposes other than the actual transportation of children either to or from school or for school functions, all markings on the bus indicating "SCHOOL BUS" must be covered or concealed.

(6) The driver of a motor vehicle upon a highway with separate roadways need not stop upon meeting or passing a school bus that is on a different roadway or when upon a controlled-access highway and the school bus is stopped in a loading zone that is a part of or adjacent to the highway and where pedestrians are not permitted to cross the roadway.

(7) (a) A person who observes a violation of this section may prepare a written, in addition to an oral, report indicating that a violation has occurred. The report may contain information concerning the violation, including:

(i) the time and approximate location at which the violation occurred;

(ii) the license plate number and color of the motor vehicle involved in the violation;

(iii) identification of the motor vehicle as a passenger car, truck, bus, motorcycle, or other type of motor vehicle; and

(iv) a description of the person operating the motor vehicle when the violation occurred.

(b) A report under subsection (7)(a) constitutes particularized suspicion under 46-5-401(1) that an operator of the vehicle committed a violation of this section.

(8) Violation of subsection (1) is punishable upon conviction by a fine of not more than $500.

(1) Except as otherwise provided in this section, a vehicle that is stopped or parked upon a two-way roadway must be stopped or parked with the right-hand wheels of the vehicle parallel to and within 18 inches of the right-hand curb or as close as practicable to the right edge of the right-hand shoulder.

(2) Except when otherwise provided by the authority having jurisdiction, a vehicle that is stopped or parked upon a one-way roadway must be stopped or parked parallel to the curb or edge of the roadway in the direction of authorized traffic movement, with its right-hand wheels within 18 inches of the right-hand curb or as close as practicable to the right edge of the right-hand shoulder or with its left-hand wheels within 18 inches of the left-hand curb or as close as practicable to the left edge of the left-hand shoulder.

(3) A local authority may by ordinance permit angle parking on a roadway, except that angle parking may not be permitted on any federal-aid or state highway unless the department of transportation determines that the roadway is of sufficient width to permit angle parking without interfering with the free movement of traffic.

(4) The authority having jurisdiction may place official traffic control devices prohibiting or restricting the stopping, standing, or parking of vehicles on a highway where in its judgment this stopping, standing, or parking is dangerous to those using the highway or where the stopping, standing, or parking of vehicles would unduly interfere with the free movement of traffic.

(2) The abandonment of a vehicle, other than a bicycle, on a public highway, a city street, public property, or private property creates a prima facie presumption that the last-registered owner of the vehicle is responsible for the abandonment and is liable for the costs incurred in removing, storing, and disposing of the abandoned vehicle, less the amount realized if the vehicle is sold.

(3) The filing of a theft report with a law enforcement agency prior to the abandonment relieves the last-registered owner of liability under subsection (2).

(b) the motorcycle or quadricycle is being driven to the nearest repair facility for headlamp repair.

(6) No more than two motorcycles may be operated side by side in a single traffic lane.

(7) All motor vehicles, including motorcycles and quadricycles, are entitled to the full use of a traffic lane, and a vehicle may not be driven or operated in a manner that deprives any other vehicle of the full use of a traffic lane, except that motorcycles may, with the consent of both drivers, be operated no more than two abreast in a single traffic lane.

(8) Every person riding a motorcycle or quadricycle upon a roadway is granted all of the rights and is subject to all of the duties applicable to the driver of a motor vehicle except for those provisions which, by their nature, can have no application.

(2) After a funeral lead vehicle enters an intersection, the other vehicles in the funeral procession may continue to follow the funeral lead vehicle through the intersection despite any official traffic control device, right-of-way provisions of this chapter, or local ordinance if the operator exercises reasonable care toward any other vehicle or pedestrian. When the funeral lead vehicle arrives at an intersection, it must comply with the requirements of any official traffic control device, right-of-way provision of this chapter, and local ordinance.

(3) Except as provided in subsection (4), a driver of a funeral escort vehicle may direct the drivers of other vehicles in a funeral procession to proceed through an intersection or to make turns or other movements despite any official traffic control device. (3) The driver of a motor vehicle in a funeral procession may not drive the vehicle at a speed greater than:

(a) 55 miles per hour on a highway where the posted speed limit is 55 miles per hour or more; or

(b) 5 miles per hour below the posted speed limit on other streets or roads.

(1) drive between the vehicles forming a funeral procession while they are in motion except when:

(a) authorized to do so by a police officer; or

(b) driving an authorized emergency vehicle emitting an audible or visible signal;

(2) join a funeral procession to secure the right-of-way granted by 61-8-380;

(3) pass a funeral procession on a multiple-lane highway on the funeral procession's right side unless the funeral procession is in the farthest left lane;

(4) enter an intersection, even if the driver is facing a green traffic control signal, when a funeral procession being conducted in compliance with 61-8-379 through 61-8-384 is proceeding through a red traffic control signal at that intersection as permitted by 61-8-380 unless the driver can do so without crossing the path of the funeral procession. If the red signal changes to green while the funeral procession is within the intersection, the driver of a vehicle facing a green signal may proceed subject to the right-of-way of a vehicle participating in a funeral procession.

61-8-384. Liability. The operator of a vehicle in a funeral procession, including a funeral lead vehicle or a funeral escort vehicle, is not negligent if the person operates the vehicle in accordance with the requirements of 61-8-379 through 61-8-384. When no negligence exists on the part of the operator of a vehicle in a funeral procession, none may be imputed to the funeral director or mortician organizing the procession, to the agent of the funeral director or mortician, or to a member of a local law enforcement agency acting as the agent, with or without compensation, of the funeral director or mortician.

Driving Under Influence of Alcohol or Drugs

61-8-401. Driving under influence of alcohol or drugs — definitions. (1) It is unlawful and punishable, as provided in 61-8-442, 61-8-714, and 61-8-731 through 61-8-734, for a person who is under the influence of:

(a) alcohol to drive or be in actual physical control of a vehicle upon the ways of this state open to the public;

(b) a dangerous drug to drive or be in actual physical control of a vehicle within this state;

(c) any other drug to drive or be in actual physical control of a vehicle within this state; or

(d) alcohol and any dangerous or other drug to drive or be in actual physical control of a vehicle within this state.

(2) The fact that any person charged with a violation of subsection (1) is or has been entitled to use alcohol or a drug under the laws of this state does not constitute a defense against any charge of violating subsection (1).

(3) (a) "Under the influence" means that as a result of taking into the body alcohol, drugs, or any combination of alcohol and drugs, a person's ability to safely operate a vehicle has been diminished.

(b) Subject to 61-8-440, as used in this part, "vehicle" has the meaning provided in 61-1-101, except that the term does not include a bicycle.

(4) Upon the trial of any civil or criminal action or proceeding arising out of acts alleged to have been committed by any person driving or in actual physical control of a vehicle while under the influence of alcohol, the concentration of alcohol in the person at the time of a test, as shown by analysis of a sample of the person's blood or breath drawn or taken within a reasonable time after the alleged act, gives rise to the following inferences:

(a) If there was at that time an alcohol concentration of 0.04 or less, it may be inferred that the person was not under the influence of alcohol.

(b) If there was at that time an alcohol concentration in excess of 0.04 but less than 0.08, that fact may not give rise to any inference that the person was or was not under the influence of alcohol, but the fact may be considered with other competent evidence in determining the guilt or innocence of the person.

(c) If there was at that time an alcohol concentration of 0.08 or more, it may be inferred that the person was under the influence of alcohol. The inference is rebuttable.

(5) The provisions of subsection (4) do not limit the introduction of any other competent evidence bearing upon the issue of whether the person was under the influence of alcohol, drugs, or a combination of alcohol and drugs.

(6) Each municipality in this state is given authority to enact 61-8-406, 61-8-408, 61-8-410, 61-8-714, 61-8-722, 61-8-731 through 61-8-734, and subsections (1) through (5) of this section, with the word "state" in 61-8-406 and subsection (1) of this section changed to read "municipality", as an ordinance and is given jurisdiction of the enforcement of the ordinance and of the imposition of the fines and penalties provided in the ordinance.

(7) Absolute liability as provided in 45-2-104 will be imposed for a violation of this section.

61-8-402. Blood or breath tests for alcohol, drugs, or both. (1) A person who operates or is in actual physical control of a vehicle upon ways of this state open to the public is considered to have given consent to a test or tests of the person's blood or breath for the purpose of determining any measured amount or detected presence of alcohol or drugs in the person's body.

(2) (a) The test or tests must be administered at the direction of a peace officer when:

(i) the officer has reasonable grounds to believe that the person has been driving or has been in actual physical control of a vehicle upon ways of this state open to the public while under the influence of alcohol, drugs, or a combination of the two and the person has been placed under arrest for a violation of 61-8-401;

(ii) the person is under the age of 21 and has been placed under arrest for a violation of 61-8-410; or

(iii) the officer has probable cause to believe that the person was driving or in actual physical control of a vehicle:

(A) in violation of 61-8-401 and the person has been involved in a motor vehicle accident or collision resulting in property damage; or

(B) involved in a motor vehicle accident or collision resulting in serious bodily injury, as defined in 45-2-101, or death.

(b) The arresting or investigating officer may designate which test or tests are administered.

(3) A person who is unconscious or who is otherwise in a condition rendering the person incapable of refusal is considered not to have withdrawn the consent provided by subsection (1).

(4) If an arrested person refuses to submit to one or more tests requested and designated by the officer as provided in subsection (2), the refused test or tests may not be given, but the officer shall, on behalf of the department, immediately seize the person's driver's license. The peace officer shall immediately forward the license to the department, along with a report certified under penalty of law stating which of the conditions set forth in subsection (2)(a) provides the basis for the testing request and confirming that the person refused to submit to one or more tests requested and designated by the peace officer. Upon receipt of the report, the department shall suspend the license for the period provided in subsection (6).

(5) Upon seizure of a driver's license, the peace officer shall issue, on behalf of the department, a temporary driving permit, which is effective 12 hours after issuance and is valid for 5 days following the date of issuance, and shall provide the driver with written notice of the license suspension and the right to a hearing provided in 61-8-403.

(6) (a) Except as provided in subsection (6)(b), the following suspension periods are applicable upon refusal to submit to one or more tests:

(i) upon a first refusal, a suspension of 6 months with no provision for a restricted probationary license;

(ii) upon a second or subsequent refusal within 5 years of a previous refusal, as determined from the records of the department, a suspension of 1 year with no provision for a restricted probationary license.

(b) If a person who refuses to submit to one or more tests under this section is the holder of a commercial driver's license, in addition to any action taken against the driver's noncommercial driving privileges, the department shall:

(i) upon a first refusal, suspend the person's commercial driver's license for a 1-year period; and

(ii) upon a second or subsequent refusal, suspend the person's commercial driver's license for life, subject to department rules adopted to implement federal rules allowing for license reinstatement, if the person is otherwise eligible, upon completion of a minimum suspension period of 10 years. If the person has a prior conviction of a major offense listed in 61-8-802(2) arising from a separate incident, the conviction has the same effect as a previous testing refusal for purposes of this subsection (6)(b).

(7) A nonresident driver's license seized under this section must be sent by the department to the licensing authority of the nonresident's home state with a report of the nonresident's refusal to submit to one or more tests.

(8) The department may recognize the seizure of a license of a tribal member by a peace officer acting under the authority of a tribal government or an order issued by a tribal court suspending, revoking, or reinstating a license or adjudicating a license seizure if the actions are conducted pursuant to tribal law or regulation requiring alcohol or drug testing of motor vehicle operators and the conduct giving rise to the actions occurred within the exterior boundaries of a federally recognized Indian reservation in this state. Action by the department under this subsection is not reviewable under 61-8-403.

(9) A suspension under this section is subject to review as provided in this part.

(10) This section does not apply to blood and breath tests, samples, and analyses used for purposes of medical treatment or care of an injured motorist or related to a lawful seizure for a suspected violation of an offense not in this part.

61-8-403. Right of appeal to court. (1) Within 30 days after notice of the right to a hearing has been given by a peace officer, a person may file a petition to challenge the license suspension or revocation in the district court in the county where the arrest was made.

(2) The court has jurisdiction and shall set the matter for hearing. The court shall give at least 10 days' written notice of the hearing to the county attorney of the county where the arrest was made and to the city attorney if the incident leading to the suspension or revocation resulted in a charge filed in a city or municipal court. The county attorney or city attorney may represent the state. If the county attorney and the city attorney cannot agree on who will represent the state, the county attorney shall represent the state.

(3) Upon request of the petitioner, the court may order the department to return the seized license or issue a stay of the suspension or revocation action pending the hearing.

(4) (a) The court shall take testimony and examine the facts of the case, except that the issues are limited to whether:

(i) a peace officer had reasonable grounds to believe that the person had been driving or was in actual physical control of a vehicle upon ways of this state open to the public while under the influence of alcohol, drugs, or a combination of the two and the person was placed under arrest for violation of 61-8-401;

(ii) the person is under 21 years of age and was placed under arrest for a violation of 61-8-410;

(iii) the officer had probable cause to believe that the person was driving or in actual physical control of a vehicle in violation of 61-8-401 and the person was involved in a motor vehicle accident or collision resulting in property damage, bodily injury, or death; and

(iv) the person refused to submit to one or more tests designated by the officer.

(b) Based on the issues in subsection (4)(a) and no others, the court shall determine whether the petitioner is entitled to a license or whether the petitioner's license is subject to suspension or revocation.

(5) This section does not grant a right of appeal to a state court if a driver's license is initially seized, suspended, or revoked pursuant to a tribal law or regulation that requires alcohol or drug testing of motor vehicle operators.

61-8-404. Evidence admissible — conditions of admissibility. (1) Upon the trial of a criminal action or other proceeding arising out of acts alleged to have been committed by a person in violation of 61-8-401, 61-8-406, 61-8-410, or 61-8-805:

(a) evidence of any measured amount or detected presence of alcohol, drugs, or a combination of alcohol and drugs in the person at the time of a test, as shown by an analysis of the person's blood or breath, is admissible. A positive test result does not, in itself, prove that the person was under the influence of a drug or drugs at the time the person was in control of a motor vehicle. A person may not be convicted of a violation of 61-8-401 based upon the presence of a drug or drugs in the person unless some other competent evidence exists that tends to establish that the person was under the influence of a drug or drugs while driving or in actual physical control of a motor vehicle within this state.

(b) a report of the facts and results of one or more tests of a person's blood or breath is admissible in evidence if:

(i) a breath test or preliminary alcohol screening test was performed by a person certified by the forensic sciences division of the department to administer the test;

(ii) a blood sample was analyzed in a laboratory operated or certified by the department or in a laboratory exempt from certification under the rules of the department and the blood was withdrawn from the person by a person competent to do so under 61-8-405(1);

(c) a report of the facts and results of a physical, psychomotor, or physiological assessment of a person is admissible in evidence if it was made by a person trained by the department or by a person who has received training recognized by the department.

(2) If the person under arrest refused to submit to one or more tests as provided in this section, proof of refusal is admissible in any criminal action or proceeding arising out of acts alleged to have been committed while the person was driving or in actual physical control of a vehicle upon the ways of this state open to the public, while under the influence of alcohol, drugs, or a combination of alcohol and drugs. The trier of fact may infer from the refusal that the person was under the influence. The inference is rebuttable.

(3) The provisions of this part do not limit the introduction of any other competent evidence bearing on the question of whether the person was under the influence of alcohol, drugs, or a combination of alcohol and drugs.

61-8-405. Administration of tests. (1) Only a physician or registered nurse, or other qualified person acting under the supervision and direction of a physician or registered nurse, may, at the request of a peace officer, withdraw blood for the purpose of determining any measured amount or detected presence of alcohol, drugs, or any combination of alcohol and drugs in the person. This limitation does not apply to the sampling of breath.

(2) In addition to any test administered at the direction of a peace officer, a person may request that an independent blood sample be drawn by a physician or registered nurse for the purpose of determining any measured amount or detected presence of alcohol, drugs, or any combination of alcohol and drugs in the person. The peace officer may not unreasonably impede the person's right to obtain an independent blood test. The officer may but has no duty to transport the person to a medical facility or otherwise assist the person in obtaining the test. The cost of an independent blood test is the sole responsibility of the person requesting the test. The failure or inability to obtain an independent test by a person does not preclude the admissibility in evidence of any test given at the direction of a peace officer.

(3) Upon the request of the person tested, full information concerning any test given at the direction of the peace officer must be made available to the person or the person's attorney.

(4) A physician or registered nurse, or other qualified person acting under the supervision and direction of a physician or registered nurse, does not incur any civil or criminal liability as a result of the proper administering of a blood test when requested in writing by a peace officer to administer a test.

(5) The department in cooperation with any appropriate agency shall adopt uniform rules for the giving of tests and may require certification of training to administer the tests as considered necessary.

61-8-409. Preliminary alcohol screening test. (1) A person who operates or is in actual physical control of a vehicle upon ways of this state open to the public is considered to have given consent to a preliminary alcohol screening test of the person's breath, for the purpose of estimating the person's alcohol concentration, upon the request of a peace officer who has a particularized suspicion that the person was driving or in actual physical control of a vehicle upon ways of this state open to the public while under the influence of alcohol or in violation of 61-8-410.

(2) The person's obligation to submit to a test under 61-8-402 is not satisfied by the person submitting to a preliminary alcohol screening test pursuant to this section.

(3) The peace officer shall inform the person of the right to refuse the test and that the refusal to submit to the preliminary alcohol screening test will result in the suspension for up to 1 year of that person's driver's license.

(4) If the person refuses to submit to a test under this section, a test will not be given. However, the refusal is sufficient cause to suspend the person's driver's license as provided in 61-8-402.

(5) A hearing as provided for in 61-8-403 must be available. The issues in the hearing must be limited to determining whether a peace officer had a particularized suspicion that the person was driving or in actual physical control of a vehicle upon ways of this state open to the public while under the influence of alcohol or in violation of 61-8-410 and whether the person refused to submit to the test.

(6) The provisions of 61-8-402(3) through (8) that do not conflict with this section are applicable to refusals under this section. If a person refuses a test requested under 61-8-402 and this section for the same incident, the department may not consider each a separate refusal for purposes of suspension under 61-8-402.

(7) A test may not be conducted or requested under this section unless both the peace officer and the instrument used to conduct the preliminary alcohol screening test have been certified by the department pursuant to rules adopted under the authority of 61-8-405(5).

61-8-732. Driving under influence of alcohol or drugs — driving with excessive alcohol concentration — assessment, education, and treatment required. (1) In addition to the punishments provided in 61-8-714, 61-8-722, and 61-8-731, regardless of disposition, a defendant convicted of a violation of 61-8-401 or 61-8-406 shall complete:

(a) a chemical dependency assessment;

(b) a chemical dependency education course; and

(c) on a second or subsequent conviction for a violation of 61-8-401 or 61-8-406, except a fourth or subsequent conviction for which the defendant completes a residential alcohol treatment program under 61-8-731(2), or as required by subsection (8) of this section, chemical dependency treatment.

(2) The sentencing judge may, in the judge's discretion, require the defendant to complete the chemical dependency assessment prior to sentencing the defendant. If the assessment is not ordered or completed before sentencing, the judge shall order the chemical dependency assessment as part of the sentence.

(3) The chemical dependency assessment and the chemical dependency education course must be completed at a treatment program approved by the department of public health and human services and must be conducted by a licensed addiction counselor. The defendant may attend a treatment program of the defendant's choice as long as the treatment services are provided by a licensed addiction counselor. The defendant shall pay the cost of the assessment, the education course, and chemical dependency treatment.

(4) The assessment must describe the defendant's level of addiction, if any, and contain a recommendation as to education, treatment, or both. A defendant who disagrees with the initial assessment may, at the defendant's cost, obtain a second assessment provided by a licensed addiction counselor or a program approved by the department of public health and human services.

(5) The treatment provided to the defendant at a treatment program must be at a level appropriate to the defendant's alcohol or drug problem, or both, as determined by a licensed addiction counselor pursuant to diagnosis and patient placement rules adopted by the department of public health and human services. Upon determination, the court shall order the defendant's appropriate level of treatment. If more than one counselor makes a determination as provided in this subsection, the court shall order an appropriate level of treatment based upon the determination of one of the counselors.

(6) Each counselor providing education or treatment shall, at the commencement of the education or treatment, notify the court that the defendant has been enrolled in a chemical dependency education course or treatment program. If the defendant fails to attend the education course or treatment program, the counselor shall notify the court of the failure.

(7) A court or counselor may not require attendance at a self-help program other than at an "open meeting", as that term is defined by the self-help program. A defendant may voluntarily participate in self-help programs.

(8) Chemical dependency treatment must be ordered for a first-time offender convicted of a violation of 61-8-401 or 61-8-406 upon a finding of chemical dependency made by a licensed addiction counselor pursuant to diagnosis and patient placement rules adopted by the department of public health and human services.

(9) (a) On a second or subsequent conviction, the treatment program provided for in subsection (5) must be followed by monthly monitoring for a period of at least 1 year from the date of admission to the program.

(b) If a defendant fails to comply with the monitoring program imposed under subsection (9)(a), the court shall revoke the suspended sentence, if any, impose any remaining portion of the suspended sentence, and may include additional monthly monitoring for up to an additional 1 year.

(10) Notwithstanding 46-18-201(2), whenever a judge suspends a sentence imposed under 61-8-714 and orders the person to complete chemical dependency treatment under this section, the judge retains jurisdiction to impose any suspended sentence for up to 1 year.

61-8-733. Driving under influence of alcohol or drugs — driving with excessive alcohol concentration — forfeiture of vehicle. (1) On the second or subsequent conviction of a violation of 61-8-401 or 61-8-406 or a second or subsequent conviction under 61-5-212 when the reason for the suspension or revocation was that the person was convicted of a violation of 61-8-401 or 61-8-406 or a similar offense under the laws of any other state or the suspension was under 61-8-402 or 61-8-409 or a similar law of any other state for refusal to take a test for alcohol or drugs requested by a peace officer who believed that the person might be driving under the influence, the court, in addition to the punishments provided in 61-5-212, 61-8-714, and 61-8-722 and any other penalty imposed by law, shall order that each motor vehicle owned by the person at the time of the offense be either seized and subjected to the procedure provided under 61-8-421 or equipped with an ignition interlock device as provided under 61-8-442.

(2) A vehicle used by a person as a common carrier in the transaction of business as a common carrier is not subject to forfeiture unless it appears that the owner or other person in charge of the vehicle consented to or was privy to the violation. A vehicle may not be forfeited under this section for any act or omission established by the owner to have been committed or omitted by a person other than the owner while the vehicle was unlawfully in the possession of a person other than the owner in violation of the criminal laws of this state or the United States.

(3) Forfeiture of a vehicle encumbered by a security interest is subject to the secured person's interest if the person did not know and could not have reasonably known of the unlawful possession, use, or other act on which the forfeiture is sought.

61-8-734. Driving under influence of alcohol or drugs — driving with excessive alcohol concentration — conviction defined — place of imprisonment — home arrest — exceptions — deferral of sentence not allowed. (1) (a) For the purpose of determining the number of convictions for prior offenses referred to in 61-8-714, 61-8-722, or 61-8-731, "conviction" means a final conviction, as defined in 45-2-101, in this state, conviction for a violation of a similar statute or regulation in another state or on a federally recognized Indian reservation, or a forfeiture of bail or collateral deposited to secure the defendant's appearance in court in this state, in another state, or on a federally recognized Indian reservation, which forfeiture has not been vacated.

(b) An offender is considered to have been previously convicted for the purposes of sentencing if less than 5 years have elapsed between the commission of the present offense and a previous conviction, unless the offense is the offender's fourth or subsequent offense, in which case all previous convictions must be used for sentencing purposes.

(c) A previous conviction under 61-8-714 or 61-8-722 for violation of 61-8-401 or 61-8-406 may be counted for purposes of determining the number of a subsequent conviction for violation of either 61-8-401 or 61-8-406.

(2) Except as provided in 61-8-731, the court may order that a term of imprisonment imposed under 61-8-714, 61-8-722, or 61-8-731 be served in another facility made available by the county and approved by the sentencing court. The defendant, if financially able, shall bear the expense of the imprisonment in the facility. The court may impose restrictions on the defendant's ability to leave the premises of the facility and require that the defendant follow the rules of that facility. The facility may be, but is not required to be, a community-based prerelease center as provided for in 53-1-203. The prerelease center may accept or reject a defendant referred by the sentencing court.

(3) Subject to the limitations set forth in 61-8-714 and 61-8-722 concerning minimum periods of imprisonment, the court may order that a term of imprisonment imposed under either section be served by imprisonment under home arrest, as provided in Title 46, chapter 18, part 10.

(4) A court may not defer imposition of sentence under 61-8-714, 61-8-722, or 61-8-731.

(5) The provisions of 61-2-107, 61-2-302, 61-5-205(2), and 61-5-208(2), relating to suspension of driver's licenses and later reinstatement of driving privileges, apply to any conviction under 61-8-714 or 61-8-722 for a violation of 61-8-401 or 61-8-406.

61-8-801. Purpose — definition. (1) The purpose of this part is to reduce the number of commercial motor vehicle accidents in Montana, to provide greater safety to the motoring public and others by establishing stringent criteria governing the operation of commercial motor vehicles, and to deny the privilege of operating commercial motor vehicles upon the public streets and highways to those commercial motor vehicle operators who are not qualified.

(2) To fulfill this purpose, the legislature intends that this part:

(a) establish criteria and procedures for the operation of commercial motor vehicles that require safety practices commensurate with the danger inherent to their operation;

(b) provide for increased administrative punishment for commercial motor vehicle operators who use alcohol while operating commercial motor vehicles;

(c) provide greater control of commercial motor vehicle operators using the streets and highways; and

(d) conform Montana's laws on commercial driver licensing with federal regulations based on the Commercial Motor Vehicle Safety Act of 1986, Public Law 99-570, as amended.

(3) As used in this part, "hazardous material" means a substance or material, defined or listed as a hazardous material in Title 49, Code of Federal Regulations, in a quantity and form that may pose an unreasonable risk to health and safety or property when transported.

(a) upon receipt of a report of a first major offense, for 1 year, except that if the major offense occurred while operating a commercial motor vehicle transporting placardable hazardous materials, the suspension must be for 3 years; or

(b) upon receipt of a report of a second or subsequent major offense arising from an incident that is separate from the prior major offense, for life, subject to department rules adopted to implement federal rules allowing for license reinstatement, if the person is otherwise eligible, upon completion of a minimum suspension period of 10 years.

(2) For purposes of this section, the term "major offense" refers to a refusal to take a test under an implied consent law in this or any other jurisdiction, a test result under an implied consent law in any other jurisdiction that shows an alcohol concentration of 0.08 or more while operating a noncommercial motor vehicle or an alcohol concentration of 0.04 or more while operating a commercial motor vehicle, or a conviction in this or any other jurisdiction of any of the following offenses:

(a) driving or being in actual physical control of a motor vehicle while under the influence of alcohol, a drug, or a combination of the two;

(b) driving or being in actual physical control of:

(i) a noncommercial motor vehicle and having an alcohol concentration of 0.08 or more; or

61-8-803. Suspension of commercial driver's license — serious traffic violations. (1) If the department receives notice from a court or another licensing jurisdiction that a person holding or required to hold a commercial driver's license has been convicted of more than one serious traffic violation in separate incidents within a 3-year period, the department shall suspend the person's commercial driver's license:

(a) for 60 days upon receipt of notice of the second conviction; or

(b) for 120 days upon receipt of notice of the third or subsequent conviction.

(2) For purposes of this section, "serious traffic violation" means conviction, when operating a commercial motor vehicle, of:

(b) reckless driving;

(c) improper or erratic traffic lane changes;

(d) following too closely;

(e) a violation of a state law or local ordinance relating to the operation of a motor vehicle, excluding a parking, weight, or equipment violation, that arises in connection with a fatal accident;

(f) operating a commercial motor vehicle without a commercial driver's license;

(g) operating a commercial motor vehicle without a commercial driver's license in one's possession or refusing to display a commercial driver's license upon request; or

61-8-804. Suspension of commercial driver's license — felony involving a controlled substance while driving a commercial vehicle. If the department receives information that a person who holds or is required to hold a commercial driver's license has been convicted of using a commercial or noncommercial motor vehicle in the commission of a felony involving the manufacture, distribution, or dispensing of a controlled substance, as defined by federal regulations, or a felony involving possession with intent to manufacture, distribute, or dispense a controlled substance, the department shall suspend the person's commercial driver's license for life and may not reinstate the license at any time for any reason.

History: **En. Sec. 4, Ch. 378, L. 1989; amd. Sec. 29, Ch. 195, L. 1993; amd. Sec. 16, Ch. 428, L. 2003.**

61-8-805. Suspension for operating commercial vehicle with alcohol concentration of 0.04 or more — hearing. (1) A person whose alcohol concentration is 0.04 or more while the person drives or is in actual physical control of a commercial motor vehicle is subject to the suspension of the person's commercial driver's license. The peace officer who determines that the person is operating a commercial motor vehicle with an alcohol concentration of 0.04 or more shall immediately seize the person's commercial driver's license and, on behalf of the department, give the person written notice of the license suspension and the right to a hearing under 61-8-808. Upon receipt of a report certified under penalty of law from the peace officer that the person was operating a commercial motor vehicle with an alcohol concentration of 0.04 or more, the department shall suspend the license, with no provision for a restricted probationary commercial license, for:

(a) 1 year, upon receipt of the first report of a 0.04 or more alcohol concentration violation, except that if the violation occurred in a commercial motor vehicle transporting placardable hazardous materials, the suspension must be for 3 years; and

(b) life, upon receipt of a second or subsequent 0.04 or more alcohol concentration violation report at any time as determined from the records of the department, subject to federal rules allowing for driver rehabilitation and license reinstatement, if otherwise eligible, upon service of a minimum period of 10 years' suspension.

(2) A peace officer who determines that a commercial motor vehicle operator has a measured amount or detected presence of alcohol in the operator's body while operating a commercial motor vehicle shall place the commercial motor vehicle operator out of service as mandated by federal regulations for 24 hours.

(3) The fact that a person charged with a violation of the provisions of subsection (1) is entitled to use alcohol under the laws of Montana is not a defense against a charge of violating the provisions of subsection (1).

(4) For purposes of this section, a conviction for violation of 61-8-401 or 61-8-406 while operating a commercial motor vehicle or a prior refusal to be tested under an implied consent law must be treated as a prior report of a 0.04 or more alcohol concentration violation and must be used in determining the length of the license suspension under subsection (1).

Professional Tow Trucks

Part Cross-References

Removal and sale of abandoned vehicles, Title 61, ch. 12, part 4.

61-8-901. Short title. This part may be cited as the "Montana Professional Tow Truck Act".

History: En. Sec. 1, Ch. 283, L. 1995.

61-8-902. Purpose. The legislature recognizes that:

(1) wrecked, disabled, and abandoned motor vehicles on the public roadways create hazards that imperil lives and property and require expeditious removal;

(2) officers investigating accidents on the public roadways need immediately available towing and recovery vehicles staffed by competent operators and adequately equipped to clear the roadways and remove hazardous obstructions with minimum damage to property;

(3) certain standards and classifications are needed for professional tow trucks and equipment used for towing and recovering wrecked, disabled, and abandoned motor vehicles or other objects creating hazards on the public roadways;

(4) encouragement of a competitive and qualified professional towing industry requires establishment of a uniform and equitable qualification system based on the equipment and the standards provided in 61-8-905 through 61-8-907 and a system for the fair consideration of all qualified tow truck companies; and

(5) the use of nonqualified tow truck companies or private motor vehicles to tow or recover for hire wrecked, disabled, or abandoned vehicles creates additional hazards and, except in limited situations, should be prohibited. However, when a person or tow truck company responds in good faith to life-threatening emergency situations, it should not be liable for civil damages for acts or omissions, other than damages occasioned by gross negligence or by willful or wanton acts or omissions.

History: **En. Sec. 2, Ch. 283, L. 1995.**

(2) An operator of noncommercially manufactured or modified tow truck equipment in use on October 1, 1995, that wishes to participate in the law enforcement rotation system must have its equipment classified by the department within a time period set by the department. Once the equipment is classified, further modifications may not be made.

(3) An operator of new noncommercially manufactured or modified tow truck equipment must have its equipment independently certified before participating in the law enforcement rotation system. Once the equipment is classified, further modifications to the equipment must be recertified.

(b) Based on the information provided to it pursuant to subsection (3)(a), the complaint resolution committee shall, upon written request, verify that operators using a single storage or impoundment facility applying to be placed on the rotation system have individual accounting systems, adequate identification information, and individual insurance policies.

(4) Only one qualified tow truck operation for each owner may be included on a rotation area list.

(5) (a) An owner of a qualified tow truck operation who has an existing tow truck operation in a rotation area separate from the rotation area where the owner is participating in the rotation system may establish a satellite operation to be included on a rotation area list if:

(ii) the business office is open and accessible from 8 a.m. to 5 p.m. Monday through Friday;

(iii) the facilities have a secure yard as provided in 61-8-906(3)(e); and

(iv) the tow truck operation has a local 24-hour phone number.

(b) Any charges for towing service from the satellite operation must be calculated from the satellite operation area and not the area of the owner's base operation.

(6) The rotation system is not applicable when the owner or driver of a wrecked or disabled vehicle obstructing a public roadway requests a tow truck operator of the owner's or driver's choice and the operator meets the insurance requirements provided in 61-8-906 and the safety inspection requirements provided in 61-8-907.

(7) (a) (i) The law enforcement officer at the scene of the wreck shall call the qualified tow truck operator that is next on the rotation list if:

General Provisions

61-9-101. Application — exceptions. (1) The provisions of this chapter relating to the operation of vehicles refer exclusively to the operation of vehicles upon highways except where a different place is specifically referred to in a given section.

(2) The operation of motor vehicles directly across the public roads and highways of this state, especially as required in the transportation of natural resource products, including agricultural products and livestock, may not be considered to be the operation of the vehicles on the public roads and highways of this state. The crossings must be adequately marked with warning signs or devices relating to stopping before entry and to restoration of any damage, as may reasonably be prescribed by the state or local agency in control of safety of operation of the public highway involved.

(3) If a provision of this chapter conflicts with federal laws or regulations governing motor vehicle equipment standards, the applicable federal law or regulation supersedes.

(d) "Farm tractor" means a motor vehicle designed and used primarily as a farm implement for drawing plows, mowing machines, and other implements of husbandry.

(e) "Police vehicle" has the meaning as provided in 61-8-102.

(1) A motor vehicle other than a motorcycle, quadricycle, or motor-driven cycle must be equipped with at least two headlamps, with at least one on each side of the front of the motor vehicle, that comply with the requirements and limitations set forth in this chapter.

(2) A motorcycle, quadricycle, or motor-driven cycle must be equipped with at least one and not more than two headlamps that comply with the requirements and limitations of this chapter. If a motorcycle is registered under 61-3-411 as a collector's item, it need not be equipped with headlamps; however, if it is not equipped with headlamps, it may not be operated upon a highway or street from one-half hour after sunset to one-half hour before sunrise or if persons and vehicles are not clearly discernible at a distance of 500 feet. A motorcycle may be equipped with a means of modulating the high beam of its headlamps between high and low beam at a rate of 200 to 280 flashes a minute; however, an operator may not modulate the headlamps at that rate during periods when headlamps are required to be lighted by 61-9-201.

(3) A headlamp upon a motor vehicle, including a motorcycle, quadricycle, and motor-driven cycle, must be located at a height, measured from the center of the headlamp, of not more than 54 inches or less than 22 inches, to be measured as provided in 61-9-202(2).

(4) When headlamps are required to be lighted by 61-9-201, a person may not operate a motor vehicle on a highway with headlamps that are composed of, covered by, or treated with a tinted or colored material, substance, system, or component that obscures the headlamps or diminishes the distance of visibility required by this section.

(5) This section does not prohibit the operation or sale of a motor vehicle the headlamps of which are composed of, covered by, or treated with a tinted or colored material, substance, system, or component with which the vehicle was sold or could have been equipped for sale when new as standard or optional equipment in compliance with federal statute or regulation governing the sale at the time of manufacture.

The vehicles mentioned in this subsection, other than a motorcycle, quadricycle, motor-driven cycle, or truck tractor, registered in this state and manufactured or assembled after January 1, 1956, must be equipped with at least two properly functioning taillamps mounted on the rear that emit a red light plainly visible from a distance of 1,000 feet to the rear of the vehicle.

(2) A taillamp upon a vehicle must be located at a height of not more than 72 inches or less than 15 inches.

(3) Either a taillamp or a separate lamp must illuminate with a white light the rear registration plate and render it clearly legible from a distance of 50 feet to the rear. A taillamp or taillamps, together with a separate lamp for illuminating the rear registration plate, must be lighted whenever the headlamps are lighted.

(4) Taillamps are not required on a motorcycle that is registered under 61-3-411 as a collector's item, but the motorcycle may not be operated on a highway or street from one-half hour after sunset to one-half hour before sunrise or when persons and vehicles are not clearly discernible at a distance of 500 feet unless it is equipped with the required taillamps.

(5) A person may not operate a motor vehicle on a highway with taillamps that are covered by a lens or a plastic cover or with a tinted or colored material, substance, system, or component placed on or in front of rear lamps, taillamps, license plate lamps, or rear lamp combinations that obscures the taillamps or diminishes the distance of visibility required by this section.

(6) (a) A custom vehicle or street rod may use a blue dot taillight, as defined in subsection (6)(b), as a stop lamp, a rear signal lamp, or a rear reflector.

(b) "Blue dot taillight" means a red lamp installed in the rear of a motor vehicle containing a blue or purple insert that is not more than 1 inch in diameter.

(1) Every new motor vehicle hereafter sold and operated upon a highway, other than a truck tractor, shall carry on the rear, either as a part of the taillamps or separately, two red reflectors, except that every motorcycle, quadricycle, and motor-driven cycle shall carry at least one reflector meeting the requirements of this section, and except that vehicles of the type mentioned in 61-9-208 shall be equipped with reflectors as required in those sections applicable thereto.

(2) Every such reflector shall be mounted on the vehicle at a height not less than 15 inches or more than 60 inches measured as set forth in 61-9-202(2) and shall be of such size and characteristics and so mounted as to be visible at night from all distances within 300 feet to 50 feet from such vehicle when directly in front of lawful upper beams of headlamps, except that visibility from a greater distance may be required of reflectors on certain types of vehicles.

(2) The stop lamp or lamps on the rear of a vehicle must display a red light that is actuated upon application of the service (foot) brake and, in a vehicle manufactured or assembled on or after January 1, 1964, must be visible from a distance of not less than 300 feet to the rear in normal sunlight. In a vehicle manufactured or assembled before January 1, 1964, the stop lamp or lamps must be visible from a distance of not less than 100 feet. The stop lamp may be incorporated with one or more other rear lamps.

(2) A motor vehicle may not be equipped with more than two fog lamps that provide a low, wide-angle light pattern to increase short-range visibility. Fog lamps must be mounted on the front at a height not more than 30 inches above the level surface upon which the vehicle stands and so aimed that when the vehicle is not loaded none of the high-intensity portion of the light to the left of the center of the vehicle at a distance of 25 feet ahead projects higher than a level of 4 inches below the level of the center of the lamp from which it comes. (3) A motor vehicle may not be equipped with more than two auxiliary driving lamps that produce a long-range, pencil-shaped light pattern and that are used to supplement the upper beams of headlamps. Auxiliary driving lamps must be mounted on the front at a height not less than 16 inches or more than 42 inches above the level surface upon which the vehicle stands. The provisions of 61-9-220 apply to a combination of headlamps and auxiliary driving lamps. An auxiliary driving lamp may not be used as a substitute for headlamps or lighted at any time the headlamps are required to be on in the low-beam position.

The lamps showing to the front must be located on the same level and as widely spaced laterally as practicable. Except as provided in subsection (3), when in use, the lamps must display a white or amber light, or a shade of color between white and amber, visible from a distance of not less than 300 feet to the front in normal sunlight. The lamps showing to the rear must be located at the same level and as widely spaced laterally as practicable. Except as provided in subsection (3), when in use, the lamps must display a red or amber light, or a shade of color between red and amber, visible from a distance of not less than 300 feet to the rear in normal sunlight. When actuated the lamps must indicate the intended direction of turning by flashing the lights showing to the front and rear on the side toward which the turn is made.

The lamps used to display such warning to the front shall be mounted at the same level and as widely spaced laterally as practicable and shall display simultaneously flashing white or amber lights, or any shade of color between white and amber. The lamps used to display such warning to the rear shall be mounted at the same level and as widely spaced laterally as practicable, and shall show simultaneously flashing amber or red lights, or any shade of color between amber and red. 61-9-220. Multiple-beam road-lighting equipment. Except as provided in this part, the headlamps or the auxiliary driving lamps or combination of both on a motor vehicle other than a motorcycle, quadricycle, or motor-driven cycle must be so arranged that the driver may select between distributions of light projected to different elevations. The selection can be made automatically, subject to the following limitations:

(1) There must be an uppermost distribution of light, or composite beam, capable of revealing persons and vehicles at a distance of at least 350 feet ahead for all conditions of loading.

(2) There must be a lowermost distribution of light, or composite beam, capable of revealing persons and vehicles at a distance of at least 100 feet ahead. On a straight level road under any condition of loading the high-intensity portion of the beam may not be directed to strike the eyes of an approaching driver.

(3) A motor vehicle, other than a motorcycle, quadricycle, or motor-driven cycle, manufactured after January 1, 1956, that has multiple-beam road-lighting equipment must be equipped with a beam indicator that must be lighted whenever the uppermost distribution of light from the headlamps is in use, and may not otherwise be lighted. The indicator must be readily visible without glare to the driver of the vehicle.

(1) Whenever the driver of a vehicle approaches an oncoming vehicle within 1,000 feet, the driver shall use a distribution of light or composite beam that does not project into the eyes of the oncoming driver. The lowermost distribution of light specified in 61-9-220(2) must avoid glare at all times, regardless of road contour and loading.

(2) Whenever the driver of a vehicle follows another vehicle within 500 feet to the rear, the driver shall use a distribution of light permissible under this chapter other than the uppermost distribution of light specified in 61-9-220(1).

61-9-302. Service brakes — adequacy. Every motor vehicle, trailer, semitrailer, and pole trailer and combination of these vehicles, except special mobile equipment, must be equipped with service brakes complying with the performance requirements of 61-9-312 and adequate to control the movement of and to stop and hold the vehicle under all conditions of loading and on any grade incident to its operation.

History: En. Sec. 1, Ch. 139, L. 1965; R.C.M. 1947, 32-21-143.1(a); amd. Sec. 215, Ch. 542, L. 2005.

61-9-303. Parking brakes — adequacy. Every such vehicle and combination of vehicles, except motorcycles, quadricycles, and motor-driven cycles, shall be equipped with parking brakes adequate to hold the vehicle on any grade on which it is operated, under all conditions of loading, on a surface free from snow, ice, or loose material. The parking brakes shall be capable of being applied in conformance with the foregoing requirements by the driver's muscular effort or by spring action or by equivalent means. Their operation may be assisted by the service brakes or other source of power, provided that failure of the service brake actuation system or other power assisting mechanism will not prevent the parking brakes from being applied in conformance with the foregoing requirements. The parking brakes shall be so designed that when once applied they shall remain applied with the required effectiveness despite exhaustion of any source of energy or leakage of any kind. The same brake drums, brake shoes and lining assemblies, brake shoe anchors and mechanical brake shoe actuation mechanism normally associated with the wheel brake assemblies may be used for both the service brakes and the parking brakes. If the means of applying the parking brakes and the service brakes are connected in any way, they shall be so constructed that failure of any one part shall not leave the vehicle without operative brakes.

Every trailer, semitrailer, and pole trailer equipped with air or vacuum actuated brakes and every trailer, semitrailer, and pole trailer with a gross weight in excess of 3,000 pounds, manufactured or assembled after January 1, 1966, shall be equipped with brakes acting on all wheels and of such character as to be applied automatically and promptly, and remain applied for at least 15 minutes upon breakaway from the towing vehicle.

61-9-308. Two means of emergency brake operation. (1) A towing vehicle, when used to tow another vehicle equipped with air controlled brakes, in other than driveaway or towaway operations, must be equipped with two means for emergency application of the trailer brakes. One of these means must apply the brakes automatically in the event of a reduction of the towing vehicle air supply to a fixed pressure that may not be lower than 20 pounds per square inch or higher than 45 pounds per square inch. The other means must be a manually controlled device for applying and releasing the brakes, readily operable by a person seated in the driving seat, and its emergency position or method of operation must be clearly indicated. The manual means may not be arranged to prevent operation of the automatic means. The automatic and the manual means required by this section may be separate.

(2) A towing vehicle used to tow other vehicles equipped with vacuum brakes, in operations other than driveaway or towaway operations, must have, in addition to the single control device required by 61-9-309, a second control device that can be used to operate the brakes on towed vehicles in emergencies. The second control must be independent of brake air, hydraulic, and other pressure, and independent of other controls, unless the braking system is so arranged that failure of the pressure upon which the second control depends causes the towed vehicle brakes to be applied automatically. The second control is not required to provide modulated braking.

61-9-309. Single control to operate all brakes. A motor vehicle, trailer, semitrailer, or pole trailer, and a combination of these vehicles, except motorcycles, quadricycles, and motor-driven cycles, equipped with brakes must have one control device that can be used to operate all service brakes. This requirement does not prohibit vehicles from being equipped with an additional control device to operate brakes on the towed vehicles. This regulation does not apply to driveaway or towaway operations unless the brakes on the individual vehicles can be operated by a single control on the towing vehicle.

61-9-310. Reservoir capacity and check valve. (1) A bus, truck, or truck tractor with air operated brakes must be equipped with at least one reservoir sufficient to ensure that, when fully charged to the maximum pressure as regulated by the air compressor governor cutout setting, a full service brake application is made without lowering the reservoir pressure by more than 20%. Each reservoir must be provided with means for readily draining accumulated oil or water.

(2) A truck with three or more axles equipped with vacuum assistor type brakes or a truck tractor and truck used for towing a vehicle equipped with vacuum brakes must be equipped with a reserve capacity or a vacuum reservoir sufficient to ensure that, with the reserve capacity or reservoir fully charged and with the engine stopped, a full service brake application is made without depleting the vacuum supply by more than 40%.

(3) A motor vehicle, trailer, semitrailer, or pole trailer, when equipped with air or vacuum reservoirs or reserve capacity as required by this section, must have reservoirs or reserve capacity safeguarded by a check valve or equivalent device that, in the event of failure or leakage in its connection to the source of compressed air or vacuum, prevents the stored air or vacuum from being depleted by the leak or failure.

History: En. Sec. 1, Ch. 139, L. 1965; R.C.M. 1947, 32-21-143.1(i); amd. Sec. 23, Ch. 431, L. 1997.

61-9-311. Warning devices. (1) A bus, truck, or truck tractor using compressed air for the operation of its own brakes or the brakes on a towed vehicle must have a warning signal, other than a pressure gauge, readily audible or visible to the driver that will operate at any time the air reservoir pressure of the vehicle is below 60 pounds per square inch. In addition, each vehicle must be equipped with a pressure gauge visible to the driver that indicates in pounds per square inch the pressure available for braking.

(2) A truck tractor, truck used for towing a vehicle equipped with vacuum operated brakes, or a truck with three or more axles using vacuum in the operation of its brakes, except those in driveaway or towaway operations, must be equipped with a warning signal, other than a gauge indicating vacuum, readily audible or visible to the driver that will operate at any time the vacuum in the vehicle's supply reservoir or reserve capacity is less than 8 inches of mercury.

(3) When a vehicle required to be equipped with a warning device is equipped with both air and vacuum power for the operation of its own brakes or the brakes on a towed vehicle, the

warning devices may be combined into a single device that will serve both purposes. A gauge or gauges indicating pressure or vacuum is not an adequate means of satisfying this requirement.

61-9-312. Performance ability of brakes. On a dry, hard, approximately level stretch of highway free from loose material, a motor vehicle or combination of vehicles, upon application of the service brake, must be capable of stopping at a speed of 20 miles an hour within the following distances:

(1) 25 feet for passenger motor vehicles, except buses and pioneer vehicles;

(2) 40 feet for buses, trucks, and tractor trucks;

(3) 45 feet for motor vehicles registered or qualified to be registered as pioneer vehicles under 61-3-411(2)(a) when equipped with two-wheel brakes or 25 feet when equipped with four-wheel brakes;

(4) 40 feet for all combinations of vehicles; and

(5) 30 feet for motorcycles, quadricycles, and motor-driven cycles.

61-9-406. Restrictions as to tire equipment — particular tires, chains, or traction equipment — definitions. (1) A solid rubber tire on a vehicle must have rubber on its entire traction surface at least 1 inch thick above the edge of the flange of the entire periphery.

(2) A person may not operate or move on a highway a motor vehicle, trailer, or semitrailer having a metal tire in contact with the roadway.

(3) A tire on a vehicle moved on a highway may not have on its periphery a block, stud, flange, cleat, spike, or other protuberance of a material other than rubber that projects beyond the tread of the traction surface of the tire, except that it is permissible to use farm machinery with tires having protuberances that will not injure the highway. It is also permissible to use tire chains of reasonable proportions or pneumatic tires, the traction surfaces of which have been embedded with material, such as wood, wire, plastic or metal, that may not protrude more than one-sixteenth of an inch beyond the tire tread or that are clearly marked by the manufacturer on the sidewall "all season m&s" (or "all season mud and snow"), upon a vehicle when required for safety because of snow, ice, or other conditions tending to cause a vehicle to skid. Except as provided in subsection (4), the use of pneumatic tires embedded as provided in this section is permitted only between October 1 and May 31 of each year, except that one of those tires may be used for a spare in case of tire failure. School buses equipped with such embedded pneumatic tires may operate from August 15 through the following June 15.

(4) Pneumatic tires that feature an embedded block, stud, flange, cleat, spike, or other protuberance that is retractable may be used at any time of the year. However, the protuberance may not be engaged or extended other than between October 1 and May 31 of each year on roads that do not contain ice or snow.

(5) The department of transportation and local authorities, as defined in 61-8-102, in their respective jurisdictions may in their discretion issue special permits authorizing the operation upon a highway of farm tractors or other farm machinery or of traction engines or tractors having movable tracks with transverse corrugations upon the periphery of the movable tracks, the operation of which upon the highway would otherwise be prohibited under this section.

(6) If the department of transportation determines at any time that dangerous or unsafe conditions on a highway require particular tires, tire chains, or traction equipment for vehicles in addition to or beyond the ordinary pneumatic rubber tires, the department may establish the following recommendations or requirements with respect to the use of the equipment for all vehicles using the highway:

(a) chains or other approved traction devices recommended for driver wheels;
(b) chains or other approved traction devices required for driver wheels; or
(c) chains required for driver wheels.

(7) Equipment required by subsection (6)(b) or (6)(c) must conform to rules established by the department of justice.

(8) The department of transportation shall place and maintain signs and other traffic control devices on a highway designated under subsection (6) that indicate the tire, tire chain, or traction equipment recommendation or requirement determined for vehicles. The signs or traffic control devices may not prohibit the use of pneumatic tires embedded as provided in subsection (3) between October 1 and May 31 of each year, but when the department of transportation determines that chains are required and that no other traction equipment will suffice, the requirement is applicable to tires on driver wheels of one axle, as defined in 61-10-104, of a

vehicle, including embedded tires. The signs or traffic control devices may differentiate in recommendations or requirements for four-wheel-drive vehicles in gear.

(9) As used in this section:

(a) "metal tire" means a tire the surface of which in contact with the highway is wholly or partly metal or other hard, nonresilient material; and

(b) "pneumatic tire" means a tire in which compressed air or nitrogen is designed to support the load.

(1) A person may not move, or permit to be moved, a vehicle, except a motorcycle, quadricycle, motor-driven cycle, or farm tractor, as defined in this title, upon the public highways without having first equipped the rearmost wheels or set of wheels of the vehicle with fenders, splash aprons, or flaps. The fenders, splash aprons, or flaps must be designed, constructed, and attached to the vehicle in a manner that arrests and deflects dirt, mud, water, rocks, and other substances that may be picked up by the rear wheels of the vehicle and thrown into the air, as follows:

(a) If the vehicle is equipped with fenders, the fenders must extend in full width from a point above and forward of the center of the tire or tires over and to the rear of the tires.

(b) If the vehicle is equipped with splash aprons or flaps, the splash aprons or flaps must extend downward in full width from a point not lower than halfway between the center of the tire or tires and the top of the tire or tires and to the rear of the tires.

(c) If the vehicle is in excess of 8,000 pounds gross vehicle weight or rating, the fenders, splash aprons, or flaps must extend downward to a point that is not more than 10 inches above the surface of the highway when the vehicle is empty.

(d) If the vehicle is 8,000 pounds or less gross vehicle weight or rating, the fenders, splash aprons, or flaps must extend downward to a point that is not more than 20 inches above the surface of the highway when the vehicle is empty.

(2) Fenders, splash aprons, or flaps, as used in subsection (1), must be constructed as follows:

(a) when measured on the cross-sections of the tread of the wheel or on the combined cross-sections of the treads of multiple wheels, the fender, splash apron, or flap extends at least to each side of the width of the tire or of the combined width of the multiple tires; and

(b) the fender, splash apron, or flap is capable at all times of arresting and deflecting dirt, mud, water, or other substance that may be picked up and carried by the wheel or wheels.

(3) This section does not apply to a street rod as defined in 61-1-101, motor vehicles not originally equipped with fenders, splash aprons, or flaps, or motor vehicles for which fenders, splash aprons, or flaps were not required by federal law or regulation at the time of manufacture.

(1) Whenever a motor truck, passenger bus, truck, tractor, trailer, semitrailer, or pole trailer is disabled upon the traveled portion of any highway or the shoulder of a highway outside of any municipality at any time when lighted lamps are required on vehicles, the driver of that vehicle shall display the following warning devices upon the highway during the time the vehicle is disabled on the highway except as provided in subsection (2):

(a) A lighted fusee, a lighted red electric lantern, or a portable red emergency reflector must be immediately placed at the traffic side of the vehicle in the direction of the nearest approaching traffic.

(b) As soon as possible after complying with subsection (1)(a), but within the burning period of the fusee (15 minutes), the driver shall place three liquid burning flares (pot torches), three lighted red electric lanterns, or three portable red emergency reflectors on the traveled portion of the highway in the following order:

(i) one approximately 100 feet from the disabled vehicle in the center of the lane occupied by the vehicle and toward traffic approaching in that lane;

(ii) one approximately 100 feet in the opposite direction from the disabled vehicle and in the center of the traffic lane occupied by the vehicle;

(iii) one at the traffic side of the disabled vehicle not less than 10 feet rearward or forward of the vehicle in the direction of the nearest approaching traffic. If a lighted red electric lantern or a red portable emergency reflector has been placed at the traffic side of the vehicle in accordance with subsection (1)(b)(i), it may be used for this purpose.

(2) Whenever any vehicle referred to in this section is disabled within 500 feet of a curve, hillcrest, or other obstruction to view, the warning signal in that direction must be placed in order to afford ample warning to other users of the highway but in no case less than 500 feet from the disabled vehicle.

(3) Whenever any vehicle of a type referred to in this section is disabled upon any roadway of a divided highway during the time that lights are required, the appropriate warning devices prescribed in subsections (1) and (5) must be placed as follows:

(a) one at a distance of approximately 200 feet from the vehicle, in the center of the lane occupied by the stopped vehicle and in the direction of traffic approaching in that lane;

(b) one at a distance of approximately 100 feet from the vehicle, in the center of the lane occupied by the vehicle and in the direction of traffic approaching in that lane;

(c) one at the traffic side of the vehicle and approximately 10 feet from the vehicle in the direction of the nearest approaching traffic.

(4) Whenever any vehicle of a type referred to in this section is disabled upon the traveled portion of a highway or the shoulder of a highway outside of any municipality at any time when the display of fusees, flares, red electric lanterns, or portable red emergency reflectors is not required, the driver of the vehicle shall display two red flags upon the roadway in the lane of traffic occupied by the disabled vehicle, or at a distance of approximately 100 feet in advance of the vehicle, and one at a distance of approximately 100 feet to the rear of the vehicle.

(5) (a) Whenever a motor vehicle used in the transportation of explosives, a cargo tank truck used for the transportation of any flammable liquid or compressed flammable gas, or a motor vehicle using compressed gas as a fuel is disabled upon any highway of this state at any

time or place mentioned in subsection (1), the driver of the vehicle shall immediately display one red electric lantern or portable red emergency reflector placed on the roadway at the traffic side of the vehicle and two red electric lanterns or portable red reflectors, one placed approximately 100 feet to the front and one placed approximately 100 feet to the rear of the disabled vehicle in the center of the traffic lane occupied by the vehicle.

(b) Flares, fusees, or signals produced by flame may not be used as warning devices for disabled vehicles of the type mentioned in this subsection (5).

61-9-414. Logging trucks. (1) A truck or truck trailer combination, except pole trailers, actively engaged in transporting logs must be equipped with chains, cables, steel straps, or fiber webbing with working load limits that meet or exceed the manufacturer's marked value. The number of tie-down assemblies must be determined by the working load limits and the total weight of the load. The working load limits must equal or exceed 1 ½ times the total weight of the load.

(2) A pole trailer actively engaged in transporting logs upon the highways of the state must be equipped as follows:

(a) At least three wrappers are required as standard equipment. The wrappers must:

(i) have a minimum working load limit of at least 3,000 pounds; and

(ii) be long enough to encompass any load when secured by a binder.

(b) (i) Wrappers used to secure loads of logs together must be fastened by means of a binder.

(ii) The complete wrapper and binder assembly must have a working load limit of at least 3,000 pounds.

(iii) The handle, or leverage portion of the binder, when in use in tightening and holding the wrapper, must be securely fastened to the wrapper or to the binder so that it cannot be accidentally loosened.

(c) At least two wrappers must be in use on all loads. The wrappers must be placed as close as reasonably possible to the front and rear bunks.

(d) If short logs are loaded on top of longer logs, sufficient wrappers must be used to secure both ends of the short logs to the main body of the load. A log may not extend laterally beyond the stakes that form the outer boundary of the load at the top of the stakes. Logs or poles loaded above the tops of the stakes must be loaded in a pyramidal fashion.

(3) For the purposes of this section:

(a) "binder" means a device attached to a wrapper that provides tension on and secures a wrapper; and

(b) "wrapper" means an indirect tie-down device, the tension of which is intended to secure a stack of logs.

(2) The emblem required by subsection (1) must be of substantial construction and must be a based-down equilateral triangle of fluorescent yellow-orange film or equivalent quality paint with a base of 14 inches and a height of 12 inches. The triangle must be bordered with reflective red strips having a minimum width of 1 3/4 inches, with the vertices of the overall triangle truncated so that the remaining height is a minimum of 14 inches. The emblem must be mounted on the rear of the vehicle near the horizontal geometric center of the vehicle at a height of 3 to 5 feet above the roadway and must be maintained in a clean, reflective condition.

(3) In addition to the requirements in subsection (2), on a highway that has only two lanes for traffic moving in opposite directions, when an overtaking vehicle being operated in conformity with 61-8-303 does not have a clear lane for passing as required by 61-8-325, the driver of a slower-moving, overtaken vehicle shall, at the first opportunity and when a safe turnout exists, move the overtaken vehicle off the main-traveled portion of the highway until the overtaking vehicle is safely clear of the overtaken vehicle.

A commercial tow truck must be equipped with:

(a) not less than two red flares, two red lanterns, or two warning lights or reflectors. The reflectors must be of a type approved by the department.

(b) at least two highway warning signs as provided in 61-9-431.

(c) a dry chemical fire extinguisher of at least 5 pound capacity or an equivalent alternative type of fire extinguisher, approved by the department;

The light from the lamp must be visible for a distance of 1,000 feet under normal atmospheric conditions and must be mounted so that it can be securely fastened with the lens of the lamp facing the rear of the tow truck upon which it is mounted. When standing at the location from which the disabled vehicle is to be towed, the operator of the tow truck may unfasten the red light and place it in a position considered advisable to warn approaching drivers. When the disabled vehicle is ready for towing, the red light must be turned to the rear of the tow truck upon which it is mounted and securely locked in this position. Additional red or amber lights of an approved type may be displayed at either side or both sides of the tow truck during the period of preparation at the location from which the disabled vehicle is to be towed.

(e) one or more brooms, and the operator of the tow truck engaged to remove a disabled vehicle from the scene of an accident shall remove all glass and debris deposited upon the roadway by the disabled vehicle that is to be towed;

(f) a shovel, and whenever practical, the tow truck operator engaged to remove a disabled vehicle shall spread dirt upon that portion of the roadway where oil or grease has been deposited by the disabled vehicle; and

(g) a portable electrical extension cord or other device for use in displaying stop, turn, and taillamps on the rear of the disabled vehicle. The length of the extension cord may not be less than the length of the combined vehicles. When a disabled vehicle is towed, the tow truck operator shall provide for the rear light that is capable of displaying a stop signal, turn signal, and taillamps by means of the extension cord or other device referred to in this subsection.

(2) The operator of a commercial tow truck used for the purpose of rendering assistance to other vehicles shall, when the rendering of assistance necessitates the obstruction of a portion of the roadway, place a highway warning sign as required in 61-9-431.

(3) The owner or operator of a commercial tow truck who complies with the requirements of 61-8-906 and 61-8-907 and this section may stop or park the tow truck upon a highway for the purpose of rendering assistance to a disabled vehicle, notwithstanding other provisions of this code.

(4) A commercial tow truck company that is in compliance with 61-9-431 and that is operating an emergency service vehicle and using signal equipment in rendering assistance at a highway crash scene or in response to any other hazard on the roadway that presents an immediate hazard or an emergency or life-threatening situation is not liable, except for willful misconduct, bad faith, or gross negligence, for injuries, costs, damages, expenses, or other liabilities resulting from a motorist operating a vehicle in violation of 61-9-402(5).

Standards, Permits, and Fees

61-10-101. Standards of maximum dimensions, weights, etc. The standards provided for in 61-10-102 through 61-10-104 and 61-10-106 through 61-10-110 govern the maximum dimensions, weights, and other characteristics of motor vehicles operating over the highways in the state to the exclusion of other standards or other requirements respecting the subject matter.

61-10-102. Width — definition. (1) Except as provided in subsections (2) and (3), a vehicle, including a bus, unloaded or with load, may not have a total outside width in excess of 102 inches. This width for buses is allowed only on paved highways 20 feet or more in width.

(2) (a) Subsection (1) does not apply to an implement of husbandry or a vehicle used for hauling hay that is moved or propelled upon the highway during daylight hours for a distance of not more than 100 miles if the movement is incidental to the farming operations of the owner of the implement of husbandry or the vehicle used for hauling hay. If the implement or vehicle is more than 12½ feet wide, it must be preceded by flag vehicle escorts to warn other highway users. This restriction does not apply to dual-wheel tractors under 15 feet overall width that are used in farming operations or to movement on a county road within 100 miles of the farming operation of the owner of an implement of husbandry or a vehicle used for hauling hay. Lights that meet the requirements of 61-9-219(4) must be displayed on the rear of the implement of husbandry or vehicle used for hauling hay. However, if the highway passes through a hazardous area, the implements or vehicles must be preceded and followed by flag vehicle escorts unless the

movement of the implements or vehicles is restricted to a county road within 100 miles of the farming operation of the owner.

(b) An implement of husbandry or a vehicle used for hauling hay that exceeds 16 ½ feet in width and that is traveling on an interstate or a four-lane highway must be followed by a flag vehicle escort.

(c) A commercial vehicle that is hauling hay but does not qualify under subsection (2)(a) may be granted a permit subject to the provisions of 61-10-121 through 61-10-127 and the following requirements:

(i) travel during daylight hours only for an oversize shipment of large round bales of hay, whether the vehicle is loaded or with an empty hay rack, up to 144 inches; when empty, a square red or orange flag measuring 12 inches on each side must be attached to each corner of the hay rack; and

(ii) travel day or night for any other shipment of baled hay, whether the vehicle is loaded or with an empty hay rack, up to 114 inches.

(d) Subsection (1) does not apply to a commercial hay grinder moved or propelled upon the highway during daylight hours for a distance of not more than 100 miles if the movement is incidental to operations of the commercial hay grinder. A commercial hay grinder exceeding 102 inches in width must have a permit issued under 61-10-124. If the commercial hay grinder is more than 12 ½ feet wide, it must be preceded by flag vehicle escorts to warn other highway users. Lights that meet the requirements of 61-9-219(4) must be displayed on the rear of the commercial hay grinder. Movement of a commercial hay grinder that does not exceed 138 inches in width may occur on any day of the week, including holidays, and is restricted to movement during daylight hours. Movement of a commercial hay grinder may not exceed the posted speed limit, including the speed limit on an interstate highway.

(3) (a) The width of a recreational vehicle, as defined in 61-1-101, and a camper, as defined in 61-1-101, that is being operated for noncommercial purposes may exceed 102 inches if:

(i) the excess width is attributable to recreational vehicle or camper appurtenances that do not extend beyond the exterior rearview mirrors of the recreational vehicle, the camper, a vehicle being towed by the recreational vehicle, or the motor vehicle providing motive power; and

(ii) the rearview mirrors extend only the distance necessary to provide the appropriate field of view for the vehicle before the recreational vehicle or camper appurtenances are attached.

(b) For the purposes of this section, "recreational vehicle or camper appurtenances" means an awning and its support hardware or any appendage that is intended to be an integral part of the recreational vehicle or camper and that is installed by the manufacturer or dealer.

(4) A safety device that the department determines by rule adopted pursuant to 61-9-504 to be necessary for safe and efficient operation of motor vehicles is not included in the calculation of width provided in subsection (1).

(5) For the purposes of this section, "flag vehicle" means a vehicle equipped as required by law or by department of transportation rule to warn or guide vehicular traffic. When not being operated as a flag vehicle, signs must be removed.

61-10-104. Length — definitions. (1) A single truck, bus, or self-propelled vehicle, unladen or with load, may not have an overall length, inclusive of front and rear bumpers, in excess of 55 feet.

(2) (a) When used in a truck tractor-semitrailer combination, the semitrailer may not exceed 53 feet in length, excluding those portions not designed to carry a load, except as provided by 61-10-124. When used in a truck tractor-semitrailer-trailer or a truck

tractor-semitrailer-semitrailer combination, the semitrailer and trailer or the two semitrailers may not exceed 28 ½ feet each in length or 61 feet in combined trailer length, excluding those portions not designed to carry a load, except as provided by 61-10-124. Truck tractor-semitrailer, truck tractor-semitrailer-trailer, and truck tractor-semitrailer-semitrailer combinations are not subject to a combination length limit.

(b) A stinger-steered automobile or boat transporter may not exceed 75 feet in length plus a maximum 3 feet of front overhang and 4 feet of rear overhang, except as provided by 61-10-124. "Stinger-steered automobile or boat transporter" means a truck tractor-semitrailer combination that has a fifth wheel on a drop frame located behind and below the rear axle of the truck tractor and that is designed and used for the transportation of vehicles or assembled boats or boat hulls.

(c) All other combinations of vehicles may not have a combination length in excess of 75 feet, except as provided by 61-10-124. If the combination consists of more than two units, the rear units of the combination must be equipped with breakaway brakes.

(3) A motor vehicle may not tow more than one motor vehicle, and a motor vehicle may not draw more than three motor vehicles attached to it by the triple saddle-mount method (that is, by mounting the front wheels of one vehicle on the bed of another, leaving only the rear wheels of the vehicle in contact with the roadway), and this combination may not have a combination length in excess of 75 feet.

(4) A passenger vehicle or truck of less than 2,000 pounds "manufacturer's rated capacity" may not tow more than one trailer or semitrailer, and this combination may not have a length in excess of 65 feet.

(5) (a) The length of a vehicle combination consisting of a truck or truck tractor and one pole trailer or semitrailer hauling raw logs may not exceed 75 feet in overall length. As used in this subsection (5)(a), the term "length" means the total length of the vehicle combination beginning at the front of the front bumper of the truck or truck tractor and extending to the most distant end of the logs being hauled. A term permit for an overlength vehicle combination, as provided in 61-10-124(2), does not apply to the vehicle combination described in this subsection (5)(a). A vehicle combination exceeding 75 feet must have a trip permit.

(b) The maximum overhang of any log may not exceed 15 feet, except by special, single-trip permit. Overhang is measured from the center of the rear-most axle to the most distant end of the logs being hauled.

(c) The provisions in subsections (5)(a) and (5)(b) do not apply to a vehicle combination hauling utility poles.

(6) As used in this chapter, the following definitions apply:

(a) "Axle" means a transverse beam that is the common axis of rotation of one or more wheels and that, to receive credit for allowable total gross loading, must be capable of continuously transmitting a proportionate share of the total gross load to the roadway when the axle is in operation.

(b) "Combination length" means the total length of a combination of vehicles, such as a truck tractor-semitrailer-trailer combination, measured from the front bumper of the motor vehicle to the back bumper or rear extremity of the last trailer, including the connection tongues.

(c) "Combined trailer length" means the total length of a combination of trailers measured from the front of the first trailer to the back of the last trailer, including the connection tongues and loads.

(d) "Length", except as provided in subsection (5)(a), means the total longitudinal dimension of a single vehicle, a trailer, or a semitrailer. The length of a trailer or semitrailer is measured from the front of the cargo-carrying unit to its rear, exclusive of safety or energy efficiency devices, air-conditioning units, air compressors, flexible fender extensions, splash and spray suppressant devices, bolsters, mechanical fastening devices, and hydraulic lift gates.

(e) "Rocky Mountain double" means a combination of vehicles that includes a truck tractor pulling a long semitrailer and a shorter trailer.

61-10-107. *(Temporary)* **Maximum gross weight.** (1) (a) An axle may not carry a load in excess of 20,000 pounds, and no two consecutive axles more than 40 inches or less than 96 inches apart may carry a load in excess of 34,000 pounds. An axle load is the total load transmitted to the road by all wheels whose centers are included between two parallel transverse vertical planes 40 inches apart, extending across the full width of the vehicle. For purposes of this section, axles 40 inches or less apart are considered to be a single axle. Except as provided in subsection (1)(b), the maximum gross weight allowed on a vehicle, group of axles, or combination of vehicles must be determined by the formula:

$$W = 500((LN/(N - 1)) + 12N + 36)$$

in which W equals gross weight, L equals wheelbase in feet, and N equals number of axles, except that two consecutive sets of tandem axles may carry a gross load of 34,000 pounds each if the overall distance between the first and last axles of the consecutive sets of tandem axles is 36 feet or more. The maximum gross weight allowed on a vehicle may not exceed the weight limits adopted by the department. The department shall adopt rules for weight limits based upon the most recent version of 23 CFR, part 658, appendix c, for vehicles operating in Montana.

(b) A vehicle traveling on U.S. highway 93 from the border between Canada and the United States to 10 miles south of the border is subject to the specific maximum allowable gross weight limit provided in rules adopted by the department but is not subject to maximum gross weight limits determined by the formula in subsection (1)(a).

(2) (a) Notwithstanding a vehicle's conformance with the requirements of subsection (1), except for the steering axle, all axles weighing over 11,000 pounds must have at least four tires or have wide-base tires. The maximum load on an axle, other than a steering axle, equipped with wide-base tires is limited to 500 pounds for each inch of tire width.

(b) The provisions of subsection (2)(a) do not apply to passenger buses.

(c) For the purposes of this section, wide-base tires are tires that are 14 or more inches in nominal width. The maximum tire weight limit is computed for wide-base tires based on the number of inches shown on the tire marking, or if the tire marking is shown by metric size, the tire weight limit is computed by conversion of the metric size.

(3) This section does not apply to highways that are a part of the national system of interstate and defense highways (as referred to in 23 U.S.C. 127) when application of this section would prevent this state from receiving federal funds for highway purposes. *(Terminates on occurrence of contingency—sec. 2, Ch. 342, L. 2005.)*

61-10-114 through 61-10-120 reserved.

61-10-121. Permits for excess size and weight — agents. (1) (a) Upon application and with good cause shown, the department of transportation, or its agent under subsection (3), and local authorities in their respective jurisdictions may issue telephonically or in writing a special permit authorizing the applicant to operate or move a vehicle, combination of vehicles, load, object, or other thing of a size or weight exceeding the maximum specified in 61-10-101 through 61-10-104 and 61-10-106 through 61-10-110 upon a highway under the jurisdiction of and for the maintenance of which the body granting the permit is responsible. However, only the department may issue permits for movement of a vehicle or combination of vehicles carrying built-up or reducible loads in excess of 9 feet in width or exceeding the length, height, or weight specified in 61-10-101 through 61-10-104 and 61-10-106 through 61-10-110. This permit must be issued in the public interest. A carrier receiving this permit must have public liability and property damage insurance for the protection of the traveling public as a whole. A permit may not be issued for a period greater than the period for which the GVW license is valid, including grace periods, as provided in this title. Owners of vehicles licensed in other jurisdictions may, at the discretion of the department, purchase permits to expire with their registration. A license required by the state governs the issuance of a special permit.

(b) The department may issue to dealers in implements of husbandry and self-propelled machinery oversize permits. The permits may be transferred from unit to unit by the dealer, for the fee set forth in 61-10-124. These oversize permits may not restrict dealers in implements of husbandry and self-propelled machinery from traveling on a Saturday or Sunday and expire on December 31 of each year, with no grace period. For the purposes of this section, a dealer in implements of husbandry or self-propelled machinery must be a resident of the state. A post-office box number is not a permanent address under this section.

(2) The applicant for a special permit shall specifically describe the powered vehicle or towing vehicle and generally describe the type of vehicle, combination of vehicles, load, object, or other thing to be operated or moved and the particular state highways over which the vehicle, combination of vehicles, load, object, or other thing is to be moved and whether the permit is required for a single trip or for continuous operation.

(3) The department may enter into a contract with a private party to act as an agent of the department for the purpose of issuing, in writing, a special permit allowed under this section.

(2) The department of transportation by order, or a local road authority by ordinance or resolution, may prohibit the operation of or impose restrictions on the weight and speed of a vehicle traveling on a public highway under its respective jurisdiction and for which it is responsible for maintenance whenever the highway will be seriously damaged or destroyed by deterioration, rain, snow, or other climatic conditions, unless the use of vehicles on the highway is prohibited or the permissible vehicle weights and speed are reduced. The department of transportation or the authority that enacts the ordinance or resolution shall erect signs designating the department's order or the authority's ordinance or resolution at each end of that portion of the highway affected, and the order, ordinance, or resolution is not effective until the signs are erected. The department of transportation may adopt rules to implement 61-10-124 and may by rule prescribe standards for the qualifications of drivers operating special vehicle combinations under 61-10-124 and for the equipping and operation of such combinations to enhance highway traffic safety.

61-10-130. Custom combiner's special permit — fee — collection — distribution — not transferable. (1) In lieu of the taxes required by 15-24-301 and in lieu of motor vehicle license fees, gross vehicle weight fees, and overwidth, overlength, and overheight permits provided for in Title 61, a nonresident engaged in the business of custom combining who brings equipment into the state may pay a special permit fee of $40 for each unit. A unit includes:

(a) one truck suitable for hauling grain;

(b) one header trailer or one combine trailer; and

(c) pickup trucks and all other equipment, except combines, used by a nonresident and brought into the state as part of the nonresident's business of custom combining.

(2) In lieu of gross vehicle weight fees and overwidth, overlength, and overheight permits, Montana residents engaged in the business of custom combining may pay the annual farm gross vehicle weight fees and a special permit fee of $20 for each unit. A unit includes:

(a) one truck suitable for hauling grain;

(b) one header trailer or one combine trailer; and

(c) pickup trucks used by the resident in the resident's business of custom combining.

(3) When used to transport agricultural products, a truck authorized to be used under a custom combiner's special permit may be operated only within a 100-mile radius from the harvested field to the point of first unloading. The truck may not haul agricultural products from one commercial elevator to another commercial elevator. The truck may be operated on any highway, except a highway that is part of the federal-aid interstate system, without incurring excess weight penalties under 61-10-145 if the total gross weight of the truck does not exceed allowable weight limitations by more than 20% for each axle and the maximum load for each inch of tire width does not exceed 670 pounds. A trip permit is not required. If the truck exceeds the tolerance provided under this subsection, the fine or penalty imposed applies to all weight over the legal limit allowed by 61-10-107.

(4) A combine trailer authorized to be used under subsection (1)(b) or (2)(b) may be operated under the same limitations, except that the 100-mile limitation does not apply and the combine trailer may be used upon any highway of the state, including a highway that is part of the federal-aid interstate system. If the combine trailer exceeds the tolerance provided under subsection (3), the fine or penalty imposed applies to all weight over the legal limit allowed by 61-10-107.

(5) The fee required by this section must be collected by the department of transportation. Upon payment of the fee, the department of transportation shall provide an identifying device to be displayed on each truck, header trailer, or combine trailer and other equipment used by the nonresident or resident in the person's business of custom combining in the state. The device is valid for the calendar year in which the fee is collected.

(6) All fees collected under this section must be distributed not later than January 31 immediately following the period of licensure as follows:

(a) 62 ½% to the state general fund; and

(b) 37 ½% to the state special revenue fund for the department of transportation.

(7) The identifying devices and fee paid for each unit are not transferable from one vehicle to another or transferable on the sale or change of ownership.

(8) The department of transportation may adopt rules, as provided in Title 2, chapter 4, to implement the provisions of this section.

61-10-141. Officers authorized to weigh vehicles and require removal of excessive loads. (1) (a) A peace officer, officer of the highway patrol, or employee of the department of transportation may weigh any vehicle regulated by 61-10-101 through 61-10-104 and 61-10-106 through 61-10-110, except recreational vehicles, travel trailers, or motor homes, by means of either portable or stationary scales and may require that the vehicle be driven to the nearest scales if those scales are within 2 miles.

(b) If it is determined in the weighing process that the maximum allowable weights specified in 61-10-101 through 61-10-104 and 61-10-106 through 61-10-110 have been exceeded, the peace officer, officer of the highway patrol, or employee of the department of transportation may then require the driver to unload at a designated facility that portion of the load necessary to decrease the weight of the vehicle to conform to the maximum allowable weights specified in 61-10-101 through 61-10-104 and 61-10-106 through 61-10-110. If the excess weight does not exceed 10,000 pounds, an excess weight permit may be issued in accordance with 61-10-121. The permit authorizes the driver of the excess weight load to proceed to a designated facility where the load can be safely reduced to legal limits.

(2) Commodities and material unloaded as required by this section must be cared for by the owner or operator of the vehicle at the risk of that owner or operator. Commodities or material unloaded as required by this section may not be left on the highway right-of-way.

(3) The department of transportation may establish, maintain, and operate weigh stations, either intermittently or on a continuous schedule, and may require vehicles, except passenger cars and pickup trucks under 14,000 pounds GVW and recreational vehicles that are not new or used recreational vehicles traveling into or through Montana for delivery to a distributor or a dealer, to enter for the purpose of weighing and inspection for compliance with all laws pertaining to their operation and safety requirements. The department may require vehicles over 10,000 pounds to be inspected and weighed by portable scale crews.

(2) The operator of a vehicle or combination of vehicles may move over the highways to the first open state scale, permanent or portable, without incurring the excess weight penalties set forth in 61-10-145 if the total gross weight of the vehicle or combination of vehicles does not exceed allowable total gross weight limitations by more than 10% and if the weight carried by any axle or combination of axles does not exceed the allowable axle weight limitations by more than 10%. If the vehicle or combination of vehicles is not in excess of the allowable total gross or axle weight limitations by more than 10%, the department may issue a single trip permit for the fee of $10, allowing the vehicle or combination of vehicles to move over the highways to the first facility where its load can be safely adjusted or to its destination. Violations of total gross or axle weight limitations in excess of 10% are subject to the fines provided in 61-10-145, and all loads in excess of 10% of the total gross or axle weight limitations:

(a) may be required to be adjusted or reduced to conform to the size and weight limitations before the vehicle or combination of vehicles is moved from the point of weighing; or

(b) may be issued a permit as authorized by 61-10-141.

(3) Farm vehicles transporting agricultural products from a harvesting combine or other harvesting machinery may be operated on any highway, except a highway that is part of the federal-aid interstate system, within a 100-mile radius of the harvested field to the point of first unloading without incurring excess weight penalties under 61-10-145 if the total gross weight of the farm vehicle or combination of vehicles does not exceed allowable weight limitations by more than 20% for each axle and the maximum load for each inch of tire width does not exceed 670 pounds. A single trip permit, as required in subsection (2), is not applicable to the farm vehicle or combination of vehicles. Multistate Highway Transportation Agreement

Part Cross-References

Interstate cooperative agreements for collection of taxes and fees, 60-2-311.

61-10-1101. Multistate Highway Transportation Agreement — enactment and text. The Multistate Highway Transportation Agreement is hereby enacted into law and entered into with all other jurisdictions legally joining in the agreement in the form substantially as follows:

MULTISTATE HIGHWAY TRANSPORTATION AGREEMENT

Pursuant to and in conformity with the laws of their respective jurisdictions, the participating jurisdictions, acting by and through their officials lawfully authorized to execute this agreement, do mutually agree as follows:

Article I. Findings and Purposes

Section 1. Findings. The participating jurisdictions find that:

(a) the expanding regional economy depends on expanding transportation capacity;

(b) highway transportation is the major mode for movement of people and goods in the western states;

(c) uniform application in the West of more adequate vehicle size and weight standards will result in a reduction of pollution, congestion, fuel consumption, and related transportation costs, which are necessary to permit increased productivity;

(d) a number of western states, already having adopted substantially the 1964 bureau of public roads recommended vehicle size and weight standards, still find current federal limits more restrictive; and

(e) the participating jurisdictions are most capable of developing vehicle size and weight standards most appropriate for the regional economy and transportation requirements, consistent with and in recognition of principles of highway safety.

Section 2. Purposes. The purposes of this agreement are to:

(a) adhere to the principle that each participating jurisdiction should have the freedom to develop vehicle size and weight standards that it determines to be most appropriate to its economy and highway system;

(b) establish a system authorizing the operation of vehicles traveling between two or more participating jurisdictions at more adequate size and weight standards;

(c) promote uniformity among participating jurisdictions in vehicle size and weight standards on the basis of the objectives set forth in this agreement;

(d) secure uniformity, insofar as possible, of administrative procedures in the enforcement of recommended vehicle size and weight standards;

(e) provide means for the encouragement and utilization of research that will facilitate the achievement of the foregoing purposes, with due regard for the findings set forth in section 1 of this article; and

(f) facilitate communication between legislators, state transportation administrators, and commercial industry representatives in addressing the emerging highway transportation issues in participating jurisdictions.

Article II. Definitions

Section 1. As used in this agreement:

(a) "cooperating committee" means a committee composed of the designated representatives from the participating jurisdictions;

(b) "designated representative" means a legislator or other person authorized under Article XII to represent the jurisdiction;

(c) "jurisdiction" means a state of the United States or the District of Columbia;

(d) "vehicle" means any vehicle defined by statute as subject to size and weight standards that operates in two or more participating jurisdictions.

Article III. General Provisions

Section 1. Qualifications for membership. Participation in this agreement is open to jurisdictions that subscribe to the findings, purposes, and objectives of this agreement and will seek legislation necessary to accomplish these objectives.

Section 2. Cooperation. The participating jurisdictions, working through their designated representatives, shall cooperate and assist each other in achieving the desired goals of this agreement pursuant to appropriate statutory authority.

Section 3. Effect of headings. Article and section headings contained in this agreement may not be considered to govern, limit, modify, or in any manner affect the scope, meaning, or intent of the provisions of any article or section of the agreement.

Section 4. Vehicle laws and regulations. This agreement does not authorize the operation of a vehicle in any participating jurisdiction contrary to the laws or regulations of the jurisdiction.

Section 5. Interpretation. The final decision regarding interpretation of questions at issue relating to this agreement must be reached by unanimous joint action of the participating jurisdictions, acting through the designated representatives. Results of all actions must be placed in writing.

Section 6. Amendment. This agreement may be amended by unanimous joint action of the participating jurisdictions, acting through the officials of the jurisdictions authorized to enter into this agreement, subject to the requirements of section 4, Article III. Any amendment must be placed in writing and become a part of the agreement.

Section 7. Restrictions, conditions, or limitations. Any jurisdiction entering this agreement shall provide each other participating jurisdiction with a list of any restriction, condition, or limitation on the general terms of this agreement, if any.

Section 8. Additional jurisdictions. Additional jurisdictions may become members of this agreement by signing and accepting the terms of the agreement.

Article IV. Cooperating Committee

Section 1. Each participating jurisdiction must have two designated representatives. Pursuant to section 2, Article III, the designated representatives of the participating jurisdictions constitute the cooperating committee that may:

(a) collect, correlate, analyze, and evaluate information resulting or derivable from research and testing activities in relation to vehicle size and weight related matters;

(b) recommend and encourage the undertaking of research and testing in any aspect of vehicle size and weight or related matter when, in their collective judgment, appropriate or sufficient research or testing has not been undertaken;

(c) recommend changes in law or policy with emphasis on compatibility of laws and uniformity of administrative rules that would promote effective governmental action or coordination in the field of vehicle size and weight related matters;

(d) recommend improvements in highway operations, in vehicular safety, and in state administration of highway transportation laws; and

(e) perform functions necessary to facilitate the purposes of this agreement.

Section 2. Each designated representative of a participating jurisdiction is entitled to one vote only. An action of the committee may not be approved unless a majority of the total number of votes cast by the designated representatives of the participating jurisdictions are in favor of the action.

Section 3. The committee shall meet at least once annually and shall elect, from among its members, a presiding officer, a vice presiding officer, and a secretary.

Section 4. The committee shall submit annually to the legislature of each participating jurisdiction a report setting forth the work of the committee during the preceding year and including recommendations developed by the committee. The committee may submit additional reports as it considers appropriate or desirable.

Article V. Objectives of the Participating Jurisdictions

Section 1. Objectives. The participating jurisdictions hereby declare that:

(a) it is the objective of the participating jurisdictions to obtain more efficient and more economical transportation by motor vehicles between and among the participating jurisdictions by encouraging the adoption of standards that will, as minimums, allow the operation on all state highways, except those determined through engineering evaluation to be inadequate, with a single-axle weight not in excess of 20,000 pounds, a tandem-axle weight not in excess of 34,000 pounds, and a gross vehicle or combination weight not in excess of that resulting from application of the formula:

$$W = 500((LN/(N - 1)) + 12N + 36)$$

where

W = maximum weight in pounds carried on any group of two or more consecutive axles computed to nearest 500 pounds;

L = distance in feet between the extremes of any group of two or more consecutive axles;

N = number of axles in group under consideration;

(b) it is the further objective of the participating jurisdictions that the operation of a vehicle or combination of vehicles in interstate commerce according to the provisions of subsection (a) of this section be authorized under special permit authority by each participating jurisdiction for vehicle combinations in excess of statutory weight of 80,000 pounds or statutory lengths;

(c) it is the further objective of the participating jurisdictions to facilitate and expedite the operation of any vehicle or combination of vehicles between and among the participating jurisdictions under the provisions of subsection (a) or (b) of this section, and to that end the participating jurisdictions hereby agree, through their designated representatives, to meet and cooperate in the consideration of vehicle size and weight related matters including but not limited to the development of uniform enforcement procedures; additional vehicle size and weight standards; operational standards; agreements or compacts to facilitate regional application and administration of vehicle size and weight standards; uniform permit procedures; uniform application forms; rules for the operation of vehicles, including equipment requirements, driver qualifications, and operating practices; and other matters as may be pertinent;

(d) the cooperating committee may recommend that the participating jurisdictions jointly secure congressional approval of this agreement and specifically of the vehicle size and weight standards set forth in subsection (a) of this section;

(e) it is the further objective of the participating jurisdictions to:

(1) establish transportation laws and regulations to meet regional and economic needs and to promote an efficient, safe, and compatible transportation network;

(2) develop standards that facilitate the most efficient and environmentally sound operation of vehicles on highways consistent with and in recognition of principles of highway safety; and

(3) establish programs to increase productivity and reduce congestion, fuel consumption, and related transportation costs and enhance air quality through the uniform application of state vehicle regulations and laws.

Article VI. Entry Into Force and Withdrawal

Section 1. This agreement becomes effective when enacted into law by any two or more jurisdictions. Thereafter, this agreement becomes effective as to any other jurisdiction upon its enactment of the agreement, except as otherwise provided in section 8, Article III.

Section 2. Any participating jurisdiction may withdraw from this agreement by canceling it but a withdrawal may not take effect until 30 days after the designated representative of the withdrawing jurisdiction has given notice in writing of the withdrawal to all other participating jurisdictions.

Article VII. Construction and Severability

Section 1. This agreement must be liberally construed so as to effectuate the purposes of the agreement.

Section 2. The provisions of this agreement are severable and if any phrase, clause, sentence, or provision of this agreement is declared to be contrary to the constitution of any participating jurisdiction or the applicability of this agreement to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this agreement is not affected. If this agreement is held contrary to the constitution of any jurisdiction participating in the agreement, the agreement remains in full force and effect as to the jurisdictions affected as to all severable matters.

Article VIII. Filing of Documents

Section 1. A copy of this agreement, its amendments, and rules promulgated under the agreement and interpretations of the agreement must be filed in the highway department in each participating jurisdiction and must be made available for review by interested parties.

Article IX. Existing Statutes Not Repealed

Section 2. The persons authorized to represent the state of Montana as the designated representatives to the cooperating committee are the presiding officer of the senate highways and transportation committee and the presiding officer of the house transportation committee. The presiding officer may appoint a designee to serve in the presiding officer's place. The designee must be a legislator or an official of the Montana department of transportation.

(1) If a person is convicted of an offense for which chapter 5 or chapter 8, part 8, makes mandatory the suspension or revocation of the driver's license or commercial driver's license of the person by the department, the court in which the conviction occurs shall require the surrender to it of all driver's licenses then held by the convicted person. (c) imposition of a fine or court cost as a condition of a deferred imposition of a sentence or a suspended execution of a sentence.

(5) A court may not take any action, including deferring imposition of judgment, on a conviction that would prevent a conviction for any violation of a state or local traffic control law or ordinance, except a parking law or ordinance, in any type of motor vehicle, from appearing on the person's driving record.

(iii) all convictions reported to the department for the person; and

(iv) traffic accidents in which the person was involved, except that a record of involvement in a traffic accident may not be entered on a licensee's record unless the licensee was convicted, as defined in 61-11-203, for an act causally related to the accident.

(b) If the department receives notice that a person has been disqualified by the federal motor carrier safety administration as an imminent hazard under 49 CFR 383.52, the department shall record the disqualification on the person's individual Montana driving record.

(c) The department shall retain records created under this section for a period of time that meets or exceeds the standards established under 49 CFR, part 384.

(3) The department is further authorized, upon receiving a record of the conviction in this state of a nonresident driver of a motor vehicle of any offense under the motor vehicle laws of this state, to forward, by electronic or other means, a report of the conviction to the motor vehicle administrator in the state in which the person is a resident or licensed.

(4) The department may place on a computer storage device the information contained on original records or reproductions of original records made pursuant to this section. Signatures on records are not required to be placed on a computer storage device.

(5) (a) Except as provided in subsection (5)(b), a reproduction of the information placed on a computer storage device is an original of the record for all purposes and is admissible in evidence without further foundation in all courts or administrative agencies when the reproduction of the information is signed by a named custodian of the record and the following certification appears on each page:

The individual named below, being a designated custodian of the driver records of the department of justice, motor vehicle division, certifies this document as a true reproduction, in accordance with 61-11-102(5), of the information contained in a computer storage device of the department of justice, motor vehicle division.

(b) An order, record, or paper generated from the department's central database of electronic files of individual Montana driving records may be certified electronically by the generating computer. The certification must be a certification of the order, record, or paper as it appeared on a specific date. A court or the office of a clerk of court of this state that is electronically connected by a terminal device to the department's central database of electronic individual Montana driving records may receive and use as evidence without further foundation the computer-generated certified information obtained by the terminal device from the file. An authorized employee of a court of record of this state may certify in writing that an order, record, or paper was produced from a terminal device that is located in and under the control of the court and that is connected to the department's central database of electronic individual Montana driving records files and that the order, record, or paper was not altered in any way.

(6) The department may remove any individual Montana driving record from the active database of electronic files maintained under this section if there has been no change in license status on or additional reports of conviction to the record in the immediately preceding 16 years. Any individual driving record removed must be retained elsewhere by the department as an inactive record in an electronic storage device that is searchable and retrievable.

61-11-105. Release of information — fees. (1) Subject to the limitations of this section, the department shall, upon request, furnish a person the individual Montana driving record of a driver or licensee, containing the following data:

(a) the driver's or licensee's name, driver's license number, and date of birth;

(b) driver's license status, including the license type and any endorsements, the license issue date, license restrictions, any suspensions, revocations, or cancellations that have been imposed against the driver or licensee, and the license expiration date;

(c) convictions of the driver or licensee; and

(2) The department may not enter into any agreement to disclose or sell, in bulk, any data contained in an individual Montana driving record unless the requester of the information provides the department with the names, driver's license numbers, and dates of birth of the drivers or licensees from whose records a change in license status or conviction activity is to be reported.

(3) The department may not disclose personal information or highly restricted personal information from an individual Montana driving record, except as permitted or required under 61-11-507, 61-11-508, or 61-11-509.

(5) (a) Subject to the requirements of subsection (6) and except as provided in subsection (5)(b), a fee of $4 must be paid for each individual Montana driving record requested. A fee of $10 must be paid if a certified Montana record, as provided in 61-11-102(5), is requested. A fee of 6 cents must be paid for each individual Montana driving record that is searched by the department to report to a requester a change in license status or conviction activity from one or more individual Montana driving records.

(b) An individual Montana driving record must be provided without charge to any criminal justice agency, as defined in 44-5-103, or other state or federal agency.

(6) In addition to the fees required in 61-11-510(3) and subsection (5) of this section, an individual Montana driving record or any report compiled from one or more individual Montana driving records that are electronically transmitted to a requester through a point of entry for electronic government services are subject to the convenience fee established under 2-17-1103.

Part 2
Habitual Traffic Offenders

61-11-201. Purpose. This part is predicated upon the belief and philosophy that innocent drivers and other innocent passengers and pedestrians have a constitutional right to live, free from fear of death or injury from habitual traffic offenders. Further, it is the purpose of this part to reduce the number of motor vehicle accidents in this state and to provide greater safety to the motoring public and others by denying to the habitual traffic offenders the privilege of operating a motor vehicle upon the public streets and highways of this state.

(1) establish criteria and procedures by which persons who have demonstrated their apparent indifference for the safety and welfare of others and their disrespect for the laws of this state and its political subdivisions and their disregard for the orders of its courts and administrative agencies may be adjudged habitual traffic offenders; and

(2) impose increased deprivation of the privilege to operate a motor vehicle upon these persons.

(2) "Habitual traffic offender" means any person who within a 3-year period accumulates 30 or more conviction points according to the schedule specified in this subsection:

(a) deliberate homicide resulting from the operation of a motor vehicle, 15 points;

(b) mitigated deliberate homicide, negligent homicide resulting from operation of a motor vehicle, or negligent vehicular assault, 12 points;

(c) any offense punishable as a felony under the motor vehicle laws of Montana or any felony in the commission of which a motor vehicle is used, 12 points;

(d) driving while under the influence of intoxicating liquor or narcotics or drugs of any kind or operation of a motor vehicle by a person with alcohol concentration of 0.08 or more, 10 points;

(e) operating a motor vehicle while the license to do so has been suspended or revoked, 6 points;

(f) failure of the driver of a motor vehicle involved in an accident resulting in death or injury to any person to stop at the scene of the accident and give the required information and assistance, as described in 61-7-105, 8 points;

(g) willful failure of the driver involved in an accident resulting in property damage of $250 to stop at the scene of the accident and give the required information or failure to otherwise report an accident in violation of the law, 4 points;

(h) reckless driving, 5 points;

(i) illegal drag racing or engaging in a speed contest in violation of the law, 5 points;

(4) "License" means any type of license or permit to operate a motor vehicle.

(5) "Moving violation" means a violation of a traffic regulation of this state or another jurisdiction by a person while operating a motor vehicle or in actual physical control of a motor vehicle upon a highway.

(a) declare the person a habitual traffic offender;

(b) revoke the person's driver's license or driving privileges as provided in 61-11-211; and

(c) notify the person in writing of the declaration and revocation.

(2) The notice must be sent by first-class mail to the most current address on record with the department. A copy of a driving record maintained by the department, including abstracts of the records of convictions and bond forfeitures in the custody of the department, certified in writing by the department to be a correct account of its records, may be admitted in evidence in a judicial proceeding under this part. 61-11-210. Appeals. (1) A person declared to be a habitual traffic offender may file a petition in the district court in the county in which the person resides, or in Lewis and Clark County if the person is not a resident of the state, challenging the declaration and revocation. The petition must be filed within 30 days after the person received notice under 61-11-204. Receipt under 61-11-204 is presumed to be on the third day after the date of mailing. After the petition is filed, a copy must be promptly served on the county attorney of the county in which the petition was filed. The county attorney shall represent the department in the proceeding. Proof of service must be filed with the clerk of the court prior to a hearing or grant of relief. Untimely service or lack of service upon the county attorney waives the right to a hearing. The filing of the petition does not stay enforcement of the revocation.

(2) Upon receipt from the county attorney of notice of the petition, the department shall give the county attorney a certified record of the convictions and bond forfeitures upon which the habitual traffic offender declaration was based.

(3) A hearing date must be set and at least 10 days' notice of the date must be given to the parties. The scope of the hearing is limited to whether the petitioner is the person named in the certified record of convictions and bond forfeitures upon which the habitual traffic offender declaration was based and whether the petitioner is a habitual traffic offender. The petitioner has the burden of proving that the department's actions are invalid or that its records are erroneous.

(4) If the court finds that the petitioner is the person declared by the department to be a habitual traffic offender and that the petitioner is a habitual traffic offender, the court shall dismiss the petition. If the court finds that the petitioner is not the person declared by the department to be a habitual traffic offender or that the petitioner is not a habitual traffic offender, the court shall grant the petition and provide the petitioner with appropriate relief, which must include an order that the department reimburse the petitioner for court fees paid by the petitioner.

(5) Upon a finding adverse to the petitioner, the clerk of the court shall file with the department a copy of the court's order, together with the petitioner's driver's license if the license has not been previously surrendered. If the petition is granted, the clerk of the court shall file with the department a copy of the court's order granting the petition. The order must state the grounds upon which the relief was granted and must specify the court findings on the conviction points, if any, that have been accrued by the petitioner. The department shall then correct the petitioner's driving record to comport with the court's specific findings.

However, in cases in which the prohibited operation of a motor vehicle by a habitual traffic offender is necessitated in a situation of extreme emergency in order to save life, limb, or property, the person may not be considered guilty of a violation under this part.

67-1-204. Lawfulness of flight and landings. (1) Flight in aircraft over the lands and waters of this state is lawful, unless it is at such a low altitude as to interfere with the then-existing use to which the land or water or the space over the land or water is put by the owner or unless conducted as to be imminently dangerous to persons or property lawfully on the land or water or in violation of the air commerce regulations that have been or may be promulgated by the department of transportation of the United States.

(2) Aircraft landings and takeoffs from the public waters of this state are lawful if proper safety precautions regarding public waters, as prescribed in 14 CFR, part 91, are taken prior to the landing or takeoff, except as otherwise provided by this section.

(3) Aircraft landings and takeoffs from public roads in this state are lawful if proper safety precautions, as approved by the governing jurisdiction of the roads, are taken prior to the landing or takeoff, except as otherwise provided in this section. However, the local governing jurisdiction may not incur liability as a result of an approval under this subsection.

(4) A person may not operate an aircraft, as pilot of the aircraft, either in the air, on the water, or on the ground, in a careless or reckless manner so as to endanger the life or property of others, including the aircraft being operated and passengers carried in the aircraft.

(5) The willful and malicious use of aircraft in stunting or diving over livestock in a manner calculated to frighten or stampede them is an unlawful use of aircraft, and actual and punitive damages, in addition to the penalties provided by this part, may be recovered in an action for damages caused by the willful and malicious use of the aircraft. As used in this subsection, "livestock" includes ostriches, rheas, and emus.

(6) The landing of an aircraft on the private lands or waters of another without consent is unlawful, except in the case of a forced landing. For damages caused by a forced landing, however, the owner or lessee of the aircraft or the pilot is liable for actual damage caused by the forced landing.

(7) A person may not knowingly operate, attempt to operate, or be in actual physical control of an aircraft while under the influence of alcohol or drugs. "Under the influence" means that as a result of taking into the body alcohol, drugs, or any combination of alcohol and drugs, a person's ability to safely operate the aircraft has been diminished to the slightest degree.

(8) A person having information regarding a violation of subsection (7) shall report the information to the department.

67-1-211. Alcohol concentration standards — evidence admissible — administration of tests. (1) If a person acting or attempting to act as a crewmember of an aircraft has an alcohol concentration of 0.04% by weight or more as defined in 61-8-407, it may be inferred that the person is under the influence of alcohol and is in violation of 67-1-204.

(2) Evidence of any measured amount or detected presence of alcohol in the person at the time of the act alleged under subsection (1) and any other competent evidence bearing on the question of whether the person was under the influence of alcohol, drugs, or a combination of the two at the time of the act alleged is admissible in any criminal action or proceeding arising out of acts alleged to have been committed in violation of 67-1-204.

(3) In any criminal action or proceeding arising out of acts alleged to have been committed in violation of 67-1-204, the court or jury may consider federal regulations governing aeronautics.

(4) A person who operates an aircraft over the lands and waters of this state is considered to have given consent to a test of his blood, breath, or urine for the purpose of determining any measured amount or detected presence of alcohol in his body if arrested by a peace officer for operating, attempting to operate, or being in actual physical control of an aircraft while under the influence of alcohol, drugs, or a combination of the two. The test must be administered at the direction of a peace officer who has reasonable grounds to believe the person was operating, attempting to operate, or in actual physical control of an aircraft while under the influence of alcohol, drugs, or a combination of the two. The arresting officer may designate which of the aforesaid tests must be administered. A person who is unconscious or who is otherwise in a condition rendering him incapable of refusal is considered not to have withdrawn the consent provided by this subsection.

(5) If a person charged with violation of 67-1-204 refuses to submit to a test of his blood, breath, or urine for the purpose of determining any measured amount or detected presence of alcohol in his body, none will be given, but proof of refusal is admissible in any criminal action or proceeding arising out of acts alleged to have been committed in violation of 67-1-204.

(6) The provisions relating to administration of tests provided in 61-8-405 and the definition of alcohol concentration provided in 61-8-407 apply to any testing done to determine any measured amount or detected presence of alcohol in a person and the alcohol concentration of a person charged with violation of 67-1-204.

(2) The department may not acquire or take over an airport, restricted landing area, or other air navigation facility owned or controlled by a municipality of this state without the consent of the municipality. The department may erect, equip, operate, and maintain at an airport all buildings and equipment necessary and proper to establish, maintain, and conduct the airport and air navigation facilities connected with the airport.

(3) When necessary, in order to provide unobstructed air space for the landing and taking off of aircraft utilizing airports and restricted landing areas acquired or operated under the provisions of this title, the department may acquire, in the manner provided for the acquisition of property for airport purposes, easements through or other interests in air space over land or water, interests in airport hazards outside the boundaries of the airports or restricted landing areas, and other airport protection privileges that are necessary to ensure safe approaches to the landing areas of airports and restricted landing areas and the safe and efficient operation of them. The department may also acquire in the same manner the right or easement, for a term of years or perpetually, to place or maintain suitable marks for the daytime marking and suitable lights for the nighttime marking of airport hazards, including the right of ingress and egress to or from the airport hazards for the purpose of maintaining and repairing the lights and marks.

This authority does not limit the right, power, or authority of the state or a municipality to zone property adjacent to an airport or restricted landing area pursuant to a law of this state.

(4) The department may engage in the activities listed in subsections (1) through (3) jointly with the United States, with other states, and with municipalities or other agencies of this state.

(5) For the purpose of acquiring any property that it is authorized to acquire, the department may exercise the right of eminent domain, in the name of the state, in the manner provided in Title 70, chapter 30. The acquisition of property for any of the purposes listed in this section is a public use.

(2) The department may determine the charges or rental for the use of state airports, the charges for service or accommodations under its control, and the terms and conditions under which the property may be used. However, the public may not be deprived of its rightful, equal, and uniform use of the property. Charges must be reasonable and uniform for the same class of service and established with due regard to the property and improvements used and the expenses of operation to the state.

(1) The department may confer with or hold joint hearings with any federal aeronautical agency in connection with any matter arising under this title or relating to the sound development of aeronautics and may avail itself of the cooperation, services, records, and facilities of federal agencies, as fully as practicable, in the administration and enforcement of this title. It shall reciprocate by furnishing to the federal agencies its cooperation, services, records, and facilities to the extent practicable.

(2) It shall report to the appropriate federal agency all accidents in aeronautics in this state of which it is informed and preserve, protect, and prevent the removal of the component parts of any aircraft involved in an accident being investigated by it until a federal agency begins an investigation. It shall report to the appropriate federal agency all refusals by it to register federal licenses, certificates, or permits; all revocations of certificates of registration; the reasons for its action; and all penalties of which it has knowledge imposed upon aircrews for violations of the laws of this state relating to aeronautics or for violations of the rules or orders of the department.

(1) The department may cooperate with the government of the United States and any agency or department thereof in the acquisition, construction, improvement, maintenance, and operation of airports and other air navigation facilities in this state and may comply with the laws of the United States and any regulations made under those laws for the expenditure of federal moneys upon airports and other navigation facilities.

(2) The department may accept, receive, and receipt for federal moneys and other moneys, either public or private, for and in behalf of this state or a municipality of this state, for the acquisition, construction, improvement, maintenance, and operation of airports and other air navigation facilities, whether the work is to be done by the state or by the municipalities or jointly, aided by grants of aid from the United States upon terms and conditions prescribed by the laws of the United States and any rules made under them. The department may act as agent of a municipality of this state upon the request of the municipality in accepting, receiving, and receipting for moneys in its behalf for airports or other air navigation facility purposes and in contracting for the acquisition, construction, improvement, maintenance, or operation of airports or other air navigation facilities financed either in whole or in part by federal moneys. The governing body of a municipality may designate the department as its agent for those purposes and enter into an agreement with it prescribing the terms and conditions of the agency in accordance with federal laws and rules. Moneys paid by the United States government shall be retained by the state or paid to the municipalities under terms and conditions imposed by the United States government in making the grants.

(3) All contracts for the acquisition, construction, improvement, maintenance, and operation of airports or other air navigation facilities made by the department, either as the agent of this state or as the agent of a municipality, shall be made under the laws of this state governing the making of like contracts by the state or by municipalities. However, where the acquisition, construction, improvement, maintenance, and operation of an airport, landing strip, or other air navigation facility is financed wholly or partially with federal moneys, the department, as agent of the state or of a municipality of the state, may let contracts in the manner prescribed by the federal authorities, acting under the laws of the United States and any rules made under them.

(4) All moneys accepted for disbursement by the department under subsection (2) of this section shall be deposited in the state treasury and, unless otherwise prescribed by the authority from which the money is received, kept in separate funds, designated according to the purposes for which the moneys were made available, and held by the state in trust for those purposes. All those moneys are appropriated for the purposes for which they were made available, to be spent

in accordance with federal laws and regulations and with this title. The department may, whether acting for this state or as the agent of any of its municipalities or when requested by the United States government or an agency or department of the United States, disburse the moneys for the designated purposes, but this does not preclude any other authorized method of disbursement.

Part 1
General Provisions

67-3-101. Regulation and licensing — general provisions. In order to promote the general public interest and safety and to carry out the purposes of this title, the department may:

(1) require the annual registration of federal licenses, permits, or certificates of civil aircraft engaged in air navigation within this state, of aircrews engaged in aeronautics within this state, and of aeronautics instructors giving instruction in flying subjects and may issue certificates of registration. The certificates of registration constitute licenses of the aircraft, aircrews, and instructors for operations within this state to the extent permitted by the federal licenses, certificates, or permits so registered. The department may charge a fee for the registration of each federal license, certificate, or permit not exceeding $10. It may accept as evidence of the holding of a federal license, certificate, or permit the verified application of the owner of the aircraft, a member of the aircrew, or the instructor. The application shall contain information which the department may by rule or order prescribe.

(2) register aircraft repair shops, aircraft, aircraft parts and sales dealers, and other persons operating in aviation and license aircraft repair shops, aircraft, aircraft parts and sales dealers, and other persons operating in aviation, air schools, and aeronautics instructors giving instruction in ground subjects, in accordance with rules to be adopted by the department, and may annually renew these licenses. It may charge for the original licensing of aircraft repair shops, aircraft, aircraft parts and sales dealers, and other persons operating in aviation, air schools, and aeronautics instructors not more than $10 and for the renewal of a license not more than $10.

(3) upon notification by the federal aviation administration that it has revoked the license or certificate of an aircraft, aircrew member, air school, or aeronautics instructor, temporarily or permanently revoke the license or certificate of registration issued for that aircraft, aircrew member, air school, or aeronautics instructor, giving reasons for the action.

Part 1
General Provisions

67-7-101. Short title. This chapter may be cited as the "Airport Compatibility Act".

History: En. Sec. 3, Ch. 300, L. 2005.

67-7-102. Legislative finding and purpose. The legislature finds that tall trees and structures and certain types of development located in the vicinity of airports endanger the lives and property of users of the airport and of occupants of land in its vicinity. The legislature also finds that the location of tall trees and structures and certain types of development near airports reduces the area available for landing, taking off, and maneuvering aircraft and increases the likelihood of legal action against a local government for noise nuisance, thus destroying the utility of the airports and the public investment in them. It is the purpose of this chapter to promote the public health, safety, and general welfare by the delineation of an airport affected area and by the development of compatible noise, height, and land use regulations to control airport hazards. The prevention of the creation or establishment of airport hazards and the elimination, removal, alteration, mitigation, or marking and lighting of existing airport hazards are public purposes for which political subdivisions may raise and expend public funds and in which political subdivisions may acquire land or property interests.

History: En. Sec. 4, Ch. 300, L. 2005.

67-7-103. Definitions. (1) Except as provided in subsection (2)(b), the definitions in 67-1-101 apply to this chapter.

(2) In this chapter, the following definitions also apply:

(a) "Airport affected area" means the land and space above the ground surface of an airport in the proximity of the airport, the use of which may be affected by the airport's existence, including the areas described in 14 CFR, part 77.

(b) "Governing body" means a city commission, town council, county commission, or the commissioners of a municipal or regional airport authority.

History: En. Sec. 5, Ch. 300, L. 2005.

Part 2
Designation and Regulation of Airport Affected Areas

67-7-201. Designation of airport affected area — regulations required — maps and descriptions required — public hearing required — effect of designation. (1) Subject to the provisions of subsection (5), a governing body of a political subdivision that owns or controls an NPIAS airport or that has an airport affected area for an NPIAS airport within its territorial limits or a joint board established pursuant to 67-7-202 shall, by ordinance or resolution, exercising its police power:

(a) designate an airport affected area within 1 year of April 19, 2005;

(b) concurrently adopt regulations for the airport affected area that comply with 67-7-203; and

(c) administer and enforce the regulations that are adopted.

(2) A governing body of a political subdivision that owns or controls a non-NPIAS airport or that has an airport affected area for a non-NPIAS airport within its territorial limits or a joint board established pursuant to 67-7-202 may, by ordinance or resolution, exercising its police power, designate an airport affected area. If the governing body or joint board makes the designation, it shall concurrently adopt regulations for the airport affected area that may comply with 67-7-203 and shall administer and enforce the regulations.

(3) The airport affected area may not be less than 10,000 feet from the thresholds of each runway or less than 1 mile wide on each side of each runway unless evaluations for a specific

runway show that the accident data justifies a lesser area. A greater area may be regulated as an airport affected area if:

(a) studies have been conducted in accordance with 14 CFR, part 150, maps of the area have been prepared, and a program has been approved by the federal aviation administration; or

(b) the governing body intends to protect imaginary surfaces as provided in 14 CFR, part 77.

(4) The designation must be accompanied by maps and legal descriptions of the airport affected area. The maps must be filed with the clerk and recorder of each affected county and with the clerk of each affected city or town.

(5) (a) Before a governing body designates an airport affected area and adopts or amends regulations governing the airport affected area, the governing body shall hold at least one public hearing.

(b) The notice of the public hearing must be published as provided in 7-1-2121 if the governing body is a county commission or the commissioners of a regional airport authority and as provided in 7-1-4127 if the governing body is a city commission, a town council, or the commissioners of a municipal airport authority.

(6) After the designation of an airport affected area, a person may not recover from a local government, an airport authority, an airport operator, or an airport owner damages caused by noise, fumes, vibrations, light, or any other effects from normal and anticipated normal airport operations.

History: En. Sec. 6, Ch. 300, L. 2005.

67-7-202. Joint airport affected area regulation board authorized — may adopt regulations. (1) If an airport affected area is located outside of the jurisdictional area of the governing body of the political subdivision that owns or controls the airport, the governing body of the political subdivision that owns or controls the airport and the governing body of the political subdivision within which the airport affected area is located may by ordinance or resolution create a joint airport affected area regulation board.

(2) The joint board may adopt, administer, and enforce airport affected area regulations, as provided in 67-7-201, subject to the provisions of 67-7-203.

(3) The joint board must have two members appointed by the governing body of each political subdivision participating in its creation, and a presiding officer must be elected by a majority of the members appointed. The members of the joint board who are appointed shall select an additional at-large member who resides in the county in which the airport is located.

(4) If, in the judgment of the governing body of the political subdivision that owns or controls an airport, the governing body of the political subdivision that contains the airport affected area has failed to adopt or enforce reasonably adequate airport affected area regulations for the airport affected area and if the governing body of the political subdivision that contains the airport affected area has refused to join in creating a joint board under this section, the governing body of the political subdivision that owns or controls the airport may adopt, administer, and enforce airport affected area regulations for the airport affected area. The regulations adopted by the governing body of the political subdivision that owns or controls the airport prevail if a conflict arises between regulations adopted by that governing body and the governing body of the political subdivision that contains the airport affected area.

History: En. Sec. 7, Ch. 300, L. 2005.

67-7-203. Airport affected area regulations — contents. (1) Subject to the provisions of 67-7-209, regulations adopted for the airport affected area must be reasonable, be designed to promote the public health, safety, and general welfare, and, for an NPIAS airport, at a minimum, give consideration to:

(a) the safety of airport users and persons and property in the vicinity of the airport;

(b) the character of the flying operations conducted or expected to be conducted at the airport;

(c) the nature of the terrain;

(d) the future development of the airport; and

(e) federal aviation administration recommendations for the aeronautical surfaces necessary for safe flying operations.

(2) Airport affected area regulations may:

(a) designate the airport or airports that are subject to the regulations, with a description of existing and future runways and approaches;

(b) define the terms used in the regulations based on the definitions provided in Title 67 and 14 CFR, part 77;

(c) describe the airport affected area by referencing maps and describing existing airport hazards and natural terrain that intrude into the airport affected area;

(d) designate and describe zones within the airport affected area, along with the height limitations for structures and trees within each zone, considering local conditions and needs, as well as the notice requirements and obstructions standards provided in 14 CFR, part 77;

(e) show the contours for decibel levels of 65 YDNL or greater on the maps that designate an airport affected area, if a study has been conducted pursuant to 14 CFR, part 150, and require that information to be considered by anyone who builds within the airport affected area;

(f) specify permitted and conditional uses within each zone of the airport affected area by addressing:

(i) incompatible land uses, such as uses for residences, schools, hospitals, day-care centers, or other concentrations of people indoors or outdoors;

(ii) the land uses that are considered incompatible with certain noise levels, as provided in 14 CFR, part 150;

(iii) bird attractants such as solid waste disposal sites and lagoons;

(iv) sources of electromagnetic radiation that may interfere with electronic navigational aids;

(v) lights other than navigational aids that glare upward or shine on or in the direction of the airport; and

(vi) the national transportation safety board's accident investigation data in the vicinity of airports and specific accident data for a particular airport, if that information is available;

(g) define nonconforming uses, measures to be taken to mitigate the nonconforming uses, and the expiration of the uses in accordance with this chapter;

(h) provide for an inventory of existing land uses, structures, and trees within the airport affected area;

(i) expand on the permit system provided pursuant to 67-7-212 for changes to existing land uses, including changes that affect structures or trees, and for new land uses, structures, or trees;

(j) subject to the provisions of 67-7-303, provide a variance procedure from the literal application of the regulations, including the conditions for granting a variance; and

(k) establish or designate local boards, commissions, or agents to administer and adjudicate interpretations of the regulations.

History: En. Sec. 8, Ch. 300, L. 2005.

67-7-204. State lands. When an airport affected area lies partially or entirely on state-owned lands, the department of natural resources and conservation shall administer the affected lands in conformance with the airport affected area regulations adopted by the local governing body.

History: En. Sec. 9, Ch. 300, L. 2005.

67-7-205 through 67-7-207 reserved.

67-7-208. Procedure for developing or amending regulations — assistance from existing boards or zoning commissions. (1) In adopting, amending, and repealing airport affected area regulations under this chapter, a governing body or a joint airport affected area regulation board may request the assistance of existing planning boards or zoning commissions.

(2) If a political subdivision does not have an existing planning board or zoning commission to assist with recommendations for airport affected area regulations, the governing body may:

(a) request that an existing airport board recommend the boundaries of the airport affected area and the various zones to be established and the regulations that will govern the airport affected area; or

(b) act without assistance of an airport board, planning board, or zoning commission.

(3) If a governing body or joint airport affected area regulation board uses a separate airport board, planning board, or zoning commission to assist the governing body or joint board in

designating the airport affected area and establishing regulations to govern the airport affected area, the airport board, planning board, or zoning commission shall make a preliminary report and hold public hearings on the report before submitting its final report to the governing body or joint board. The governing body or joint board may not hold a public hearing or take action on the regulations until it has received the final report from the airport board, planning board, or zoning commission.

History: En. Sec. 10, Ch. 300, L. 2005.

67-7-209. Prior nonconforming uses. (1) All regulations adopted under this chapter must be reasonable and may not require the removal or alteration of any structure or tree or require cessation or alteration of a use that is lawfully in existence when the regulations become effective. Those structures, trees, or uses must be treated as prior nonconforming structures, trees, or uses that may remain or continue, but regulations may prohibit their expansion or their reconstruction or replacement following destruction or substantial damage. For the purposes of this section, "substantial damage" has occurred when 80% or more of a structure or tree is deteriorated or decayed or has been torn down or destroyed.

(2) The regulations may require that trees in place at the time that the regulations take effect be maintained by the political subdivision, at its expense, at heights attained at that time.

(3) The regulations may require the owner of structures or trees to permit the political subdivision, at its expense, to install, operate, and maintain the lights and markers necessary to warn pilots of the presence of an airport hazard.

(4) Land in existing residential subdivisions or platted for residential subdivision at the time that regulations are adopted may continue to be used for residential purposes, subject to notification provided to property owners that the lots are within an adopted airport affected area.

History: En. Sec. 11, Ch. 300, L. 2005.

67-7-210. Acquisition of property rights when regulations not sufficient. The political subdivision within which a property or nonconforming use is located or the political subdivision owning the airport or served by the airport may acquire, by purchase, grant, or condemnation pursuant to Title 70, chapter 30, an air right, aviation easement, or other estate or interest in the property or nonconforming structure or use that is necessary to effectuate the purposes of this chapter. The governing body of the political subdivision may acquire an interest when:

(1) it is desirable to remove, lower, or otherwise terminate a nonconforming structure or use;

(2) the necessary approach protection cannot, because of constitutional limitations, be provided by airport affected area regulations under this chapter; or

(3) it appears advisable that the necessary approach protection be provided by acquisition of property rights rather than by airport affected area regulations.

History: En. Sec. 12, Ch. 300, L. 2005.

67-7-211. Regulations relative to zoning ordinances. (1) Subject to the provisions of subsections (2) and (3), if a governing body has adopted a zoning ordinance or resolution, any regulations adopted under this chapter may be made a part of the zoning ordinance or resolution and may be administered and enforced in connection with it.

(2) The zoning ordinance or resolution may not limit the effectiveness or scope of the regulations adopted pursuant to this chapter.

(3) When a conflict exists between the regulations adopted pursuant to this chapter and any zoning ordinances or resolutions applicable to the same area that the regulations are intended to govern, the more stringent limitation or requirement prevails.

History: En. Sec. 13, Ch. 300, L. 2005.

67-7-212. Permit system. (1) The regulations adopted pursuant to this chapter must provide for a permit system for erecting new structures or trees, changing uses of land or structures, and substantially altering, repairing, or replacing existing structures or replacing existing trees within the airport affected area.

(2) A permit may not be granted that would allow the establishment of an airport hazard or that would allow a nonconforming use, structure, or tree to become a greater hazard to air

navigation than it was on the effective date of the designation of the airport affected area and the regulations adopted to protect the airport affected area.

(3) A permit granted pursuant to this chapter may require the owner of a structure or tree to allow the governing body, at the owner's expense, to install, operate, and maintain the lights and markers necessary to warn pilots of the presence of an airport hazard.

History: En. Sec. 14, Ch. 300, L. 2005.

Part 3
Enforcement and Variances

67-7-301. Enforcement. The governing body or its designated agent or agency is responsible for enforcing the regulations adopted pursuant to this chapter. The regulations must provide for an enforcement officer and an appeal process from the decision of the enforcement officer, who may be an existing employee of the local government.

History: En. Sec. 15, Ch. 300, L. 2005.

67-7-302. Appeals. (1) The governing body that designated the airport affected area shall act as an airport appeals board or appoint an airport appeals board that functions in the same manner as a board of adjustment provided for in Title 76, chapter 2. If the governing body appoints an airport appeals board, the board must have at least three members.

(2) The provisions of 76-2-223 and 76-2-225 through 76-2-228 apply to the governing body of a county or an airport appeals board appointed by that governing body and the provisions of 76-2-323 and 76-2-325 through 76-2-328 apply to the governing body of a municipality or an airport appeals board appointed by that governing body when considering grievances relating to regulations, variances, or permits.

(3) If a governing body has appointed a board of adjustment under the provisions of 76-2-221 through 76-2-228 or 76-2-321 through 76-2-328, the governing body may designate the members of that board as the airport appeals board, in which case the terms of the members for the purposes of this chapter are concurrent with their terms as members of the board of adjustment.

History: En. Sec. 16, Ch. 300, L. 2005.

67-7-303. Variance. (1) A person intending to erect or increase the height of a structure, permit the growth of a tree, or use property in a manner that is not in accordance with the requirements of the regulations adopted pursuant to this chapter may apply to the governing body or an enforcement officer appointed for this purpose by the governing body for a variance from the regulations.

(2) If an enforcement officer has been appointed by the governing body, the decision of the officer is final unless it is appealed to either the governing body or the airport appeals board, if one exists.

(3) A variance must be granted when a literal application or enforcement of the regulations would result in substantial practical difficulty or unnecessary hardship and when the variance would not be contrary to the public interest.

(4) A variance must be granted for a nonconforming use when there is no immediate hazard to safe flying operations or to persons and property in the vicinity of the airport and when the noise or vibrations from normal and anticipated normal airport operations would not be likely to cause damage to structures.

(5) A variance granted under this section may require the owner of a structure or tree to allow the political subdivision, at the owner's expense, to install, operate, and maintain the lights and markers necessary to warn pilots of the presence of an airport hazard.

(6) A person who builds a structure pursuant to a variance from the airport affected area regulations or who takes or buys property in an airport affected area for which a variance has been granted is on notice that the airport existed before the variance was granted and that normal and anticipated normal operations of the airport will result in noise, vibrations, and fumes being projected over the property. A person using a structure built pursuant to a variance may not collect damages from a governing body or local government or from an airport authority, airport operator, or airport owner for interference with the enjoyment of that structure caused by noise, vibrations, and fumes from normal and anticipated normal airport operations.

History: **En. Sec. 17, Ch. 300, L. 2005.**

67-7-304. Penalty. A person who violates the provisions of this chapter or the regulations adopted under 67-7-203 is subject to a civil penalty and a criminal penalty. The civil penalty is a fine of $100 for each day that the violation is not remedied after the governing body has given notification of the violation and held a hearing on the violation. The criminal penalty is a fine of $500, pursuant to 45-2-104.

History: **En. Sec. 18, Ch. 300, L. 2005.**

67-7-305. Injunction. A local governing body may institute in any court of competent jurisdiction an action to prevent, restrain, correct, or abate any violation of this chapter or the regulations adopted pursuant to this chapter.

History: **En. Sec. 19, Ch. 300, L. 2005.**

67-10-102. Acquisition and establishment of airports. (1) Counties, cities, and towns may, either individually or by the joint action of a county and one or more of the cities and towns within the county, acquire by gift, deed, purchase, or condemnation pursuant to Title 70, chapter 30, land for airport purposes. The local governments may use the land to establish, construct, own, control, lease, equip, improve, operate, and regulate airports for the use of airplanes and other aircraft.

(2) In addition, a county, city, or town may exercise the authority granted by this section by acting jointly with one or more counties, with one or more cities, with one or more towns, or with any combination of counties, cities, or towns. General Powers of Municipality Relating to Airports

Part Cross-References

67-10-201. General municipal powers. (1) A municipality may, out of any appropriations or other money made available for airport purposes, plan, establish, develop, construct, enlarge, improve, maintain, equip, operate, regulate, protect, and police airports and air navigation facilities, either within or outside of the territorial limits of the municipality and within or outside of the territorial boundaries of this state. The airport purposes include the construction, installation, equipping, maintenance, and operation at airports of buildings and other facilities for the servicing of aircraft or for the comfort and accommodation of air travelers and the purchase and sale of supplies, goods, and commodities as an incident to the operation of its airport properties. A municipality may use any available property that it owns or controls for airport purposes. A municipality may acquire real or personal property or any interest in property by purchase, gift, devise, lease, eminent domain proceedings pursuant to Title 70, chapter 30, or otherwise. A municipality may also acquire property interests, including easements, in airport hazards or land outside the boundaries of an airport or airport site that are necessary to:

(a) permit safe and efficient operation of the airport;

(b) permit the removal, elimination, obstruction-marking, or obstruction-lighting of airport hazards; or

(c) prevent the establishment of airport hazards.

(2) The municipality may, by purchase, gift, devise, lease, eminent domain proceedings pursuant to Title 70, chapter 30, or otherwise, acquire existing airports and air navigation facilities. However, a municipality may not acquire any airport or air navigation facility owned or controlled by another municipality or public agency of this or any other state without the consent of the municipality or public agency.

(3) For the purposes of this chapter, a municipality may establish or acquire and maintain, within or bordering upon the territorial limits of the municipality, airports in, over, and upon any public waters of this state, any submerged lands under public waters, and any artificial or reclaimed lands that before the artificial making or reclamation constituted a portion of the submerged lands under the public waters. A municipality may construct and maintain terminal buildings, landing floats, causeways, roadways, and bridges for approaches to or connecting with any airport and may construct and maintain landing floats and breakwaters for the protection of the other improvements.

(4) All air navigation facilities established or operated by municipalities must be supplementary to and coordinated in design and operation with air navigation facilities established and operated by the federal and state governments.

(5) A municipality may enter into any contracts necessary for the purposes provided by this chapter.

67-10-202. Creation of board — funding — rules. (1) The county, city, or town, acting individually or acting jointly as authorized by 67-10-102, having established an airport and acquired property for that purpose, may construct, improve, equip, maintain, and operate the airport. The county, city, or town may create a board or body from the residents of the county, city, town, or joint subdivision of the state and may confer upon the board or body the jurisdiction for the improvement, equipment, maintenance, and operation of the airport. The board of county commissioners, the city or town council, or the board of county commissioners and the council or councils under a joint venture may adopt rules and establish fees or charges for the use of the airport or may authorize the board or body to do so, subject to the approval of the appointing power before the fees or charges may take effect. All expenses of the construction, improvement, equipment, maintenance, and operation are a charge against the county, city, or town. When a county, city, or town acts jointly under the authority provided in this section, the charges are against the joint subdivision of the state and must be apportioned according to benefits to accrue, the proportion to be paid by each to be fixed in advance by joint resolution of the governing bodies.

(2) For the purpose of complying with subsection (1), when the airport is a joint venture, a joint fund must be created and maintained into which each of the political subdivisions in the

joint venture shall deposit its proportionate share in accordance with the predetermination of the board of county commissioners and council or councils affected.

(3) All disbursements from the fund must be made by order of the joint board or body, if one is created as authorized, otherwise under the rules that the joint control by the commissioners and council or councils may adopt.

67-10-203. Mutual assistance. If any municipality determines that the public interest and the interests of the municipality will be served by assisting any other municipality or municipalities in exercising the powers and authority granted by this chapter, such municipality may furnish assistance by gift of real or personal property or lease or loan thereof with or without charge or interest. In appropriating such property or money and providing for such assistance by taxation, the issuance of bonds, or other means, the municipality may exercise all of its powers as though used for its own direct purposes as provided in this chapter.

History: **En. Sec. 12, Ch. 288, L. 1947; R.C.M. 1947, 1-819; amd. Sec. 6, Ch. 140, L. 1979.**

67-10-204. Joint exercise of powers. (1) For the purposes of 67-10-204 through 67-10-206, unless otherwise qualified, the term "public agency" includes municipality, as defined in this title; any agency of the state government and of the United States; and any municipality, political subdivision, and agency of another state; and the term "governing body" means the governing body of a county or municipality and the head of the agency if the public agency is other than a county or municipality.

(2) All powers, privileges, and authority granted to any municipality by this chapter may be exercised and enjoyed jointly with any public agency of this state and jointly with any public agency of any other state or of the United States to the extent that the laws of such other state or of the United States permit such joint exercise or enjoyment. If not otherwise authorized by law, any agency of the state government when acting jointly with any municipality may exercise and enjoy all of the powers, privileges, and authority conferred by this chapter upon a municipality.

(3) Any two or more public agencies may enter into agreements with each other for joint action pursuant to the provisions of 67-10-204 through 67-10-206. Concurrent action by ordinance, resolution, or otherwise of the governing bodies of the participating public agencies constitutes joint action. Each such agreement shall specify its duration; the proportionate interest which each public agency has in the property, facilities, and privileges involved; the proportion to be borne by each public agency of preliminary costs and costs of acquisition, establishment, construction, enlargement, improvement, and equipment of the airport or air navigation facility; the proportion of the expenses of maintenance, operation, regulation, and protection thereof to be borne by each; and such other terms as are required by the provisions of 67-10-204 through 67-10-206. The agreement may also provide for amendments thereof and conditions and methods of termination of the agreement; the disposal of all or any of the property, facilities, and privileges jointly owned, prior to or upon said property, facilities, and privileges, or any part thereof, ceasing to be used for the purposes provided in this chapter or upon termination of the agreement; the distribution of the proceeds received upon any such disposal and of any funds or other property jointly owned and undisposed of; the assumption or payment of any indebtedness arising from the joint venture which remains unpaid upon the disposal of all assets or upon a termination of the agreement; and such other provisions as may be necessary or convenient.

67-10-205. Joint airport board. (1) Public agencies acting jointly pursuant to 67-10-204 through 67-10-206 shall create a joint board that must consist of members appointed by the governing body of each participating public agency. Per diem and mileage of the joint board may be set by resolution of the board of county commissioners. The number of members to be appointed and their terms must be provided for in the joint agreement. A joint board shall organize, select officers for terms to be fixed by the agreement, and from time to time adopt and amend rules for its own procedure. The joint board may plan, acquire, establish, develop, construct, enlarge, improve, maintain, equip, operate, regulate, protect, and police any airport or air navigation facility or airport hazard to be jointly acquired, controlled, and operated. Subject to subsection (2), the board may exercise on behalf of its constituent public agencies all the powers of each public agency with respect to the airport, air navigation facility, or airport hazard.

(2) (a) The total expenditures to be made by the joint board for any purpose in any calendar year must be determined by a budget approved by the governing bodies of its constituent public agencies.

(b) An airport, air navigation facility, airport hazard, or real or personal property, the cost of which is in excess of sums fixed by the joint agreement or allotted in the annual budget, may not be acquired by the joint board without the approval of the governing bodies of its constituent public agencies.

(c) Eminent domain proceedings authorized under 67-10-204 through 67-10-206 and conducted as provided in Title 70, chapter 30, may be instituted only by authority of the governing bodies of the constituent public agencies of the joint board. If authorized, eminent domain proceedings must be instituted in the names of the constituent public agencies jointly, and the property acquired must be held by the public agencies as tenants in common until conveyed by them to the joint board.

(d) The joint board may not dispose of any airport, air navigation facility, or real property under its jurisdiction except with the consent of the governing bodies of its constituent public agencies. However, the joint board may, without consent, enter into the contract, lease, or other arrangements contemplated by 67-10-302.

(e) Any resolutions, rules, or orders of the joint board that deal with subjects authorized by 67-10-301 are effective only upon approval of the governing bodies of the constituent public agencies. Upon approval, the resolutions, rules, or orders of the joint board have the same force and effect in the territories or jurisdictions involved that the ordinance, resolutions, rules, or orders of each public agency would have in its own territory or jurisdiction.

Each of the constituent public agencies shall provide its share of the fund from sources available to each. 67-11-102. Municipal airport authority. Any municipality may, by resolution of its governing body, create a public body, corporate and politic, to be known as a municipal airport authority which shall be authorized to exercise its functions upon the appointment and qualification of the first commissioners thereof; or the governing body may by resolution determine to exercise any or all powers granted to such authorities in this chapter until or unless such powers are or have been conferred upon a municipal or regional airport authority. Upon the adoption of a resolution creating a municipal airport authority, the governing body of the municipality shall, pursuant to the resolution, appoint not less than five persons as commissioners of the authority. The commissioners who are first appointed shall be designated to serve for terms of 1, 2, 3, 4, and 5 years, respectively, but thereafter each commissioner shall be appointed for a term of 5 years, except that vacancies occurring otherwise than by expiration of the term shall be filled for the unexpired term by the governing body.

History: En. 1-904 by Sec. 4, Ch. 433, L. 1971; amd. Sec. 1, Ch. 57, L. 1975; R.C.M. 1947, 1-904.

67-11-103. Regional airport authority. (1) Two or more municipalities may by joint resolution create a public body, corporate and politic, to be known as a regional airport authority. The resolution creating a regional airport authority must create a board of not less than five commissioners; the number to be appointed, their term and compensation, if any, must be provided for in the resolution. Each regional airport authority shall organize, select officers for terms to be fixed by agreement, and adopt and amend from time to time rules for its own procedure consistent with 67-11-104.

(2) A regional airport authority may be increased to serve one or more additional municipalities if each additional municipality and each of the municipalities then included in the regional authority and the commissioners of the regional authority, respectively, adopt a joint resolution consenting to the increase. If a municipal airport authority for any municipality seeking to be included in the regional authority is then in existence, the commissioners of the municipal authority shall consent to the inclusion of the municipality in the regional authority. Upon the inclusion of any municipality in the regional authority, all rights, contracts, obligations, and property, real and personal, of the municipal authority must be in the name of and vest in the regional authority.

(3) A regional airport authority may be decreased if each of the municipalities then included in the regional authority and the commissioners of the regional authority consent to the decrease and make provisions for the retention or disposition of its assets and liabilities.

(4) A municipality may not adopt any resolution authorized by this section without a public hearing on the resolution. Notice of the hearing must be given at least 10 days prior to the hearing in a newspaper published in the municipality or, if there is no newspaper published in the municipality, in a newspaper having general circulation in the municipality.

(5) For the purpose of this chapter, a regional airport authority has the same powers as all other political subdivisions in the adoption and enforcement of airport affected area regulations as provided for in this title.

The number of members to be appointed and their terms and compensation, if any, must be provided for in the joint agreement. A joint board shall organize, select officers for terms that are fixed by the agreement, and adopt and amend from time to time rules for its own procedure. The joint board, as agent of the participating public agencies, may plan, acquire, establish, develop, construct, enlarge, improve, maintain, equip, operate, regulate, protect, and police any airport or air navigation facility or airport hazard to be jointly acquired, controlled, and operated. (c) Eminent domain proceedings under 67-11-203 through 67-11-205 and Title 70, chapter 30, may be instituted by the joint board only by authority of the governing bodies of the constituent public agencies of the joint board. If authorized, the proceedings must be instituted in the names of the constituent public agencies jointly, and the property acquired must be held by the public agencies as tenants in common.

(d) The joint board may not dispose of any airport, air navigation facility, or real property under its jurisdiction except with the consent of the governing bodies of its constituent public agencies. However, the joint board may, without consent, enter into contracts, leases, or other arrangements contemplated by 67-11-211.

(e) Resolutions, rules, or orders of the joint board that deal with subjects authorized by 67-11-211 become effective only upon approval of the governing bodies of the constituent public agencies. The proceeds of the taxes paid to the airport authority must be deposited in a special account or accounts in which other revenue of the authority is deposited and may be expended by the authority as provided for in this chapter. Prior to the issuance of bonds under 67-11-303, the airport authority or the municipality may by resolution covenant that the total amount of the taxes authorized by law or the portion of the taxes specified by the resolution will, subject to 15-10-420, be certified, levied, and deposited annually until the bonds and interest are fully paid.

67-11-303. Bonds and obligations. (1) An authority may borrow money for any of its corporate purposes and issue its bonds for those purposes, including refunding bonds, in the form and upon the terms that it may determine, payable out of any revenue of the authority, including revenue derived from:

(a) an airport or air navigation facility or facilities;

(b) taxes levied pursuant to 67-11-301 or other law for airport purposes;

(c) grants or contributions from the federal government; or

(d) other sources.

(2) The bonds may be issued by resolution of the authority, without an election and without any limitation of amount, except that bonds may not be issued at any time if the total amount of principal and interest to become due in any year on the bonds and on any then-outstanding bonds for which revenue from the same source or sources is pledged exceeds the amount of revenue to be received in that year as estimated in the resolution authorizing the issuance of the bonds. The authority shall take all action necessary and possible to impose, maintain, and collect rates, charges, rentals, and taxes, if any is pledged, sufficient to make the revenue from the pledged source in the year at least equal to the amount of principal and interest due in that year.

(3) The bonds may be sold at public or private sale and may bear interest as provided in 17-5-102. Except as otherwise provided in this section, any bonds issued pursuant to this chapter by an authority may be payable as to principal and interest solely from revenue of the authority and must state on their face the applicable limitations or restrictions regarding the source from which the principal and interest are payable.

(4) Bonds issued by an authority or municipality pursuant to the provisions of this chapter are declared to be issued for an essential public and governmental purpose by a political subdivision within the meaning of 15-30-111(2)(a).

(5) For the security of bonds, the authority or municipality may by resolution make and enter into any covenant, agreement, or indenture and may exercise any additional powers authorized to be exercised by a municipality under Title 7, chapter 7, parts 44 and 45. The sums required from time to time to pay principal and interest and to create and maintain a reserve for the bonds may be paid from any revenue referred to in this chapter, prior to the payment of current costs of operation and maintenance of the facilities.

(6) Subject to the conditions stated in this subsection, the governing body of any municipality having a population in excess of 10,000, with respect to bonds issued pursuant to this chapter by the municipality or by an authority in which the municipality is included, may by resolution covenant that in the event that at any time all revenue, including taxes, appropriated and collected for the bonds is insufficient to pay principal or interest then due, it shall, subject to 15-10-420, levy a general tax upon all of the taxable property in the municipality for the payment of the deficiency. The governing body may further covenant that at any time a deficiency is likely to occur within 1 year for the payment of principal and interest due on the bonds, it shall, subject to 15-10-420, levy a general tax upon all the taxable property in the municipality for the payment of the deficiency, and the taxes are limited to a rate estimated to be sufficient to produce the amount of the deficiency. In the event that more than one municipality having a population in excess of 10,000 is included in an authority issuing bonds pursuant to this chapter, the

municipalities may apportion the obligation to levy taxes for the payment of, or in anticipation of, a deficiency in the revenue appropriated for the bonds in a manner that the municipalities may determine. The resolution must state the principal amount and purpose of the bonds and the substance of the covenant respecting deficiencies. A resolution may not be effective until the question of its approval has been submitted to the qualified electors of the municipality at a special election called for that purpose by the governing body of the municipality and a majority of the electors voting on the question have voted in favor of the resolution. The special election must be held in conjunction with a regular or primary election. The notice and conduct of the election is governed, to the extent applicable, as provided for municipal general obligation bonds in Title 7, chapter 7, part 42, for an election called by cities and towns and as provided for county general obligation bonds in Title 7, chapter 7, part 22, for an election called by counties. If a majority of the electors voting on the issue vote against approval of the resolution, the municipality may not make the covenant or levy a tax for the payment of deficiencies pursuant to this section, but the municipality or authority may issue bonds under this chapter payable solely from the sources referred to in subsection (1).
